“(4) TERMS AND CONDITIONS OF IMPOSING PREMIUMS.—Each MedicarePlus organization shall permit the payment of monthly premiums on a monthly basis and may terminate election of individuals for a MedicarePlus product for failure to make premium payments only in accordance with subsection (c)(3)(B).

quate data are not available to determine that actuarial value, the actuarial value of the coinsurance and deductibles applicable on the average to individuals in the area, in the State, or in the United States, eligible to enroll under this part with the organization, or other appropriate data) and entitled to benefits under part A and enrolled under part B if they were not members of a MedicarePlus organization.

Any of such value of amount reserved which is not provided as additional benefits described in paragraph (1)(A) to individuals electing the MedicarePlus product in accordance with such paragraph prior to the end of such periods, shall revert for the use of such trust funds.

“(4) DETERMINATION BASED ON INSUFFICIENT DATA.—For purposes of this subsection, if the Secretary finds that there is insufficient enrollment experience (including no enrollment experience in the case of a provider-sponsored organization) to determine an average of the capitation payments to be made under this part at the beginning of a contract period, the Secretary may determine such an average based on the enrollment experience of other contracts entered into under this part.

“(5) ADJUSTED COMMUNITY RATE.—

“(A) IN GENERAL.—For purposes of this subsection, subject to subparagraph (B), the term ‘adjusted community rate’ for a service or services means, at the election of a MedicarePlus organization, either—

“(ii) such portion of the weighted aggregate premium, which the Secretary annually estimates would apply to such an individual, as the Secretary annually estimates is attributable to that service or services, but adjusted for differences between the utilization characteristics of the individuals electing coverage under this part and the utilization characteristics of the other enrollees with the organization (or, if the Secretary finds that adequate data are not available to adjust for those differences, the differences between the utilization characteristics of individuals selecting other MedicarePlus coverage, or individuals in the area, in the State, or in the United States, eligible to elect MedicarePlus coverage under this part and the utilization characteristics of the rest of the population in the area, in the State, or in the United States, respectively).

“(B) SPECIAL RULE FOR PROVIDER-SPONSORED ORGANIZATIONS.—In the case of a MedicarePlus organization that is a provider-sponsored organization, the adjusted community rate under subparagraph (A) for a MedicarePlus product may be computed (in a manner specified by the Secretary) using data in the general commercial marketplace or (during a transition period) based on the costs incurred by the organization in providing such a product.

“(ii) If the plan places a physician or physician group at substantial financial risk (as determined by the Secretary) for services not provided by the physician or physician group, the organization—

“(I) provides stop-loss protection for the physician or group that is adequate and appropriate, based on standards developed by the Secretary that take into account the number of physicians placed at such substantial financial risk in the group or under the plan and the number of individuals enrolled with the organization who receive services from the physician or the physician group, and

“(f) GRIEVANCES AND APPEALS.—

“(1) GRIEVANCE MECHANISM.—Each MedicarePlus organization must provide meaningful procedures for hearing and resolving grievances between the organization (including any entity or individual through which the organization provides health care services) and enrollees under this part.

“(2) APPEALS.—An enrollee with an organization under this part who is dissatisfied by reason of the enrollee's failure to receive any health service to which the enrollee believes the enrollee is entitled and at no greater charge than the enrollee believes the enrollee is required to pay is entitled, if the amount in controversy is \$100 or more, to a hearing before the Secretary to the same extent as is provided in section 205(b), and in any such hearing the Secretary shall make the organization a party. If the amount in controversy is \$1,000 or more, the individual or organization shall, upon notifying the other party, be entitled to judicial review of the Secretary's final decision as provided in section 205(g), and both the individual and the organization shall be entitled to be parties to that judicial review. In applying sections 205(b) and 205(g) as provided in this subparagraph, and in applying section 205(l) thereto, any reference therein to the Commissioner of Social Security or the Social Security Administration shall be considered a reference to the Secretary or the Department of Health and Human Services, respectively.

“(3) COORDINATION WITH SECRETARY OF LABOR.—The Secretary shall consult with the Secretary of Labor so as to ensure that the requirements of this subsection, as they apply in the case of grievances referred to in paragraph (1) to which section 503 of the Employee Retirement Income Security Act of 1974 applies, are applied in a manner consistent with the requirements of such section 503.

“(3) DEEMED APPROVAL (1-STOP SHOPPING).—In the case of material that is submitted under paragraph (1)(A) to the Secretary or a regional office of the Department of Health and Human Services and the Secretary or the office has not disapproved the distribution of marketing materials under paragraph (1)(B) with respect to a MedicarePlus product in an area, the Secretary is deemed not to have disapproved such distribution in all other areas covered by the product and organization.

“(4) PROHIBITION OF CERTAIN MARKETING PRACTICES.—Each MedicarePlus organization shall conform to fair marketing standards in relation to MedicarePlus products offered under this part, included in the standards established under section 1856. Such standards shall include a prohibition against an organization (or agent of such an organization) completing any portion of any election form under section 1805 on behalf of any individual.

“PROVIDER-SPONSORED ORGANIZATIONS

“SEC. 1854. (a) PROVIDER-SPONSORED ORGANIZATION DEFINED.—

“(1) IN GENERAL.—In this part, the term ‘provider-sponsored organization’ means a public or private entity that (in accordance with standards established under subsection (b)) is a provider, or group of affiliated providers, that provides a substantial proportion (as defined by the Secretary under such standards) of the health care items and services under the contract under this part directly through the provider or affiliated group of providers.

“(2) SUBSTANTIAL PROPORTION.—In defining what is a ‘substantial proportion’ for purposes of paragraph (1), the Secretary—

“(A) shall take into account the need for such an organization to assume responsibility for a substantial proportion of services in order to assure financial stability and the practical difficulties in such an organization integrating a very wide range of service providers; and

“(B) may vary such proportion based upon relevant differences among organizations, such as their location in an urban or rural area.

“(3) AFFILIATION.—For purposes of this subsection, a provider is ‘affiliated’ with another provider if, through contract, ownership, or otherwise—

“(A) one provider, directly or indirectly, controls, is controlled by, or is under common control with the other,

“(B) each provider is a participant in a lawful combination under which each provider shares, directly or indirectly, substantial financial risk in connection with their operations,

“(C) both providers are part of a controlled group of corporations under section 1563 of the Internal Revenue Code of 1986, or

“(D) both providers are part of an affiliated service group under section 414 of such Code.

“(4) CONTROL.—For purposes of paragraph (3), control is presumed to exist if one party, directly or indirectly, owns, controls, or holds the power to vote, or proxies for, not less than 51 percent of the voting rights or governance rights of another.

“(b) PROCESS FOR ESTABLISHING STANDARDS FOR PROVIDER-SPONSORED ORGANIZATIONS.—For process of establishing of standards for provider-sponsored organizations, see section 1856(c)

“(c) PROCESS FOR STATE CERTIFICATION OF PROVIDER-SPONSORED ORGANIZATIONS.—For process of State certification of provider-sponsored organizations, see section 1857(c).

“(d) PREEMPTION OF STATE INSURANCE LICENSING REQUIREMENTS.—

“(1) IN GENERAL.—This section supersedes any State law which—

“(A) requires that a provider-sponsored organization meet requirements for insurers of health services or health maintenance organizations doing business in the State with respect to initial capitalization and establishment of financial reserves against insolvency, or

“(B) imposes requirements that would have the effect of prohibiting the organization from complying with the applicable requirements of this part, insofar as such the law applies to individuals enrolled with the organization under this part.

“(2) EXCEPTION.—Paragraph (1) shall not apply with respect to any State law to the extent that such law provides standards or requirements, or provides for enforcement thereof, so as to meet the requirements of section 1857(c)(2) with respect to approval by the Secretary of State certification requirements thereunder.

“(3) CONSTRUCTION.—Nothing in this subsection shall be construed as affecting the operation of section 514 of the Employee Retirement Income Security Act of 1974.

“PAYMENTS TO MEDICAREPLUS ORGANIZATIONS

“SEC. 1855. (a) PAYMENTS.—

“(1) IN GENERAL.—Under a contract under section 1858 the Secretary shall pay to each MedicarePlus organization, with respect to coverage of an individual under this part in a payment area for a month, an amount equal to the monthly adjusted MedicarePlus capitation rate (as provided under subsection (b)) with respect to that individual for that area.

“(2) ANNUAL ANNOUNCEMENT.—The Secretary shall annually determine, and shall announce (in a manner intended to provide notice to interested parties) not later than September 7 before the calendar year concerned—

“(A) the annual MedicarePlus capitation rate for each payment area for the year, and

“(B) the factors to be used in adjusting such rates under subsection (b) for payments for months in that year.

“(3) ADVANCE NOTICE OF METHODOLOGICAL CHANGES.—At least 45 days before making the announcement under paragraph (2) for a year, the Secretary shall provide for notice to MedicarePlus organizations of proposed changes to be made in the methodology or benefit coverage assumptions from the methodology and assumptions used in the previous announcement and shall provide such organizations an opportunity to comment on such proposed changes.

“(4) EXPLANATION OF ASSUMPTIONS.—In each announcement made under paragraph (2) for a year, the Secretary shall include an explanation of the assumptions (including any benefit coverage assumptions) and changes in methodology used in the announcement in sufficient detail so that MedicarePlus organizations can compute monthly adjusted MedicarePlus capitation rates for classes of individuals located in each payment area which is in whole or in part within the service area of such an organization.

“(b) MONTHLY ADJUSTED MEDICAREPLUS CAPITATION RATE.—

“(1) IN GENERAL.—For purposes of this section, the ‘monthly adjusted MedicarePlus capitation rate’ under this subsection, for a month in a year for an individual in a payment area (specified under paragraph (3)) and in a class (established under paragraph (4)), is $\frac{1}{12}$ of the annual MedicarePlus capitation rate specified in paragraph (2) for that area for the year, adjusted to reflect the actuarial value of benefits under this title with respect to individuals in such class compared to the national average for individuals in all classes.

“(2) ANNUAL MEDICAREPLUS CAPITATION RATES.—For purposes of this section, the annual MedicarePlus capitation rate for a payment area for a year is equal to the annual MedicarePlus capitation rate for the area for the previous year (or, in the case of 1996, the average annual per capita rate of payment described in section 1876(a)(1)(C) for the area for 1995) increased by the per capita growth rate for that area and year (as determined under subsection (c)).

“(3) PAYMENT AREA DEFINED.—In this section, the term ‘payment area’ means a county (or equivalent area specified by the Secretary), except that in the case of the population group described in paragraph (5)(C), the payment area shall be each State.

“(4) CLASSES.—

“(A) IN GENERAL.—For purposes of this section, the Secretary shall define appropriate classes of enrollees, consistent with paragraph (5), based on age, gender, welfare status, institutionalization, and such other factors as the Secretary determines to be appropriate, so as to ensure actuarial equivalence. The Secretary may add to, modify, or substitute for such classes, if such changes will improve the determination of actuarial equivalence.

“(B) RESEARCH.—The Secretary shall conduct such research as may be necessary to provide for greater accuracy in the adjustment of capitation rates under this subsection. Such research may include research into the addition or modification of classes under subparagraph (A). The Secretary shall submit to Congress a report on such research by not later than January 1, 1997.

“(5) DIVISION OF MEDICARE POPULATION.—In carrying out paragraph (4) and this section, the Secretary shall recognize the following separate population groups:

“(A) AGED.—Individuals 65 years of age or older who are not described in subparagraph (C).

“(B) DISABLED.—Disabled individuals who are under 65 years of age and not described in subparagraph (C).

“(C) INDIVIDUALS WITH END STAGE RENAL DISEASE.—Individuals who are determined to have end stage renal disease.

“(c) PER CAPITA GROWTH RATES.—

“(1) FOR 1996.—

“(A) IN GENERAL.—For purposes of this section and subject to subparagraph (B), the per capita growth rates for 1996, for a payment area assigned to a service utilization cohort under subsection (d), shall be the following:

“(i) LOWEST SERVICE UTILIZATION COHORT.—For areas assigned to the lowest service utilization cohort, 9.7 percent.

“(ii) LOWER SERVICE UTILIZATION COHORT.—For areas assigned to the lower service utilization cohort, 8.0 percent.

“(iii) MEDIAN SERVICE UTILIZATION COHORT.—For areas assigned to the median service utilization cohort, 5.3 percent.

“(iv) HIGHER SERVICE UTILIZATION COHORT.—For areas assigned to the higher service utilization cohort, 4.7 percent.

“(v) HIGHEST SERVICE UTILIZATION COHORT.—For areas assigned to the highest service utilization cohort, 4.0 percent.

“(B) BUDGET NEUTRAL ADJUSTMENT.—The Secretary shall adjust the per capita growth rates specified in subparagraph (A) for all the areas by such uniform factor as may be necessary to assure that the total capitation payments under this section during 1996 are the same as the amount such payments would have been if the per capita growth rate for all such areas for 1996 were equal to the national average per capita growth rate, specified in paragraph (3) for 1996.

“(2) FOR SUBSEQUENT YEARS.—

“(A) IN GENERAL.—For purposes of this section and subject to subparagraph (B), the Secretary shall compute a per capita growth rate for each year after 1996, for each payment area as assigned to a service utilization cohort under subsection (d), consistent with the following rules:

“(i) MEDIAN SERVICE UTILIZATION COHORT SET AT NATIONAL AVERAGE PER CAPITA GROWTH RATE.—The per capita growth rate for areas assigned to the median service utilization cohort for the year shall be the national average per capita growth rate for the year (as specified under paragraph (3)).

“(ii) HIGHEST SERVICE UTILIZATION COHORT SET AT 75 PERCENT OF NATIONAL AVERAGE PER CAPITA GROWTH RATE.—The per capita growth rate for areas assigned to the highest service utilization cohort for the year shall be 75 percent of the national average per capita growth rate for the year.

“(iii) LOWEST SERVICE UTILIZATION COHORT SET AT 187.5 PERCENT OF NATIONAL AVERAGE PER CAPITA GROWTH RATE.—The per capita growth rate for areas assigned to the lowest service utilization cohort for the year shall be 187.5 percent of the national average per capita growth rate for the year.

“(iv) LOWER SERVICE UTILIZATION COHORT SET AT 150 PERCENT OF NATIONAL AVERAGE PER CAPITA GROWTH RATE.—

“(I) IN GENERAL.—Subject to subclause (II), the per capita growth rate for areas assigned to the lower service utilization cohort for the year shall be 150 percent of the national average per capita growth rate for the year.

“(II) ADJUSTMENT.—If the Secretary has established under clause (v) the per capita growth rate for areas assigned to the higher service utilization cohort for the year at 75 percent of the national average per capita growth rate, the Secretary may provide for a reduced per capita growth rate under subclause (I) to the extent necessary to comply with subparagraph (B).

“(v) HIGHER SERVICE UTILIZATION COHORT.—The per capita growth rate for areas assigned to the higher service utilization cohort for the year shall be such percent (not less than 75 percent) of the national average per capita growth rate, as the Secretary may determine consistent with subparagraph (B).

“(B) AVERAGE PER CAPITA GROWTH RATE AT NATIONAL AVERAGE TO ASSURE BUDGET NEUTRALITY.—The Secretary shall compute per capita growth rates for a year under subparagraph (A) in a manner so that the weighted average per capita growth rate for all areas for the year (weighted to reflect the

number of medicare beneficiaries in each area) is equal to the national average per capita growth rate under paragraph (3) for the year.

“(3) NATIONAL AVERAGE PER CAPITA GROWTH RATES.—In this subsection, the ‘national average per capita growth rate’ for—

- “(A) 1996 is 5.3 percent,
- “(B) 1997 is 3.8 percent,
- “(C) 1998 is 4.6 percent,
- “(D) 1999 is 4.3 percent,
- “(E) 2000 is 3.8 percent,
- “(F) 2001 is 5.5 percent,
- “(G) 2002 is 5.6 percent, and
- “(H) each subsequent year is 5.0 percent.

“(d) ASSIGNMENT OF PAYMENT AREAS TO SERVICE UTILIZATION COHORTS.—

“(1) IN GENERAL.—For purposes of determining per capita growth rates under subsection (c) for areas for a year, the Secretary shall assign each payment area to a service utilization cohort (based on the service utilization index value for that area determined under paragraph (2)) as follows:

“(A) LOWEST SERVICE UTILIZATION COHORT.—Areas with a service utilization index value of less than .80 shall be assigned to the lowest service utilization cohort.

“(B) LOWER SERVICE UTILIZATION COHORT.—Areas with a service utilization index value of at least .80 but less than .90 shall be assigned to the lower service utilization cohort.

“(C) MEDIAN SERVICE UTILIZATION COHORT.—Areas with a service utilization index value of at least .90 but less than 1.10 shall be assigned to the median service utilization cohort.

“(D) HIGHER SERVICE UTILIZATION COHORT.—Areas with a service utilization index value of at least 1.10 but less than 1.20 shall be assigned to the higher service utilization cohort.

“(E) HIGHEST SERVICE UTILIZATION COHORT.—Areas with a service utilization index value of at least 1.20 shall be assigned to the highest service utilization cohort.

“(2) DETERMINATION OF SERVICE UTILIZATION INDEX VALUES.—In order to determine the per capita growth rate for a payment area for each year (beginning with 1996), the Secretary shall determine for such area and year a service utilization index value, which is equal to—

“(A) the annual MedicarePlus capitation rate under this section for the area for the year in which the determination is made (or, in the case of 1996, the average annual per capita rate of payment (described in section 1876(a)(1)(C)) for the area for 1995); divided by

“(B) the input-price-adjusted annual national MedicarePlus capitation rate (as determined under paragraph (3)) for that area for the year in which the determination is made.

“(3) DETERMINATION OF INPUT-PRICE-ADJUSTED RATES.—

“(A) IN GENERAL.—For purposes of paragraph (2), the ‘input-price-adjusted annual national MedicarePlus capitation rate’ for a payment area for a year is equal to the sum, for all the types of medicare services (as classified by the Secretary), of the product (for each such type) of—

“(i) the national standardized MedicarePlus capitation rate (determined under subparagraph (B)) for the year,

“(ii) the proportion of such rate for the year which is attributable to such type of services, and

“(iii) an index that reflects (for that year and that type of services) the relative input price of such services in the area compared to the national average input price of such services.

In applying clause (iii), the Secretary shall, subject to subparagraph (C), apply those indices under this title that are used in applying (or updating) national payment rates for specific areas and localities.

“(B) NATIONAL STANDARDIZED MEDICAREPLUS CAPITATION RATE.—In this paragraph, the ‘national standardized MedicarePlus capitation rate’ for a year is equal to—

“(i) the sum (for all payment areas) of the product of (I) the annual MedicarePlus capitation rate for that year for the area under subsection (b)(2), and (II) the average number of medicare beneficiaries residing in that area in the year; divided by

“(ii) the total average number of medicare beneficiaries residing in all the payment areas for that year.

“(C) SPECIAL RULES FOR 1996.—In applying this paragraph for 1996—

“(i) medicare services shall be divided into 2 types of services: part A services and part B services;

“(ii) the proportions described in subparagraph (A)(ii) for such types of services shall be—

“(I) for part A services, the ratio (expressed as a percentage) of the average annual per capita rate of payment for the area for part A for 1995 to the total average annual per capita rate of payment for the area for parts A and B for 1995, and

“(II) for part B services, 100 percent minus the ratio described in subclause (I);

“(iii) for the part A services, 70 percent of payments attributable to such services shall be adjusted by the index used under section 1886(d)(3)(E) to adjust payment rates for relative hospital wage levels for hospitals located in the payment area involved;

“(iv) for part B services—

“(I) 66 percent of payments attributable to such services shall be adjusted by the index of the geographic area factors under section 1848(e) used to adjust payment rates for physicians’ services furnished in the payment area, and

“(II) of the remaining 34 percent of the amount of such payments, 70 percent shall be adjusted by the index described in clause (iii);

“(v) the index values shall be computed based only on the beneficiary population described in subsection (b)(5)(A).

The Secretary may continue to apply the rules described in this subparagraph (or similar rules) for 1997.

“(e) PAYMENT PROCESS.—

“(1) IN GENERAL.—Subject to subsection (f), the Secretary shall make monthly payments under this section in advance and in accordance with the rate determined under subsection (a) to the plan for each individual enrolled with a MedicarePlus organization under this part.

“(2) ADJUSTMENT TO REFLECT NUMBER OF ENROLLEES.—

“(A) IN GENERAL.—The amount of payment under this subsection may be retroactively adjusted to take into account any difference between the actual number of individuals enrolled with an organization under this part and the number of such individuals estimated to be so enrolled in determining the amount of the advance payment.

“(B) SPECIAL RULE FOR CERTAIN ENROLLEES.—

“(i) IN GENERAL.—Subject to clause (ii), the Secretary may make retroactive adjustments under subparagraph (A) to take into account individuals enrolled during the period beginning on the date on which the individual enrolls with a MedicarePlus organization under a product operated, sponsored, or contributed to by the individual’s employer or former employer (or the employer or former employer of the individual’s spouse) and ending on the date on which the individual is enrolled in the organization under this part, except that for purposes of making such retroactive adjustments under this subparagraph, such period may not exceed 90 days.

“(ii) EXCEPTION.—No adjustment may be made under clause (i) with respect to any individual who does not certify that the organization provided the individual with the disclosure statement described in section 1853(a) at the time the individual enrolled with the organization.

“(f) SPECIAL RULES FOR INDIVIDUALS ELECTING HIGH DEDUCTIBLE/MEDISAVE PRODUCT.—

“(1) IN GENERAL.—In the case of an individual who has elected a high deductible/medisave product, notwithstanding the preceding provisions of this section—

“(A) the amount of the payment to the MedicarePlus organization offering the high deductible/medisave product shall not exceed the premium for the product, and

“(B) subject to paragraph (2), the difference between the amount of payment that would otherwise be made and the amount of payment to such organization shall be made directly into a MedicarePlus MSA established (and, if applicable, designated) by the individual under paragraph (2).

“(2) ESTABLISHMENT AND DESIGNATION OF MEDICAREPLUS MEDICAL SAVINGS ACCOUNT AS REQUIREMENT FOR PAYMENT OF CONTRIBUTION.—In the case of an individual who has elected coverage under a high deductible/medisave product,

no payment shall be made under paragraph (1)(B) on behalf of an individual for a month unless the individual—

“(A) has established before the beginning of the month (or by such other deadline as the Secretary may specify) a MedicarePlus MSA (as defined in section 137(b) of the Internal Revenue Code of 1986), and

“(B) if the individual has established more than one MedicarePlus MSA, has designated one of such accounts as the individual's MedicarePlus MSA for purposes of this part.

Under rules under this section, such an individual may change the designation of such account under subparagraph (B) for purposes of this part.

“(3) LUMP SUM DEPOSIT OF MEDICAL SAVINGS ACCOUNT CONTRIBUTION.—In the case of an individual electing a high deductible/medisave product effective beginning with a month in a year, the amount of the contribution to the MedicarePlus MSA on behalf of the individual for that month and all successive months in the year shall be deposited during that first month. In the case of a termination of such an election as of a month before the end of a year, the Secretary shall provide for a procedure for the recovery of deposits attributable to the remaining months in the year.

“(g) PAYMENTS FROM TRUST FUND.—The payment to a MedicarePlus organization under this section for individuals enrolled under this part with the organization, and payments to a MedicarePlus MSA under subsection (f)(1)(B), shall be made from the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund in such proportion as the Secretary determines reflects the relative weight that benefits under part A and under part B represent the actuarial value of the total benefits under this title.

“(h) SPECIAL RULE FOR CERTAIN INPATIENT HOSPITAL STAYS.—In the case of an individual who is receiving inpatient hospital services from a subsection (d) hospital (as defined in section 1886(d)(1)(B)) as of the effective date of the individual's—

“(1) election under this part of a MedicarePlus product offered by a MedicarePlus organization—

“(A) payment for such services until the date of the individual's discharge shall be made under this title through the MedicarePlus product or Non-MedicarePlus option (as the case may be) elected before the election with such organization,

“(B) the elected organization shall not be financially responsible for payment for such services until the date after the date of the individual's discharge, and

“(C) the organization shall nonetheless be paid the full amount otherwise payable to the organization under this part; or

“(2) termination of election with respect to a MedicarePlus organization under this part—

“(A) the organization shall be financially responsible for payment for such services after such date and until the date of the individual's discharge,

“(B) payment for such services during the stay shall not be made under section 1886(d) or by any succeeding MedicarePlus organization, and

“(C) the terminated organization shall not receive any payment with respect to the individual under this part during the period the individual is not enrolled.

“(2) REVIEW.—If the Association submits such standards on a timely basis, the Secretary shall review such standards to determine if the standards meet the requirements of the part. The Secretary shall complete the review of the standards not later than 90 days after the date of their submission. The Secretary shall promulgate such proposed standards to apply to organizations and

products described in paragraph (1) except to the extent that the Secretary modifies such proposed standards because they do not meet such requirements.

“(3) FAILURE TO SUBMIT.—If the Association does not submit such standards on a timely basis, the Secretary shall promulgate such standards by not later than the date the Secretary would otherwise have been required to promulgate standards under paragraph (2).

“(4) USE OF INTERIM RULES.—For the period in which this part is in effect and standards are being developed and established under the preceding provisions of this subsection, the Secretary shall provide by not later than June 1, 1996, for the application of such interim standards (without regard to any requirements for notice and public comment) as may be appropriate to provide for the expedited implementation of this part. Such interim standards shall not apply after the date standards are established under the preceding provisions of this subsection.

“(b) TAFT-HARTLEY SPONSORS, QUALIFIED ASSOCIATIONS, AND PRODUCTS.—

“(1) IN GENERAL.—The Secretary shall develop and promulgate by regulation standards consistent with the requirements of this part for Taft-Hartley sponsors, for qualified associations, and for MedicarePlus products offered by such organizations (other than MedicarePlus products offered by qualified associations that are issued by organizations to which section 1851(b)(1) applies).

“(2) PUBLICATION OF NOTICE.—In carrying out the rulemaking process under this subsection, the Secretary, after consultation with the National Association of Insurance Commissioners, the American Academy of Actuaries, organizations representative of medicare beneficiaries, and other interested parties, shall publish the notice provided for under section 564(a) of title 5, United States Code, by not later than 45 days after the date of the enactment of Medicare Preservation Act of 1995.

“(3) TARGET DATE FOR PUBLICATION OF RULE.—As part of the notice under paragraph (2), and for purposes of this subsection, the ‘target date for publication’ (referred to in section 564(a)(5) of such title) shall be September 1, 1996.

“(4) ABBREVIATED PERIOD FOR SUBMISSION OF COMMENTS.—In applying section 564(c) of such title under this subsection, ‘15 days’ shall be substituted for ‘30 days’.

“(5) APPOINTMENT OF NEGOTIATED RULEMAKING COMMITTEE AND FACILITATOR.—The Secretary shall provide for—

“(A) the appointment of a negotiated rulemaking committee under section 565(a) of such title by not later than 30 days after the end of the comment period provided for under section 564(c) of such title (as shortened under paragraph (4)), and

“(B) the nomination of a facilitator under section 566(c) of such title by not later than 10 days after the date of appointment of the committee.

“(6) PRELIMINARY COMMITTEE REPORT.—The negotiated rulemaking committee appointed under paragraph (5) shall report to the Secretary, by not later than June 1, 1996, regarding the committee’s progress on achieving a consensus with regard to the rulemaking proceeding and whether such consensus is likely to occur before one month before the target date for publication of the rule. If the committee reports that the committee has failed to make significant progress towards such consensus or is unlikely to reach such consensus by the target date, the Secretary may terminate such process and provide for the publication of a rule under this subsection through such other methods as the Secretary may provide.

“(7) FINAL COMMITTEE REPORT.—If the committee is not terminated under paragraph (6), the rulemaking committee shall submit a report containing a proposed rule by not later than one month before the target publication date.

“(8) INTERIM, FINAL EFFECT.—The Secretary shall publish a rule under this subsection in the Federal Register by not later than the target publication date. Such rule shall be effective and final immediately on an interim basis, but is subject to change and revision after public notice and opportunity for a period (of not less than 60 days) for public comment. In connection with such rule, the

Secretary shall specify the process for the timely review and approval of applications of entities to be certified as provider-sponsored organizations pursuant to such rules and consistent with this subsection.

“(9) PUBLICATION OF RULE AFTER PUBLIC COMMENT.—The Secretary shall provide for consideration of such comments and republication of such rule by not later than 1 year after the target publication date.

“(10) PROCESS FOR APPROVAL OF APPLICATIONS FOR CERTIFICATION.—

“(A) IN GENERAL.—The Secretary shall establish a process for the receipt and approval of applications of entities for certification as provider-sponsored organizations under this part. Under such process, the Secretary shall act upon a complete application submitted within 60 days after the date it is received.

“(B) CIRCULATION OF PROPOSED APPLICATION FORM.—By March 1, 1996, the Secretary, after consultation with the negotiated rulemaking committee, shall circulate a proposed application form that could be used by entities considering becoming certified as a provider-sponsored organization under this part.

“(d) COORDINATION AMONG FINAL STANDARDS.—In establishing standards (other than on an interim basis) under the previous provisions of this section, the Secretary shall seek to provide for consistency (as appropriate) across the different types of MedicarePlus organizations, in order to promote equitable treatment of different types of organizations and consistent protection for individuals who elect products offered by the different types of MedicarePlus organizations.

“(e) USE OF CURRENT STANDARDS FOR INTERIM STANDARDS.—To the extent practicable and consistent with the requirements of this part, standards established on an interim basis to carry out requirements of this part may be based on currently applicable standards, such as the rules established under section 1876 (as in effect as of the date of the enactment of this section) to carry out analogous provisions of such section or standards established or developed for application in the private health insurance market.

“(f) APPLICATION OF NEW STANDARDS TO ENTITIES WITH A CONTRACT.—In the case of a MedicarePlus organization with a contract in effect under this part at the time standards applicable to the organization under this section are changed, the organization may elect not to have such changes apply to the organization until the end of the current contract year (or, if there is less than 6 months remaining in the contract year, until 1 year after the end of the current contract year).

“(g) RELATION TO STATE LAWS.—The standards established under this section shall supersede any State law or regulation with respect to MedicarePlus products which are offered by MedicarePlus organizations and are issued by organizations to which section 1851(b)(1) applies, to the extent such law or regulation is inconsistent with such standards.

“MEDICARE-PLUS CERTIFICATION

“SEC. 1857. (a) STATE CERTIFICATION PROCESS FOR STATE-REGULATED ORGANIZATIONS.—

“(1) APPROVAL OF STATE PROCESS.—The Secretary shall approve a MedicarePlus certification and enforcement program established by a State for applying the standards established under section 1856 to MedicarePlus organizations (other than Taft-Hartley sponsors and provider-sponsored organizations) and MedicarePlus products offered by such organizations if the Secretary determines that the program effectively provides for the application and enforcement of such standards in the State with respect to such organizations and products. Such program shall provide for certification of compliance of MedicarePlus organizations and products with the applicable requirements of this part not less often than once every 3 years.

“(2) EFFECT OF CERTIFICATION UNDER STATE PROCESS.—A MedicarePlus organization and MedicarePlus product offered by such an organization that is certified under such program is considered to have been certified under this subsection with respect to the offering of the product to individuals residing in the State.

“(3) USER FEES.—The State may impose user fees on organizations seeking certification under this subsection in such amounts as the State deems sufficient to finance the costs of such certification. Nothing in this paragraph shall be construed as restricting a State's authority to impose premium taxes, other taxes, or other levies.

“(4) REVIEW.—The Secretary periodically shall review State programs approved under paragraph (1) to determine if they continue to provide for certifi-

cation and enforcement described in such paragraph. (A) by amending clause (i) to read as follows:

“(I) a health insurance policy (other than a medicare supplemental policy) with knowledge that the policy duplicates health benefits to which the individual is otherwise entitled under this title or title XIX,

“(II) in the case of an individual not electing a MedicarePlus product, a medicare supplemental policy with knowledge that the individual is entitled to benefits under another medicare supplemental policy, or

“(ii) Subject to clause (iii), a hospital is eligible for an adjustment under this subparagraph, with respect to discharges occurring in a fiscal year, if the hospital—

“(I) is a hospital that may otherwise receive payments under this subsection,

“(II) is not a public hospital, and

“(III) incurs capital-related tax costs for the fiscal year.

“(iii)(I) In the case of a hospital that first incurs capital-related tax costs in a fiscal year after fiscal year 1992 because of a change from nonproprietary to proprietary status or because the hospital commenced operation after such fiscal year, the first fiscal year for which the hospital

shall be eligible for such adjustment is the second full fiscal year following the fiscal year in which the hospital first incurs such costs.

“(II) In the case of a hospital that first incurs capital-related tax costs in a fiscal year after fiscal year 1992 because of a change in State or local tax laws, the first fiscal year for which the hospital shall be eligible for such adjustment is the fourth full fiscal year following the fiscal year in which the hospital first incurs such costs.

In determining the adjustment required under clause (i), the Secretary shall not take into account any capital-related tax costs of a hospital to the extent that such costs are based on tax rates and assessments that exceed those for similar commercial properties.

“(vi) The system shall provide that the Federal capital rate for any fiscal year after September 30, 1995, shall be reduced by a percentage sufficient to ensure that the adjustments required to be paid under clause (i) for a fiscal year neither increase nor decrease the total amount that would have been paid under this system but for the payment of such adjustments for such fiscal year.”.

“(ii) CASE MIX ADJUSTMENT FACTOR.—For purposes of clause (i), the case-mix adjustment factor for a year is the factor determined by the Secretary to assure that aggregate payments for home health services under this section during the year will not exceed the payment for such services during the previous year as a result of changes in the number and type of home health visits within case-mix categories over the previous year.

“(iii) REBASING OF PER EPISODE AMOUNTS.—Beginning with fiscal year 1999 and every 2 years thereafter, the Secretary shall revise the mean number of home health visits determined under clause (i)(I) for each type of home health service visit described in subsection (a)(2) furnished during an episode in a case-mix category to reflect the most recently available data on the number of visits.

“(iv) DETERMINATION OF APPLICABLE AREA.—For purposes of determining per episode limits under this subparagraph, the area in which a home health agency is considered to be located shall be such area as the Secretary finds appropriate for purposes of this subparagraph.

“(C) CASE-MIX CATEGORY.—For purposes of this paragraph, the term ‘case-mix category’ means each of the 18 case-mix categories established under the Phase II Home Health Agency Prospective Payment Demonstration Project conducted by the Health Care Financing Administration. “(2) RECONCILIATION OF AMOUNTS.—

“(A) OVERPAYMENTS TO HOME HEALTH AGENCIES.—Subject to subparagraph (B), if a home health agency has received aggregate per visit payments under subsection (a) for a fiscal year in excess of the amount determined under paragraph (1) with respect to such home health agency for such fiscal year, the Secretary shall reduce payments under this section to the home health agency in the following fiscal year in such manner as the Secretary considers appropriate (including on an installment basis) to recapture the amount of such excess.

“(B) EXCEPTION FOR HOME HEALTH SERVICES FURNISHED OVER A PERIOD GREATER THAN 165 DAYS.—

“(i) IN GENERAL.—For purposes of subparagraph (A), the amount of aggregate per visit payments determined under subsection (a) shall not include payments for home health visits furnished to an individual on or after a continuous period of more than 165 days after an individual begins an episode described in subsection (c)(1)(D) (if such period is not interrupted by the beginning of a new episode).

“(i) BONUS PAYMENTS.—If a home health agency has received aggregate per visit payments under subsection (a) for a fiscal year in an amount less than the amount determined under paragraph (1) with respect to such home health agency for such fiscal year, the Secretary shall pay such home health agency a bonus payment equal to 50 percent of the difference between such amounts in the following fiscal year, except that the bonus payment may not exceed 5 percent of the aggregate per visit payments made to the agency for the year.

“(ii) INSTALLMENT BONUS PAYMENTS.—The Secretary may make installment payments during a fiscal year to a home health agency based on the estimated bonus payment that the agency would be eligible to receive with respect to such fiscal year.

“(d) MEDICAL REVIEW PROCESS.—The Secretary shall implement a medical review process (with a particular emphasis on fiscal years 1997 and 1998) for the system of payments described in this section that shall provide an assessment of the pattern of care furnished to individuals receiving home health services for which payments are made under this section to ensure that such individuals receive appropriate home health services. Such review process shall focus on low-cost cases described in subsection (e)(3) and cases described in subsection (c)(2)(B) and shall require recertification by intermediaries at 30, 60, 90, 120, and 165 days into an episode described in subsection (c)(1)(D).

“(e) ADJUSTMENT OF PAYMENTS TO AVOID CIRCUMVENTION OF LIMITS.—

“(1) IN GENERAL.—The Secretary shall provide for appropriate adjustments to payments to home health agencies under this section to ensure that agencies do not circumvent the purpose of this section by—

“(B) ADJUSTMENT OF PAYMENTS.—The Secretary shall adjust payments under this section to each home health agency that furnishes an individual with a type of home health service described in subsection (a)(2) to ensure that aggregate payments on behalf of such individual during such episode do not exceed the amount that would be paid under this section if the individual received such services from a single home health agency.

“(3) LOW-COST CASES.—The Secretary shall develop a system designed to adjust payments to a home health agency for a fiscal year to eliminate any increase in growth of the percentage of low-cost episodes for which home health services are furnished by the agency over such percentage determined for the agency for the 12-month cost reporting period ending on June 30, 1994. The Secretary shall define a low-cost episode in a manner that provides that a home health agency has an incentive to be cost efficient in delivering home health services and that the volume of such services does not increase as a result of factors other than patient needs.

“(f) REPORT BY MEDICARE PAYMENT REVIEW COMMISSION.—During the first 3 years in which payments are made under this section, the Medicare Payment Review Commission shall annually submit a report to Congress on the effectiveness of the payment methodology established under this section that shall include recommendations regarding the following:

“(A) ADOPTION OF STANDARDS.—The Secretary shall adopt standards providing for a standard unique health identifier for each individual, employer, health plan, and health care provider for use in the medicare information system. In developing unique health identifiers for each health plan and health care provider, the Secretary shall take into account multiple uses for identifiers and multiple locations and specialty classifications for health care providers.

“(B) PENALTY FOR IMPROPER DISCLOSURE.—A person who knowingly uses or causes to be used a unique health identifier under subparagraph (A) for a purpose that is not authorized by the Secretary shall—

“(6) COORDINATION OF BENEFITS.—If, at the end of the 5-year period beginning on the date of the enactment of this section, the Secretary determines that additional transaction standards for coordinating benefits are necessary to reduce administrative costs or duplicative (or inappropriate) payment of claims, the Secretary shall establish further transaction standards for the coordination of benefits between health plans.

“(7) PROTECTION OF TRADE SECRETS.—Except as otherwise required by law, the standards adopted under this section shall not require disclosure of trade secrets or confidential commercial information by an entity operating a medicare information network.

“(II) ASSISTANCE.—If the Secretary determines that a health plan failed to comply because such plan was unable to comply, the Secretary may provide technical assistance to such plan during the period described in clause (i)(II). Such assistance shall be provided in any manner determined appropriate by the Secretary.

“(C) REDUCTION.—In the case of a failure to comply which is due to reasonable cause and not to willful neglect, any penalty under paragraph (1) that is not entirely waived under subparagraph (B) may be waived to the extent that the payment of such penalty would be excessive relative to the compliance failure involved.

“(f) EFFECT ON STATE LAW.—

“(1) GENERAL EFFECT.—

“(A) GENERAL RULE.—Except as provided in subparagraph (B), a provision, requirement, or standard under this section shall supersede any contrary provision of State law, including a provision of State law that requires medical or health plan records (including billing information) to be maintained or transmitted in written rather than electronic form.

“MEDICARE GROWTH REDUCTION TRUST FUND

“SEC. 1841A. (a)(1) There is hereby created on the books of the Treasury of the United States a trust fund to be known as the ‘Federal Medicare Growth Reduction Trust Fund’ (in this section referred to as the ‘Trust Fund’). The Trust Fund shall consist of such gifts and bequests as may be made as provided in section 201(i)(1) and amounts appropriated under paragraph (2).

Trustee of the Trust Fund shall be composed of the members of the Board of Trustees and the Managing Trustee, respectively, of the Federal Supplementary Medical Insurance Trust Fund.”.

PURPOSE AND SUMMARY

On April 3, 1995, the Board of Trustees of the Federal Hospital Insurance Trust Fund and the Supplementary Medical Insurance Trust Fund issued their annual reports which pointed to significant short- and long-term financing crises in both Parts A and B of Medicare.

With respect to the Hospital Insurance [HI] Trust Fund, the Trustees reported that under their intermediate assumptions, “the present financing schedule for the HI program is sufficient to ensure the payment of benefits only over the next 7 years. As a result, the HI Trust Fund does not meet the Trustees’ short-term test of financial adequacy.” (Communication from the Board of Trustees, Federal Hospital Insurance Trust Fund, April 3, 1995, House Document 104-56, p. 3.).

The Trustees also expressed very strong concerns regarding the Supplementary Medical Insurance (SMI) Trust Fund. Although the SMI program is currently actuarially sound because it receives most of its funds from general revenues, the Trustees noted:

with great concern the past and projected rapid growth in the cost of the program * * * overall, the past growth rates have been rapid, and the future growth rates are projected to increase above those of the recent past. Growth rates have been so rapid that outlays of the program have increased 53 percent in the aggregate and 40 percent per enrollee in the last 5 years. For the same time period, the program grew 19 percent faster than the economy despite recent efforts to control the cost of the program. (Communication from the Board of Trustees, Federal Supplementary Medical Insurance Trust Fund, April 3, 1995, House Document 104-55, p. 3.)

To address the twin financial crises facing Medicare, the Committee has adopted legislation which will place Part B of Medicare, the major portion of the program which is under the Committee’s jurisdiction, on a long-term sustainable growth path.

In addition to providing responsible and sustainable financing for Medicare, the Committee’s bill, H.R. 2425, will provide Medicare beneficiaries with the same options in health delivery that younger Americans receive from their employers. While Medicare enrollees will be guaranteed the right to remain in traditional fee-for-service Medicare, they will now have the right to choose new and innovative health products such as the following: (a) Physician-Hospital Sponsored Organizations; (b) Preferred Provider Networks; (c) Health Maintenance Organizations with and without Point of Service options; (d) Medical Savings Accounts; and (e) new private Indemnity Insurance products.

This legislation was developed after several months of public hearings before the Subcommittee on Health and the Environment of the Commerce Committee. Testimony was received from dozens of witnesses including representatives of senior citizens, health

care providers, health care economists, actuaries, and other health care policy experts.

BACKGROUND AND NEED FOR LEGISLATION

Medicare is a Federal health insurance program for the aged and certain disabled individuals. It consists of two parts: Part A is the hospital insurance [HI] program; and Part B is the supplementary medical insurance [SMI] program. Most Americans age 65 or older are automatically entitled to health coverage under Part A, whereas participation in Part B is voluntary. Also eligible, after a two-year waiting period, are people under age 65 who are receiving Social Security disability benefits. In Fiscal Year 1994, approximately 32.1 million aged and 4.1 million disabled were enrolled in Part A. Approximately 31.4 million aged and 3.7 million disabled were enrolled in Part B.

Medicare, an entitlement program, is the second largest social welfare program in the Federal budget, after Social Security. In 1990, nearly one-fourth of all families received Medicare benefits at an average per capita cost of \$3,800. Virtually all elderly (96 percent) participate in the program.

However, the cost and scope of the Medicare program have placed its future financial viability in jeopardy. According to the 1995 report of the Board of Trustees, both Part A and Part B of the Medicare program require immediate attention if they are to remain a solvent and integral component in the health care coverage of America's seniors. In light of the importance of the Medicare program to the lives of millions of Americans, the Medicare Preservation Act of 1995 was developed to preserve, protect, and strengthen the program for the current and future generations of beneficiaries.

According to the Medicare Trustees, the outlays of the Hospital Insurance [HI] Trust Fund will exceed income beginning in 1996. Even more alarming, the trust fund is projected to run out of reserves in 2002—just seven years from now. Even under the most optimistic set of assumptions, the trust fund is projected to be depleted in just 11 years, in 2006.

In their report, the Board of Trustees unequivocally urged Congress to address the pressing needs of Part A of the Medicare program:

The HI trust fund continues to fail the short range test of financial adequacy and is projected to experience increasing annual deficits in future years, beginning in calendar year 1996.

Trustees urge the Congress to take additional actions designed to control the HI program costs and to address the projected financial imbalance in both the short-range and the long-range through specific program legislation.

* * * The Trustees believe that prompt, effective, and decisive action is necessary.

The Trustees also called for action to restructure the Supplementary Medical Insurance [SMI] program because the SMI rate of growth is unsustainable. SMI cost growth directly affects Medicare

beneficiary Part B premiums as well as the overall Federal budget from which the largest share of SMI costs are financed.

In 1995, premiums paid by enrollees will finance only about 31.5 percent of annual costs, according to the 1995 Trustees' report. Over the next decade, the contribution from general revenues to the SMI trust fund will increase from \$46 billion in 1995 to \$151 billion in 2004, for an average annual growth rate of over 14 percent.

Among the factors that initiated Congressional action on this critical issue is the fact that recent Medicare cost increases compare very unfavorably to those in the private health care market. According to data from the Medicare Board of Trustees and the Congressional Budget Office, Medicare spending growth is more than two times greater than the rise in private health care costs. In fact, in Fiscal Year 1994, Medicare costs grew at a rate of approximately 10.5 percent, while total private health spending rose only 4.4 percent.

At the same time, a study by Peat Marwick has determined that health insurance premiums in the private market are experiencing a significant decline. Between 1994 and 1995, health insurance premiums increased at a lower rate than that of inflation. In addition, premiums charged by a majority of managed care carriers are declining, offering evidence of the efficiencies and enrollee gains that are possible under managed care.

For all of the above reasons, the Medicare Preservation Act of 1995 was developed to preserve, protect and strengthen the Medicare program. To achieve these critical objectives, the following criteria were adopted to guide the Committee's reform efforts:

- (1) With the exception of the most affluent beneficiaries whose subsidy by the general taxpayer will be reduced and phased out, Medicare beneficiary cost-sharing proportions shall not be increased over the next seven years.

- (2) Policy improvements to make Medicare solvent and affordable will ensure that Medicare continues to increase spending each year. However, Medicare spending growth will be brought in line with the need to ensure Part B affordability, rather than permitting the program's uncontrolled spending growth rates to continue as they have in the past.

- (3) Policy improvements will be designed to create opportunities for beneficiaries to choose more modern private coverage options, as well as for health care providers to reduce waste, eliminate abuse, and increase efficiency.

Finally, the Committee adopted the following principles with respect to meeting its objective of ensuring the long-term viability of the Medicare program:

- (1) Over the next seven years, Medicare spending will rise significantly for each beneficiary. In fact, Medicare per enrollee spending will increase from \$4,800 in Fiscal Year 1996 to \$6,700 by Fiscal Year 2002.

- (2) Spending for beneficiaries will grow, in aggregate, at the same rate whether enrolled in MedicarePlus plans or in the fee-for-service system.

- (3) Medicare spending policy will be managed to extend significantly the solvency of the Part A Trust Fund, and to mod-

erate increases in both the beneficiary contributions to and the general taxpayers' subsidy of the Part B Trust Fund.

(4) A Commission on the Effect of the Baby-Boom Generation on the Medicare Program will be established to make recommendations to the Congress on the reforms necessary to ensure the preservation of the program, especially in light of anticipated demographic pressures on the program's financing.

COMMITTEE OVERSIGHT FINDINGS

Pursuant to clause 2(l)(3)(A) of rule XI of the Rules of the House of Representatives, the Subcommittee on Health and Environment held oversight and legislative hearings and made findings that are reflected in this report.

COMMITTEE ON GOVERNMENT REFORM AND OVERSIGHT

Pursuant to clause 2(l)(3)(D) of rule XI of the Rules of the House of Representatives, the Committee notes that no oversight findings have been submitted to the Committee by the Committee on Government Reform and Oversight.

NEW BUDGET AUTHORITY AND TAX EXPENDITURES

In compliance with clause 2(l)(3)(B) of rule XI of the Rules of the House of Representatives, the Committee states that the Committee bill results in decreased net authority for direct spending programs relative to current law and no new or increased tax expenditures or revenues.

COMMITTEE COST ESTIMATE

In compliance with clause 7(a) of rule XIII of the Rules of the House of Representatives, the following statement is made concerning the effects on the budget of H.R. 2425, as reported to the Committee.

The Committee accepts the estimate prepared by the Congressional Budget Office (CBO), which is printed below. However, the Committee has several concerns with the CBO estimates. The first concern regards the CBO assumption used regarding the number of Medicare beneficiaries who will enroll with MedicarePlus organizations. Given the new opportunities and better information Medicare beneficiaries will have regarding these options, the Committee expects a higher number of individuals to elect coverage under MedicarePlus plans than is assumed under the CBO estimate.

The second concern regards the CBO methodological “stacking” which do not allow for an accurate calculation of the “scorable savings” from a high proportion of enrollees who move to MedicarePlus plans from fee-for-service. Although the CBO methodology can fully accept for “scorable savings” for projected section 1876 health maintenance organization enrollees in the current services baseline, the CBO’s method cannot fully account for “savings” from additional enrollees above baseline projections who migrate to the MedicarePlus plans. The Committee is currently engaged in a productive dialogue to address this complicated issue and expects that a better explanatory framework will be developed by the CBO.

The third area of concern is the CBO position that the MedicarePlus Medical Savings Accounts will lead to positive selection in the MedicarePlus market. This CBO assumption leads to a substantial offset to the savings achieved in the MedicarePlus marketplace. The Committee believes that the CBO analysis is not justified. It is not convinced that only the “healthiest” Medicare enrollees will move from traditional fee-for-service into medical savings accounts. The recent experience in the private marketplace concerning medical savings accounts does not demonstrate positive selection for this product.

The fourth area of concern involves the use of an extreme behavioral offset for benefits or services in which the supplier of the service is not directly responsible for ordering the services provided.

ADVISORY COMMITTEE STATEMENT

Pursuant to section 5(b) of the Federal Advisory Committee Act, the Committee notes that, where possible, the mandates of existing advisory committees have been modified to accomplish the purposes of this legislation (see e.g., sections 15528 and 15701(f)). However, the Committee further determined that the new advisory committees created by this legislation are necessary and that their functions could not be performed adequately by advisory committees already in existence or by enlarging the mandates of an existing advisory committee.

CONGRESSIONAL BUDGET OFFICE ESTIMATE

Pursuant to clause 2(l)(3)(C) of rule XI of the Rules of the House of Representatives, following is the cost estimate provided by the Congressional Budget Office pursuant to section 403 of the Congressional Budget Act of 1974:

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, October 16, 1995.

Hon. THOMAS J. BLILEY, Jr.
Chairman, Committee on Commerce, House of Representatives,
Washington, DC

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for H.R. 2425, the Medicare Preservation Act of 1995, as ordered reported by the Committee on Commerce on October 11, 1995.

The table shows the budgetary effects of the bill over the 1996–2002 period. CBO understands that the Committee on the Budget will be responsible for interpreting how savings contained in this proposal measure against the budget resolution reconciliation instructions. The estimate assumes that the bill will be enacted by November 15 and could change if the bill is enacted later.

If you wish further details on this estimate, we will be pleased to provide them.

Sincerely,

JUNE E. O'NEILL,
Director.

Enclosure.

MEMORANDUM: MONTHLY PART B PREMIUM (BY CALENDAR YEAR)

Estimated premium before failsafe	\$53.30	\$57.30	\$61.70	\$67.00	\$75.00	\$81.70	\$90.70
Estimated premium after failsafe	\$53.30	\$56.70	\$59.40	\$64.00	\$72.30	\$79.20	\$88.00

¹ Estimate includes medical savings accounts provision.² This provision would increase spending by about \$40 million over the period 1996 through 2002.³ Includes provision for sole community hospitals.⁴ These provisions are described in Subtitle E and included by reference in Subtitle F.⁵ This estimate assumes that the provision will only be applied to existing LTC facilities.⁶ This estimate assumes that grandfathering would apply only to existing long term care hospitals that are located in the same building as, or on the same campus as, another hospital.⁷ This provision would cost approximately \$5 million per year.⁸ This provision is budget neutral if EACH/RPCH designation is limited to those hospitals currently so designated. Hospitals/facilities can be designated as such.⁹ This line includes a 1% annual update for prosthetics and orthotics.¹⁰ This estimate assumes that policy is to provide cost-based reimbursement for specified Part B services only, as specified in substitute. The provision would cost approximately \$20–\$30 million per year.

¹¹ For this estimate, CBO assumes that the target levels of benefits would be consistent with the mandatory spending levels specified in the budget resolution. Reductions in outlays for benefits would be larger than the amounts shown here because of interactions with the Part B premium.

Notes: Details may not sum to total because of rounding. These estimates assume an enactment date of November 15, 1995—the estimates would change if the proposal was enacted at a later date. To the extent that health care providers are able to offset lower reimbursements by shifting costs to other payers, federal revenues could fall. These estimates do not incorporate changes in discretionary spending for administration.

SECTION-BY-SECTION ANALYSIS OF THE LEGISLATION

TITLE XV—MEDICARE PRESERVATION ACT OF 1995

Section 15000. Short Title of Title; Amendments and References to OBRA; Table of Contents

This section states that this title may be cited as the “Medicare Preservation Act of 1996”. The section also sets forth amendments to the Social Security Act and references to OBRA, and the table of contents.

SUBTITLE A—MEDICAREPLUS PROGRAM

*Part 1. Increasing Choice Under the Medicare Program**Sec. 15001. Increasing Choice Under Medicare*

Current Law.—Persons enrolling in Medicare have two basic coverage options. They may elect to obtain services through the traditional fee-for-service system under which program payments are made for each service rendered. Under section 1876 of the Social Security Act, they may also elect to enroll with a managed care organization which has entered into a payment agreement with Medicare. Three types of managed care organizations are authorized to contract with Medicare: an entity that has a risk contract with Medicare, an entity that has a cost contract with Medicare, or a health care prepayment plan (HCPP) that has a cost contract to provide Medicare Part B services. Risk contracts are frequently referred to as TEFRA risk contracts and cost contracts are frequently referred to as TEFRA cost contracts. TEFRA refers to the 1982 legislation, the Tax Equity and Fiscal Responsibility Act of 1982, which established the rules governing these types of contracts.

A beneficiary in an area served by a health maintenance organization (HMO) or competitive medical plan (CMP) with a Medicare risk contract may voluntarily choose to enroll in the organization. Medicare makes a single monthly capitation payment for each of its enrollees. In return, the entity agrees to provide or arrange for the full range of Medicare services through an organized system of affiliated physicians, hospitals and other providers. The beneficiary must obtain all covered services through the HMO or CMP, except in emergencies. The beneficiary may be charged the usual cost-sharing charges or pay the equivalent in the form of a monthly premium to the organization. Beneficiaries are expected to share in the projected savings through the provision of benefits in addition to those included in Medicare’s benefit package.

Beneficiaries may also enroll in organizations with TEFRA cost contracts. These entities must meet essentially the same conditions of participation as risk contractors; however they may have as few as 1,500 enrollees (rather than 5,000) to qualify. Under a cost contract, Medicare pays the actual cost the entity incurs in furnishing covered services (less the estimated value of beneficiary cost-sharing). Enrollees obtain supplemental benefits by paying a monthly premium. The entity must offer a basic package (which covers all or a portion of Medicare cost-sharing charges); any additional benefits must be priced separately. (Conversely, a risk contractor may

offer just one package.) Enrollees in TEFRA cost contract entities may obtain services outside the entity's network; however, the entity has no obligation to cover the beneficiary's cost-sharing in this case.

A third type of managed care arrangement is the HCPP. A HCPP arrangement is similar to a TEFRA cost contract except that it provides only Part B services. Further, there are no specific statutory conditions to qualify for a HCPP contract. Some HCPPs are private market HMOs, while others are union or employer plans. HCPPs have no minimum enrollment requirements, no requirement that the plan have non-Medicare enrollees, or a requirement for an open enrollment period. Unlike TEFRA cost contractors (but like risk contractors), HCPPs may offer a single supplemental package that includes both Part B cost-sharing and other benefits; cost-sharing benefits need not be priced separately.

Any Medicare beneficiary residing in the area served by an HMO/CMP may enroll, with two exceptions. The first exception applies to beneficiaries not enrolled in Part B. The second exception applies to persons qualifying for Medicare on the basis of end-stage renal disease (ESRD); however, persons already enrolled who later develop ESRD may remain enrolled in the entity.

The HMO/CMP must have an annual open enrollment period of at least 30 days duration. During this period, it must accept beneficiaries in the order in which they apply up to the limits of its capacity, unless to do so would lead to violation of the 50 percent Medicare-Medicaid maximum or to an enrolled population unrepresentative of the population in the area served by the HMO.

TEFRA risk contractors are required to hold an additional open enrollment period if any other risk-based entity serving part of the same geographic area does not renew its Medicare contract, has its contract terminated, or has reduced its service area to exclude any portion of the service area previously served by both contractors. In such cases, the Secretary must establish a single coordinated open enrollment period for the remaining contractors. These remaining HMOs/CMPs must then accept its enrollees during an enrollment period of 30 days.

An enrollee may request termination of his or her enrollment at any time. An individual may file disenrollment requests directly with the HMO or at the local Social Security office. Disenrollment takes effect on the first day of the month following the month during which the request is filed. The HMO may not disenroll or refuse to re-enroll a beneficiary on the basis of health status or need for health services.

The requirement for an open enrollment period does not apply to HCPPs. These entities may deny enrollment or terminate enrollment on medical or other grounds, if in doing so they use the same criteria for Medicare and non-Medicare enrollees. As a result, employer or union plans may restrict enrollment to covered retirees.

The Secretary of Health and Human Services (the Secretary) is authorized to prescribe procedures and conditions under which eligible organizations contracting with Medicare may inform beneficiaries about the organization. Brochures, applications forms, or other promotional or informational material may be distributed only after review and approval by the Secretary. HMOs may not

disenroll or refuse to re-enroll a beneficiary because of health status or need for health care services. HMOs must provide enrollees, at the time of enrollment and annually thereafter, an explanation of rights to benefits, restrictions on services provided through nonaffiliated providers, out-of-area coverage, coverage of emergency and urgently needed services, and appeal rights. A terminating HMO must arrange for supplementary coverage for Medicare enrollees for the duration of any preexisting condition exclusion under their successor coverage for the lesser of 6 months or the duration of the exclusion period.

Explanation of Provision.—The Social Security Act would be amended by establishing a MedicarePlus program. Every individual entitled to Medicare Part A and enrolled under Part B could elect to receive benefits through two options: (1) the existing fee-for-service system (“the non-MedicarePlus option”) or (2) through a MedicarePlus product (“the MedicarePlus option”). A MedicarePlus product could be a product offered by a provider-sponsored organization; a high deductible policy which would be coupled with a Medisave account; or a product operating on a fee-for-service, or any other basis. It also could be offered by an organization that is a Taft-Hartley or association sponsor.

Special Rules.—In general, an individual would be eligible to elect a MedicarePlus product offered by a MedicarePlus organization only if the organization served the geographic area in which the individual lived. To enroll in a product offered by a limited-enrollment MedicarePlus organization, an individual would have to be affiliated with it. In the case of a product offered by a Taft-Hartley sponsor, the individual would have to elect the MedicarePlus product offered by the sponsor during the first enrollment period in which the individual was eligible to make such an election. An individual would not be eligible to elect a product offered by a Taft-Hartley sponsor if the individual previously had elected a MedicarePlus product offered by the organization and had subsequently disenrolled. An individual eligible for an annuity under the Federal Employee Health Benefit Program would not be eligible for a high-deductible/medisave product.

Process For Exercising Choice.—The Secretary would be required to establish a process for electing non-MedicarePlus or MedicarePlus coverage in an expedited manner to permit election of MedicarePlus products in an area as soon as they became available. Elections would be made (or changed) only during specified coverage election periods. An individual who wished to elect a MedicarePlus product would do so by filing an appropriate election form with the organization. Disenrollment would be accomplished the same way. An individual failing to make an election during the initial election period would be deemed to have chosen the non-MedicarePlus option. An election would continue until the individual changed elections or the MedicarePlus product was discontinued. The Secretary could enter into an agreement with the Commissioner of Social Security under which the Commissioner would be responsible for the administration of enrollment and disenrollment in MedicarePlus products.

Provision of Beneficiary Information to Promote Informed Choice.—The Secretary would provide for activities to disseminate

broadly information to current and prospective Medicare beneficiaries on the coverage options available in order to promote an active, informed selection among such options. The information would have to be provided so as to permit individuals to elect the MedicarePlus option during an initial election period. The Secretary would be required to contract with appropriate public and private entities to carry out such activities.

The Secretary would be required to provide for at least the following in all areas in which MedicarePlus products were offered: (1) publish and disseminate an information booklet during coverage election periods, including information in standardized format and in plain English on benefits and premiums, quality (including consumer satisfaction); and beneficiary rights and responsibilities; (2) maintain a toll-free number for inquiries regarding MedicarePlus options; and (3) include information in the Medicare Handbook on the MedicarePlus option. The information booklet would have to be updated regularly.

Coverage Election Periods.—For individuals newly eligible for Medicare after the transition period, elections would occur at the first time the individual both was entitled to benefits under Part A and enrolled under Part B. The transition period would be the period beginning when a MedicarePlus product first became available in an individual's area and ending with the close of the annual coordinated election period occurring in October 1997.

During the transition period, an individual who elected to enroll in the non-MedicarePlus option could change election to a MedicarePlus option at any time. An individual in a MedicarePlus product could change election to another MedicarePlus product or the non-MedicarePlus option.

In October 1996, the Secretary would be required to conduct a MedicarePlus Health Fair which would provide for a nationally coordinated educational and publicity campaign to inform MedicarePlus eligible persons about MedicarePlus products and the election process, including the upcoming annual, coordinated election periods that would begin in 1997.

After the transition period, there would be an annual coordinated election period during October of each year (beginning 1997) in which individuals could change elections. An individual who elected the MedicarePlus product option (other than the high-deductible/medisave option) for the first time could discontinue such election through the filing of an appropriate notice for up to 90 days from the enrollment's effective date. An individual who discontinued an election would be deemed to have elected the non-MedicarePlus option.

A person who had elected a high-deductible/medisave product could not change to a MedicarePlus option that was not a high-deductible/medisave product unless the individual made such change during an annual, coordinated election period, or the individual had such election in effect for 12 months. The high-deductible/medisave option would become first available, effective January 1, 1997. Elections for 1997 would occur during the October 1996 election period.

Special election periods would be provided in which an individual could discontinue an election of a MedicarePlus product and make

a new election if: (1) the organization's or product's certification was terminated or the organization terminated or otherwise discontinued providing the product; (2) the person who elected a MedicarePlus product was no longer eligible because of a change in residence or certain other changes in circumstances; (3) the individual demonstrated that the organization offering the product violated its contract with Medicare or misrepresented the product in its marketing; or (4) the individual met other conditions specified by the Secretary.

Effectiveness of Elections.—An election made during the initial election period would become effective when the individual became entitled to benefits, except as the Secretary might provide in order to prevent retroactive coverage through a MedicarePlus product. In general, after the transition, elections made during an annual election period would take effect as of the first day of the following year. Elections during other periods would take effect in the manner specified by the Secretary to protect continuity of coverage.

Administration.—These provisions would be administered through an office in the Department of Health and Human Services that was separate from the Health Care Financing Administration, and whose primary function would be administration of the MedicarePlus and Medicare managed care programs. The director of this Division would be of equal pay and rank to that of the HCFA Administrator.

Sec. 15002. MedicarePlus Program

Provisions Relating to MedicarePlus; Requirements for MedicarePlus Organizations; High Deductible/Medisave Products (Part C of Medicare)

Current Law.—Under section 1876 of the Social Security Act, Medicare specifies requirements to be met by an organization seeking to become a managed care contractor with Medicare. In general, these include the following: (1) the entity must be organized under the laws of the State and be a federally qualified HMO or meet specified requirements (provide physician, inpatient, laboratory, and other services, and provide out-of-area coverage); (2) the organization is paid a predetermined amount without regard to the frequency, extent, or kind of services actually delivered to a member; (3) the entity provides physicians' services primarily through physicians who are either employees or partners of the organization or through contracts with individual physicians or physician groups; (4) the entity assumes full financial risk on a prospective basis for the provision of covered services, except that it may obtain stop loss coverage and other insurance for catastrophic and other specified costs; and (5) the entity has made adequate protection against the risk of insolvency.

There is no provision under current law for high deductible/medisave products.

Explanation of Provision.—The Social Security Act would be amended to create a new Part C.—Provisions Relating to MedicarePlus Organizations; High Deductible/Medisave Products. Similar to current law, a MedicarePlus organization would be de-

defined as a public or private entity certified (as described below) as meeting the requirements described in the following provisions.

Organized and Licensed under State Law.—In general, a MedicarePlus organization would have to be organized and licensed under State law to offer health insurance or health benefits coverage in each State in which it offered a MedicarePlus product. This would not apply to Taft-Hartley sponsors, provider-sponsored organizations or to qualified associations.

Prepaid Payment.—A MedicarePlus organization would have to be compensated (except for deductibles, coinsurance, and copayments) by a fixed payment paid on a periodic basis and without regard to the frequency, extent, or kind of health care services actually provided to an enrollee.

Assumption of Full Financial Risk.—The organization would have to assume full financial risk on a prospective basis for the provision of health services (other than hospice care) except the organization could obtain insurance or make other arrangements for: stop-loss coverage for aggregate costs in excess of \$5,000; services needing to be provided other than through the organization; and for no more than 90 percent of the amount by which its costs for any of its fiscal years exceeded 115 percent of its income for such year. It could also make arrangements with providers or health institutions to assume all or part of the risk on a prospective basis for the provision of basic services. This requirement would not apply to a Taft-Hartley sponsor, or a qualified association with respect to MedicarePlus products offered by such an organization and issued by an organization required to be organized and licensed under State law or by a provider-sponsored organization (PSO).

Provision Against Risk of Insolvency.—Each MedicarePlus organization would have to meet standards relating to financial solvency and capital adequacy, as specified below. An entity that is a Taft-Hartley plan would be deemed to meet this requirement. Additionally, a qualified association would also be deemed to meet this requirement with respect to MedicarePlus products if the product offered by the association and issued by an organization was one that was organized and licensed under State law or was a provider-sponsored organization (PSO).

High Deductible/Medisave Products.—The bill authorizes a Medisave option within MedicarePlus. A Medisave plan combines high deductible insurance with a medical savings account. High deductible insurance would provide reimbursement for Medicare benefits and others the plan may elect to provide only after the enrollee incurred annual expenses equal to a deductible of not greater than \$10,000. These thresholds would be increased yearly (and rounded to the nearest \$50) by the percentage increase in the national average per capita growth rate (described below). For purposes of the deductible, the insurance would have to at a minimum count all expenses that would have been payable by Medicare and the enrollee under Parts A and B. After the deductible was met, the insurance would have to reimburse all expenses that would have been paid without regard to deductibles or coinsurance under Parts A and B.

Organizations Treated as MedicarePlus Organizations During Transition.—Certain organizations would be considered to be quali-

fied as MedicarePlus organizations for contract years beginning before January 1, 1998. These include:

HMOs organized under State law that are qualified under the Public Health Service Act; an organization that is recognized under State law as an HMO; or a similar organization regulated for solvency in the same manner and extent as an HMO.

Organizations that are organized under State laws and are licensed by a State agency as a health insurer or as a service benefit plan, but only for individuals residing in an area in which the organization is licensed to offer health insurance coverage; and

Organizations with Medicare risk contracts as of the date of enactment.

Requirements Relating to Benefits, Provision of Services, Enrollment, and Premiums

Current Law.—Section 1876 provides for requirements relating to benefits, payment to the plans by Medicare, and payments to the plans by beneficiaries. In addition, it specifies standards for patient protection, quality assurance, and general contractor requirements.

A Medicare beneficiary enrolled in an HMO/CMP is entitled to receive all services and supplies covered under Medicare Parts A and B (or Part B only, if only enrolled in Part B). These services must be provided directly by the organization or under arrangements with the organization. Enrollees in risk-based organizations are required to receive all services from the HMO/CMP except in emergencies.

In general, HMOs/CMPs offer benefits in addition to those provided under Medicare's benefit package. In certain cases, the beneficiary has the option of selecting the additional benefits, while in other cases some or all of the supplementary benefits are mandatory.

Some entities may require members to accept additional benefits (and pay extra for them in some cases). These required additional services may be approved by the Secretary if it is determined that the provision of such additional services will not discourage enrollment in the organization by other Medicare beneficiaries.

The amount an HMO/CMP may charge for additional benefits is based on a comparison of the entity's adjusted community rate (ACR, essentially the estimated market price) for the Medicare package and the average of the Medicare per capita payment rate. A risk-based organization is required to offer "additional benefits" at no additional charge if the organization achieves a savings from Medicare. This "savings" occurs if the ACR for the Medicare package is less than the average of the per capita Medicare payment rates. The difference between the two is the amount available to pay additional benefits to enrollees. These may include types of services not covered, such as outpatient prescription drugs, or waivers of coverage limits, such as Medicare's lifetime limit on inpatient hospital care. The organization might also waive some or all of the Medicare's cost-sharing requirements.

The entity may elect to have a portion of its "savings" placed in a benefit stabilization fund. The purpose of this fund is to permit

the entity to continue to offer the same set of benefits in future years even if the revenues available to finance those benefits diminish. Any amounts not provided as additional benefits or placed in a stabilization fund would be offset by a reduction in Medicare's payment rate.

If the difference between the average Medicare payment rate and the adjusted ACR is insufficient to cover the cost of additional benefits, the HMO/CMP may charge a supplemental premium or impose additional cost-sharing charges. If, on the other hand, the HMO does not offer additional benefits equal in value to the difference between the ACR and the average Medicare payment, the Medicare payments are reduced until the average payment is equal to the sum of the ACR and the value of the additional benefits.

For the basic Medicare covered services, premiums and the projected average amount of any other cost-sharing may not exceed what would have been paid by the average enrollee under Medicare rules if she or he had not joined the HMO. For supplementary services, premiums and projected average cost-sharing may not exceed what the HMO would have charged for the same set of services in the private market.

HMOs/CMPs contracting with Medicare can pay second to workers' compensation, automobile liability or other specified sources of insurance.

Current law also provides for Medicare managed care contracts with Health Care Prepayment Plans (HCPPs). A HCPP arrangement is similar to a TEFRA cost contract except that it provides only Part B services. There are no specific statutory conditions to qualify for a HCPP contract.

Collectively bargained health plans and those sponsored by private multiemployer health plans (most of which are Taft-Hartley plans) are regulated under the Employee Retirement Income Security Act (ERISA). Under ERISA, the States are authorized to regulate multiple employer welfare arrangements (MEWAs) to the extent that such regulation does not conflict with ERISA. Association plans may or may not be regulated as MEWAs and are generally regulated by the States.

Penalties apply for violations of limits on the use of "physician incentive plans," *i.e.*, compensation arrangements between HMOs and physicians that might induce physicians to withhold services. An HMO may not make a specific payment to a physician as an inducement to reduce or limit services to a specific enrollee. In addition, if physicians or physician groups are placed at substantial financial risk for services other than their own, the HMO must provide adequate stop-loss protection to limit the physicians' potential liability and must periodically survey enrollee satisfaction.

There are no provisions in current law for provider protections, or for the Department of Labor to play a role in establishing and enforcing Medicare contractor standards for employer-sponsored health plans. In addition, there is no provision in current law for high-deductible/medisave products.

Explanation of Provision.

Benefits Covered.—Each MedicarePlus product would be required to provide benefits for at least the items and services for which

benefits are available under Parts A and B consistent with the standards for coverage of such items and services. A MedicarePlus product would meet this requirement if:

(1) in the case of benefits furnished through fee-for-service providers, the product provided for at least the dollar amount of payment for such items and services as would otherwise have been provided under Medicare Parts A and B; and

(2) in the case of benefits furnished through providers with a contract with the organization, the individual's liability for payment for services did not exceed (after taking into account any deductible which does not exceed any deductible under Parts A and B) the lesser of:

(a) the amount of liability that the individual would have had (based on the provider being a participating provider) if the individual had elected the non-MedicarePlus option, or

(b) the applicable coinsurance or copayment amounts (that would have applied under the non-MedicarePlus option) provided under the contract.

As under current law, the MedicarePlus organization could pay second in specified cases. A MedicarePlus organization could not deny, limit, or condition the coverage or provision of benefits under this part based on the health status, claims experience, receipt of health care, medical history, or lack of evidence of insurability of an individual.

Guaranteed Issue and Renewal.—Generally, a MedicarePlus organization would be required to provide that at any time during which elections were accepted, it would have to accept, without restrictions, individuals eligible to make such an election. If the Secretary determined that the organization had a capacity limit and the number of individuals who elected the product exceeded that limit, the organization could limit the election of individuals, but only if priority was given first to those individuals who had already elected the product, and then to others in a manner which did not discriminate. A MedicarePlus organization could not terminate or refuse to accept an individual's election except in the event of nonpayment of premiums, disruptive behavior, or the product was terminated with respect to all eligible Medicare individuals. (Those terminated would be deemed to have elected the non-MedicarePlus option.)

Special Rules for Limited Enrollment MedicarePlus Organizations.—MedicarePlus sponsors would have to limit enrollment for MedicarePlus products to specific individuals. A Taft-Hartley sponsor would have to limit eligibility to individuals who were entitled to obtain benefits under the terms of an applicable collective bargaining agreement.

A qualified association would be defined as an individual-membership association, religious fraternal organization, or other organization (a trade, industry, or professional association, a chamber of commerce, or a public entity association) that the Secretary found (1) was formed for purposes other than the sale of health insurance and did not restrict membership based on the health status, claims experience, receipt of health care, medical history, or lack of insurability, of an individual; (2) did not exist solely or prin-

cipally for the purposes of selling insurance; and (3) had at least 1,000 individual members. Association sponsors would have to limit eligibility to individuals who were members of the association (or their spouses). Associations could not terminate coverage of an individual because the individual was no longer an association member except pursuant to a change of election during an open election period occurring on or after the date of termination of membership.

These eligibility rules could not have the effect of denying eligibility to individuals on the basis of health status, claims experience, receipt of health care, medical history, or lack of evidence of insurability.

Submission and Charging of Premiums.—Each MedicarePlus organization would be required annually to file the amount of the monthly premium for coverage under each of its products it would be offering in each payment area, and the enrollment capacity in relation to the product in each such area. The monthly premium charged for a product offered in a payment area would equal 1/12 of the amount (if any) by which the premium exceeded the MedicarePlus capitation rate (see below). Premiums could not vary among individuals who resided in the same payment area. An exception would apply to high-deductible/Medisave products which would be experience-rated based on specified risk factors. (These factors are the same as those used for setting the MedicarePlus contribution level.) Each MedicarePlus organization would have to permit monthly payment of premiums. An organization could terminate election of individuals for a MedicarePlus product for failure to make premium payments but only under specified conditions.

Relation of Premiums and Cost-Sharing to Benefits.—In no case may the portion of a MedicarePlus organization's premium rate and the actuarial value of its deductibles, coinsurance and copayments attributable to the minimum benefits exceed the actuarial value of the coinsurance and deductible applicable in the non-MedicarePlus option.

Requirement for Additional Benefits, Part B Premium Discount Rebates, or Both.—If the actuarial value of the benefits under the MedicarePlus product (as determined based upon the adjusted community rate (ACR)—see below) for individuals was less than the average of the capitation payments made to the organization for the product at the beginning of an annual contract period, the organization could provide additional benefits, a monetary rebate (paid on a monthly basis) of the Part B monthly premium, or a combination of both. The value of these benefits, rebates or combination thereof would have to be at least as much as the amount by which the capitation payment exceeded the ACR, and would have to be applied uniformly for all enrollees in a product area. The rebate could not exceed the amount of the Part B premium (not taking into account penalties for late enrollment or the amount incurred as a result of affluence testing). The organization could provide that a part of the excess be withheld for the organization's stabilization fund. A MedicarePlus organization could provide additional benefits (over and above those required to be added as a result of the excess payment), and could impose a premium for such

additional benefits. Cash or other types of rebates to induce enrollment or otherwise would be prohibited.

A MedicarePlus organization could provide that a part of the value of the excess actuarial amount be withheld and reserved in the HI and SMI trust funds (in such proportions as the Secretary determined to be appropriate) by the Secretary for subsequent annual contract periods, to the extent required to stabilize and prevent undue fluctuations in the additional benefits and rebates offered in those subsequent periods. Leftover amounts not provided as additional benefits would revert to the trust funds.

Adjusted Community Rate (ACR).—Similar to current law, the ACR would mean, at the election of the MedicarePlus organization, either the rate of payment services which the Secretary annually determined would apply to the individuals electing a MedicarePlus product if the payment were determined under a community rating system, or the portion of the weighted aggregate premium which the Secretary annually estimated would apply to the individual but adjusted for differences between the utilization of individuals under Medicare and the utilization of other enrollees (or through another specified manner). For PSOs, the ACR could be computed using data in the general commercial marketplace or (during the transition period) based on the costs incurred by the organization in providing such a product.

Rules Regarding Physician Participation.—Each MedicarePlus organization would be required to establish reasonable procedures relating to the participation of physicians by providing: (a) notice of rules of participation; (b) written notice of participation decisions that are adverse to providers; and (c) a process within the organization for appealing adverse decisions, including the presentation of information and views of the provider regarding such decision. The organization would be required to consult with physicians who have entered into participation agreements with the organization regarding the organization's medical policy, quality and credentialing criteria, and medical management procedures.

Each MedicarePlus organization would be prohibited from operating any physician incentive plan (*i.e.*, any compensation arrangement between a MedicarePlus organization and a physician or physician group that directly or indirectly has the effect of reducing or limiting services provided to enrollees) unless certain requirements were met: (1) No specific payment could be made directly or indirectly under the plan to a physician or physician group as an inducement to reduce or limit medically necessary services provided with respect to a specific enrollee; (2) if a plan placed a physician or physician group at substantial financial risk for services not provided by the physician or group, the organization provided adequate and appropriate stop-loss protection and conducted periodic surveys of both individuals enrolled and previously enrolled to determine their degree of access to services and satisfaction with the quality of those services; and (3) the organization provided to the Secretary descriptive information sufficient to determine the plan's compliance.

A MedicarePlus organization may not provide (directly or indirectly) for a provider (or group of providers) to indemnify the organization against any liability resulting from a civil action brought

by or on behalf of an enrollee for any damage caused to the enrollee by the organization's denial of medically necessary care.

MedicarePlus fee-for-service plans (those organizations which do not have agreements between physicians and the organizations for the provision of services) are exempt from these requirements.

Provision of Information.—Each MedicarePlus organization would be required to provide the Secretary with the information needed to prepare the information booklet described above.

Appropriate Range of Services.—A MedicarePlus organization can not deny any health care professionals, based solely on the license or certification as applicable under State law, the ability to participate in providing covered health services, or be reimbursed or indemnified by a network plan for providing such services.

Coordinated Acute and Long-Term Care Benefits under a MedicarePlus Product.—States would be able to coordinate benefits under their MediGrant programs with those provided under a MedicarePlus product to assure continuity of a full range of acute and long-term care services to eligible poor elderly or disabled individuals.

Transitional File and Use for Certain Requirements.—In the case of MedicarePlus products proposed to be offered during the transition period, contractors could submit information to the Secretary demonstrating that the product meets the requirements and standards relating to benefits and premiums; if the Secretary does not disapprove the product within 60-days, the product is deemed as meeting these requirements. Contractors must still meet all other MedicarePlus contract requirements and standards.

Patient Protection Standards

Current Law.—Medicare HMOs/CMPs must provide enrollees, at the time of enrollment and annually thereafter, an explanation of rights to benefits, restrictions on services provided through nonaffiliated providers, out-of-area coverage, coverage of emergency and urgently needed services, and appeal rights.

Medicare HMOs/CMPs must make all Medicare covered services and all other services contracted for available and accessible within their service areas, with reasonable promptness and in a manner that assures continuity of care. Urgent care must be available and accessible 24 hours a day and 7 days a week. HMOs must also pay for services provided by nonaffiliated providers when services are medically necessary and immediately required because of an unforeseen illness, injury, or condition and it is not reasonable, given the circumstances, to obtain the services through the HMO.

Medicare HMOs/CMPs must enroll individuals and provide covered services to enrollees who live within the geographic area served by the organization. Regulations provide that geographic area means the area found by HCFA to be that within which the HMO furnishes, or arranges for furnishing, the full range of services it offers to its Medicare enrollees.

HMOs/CMPs are required to have arrangements for an ongoing quality assurance program that stresses health outcomes and provides review by physicians and other health care professionals of the process followed in the provision of health services. External review is conducted by a peer review organization (PRO), one of the

groups that has contracted with the Secretary for review of the quality and appropriateness of hospital services. PRO reviews of HMOs/CMPs cover both inpatient and outpatient care. The Secretary also has the right to inspect or otherwise evaluate the quality, appropriateness, and timeliness of services provided and the facilities of the organization when there is reasonable evidence of some need for inspection.

In up to 25 States, the Secretary is authorized to designate another external agency, known as a quality review organization or QRO to perform reviews. QROs must meet many of the same standards as PROs, but have not contracted with the Department of Health and Human Services (HHS) for the review of services other than those provided by an HMO/CMP.

HMOs/CMPs must have meaningful grievance procedures for the resolution of individual enrollee complaints about such problems as failure to receive covered services or unpaid bills. In addition, an enrollee who believes that the HMO has improperly denied a service or imposed an excessive charge has the right to a hearing before the Secretary if the amount involved is greater than \$100. If the amount is greater than \$1,000, either the enrollee or the HMO may seek judicial review.

Explanation of Provision.

Disclosure to Enrollees.—Each MedicarePlus organization would be required to disclose in clear, accurate, and standardized form certain information including: (1) benefits, including coverage exclusions and, for a high-deductible/medisave product, a comparison of its benefits with those under other MedicarePlus products; (2) rules relating to prior authorization or other review requirements that could result in nonpayment; (3) liability for cost-sharing for out-of-network services; (4) the number, mix, and distribution of providers; (5) financial obligations of the enrollee; (6) enrollee satisfaction data; (7) enrollee rights and responsibilities; (8) a statement that use of the 911 number is appropriate in emergency situations; and (9) a description of the organization's quality assurance program.

Access to Services.—A MedicarePlus organization offering a MedicarePlus product could restrict the providers from whom benefits were to be provided so long as: (1) the organization made the benefits available to each individual electing the product within the service area with reasonable promptness and in a manner which assured continuity in the provision of benefits, (2) when medically necessary, the organization made benefits available and accessible 24 hours a day and 7 days a week, and (3) the product provided for reimbursement to other organizations if the services were medically necessary and immediately required because of an unforeseen illness, injury, or condition and it was not reasonable given the circumstances to obtain the services through the organization.

Emergency services are defined as health care items and services (as well as ancillary services) furnished in the emergency department of a hospital to the extent they are required to evaluate and treat an emergency medical condition until the condition is stabilized. The term emergency medical condition is defined as a medical condition, the onset of which is sudden, that manifests itself

by symptoms of sufficient severity, including severe pain, that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in: placing the person's health in serious jeopardy; serious impairment to bodily functions; or serious dysfunction of any bodily organ or part.

A MedicarePlus organization must provide access 24 hours a day and 7 days a week to persons authorized to provide prior authorization for covered services that a treating physician or other emergency department personnel identify pursuant to a screening evaluation as being promptly needed. A MedicarePlus organization is deemed to have approved a request for such promptly needed services if the physician or the emergency department personnel involved has made a reasonable effort to contact the appropriate personnel or has requested such authorization and the authorization has not been denied within 30 minutes.

If the MedicarePlus product provided out-of-network coverage, the payment level for services furnished outside the network would have to be at least 70 percent (or, if the cost-sharing was 50 percent, at least 35 percent) of the lesser of the payment basis (determined without regard to deductibles and cost-sharing) that would have applied under Medicare Parts A and B, or the amount charged by the entity furnishing such items and services. For emergency services, Medicare participating providers would be required to accept as payment in full from the MedicarePlus organization the amount that would have been payable under Part B and from the individual, if the individual had not enrolled with the organization. For emergency services, in the case of nonparticipating physicians, the limitations on actual charges for such services otherwise applicable under Part B would apply.

Confidentiality and Accuracy of Enrollee Records.—Each MedicarePlus organization would have to establish procedures to safeguard the privacy of individually identifiable enrollee information and maintain accurate and timely medical records.

Quality Assurance.—Each MedicarePlus organization would be required to arrange (in accordance with regulations of the Secretary) for an ongoing quality assurance program meeting certain requirements such as: (1) stressing health outcomes; (2) providing the establishment of written protocols for utilization review; (3) providing review by physicians and other health care professionals of the process followed in the provision of services; (4) monitoring and evaluating high volume and high risk services and the care of acute and chronic conditions; (5) evaluating the continuity and coordination of care; (6) establishing mechanisms to detect underutilization and overutilization; (7) making information available on quality and outcomes to facilitate beneficiary comparison and choice; (8) evaluating on an ongoing basis the plan's effectiveness; and (9) providing for external accreditation or review, by a Medicare PRO or other qualified independent review organization, that the quality of services furnished by the organization has met professionally recognized standards of health care (including providing adequate access for enrollees to services). In addition, MedicarePlus fee-for-service plans are exempt from the requirement that the organization have arrangements for an ongoing qual-

ity assurance program and that it maintain accurate and timely medical records for enrollees.

The Secretary shall provide that a MedicarePlus organization is deemed to have met these requirements if it is accredited by a private organization under a process that the Secretary has determined assures that the organization meets standards that are no less stringent than those required by the bill.

Coverage Determinations.—Each MedicarePlus organization would have to make determinations regarding authorization requests for nonemergency care on a timely basis, as well as appeals of such decisions. Medical necessity decisions to deny coverage could only be made by a physician. Appeals of a determination would have to be decided within 30 days of receiving medical information and no later than 60 days after the date of the decision. Appeals relating to a life-threatening or emergency situation would have to be decided on an expedited basis.

Grievance and Appeals.—Each MedicarePlus organization would have to provide for meaningful procedures for hearing and resolving grievances between the organization (and entities and individuals through which it provides services) and enrollees. An enrollee dissatisfied by reason of the enrollee's failure to receive health services would be entitled, if the amount in controversy was \$100 or more, to a hearing before the Secretary. If the amount in controversy was \$1,000 or more, the individual or organization, upon notifying the other party, would be entitled to judicial review.

Information on Advance Directives.—Each MedicarePlus organization would be required to maintain written policies and procedures respecting advance directives (as specified elsewhere in the Medicare statute).

Approval of Marketing Materials.—Each MedicarePlus organization could not distribute marketing material unless (1) at least 45 days before distribution, the organization submitted the material to the Secretary for review, and the Secretary did not disapprove the material. Standards established below would include guidelines for the review of such materials. Under these guidelines, the Secretary would be required to disapprove marketing material if it was materially inaccurate or misleading or otherwise made a material misrepresentation. To facilitate "one stop shopping," materials submitted to the Secretary by an organization for a MedicarePlus product in an area that were not disapproved would be considered as such for all other areas covered by the product and organization. Each MedicarePlus organization would be required to conform to fair marketing standards included in the MedicarePlus standards. Such standards would include a prohibition against a plan (or agent of such a plan) completing any portion of any election form on behalf of any individual.

Provider-Sponsored Organizations (PSOs)

Current Law.—PSOs do not qualify as eligible organizations for Medicare managed care contracts.

Explanation of Provision

Provider-Sponsored Organization (PSO) Defined.—A PSO means a public or private entity that (in accordance with standards estab-

lished under this bill) is a provider or group of affiliated providers that provides a substantial portion of health care under the contract directly through the provider or affiliated group of providers. In defining substantial proportion, the Secretary would be required to consider the need for such an organization to assume responsibility for a substantial portion of services in order to assure financial stability and other factors. Affiliation is specifically defined.

Process for Establishing Standards and Process for State Certification of PSOs.—These requirements are specified in other sections of the bill.

Conditions for Preemption from State Insurance Licensing Requirements.—In general, State law would be preempted which requires that a PSO meet requirements for insurers of health services or HMOs doing business in the State with respect to initial capitalization and establishment of financial reserves against insolvency or imposes requirements that would have the effect of prohibiting the PSO from complying with the applicable requirements of the bill. The general preemption of State law would not apply with respect to State laws that meet the bill's requirements for the Secretary to approve State PSO certification. Nothing in this provision would affect the operation of the Federal preemption of State law under section 514 of ERISA.

Payments to MedicarePlus Plans

Current Law.—Under a Medicare risk contract, an HMO agrees to provide or arrange the full scope of covered Medicare services in return for a single monthly capitation payment issued by Medicare for each enrolled beneficiary. One of the numbers used to determine this payment is the adjusted average per capita cost, or AAPCC. The other, the adjusted community rate or ACR, is discussed above.

The AAPCC is Medicare's estimate of the average per capita amount it would spend for a given beneficiary (classified by certain demographic characteristics and county of residence) who was not enrolled in an HMO and who obtained services on the usual fee-for-service basis. Separate AAPCCs are established for enrollees on the basis of age, sex, whether they are in a nursing home or other institution, and whether they are also eligible for Medicaid, and the county of their residence. These AAPCC values are calculated in four basic steps:

Medicare national average calendar year per capita costs are projected for the future year under consideration. These numbers are known as the U.S. per capita costs (USPCCs) and are estimated average incurred benefit costs per Medicare enrollee and adjusted to include program administration costs. USPCCs are developed separately for Parts A and B of Medicare, and for costs incurred by the aged, disabled, and those with ESRD in those two parts of the program.

Geographic adjustment factors that reflect the historical relationships between the county's and the Nation's per capita costs are used to convert the national average per capita costs to the county level.

Expected Medicare per capita costs for the county are adjusted to a fee-for-service basis by removing both reimburse-

ment and enrollment attributable to Medicare beneficiaries in prepaid plans.

The recalculated county per capita cost is converted into rates that vary according to the demographic variables enumerated above: age, sex, institutional status, and Medicaid status.

For each Medicare beneficiary enrolled under a risk contract, Medicare will pay the HMO 95 percent of the rate corresponding to the demographic class to which the beneficiary is assigned.

Explanation of Provision.—In general, a MedicarePlus organization under a contract with the Secretary would be paid, with respect to coverage of an individual in a payment area for a month, an amount equal to the monthly adjusted MedicarePlus capitation rate with respect to that individual for that area. Each year, the Secretary would be required to determine and announce no later than September 7 the annual MedicarePlus capitation rate for each payment area for the year, and the factors to be used in adjusting monthly payment rates. An explanation of the assumptions and changes in methodology would have to be included in sufficient detail so that organizations could compute monthly adjusted MedicarePlus capitation rates. The Secretary would be required to provide advance notice (at least 45 days prior to the announcement) of the proposed changes in the methodology and assumptions used to develop the rates, and give organizations an opportunity to comment.

Monthly Adjusted MedicarePlus Capitation rate.—Each month, the MedicarePlus organization would be paid for an individual in a payment area, and in a class (as described below), 1/12 of that year's annual MedicarePlus capitation rate. This amount would be adjusted to reflect the relative actuarial value of Medicare benefits with respect to individuals in a class compared to the national average for individuals in all classes. A payment area is a county (or equivalent area specified by the Secretary) except for the ESRD population, in which case the area is the State.

For purposes of calculating rates, the Medicare population would be divided into three separate groups: the aged, the disabled, and those who have been determined to have end stage renal disease (ESRD). The Secretary would be required to define appropriate classes of enrollees, based on age, gender, welfare status, institutionalization, and such other factors as the Secretary determined to be appropriate so as to ensure actuarial equivalence. The Secretary could add, modify, or substitute for such classes to improve determination of actuarial equivalence. The Secretary would be required to conduct the research needed to provide for greater accuracy in the adjustment of capitation rates. This could include research into the addition or modification of classes. The Secretary would have to report to Congress on this research by January 1, 1997.

Per Capita Growth Rates.—In general, payment rates for each area would be calculated so as to improve contribution levels in rural and low service utilization markets. Payments to health plans from 1996 onward would be "decoupled" from local fee-for-service expenditures and paid instead on a budgeted system. Rates would be established so that, over time, payments to areas with higher-than-average utilization of services would be increased more slowly

than payments to areas with lower-than-average utilization. In addition, payments would be calculated so as to ensure that legitimate costs of doing business in different areas (based on certain input prices) would be recognized in the contribution levels.

To establish the payment rates for 1996, areas would be classified according to their average per capita utilization of services (see below). Those areas experiencing the lowest utilization in services would be assigned a per capita growth rate of 9.7 percent, the next lower, 8.0 percent, the median, 5.3 percent, the next higher, 4.7 percent, and those with the highest utilization, being assigned a per capita growth rate of 4.0 percent. A further adjustment might be necessary to ensure that the total capitation payments made in 1996 are the same as would have otherwise been made if the per capita growth rate for all areas were equal to the national average per capita growth rate of 5.3 percent.

To establish the payment rates for years after 1996, the Secretary would be required to compute a per capita growth rate for each year for each of the five service utilization cohorts. This computation of payments for each cohort is pegged to the national average per capita growth rate which is as follows:

1996 = 5.3%
 1997 = 3.8%
 1998 = 4.6%
 1999 = 4.3%
 2000 = 3.8%
 2001 = 5.5%
 2002 = 5.6%
 Subsequent years = 5.0%

The median service utilization cohort would receive the national average per capita growth rate for the year. Those areas assigned to the lowest service utilization cohort would get 187.5 percent of the national average growth rate, and those in the highest would get 75 percent. The Secretary would calculate intermediate growth rates for the second and fourth cohorts at an amount that would assure budget neutrality relative to the national average per capita growth rates. Specifically, the growth rates for each cohort are as follows:

lowest = 187.5% of the national average per capita growth rate (NAGR)
 lower = 150% of the NAGR or lower if needed to meet budget neutrality
 median = the average NAGR
 higher = gets a rate calculated to achieve budget neutrality, but not less than 75% of the NAGR
 highest = 75% of the NAGR

Assignment of Payment Areas to Service Utilization Cohorts.—Each year the Secretary would assign each payment area to a utilization cohort based on a service utilization index value:

lowest— less than .80
 lower— .80-.89
 median— .90-1.09
 higher— 1.10-1.19
 highest— 1.20 or more

The service utilization index value would be equal to the annual MedicarePlus capitation rate for each payment area divided by the input-price adjusted national capitation rate for that area for the year. (The utilization index for one year would be used to set cohorts for the update for the next year). The input-price adjusted capitation rate would be calculated by multiplying the weighted average capitation rate by an input price index (separate indices would be applied for different types of services). For 1996, the Secretary would apply an input price adjustment specified in the legislation; for 1997, the Secretary could continue to use the special rules for 1996. The Secretary would develop refined input price adjustments to be used in later years.

Payment Process.—The Secretary would be required to make monthly payments in advance to the plan for each individual enrolled with a MedicarePlus organization. The payment would be retroactively adjusted to take into account any differences between the actual number of individuals enrolled with an organization and the number of such individuals estimated to be so enrolled in determining the amount of the advance payment.

Special Rules for Individuals Electing High-Deductible/Medisave Products.—In the case of an individual who elected a high-deductible/medisave product, the payment to the MedicarePlus organization could not exceed the premium for the high-deductible product and the difference between the amount that would have otherwise been paid. Anything in addition to that amount would be paid directly into the individual's medisave account on a monthly basis.

Payments from Trust Fund.—Payments to the MedicarePlus organizations would be made from the HI and SMI trust funds in such proportion as the Secretary determined reflected the relative weights that benefits under Parts A and B represented of Medicare's actuarial value.

Establishment of MedicarePlus Standards

Current Law.—Under section 1876 of the Social Security Act, Medicare specifies requirements to be met by an organization seeking to become a managed care contractor with Medicare. There is no provision for the National Association of Insurance Commissioners (NAIC) to play a role in developing or establishing these requirements. There is no provision for Provider-Sponsored Organizations.

Explanation of Provision.—The Secretary would be required to request NAIC to develop and submit within 12 months after enactment proposed standards consistent with the bill requirements for MedicarePlus organizations (other than MedicarePlus sponsors) and products. Such proposed standards may relate to qualified associations only with respect to MedicarePlus products offered by them and only if such products are issued by organizations which are organized and licensed under State law.

If the NAIC's submission was timely, the Secretary would review the proposed standards within 90 days and promulgate them with modifications to the extent they did not meet the requirements. If the Association's submission was not timely, the Secretary would be required to promulgate proposed standards no later than other-

wise required. Until such standards were established, the Secretary would provide interim standards as might be appropriate.

The Secretary would also develop and promulgate MedicarePlus standards for sponsoring organizations and products except for products offered by qualified associations organized and licensed under State law to offer health insurance or health benefits coverage. With respect to Taft-Hartley sponsors and qualified associations, the Secretary would be required to consult with the Secretary of Labor and the standards would be promulgated about the same time as the general MedicarePlus standards.

Standards for Provider-Sponsored Organizations.—With respect to provider-sponsored organizations, the Secretary would establish standards on an expedited basis using the negotiated rule-making process under Title 5, United States Code:

The target publication date for the rule would be September 1, 1996.

Within 45 days after enactment, the Secretary, after consulting with the National Association of Insurance Commissioners, the American Academy of Actuaries, organizations representing Medicare beneficiaries, and other interested parties, would publish the notice required by section 564(a) of Title 5.

The period for submitting comments would be shortened to 15 days, and within 30 days thereafter the Secretary would be required to provide for the appointment of a negotiated rule-making committee. The Secretary would be required to provide for a facilitator no later than 10 days after the establishment of the committee.

The negotiated rulemaking committee would be required to report to the Secretary no later than June 1, 1996, regarding its progress towards reaching consensus and whether that was likely to occur before one month prior to the target publication date. If the committee reported it had failed to make significant progress towards reaching consensus, or if it was unlikely to reach consensus by the target date, the Secretary could terminate the process and provide for the publication of the rule through other methods. Otherwise, the committee would be required to submit a report containing the proposed rule no later than one month before the target publication date.

The Secretary would publish the rule in the Federal Register by the target publication date. The rule would be effective and final immediately on an interim basis, but subject to revision after public notice and opportunity for comment of not less than 60 days. The Secretary would be required to provide for consideration of such comments and republication of the rule not later than one year after the target publication date.

With the initial publication of the final rule, the Secretary would be required to specify a process for timely review and approval of entities to be certified as provider-sponsored organizations. Completed applications would be acted upon within 60 days of receipt.

After consulting with the negotiated rulemaking committee, the Secretary by March 1, 1996, would be required to circulate a proposed application form.

In establishing MedicarePlus standards other than on an interim basis, the Secretary would be required to try to be consistent where appropriate in order to promote the equitable treatment of different types of MedicarePlus organizations and the consistent protection for individuals who chose their products. Standards established on an interim basis, by no later than June 1, 1996, could be based on currently applicable standards, such as those established for analogous provisions of section 1876 or the private health insurance market. At the time MedicarePlus standards change, an organization with a contract in effect could elect not to have the changes apply until the end of the contract year (or, if there is less than 6 months remaining in the contract year, until one year after its end). Standards under this section would supersede any State law or regulation (to the extent it is inconsistent with the standards) with respect to MedicarePlus products which are offered by MedicarePlus organizations and are issued by organizations that are organized and licensed under State law to offer health insurance or health benefits coverage.

Process for Certification of MedicarePlus Organizations and Products

Current Law.—Eligibility to be a Medicare managed care contractor is determined by the Department of Health and Human Services. States do not play a role in certifying organizations as eligible to become Medicare managed care contractors.

Explanation of Provision.

State Certification Process.—The Secretary would be required to approve a MedicarePlus certification and enforcement program established by a State for applying MedicarePlus standards to MedicarePlus organizations and products if the Secretary determined that the program effectively provided for the application and enforcement of the MedicarePlus standards. State certification would not apply to Taft-Hartley sponsors or, except as follows, provider-sponsored organizations. The Secretary would be required to establish a process under which States could propose to certify provider-sponsored organizations, but State proposals would not be approved unless the Secretary determined that the program had standards and requirements identical to the MedicarePlus standards and that the provisions for enforcement would not result in a lower level or quality of enforcement than those of this title. State certification programs would have to provide for certification of compliance of MedicarePlus organizations and products not less often than once every three years. A State could impose user fees on organizations seeking certification to finance its cost. A MedicarePlus organization or product with State certification would be considered to be certified with respect to offerings of the product to individuals residing in the State.

The Secretary would be required to periodically review approved State certification programs to determine if they continued to provide for certification and enforcement. States found to be out of compliance would be allowed an opportunity to adopt a plan of correction. If the failure continued, the Federal certification process described below would be applied. The Secretary would be required

to publish and periodically update a list of approved State programs.

Federal Certification Processes.—Beginning on the date MedicarePlus standards were established, for States for which certification programs were not approved and operating, the Secretary would be required to establish a process for certifying that such organizations and products met the standards.

The Secretary would also be required to establish a process for certifying that sponsoring organizations and their respective MedicarePlus products met MedicarePlus standards. With respect to Taft-Hartley sponsors, the process would be established and operated in cooperation with the Secretary of Labor. To the maximum extent practicable, the Federal process would use private accreditation processes that the Secretary finds apply standards no less stringent than the requirements of this part. The use of private accreditation processes would be valid only for periods specified by the Secretary. The Secretary could impose user fees on organizations seeking certification to finance its cost.

Notice to Enrollees in Case of Decertification.—In the event that a MedicarePlus organization or product was decertified, the plan would have to notify each enrollee.

Qualified Associations.—The certification provisions of this section would not limit the authority of States to regulate products offered by MedicarePlus organizations that are qualified associations and are organized and licensed under State law to offer health insurance or health benefits coverage, or by provider-sponsored organizations.

Contracts with MedicarePlus Organizations

Current Law.—Contracts with HMOs are for 1 year, and may be made automatically renewable. However, the contract may be terminated by the Secretary at any time (after reasonable notice and opportunity for a hearing) in the event that the organization fails substantially to carry out the contract, or carries out the contract in a manner inconsistent with the efficient and effective administration of Medicare HMO law, or no longer meets the requirements specified for Medicare HMOs. The Secretary also has authority to impose certain lesser sanctions, including suspension of enrollment or payment and imposition of civil monetary penalties. These sanctions may be applied for denial of medically necessary services, overcharging, enrollment violations, misrepresentation, failure to pay promptly for services, or employment of providers barred from Medicare participation.

To be eligible to be a risk contractor, HMOs/CMPs must have at least 5,000 members; if, however, they primarily serve members outside urbanized areas, they may have fewer enrollees (defined in regulation as at least 1,500). Organizations eligible for Medicare cost contracts may have fewer members than 5,000 (specified in regulation as at least 1,500).

No more than 50 percent of the organization's enrollees may be Medicare or Medicaid beneficiaries. This rule may be waived, however, for an organization that serves a geographic area where Medicare and Medicaid beneficiaries make up more than 50 percent of

the population or (for 3 years) for an HMO that is owned and operated by a governmental entity.

During its annual open enrollment period of at least 30 days duration, HMOs must accept beneficiaries in the order in which they apply, up to the limits of its capacity, unless to do so would lead to violation of the 50 percent Medicare-Medicaid maximum or to an enrolled population unrepresentative of the population in the area served by the HMO. If an HMO chooses to limit enrollment because of its capacity, regulation provides that it must notify HCFA at least 90 days before the beginning of its open enrollment period and, at that time, provide HCFA with its reasons for limiting enrollment.

In areas where Medicare has risk contracts with more than one HMO and an HMO's contract is not renewed or is terminated, the other HMOs serving the area must have an open enrollment period of 30 days for persons enrolled under the terminated contract.

Explanation of Provision

In General.—In order to be paid by Medicare, the MedicarePlus organization would have to enter into a contract with the Secretary providing that the organization agreed to the specific terms and conditions of payment as provided under the bill. A contract could cover more than one MedicarePlus product. In addition, elections of a MedicarePlus product would not be permitted unless these conditions were met.

Minimum Enrollment Requirements.—The Secretary would be prohibited from entering a contract with a MedicarePlus organization, other than a Taft-Hartley sponsor, unless the organization had at least 5,000 individuals (or 1,500 individuals in the case of a PSO) who were receiving health benefits through the organization. An exception would apply if the MedicarePlus standards permitted the organization to have a lesser number of beneficiaries (but not less than 500 for a PSO) if the organization primarily served individuals residing outside of urbanized areas. The Secretary could waive this requirement during an organization's first 3 contract years. (The enrollment requirements would not apply to a high-deductible/medisave product.)

Contract Period and Effectiveness.—The contract would be for at least one year, and could be made automatically renewable. The Secretary could terminate any contract or impose intermediate sanctions (as specified in the bill) on the organization if the Secretary found that the organization: (a) failed substantially to carry out the contract; (b) was carrying it out in a manner inconsistent with efficient and effective administration; (c) was operating in a manner that was not in the best interests of the individuals covered under the contract; or (d) no longer substantially met MedicarePlus standards. The Secretary would not have to contract with an organization that had voluntarily terminated its contract with Medicare in the previous 5 years. Contracts for coverage under a high-deductible/medisave account could not take effect before January 1997.

Protections Against Fraud and Beneficiary Protections.—Each contract would provide that the Secretary or his or her designee would have the right to inspect or otherwise evaluate the quality,

appropriateness and timeliness of services, and the organization's facilities if there was reasonable evidence of need for such inspection, and would have the right to audit and inspect the books and records. The contract would require the organization to provide and pay for written notice in advance of a termination, and a description of alternatives for obtaining benefits, to each enrollee. In addition, the contract would require the organization to comply with certain financial disclosure and liability requirements; to provide specified information; notify the Secretary of loans or other financial arrangements made between the organization, subcontractors and affiliates; and contain other provisions as the Secretary found appropriate. Each MedicarePlus organization would be required to make specified information available to enrollees.

Intermediate Sanctions.—The Secretary would be authorized to carry out specific remedies in the event that a contractor organization: (1) failed substantially to provide medically necessary items and services required to be provided, if the failure adversely affected (or had the substantial likelihood of adversely affecting) the individual; (2) imposed premiums on individuals that were in excess of the premiums permitted; (3) expelled or refused to re-enroll an individual; (4) engaged in any practice that would reasonably be expected to have the effect of denying or discouraging enrolling by eligible individuals with the organization whose medical condition or history indicates a need for substantial future medical services; (5) misrepresented or falsified information; (6) failed to comply with other specified requirements; or (7) employed or contracted with any individual or entity that was excluded from Medicare or Medicaid participation for the provision of health care, utilization review, medical social work, or administrative services, or employed or contracted with any entity for the provision through such an excluded individual or entity.

The remedies would include civil money penalties of not more than \$25,000 for each determination of a failure (as described above) or with respect to certain failures (such as denying enrollment to persons with a preexisting medical condition or misrepresenting information furnished to the Secretary), of not more than \$100,000. In cases of the latter, the Secretary could also levy a \$15,000 fine for each individual not enrolled. In the case of an organization determined to have charged excess premiums, the Secretary could also recover twice the excess amount (and return the excess amount to the affected individual). In addition, the Secretary could suspend enrollment of individuals and payment to the organization after notifying the organization of an adverse determination and until the Secretary was satisfied that the failure had been corrected or would not reoccur.

If, under his or her authority to terminate contracts, the Secretary determined that an organization failure had occurred other than those described above, other intermediate sanctions could be imposed. These include: (1) civil money penalties up to \$25,000 if the deficiency directly adversely affected (or had the likelihood of adversely affecting) an individual under the organization's contract; (2) penalties of not more \$10,000 for each week after the Secretary initiated procedures for imposing sanctions; and (3) suspension of

enrollment until the deficiency had been corrected and the Secretary determined was unlikely to recur.

Procedures for Imposing Sanctions.—The Secretary could terminate a contract or impose the intermediate sanctions described above in accordance with formal investigation and compliance procedures established by the Secretary which follow certain specifications (e.g., the organization is given a chance to implement a corrective action plan).

Use of Interim, Final Regulations.—To carry out the MedicarePlus contracting responsibilities, the Secretary would be authorized to promulgate regulations that take effect on an interim basis, after notice and pending opportunity for public comment.

Sec. 15003. Duplication and Coordination of Medicare-Related Products

Current Law.—Many Medicare beneficiaries purchase private health insurance to supplement their Medicare coverage. These individually purchased policies are commonly known as Medigap policies. OBRA 90, P.L. 101–508, provided for a standardization of Medigap policies. OBRA 90 also substantially modified the anti-duplication provision contained in law. The intent of the OBRA 90 anti-duplication provision was to prohibit sales of duplicative Medigap policies. However, the statutory language applied, with very limited exceptions, to all “health insurance policies” sold to Medicare beneficiaries. Observers noted that this provision could thus apply to a broad range of policies including hospital indemnity plans, dread disease policies, and long-term care insurance policies.

The Social Security Amendments of 1994 (P.L. 103–432) included a number of technical modifications to the Medigap statute, including modifications to the anti-duplication provisions. Under the revised language, it is illegal to sell or issue the following policies to Medicare beneficiaries: (i) a health insurance policy with knowledge that it duplicates Medicare or Medicaid benefits to which a beneficiary is otherwise entitled; (ii) a Medigap policy, with knowledge that the beneficiary already has a Medigap policy, or (iii) a health insurance policy (other than Medigap) with knowledge that it duplicates private health benefits to which the beneficiary is already entitled. A number of exceptions to these prohibitions are established. The sale of a Medigap policy is not in violation of the provisions relating to duplication of Medicaid coverage if: (i) the State Medicaid program pays the premiums for the policy; (ii) in the case of qualified Medicare beneficiaries (QMBs), the policy includes prescription drug coverage; or (iii) the only Medicaid assistance the individual is entitled to is payment of Medicare Part B premiums.

The sale of a health insurance policy (other than a Medigap policy) that duplicates private coverage is not prohibited if the policy pays benefits directly to the individual without regard to other coverage. Further, the sale of a health insurance policy (other than a Medigap policy to an individual entitled to Medicaid) is not in violation of the prohibition relating to selling of a policy duplicating Medicare or Medicaid, if the benefits are paid without regard to the duplication in coverage. This exception is conditional on the promi-

ment disclosure of the extent of the duplication, as part of or together with, the application statement.

P.L. 103-432 provided for the development by the National Association of Insurance Commissioners (NAIC) of disclosure statements describing the extent of duplication for each of the types of private health insurance policies. Statements were to be developed, at a minimum, for policies paying fixed cash benefits directly to the beneficiary and policies limiting benefits to specific diseases. The NAIC identified 10 types of health insurance policies requiring disclosure statements and developed statements for them. These were approved by the Secretary and published in the *Federal Register* on June 12, 1995.

Explanation of Provision

Duplication and Coordination of Medicare-Related Products.—The provision would modify the anti-duplication provisions. It would be unlawful to sell to a Medicare beneficiary (including a person under MedicarePlus) a health insurance policy (other than a Medigap policy) with knowledge that it duplicated benefits under Medicare or Medicaid. It would be unlawful to sell, to persons not electing MedicarePlus, a Medigap policy with knowledge that the person is entitled to benefits under another Medigap policy. It would be unlawful to sell to a person electing MedicarePlus a Medigap policy duplicating benefits to which the individual is otherwise eligible under Medicare or another Medigap policy. A policy would be considered duplicative if the policy provided specific reimbursement for identical items and services to the extent paid for under Medicare. A policy would not be considered duplicative if it provided for payment of benefits without regard to other health benefits coverage of the individual. The provision would change the disclosure requirements contained in P.L. 103-432 to require plans to disclose the extent to which they may coordinate benefits with Medicare as part of their outline of coverage.

A health insurance policy (or a rider to an insurance contract which is not a health insurance policy) that coordinates against or excludes items and services covered under Medicare, and for policies sold after January 1, 1996, discloses such coordination or exclusion in the policy's outline of coverage would not be considered duplicative. For this purpose, health insurance policies would include policies providing benefits for long-term care, nursing home care, home health care, or community-based care.

The provision would prohibit the imposition of criminal or civil penalties or the bringing or continuing of legal action relating to selling duplicative policies if the penalty or action was based on actions occurring after November 1, 1991 and before enactment of OBRA of 1995 and if the policy was not duplicative under the revised language. The provision would also prohibit a State from imposing any requirement related to the sale or issuance of a policy (or rider) to a Medicare beneficiary based on the premise that the policy or rider was duplicative. The provision would require the Secretary to report within 3 years of enactment on the advisability of restricting the sale to Medicare beneficiaries of health insurance policies that duplicate other insurance policies the individual may have.

The provision would specifically exclude MedicarePlus products from the definition of Medigap policies. It would also exempt health insurance products sold to persons electing MedicarePlus from requirements relating to the sale of standardized benefits packages and minimum loss ratios.

The provision would make it unlawful to sell or issue a health insurance policy covering expenses which would otherwise be counted toward meeting the annual deductible amount under a high deductible/medisave product.

Sec. 15004. Transitional Rules for Current Medicare HMO Program

Current Law.—There is no provision for transition rules under current law.

Explanation of Provision.—The Secretary would be prohibited from entering into any new risk sharing contract under section 1876 with an eligible organization for any contract year beginning on or after the date MedicarePlus standards are first established with respect to MedicarePlus organizations that are insurers or health maintenance organizations unless a contract with the organization had been in effect under section 1876 for the previous contract year. The Secretary could not extend or continue any risk-sharing contract for any contract year beginning on or after one year after the MedicarePlus standards are established.

The Secretary would also be prohibited from entering into any cost reimbursement contract under section 1876 beginning in any contract year starting on or after the enactment of this legislation. The Secretary could not extend or continue any cost reimbursement contract for any contract year beginning on or after January 1, 1998.

For individuals entitled to benefits under both Part A and Part B, payments for risk-sharing contracts for months beginning with January 1996 would be computed by substituting the payment rates specified in this bill in as timely a manner as possible. For individuals entitled to benefits only under Part B, the substitution would be based upon the proportion of those rates that reflects the proportion of payments under Title XVIII attributable to Part B.

Payments under cost reimbursement contracts under section 1876(a) would take into account the adjustments to Part A and Part B payments made by this legislation.

The 50:50 enrollment rule under section 1876(f) would not apply to contract years beginning on or after January 1, 1997.

Part 2. Special rules for MedicarePlus medical savings accounts

Sec. 15011. MedicarePlus MSAs

Current Law.—Under current law, the value of Medicare coverage and benefits is not includible in taxable income.

Individuals who itemize deductions may deduct amounts paid during the taxable year (if not reimbursed by insurance or otherwise) for medical expenses of the taxpayer and the taxpayer's spouse and dependents, to the extent that the total of such expenses exceeds 7.5 percent of the taxpayer's adjusted gross income. Medical expenses for this purpose include amounts paid for medical

insurance, including Medicare Part B premiums paid by the taxpayer.

Under current law, there are no specific tax provisions for MedicarePlus medical savings accounts ("MedicarePlus MSAs").

Explanation of Provision

Under the bill, individuals who are eligible for Medicare would be permitted to choose either the traditional Medicare program or a MedicarePlus product, including a plan with a high deductible insurance policy and a MedicarePlus MSA. To the extent an individual chooses such a plan, the Secretary of Health and Human Services would make a specified contribution directly into a MedicarePlus MSA designated by such individual. Only contributions by the Secretary of Health and Human Services could be made to a MedicarePlus MSA and such contributions would not be included in the taxable income of the MedicarePlus MSA holder.¹ Income earned on amounts held in a MedicarePlus MSA would not be currently includible in taxable income. Withdrawals from a MedicarePlus MSA would be excludable from taxable income if used for the qualified medical expenses of the MedicarePlus MSA holder.

Definition of MedicarePlus MSAs.—In general, a MedicarePlus MSA would be a tax-exempt trust (or a custodial account) created exclusively for the purpose of paying the qualified medical expenses of the account holder that meets requirements similar to those applicable to individual retirement arrangements ("IRAs").² The trustee of a MedicarePlus MSA could be a bank, insurance company, or other person that demonstrates to the satisfaction of the Secretary of the Treasury that the manner in which such person would administer the trust would be consistent with applicable requirements.

Distributions for purposes other than qualified medical expenses would be includible in taxable income. An additional tax of 50 percent of the amount includible in taxable income would apply to the extent the total distributions for purposes other than qualified medical expenses in a taxable year exceed the amount by which the value of the MedicarePlus MSA as of December 31 of the preceding taxable year exceeds 60 percent of the deductible of the plan under which the individual is covered. The additional tax would not apply to distributions on account of the disability or death of the account holder.

A MedicarePlus MSA trustee would be required to make such reports as may be required by the Secretary of the Treasury. A \$50 penalty would be imposed for each failure to file without reasonable cause.

Taxation of Distributions from a MedicarePlus MSA.—Distributions from a MedicarePlus MSA that are used to pay the qualified

¹ An individual would not have taxable income merely because the individual can choose among various Medicare Plus options and the traditional Medicare program.

² For example, no MedicarePlus MSA assets could be invested in life insurance contracts, MedicarePlus MSA assets could not be commingled with other property except in a common trust fund or common investment fund, and an account holder's interest in a MedicarePlus MSA would be nonforfeitable. In addition, if an account holder engages in a prohibited transaction with respect to a MedicarePlus MSA or pledges assets in a MedicarePlus MSA, rules similar to those for IRAs would apply, and any amounts treated as distributed to the account holder under such rules would be treated as not used for qualified medical expenses.

medical expenses of the account holder would be excludable from taxable income regardless of whether the account holder is enrolled in a medisave plan at the time of the distribution.³ Qualified medical expenses generally would be defined as under the rules relating to the itemized deduction for medical expenses (sec. 213). However, for this purpose, qualified medical expenses would not include any insurance premiums other than premiums for long-term care insurance.⁴ Distributions from a MedicarePlus MSA that are excludable from gross income under the proposal could not be taken into account for purposes of the itemized deduction for medical expenses.

Direct trustee-to-trustee transfers could be made from one MedicarePlus MSA to another MedicarePlus MSA without income inclusion.

The proposal includes a correction mechanism so that if contributions for a year are erroneously made by the Secretary of Health and Human Services, such erroneous contributions could be returned to the Secretary of Health and Human Services (along with any attributable earnings) from the MedicarePlus MSA without tax consequence to the account holder.

Treatment of MedicarePlus MSA at death.—The bill includes rules that would apply on the death of the MedicarePlus MSA owner. If the beneficiary of the MedicarePlus MSA is the account holder's surviving spouse and the spouse is eligible for Medicare, the spouse could treat the inherited MedicarePlus MSA as his or her own MedicarePlus MSA. If the spouse is not eligible for Medicare, the spouse could continue the MedicarePlus MSA and make withdrawals from the MedicarePlus MSA under the rules applicable to a medical savings account for individuals not eligible for Medicare under the medical savings account provisions of the Revenue Reconciliation Act of 1995 as approved by the Committee. Thus, distributions from the account for the qualified medical expenses of the spouse or the spouse's dependents (or subsequent spouse) would not be includible in income. Distributions not for such medical expenses would be includible in income, and would be subject to a 10-percent excise tax unless the distribution is made after the surviving spouse attains age 59½, dies, or becomes disabled. However, no new contributions could be made to the account and earnings would not be currently includible in income.

If the beneficiary of an inherited MedicarePlus MSA is not the account holder's spouse, the MedicarePlus MSA would no longer be treated as a MedicarePlus MSA and the value of the MedicarePlus MSA on the account holder's date of death would be included in the taxable income of the beneficiary for the taxable year in which the death occurred. If the account holder fails to name a beneficiary, the value of the MedicarePlus MSA on the account holder's date of death would be included in the taxable income of the account holder's final income tax return. In all cases, the value of the MedicarePlus MSA would not be included in the account holder's gross estate for estate tax purposes.

³Under the bill, medical expenses of the account holder's spouse or dependents would not be treated as qualified medical expenses.

⁴Under the Tax Fairness and Deficit Reduction Act of 1995, as passed by the House, long-term care expenses would be treated as medical expenses for purposes of section 213. Under present law, the treatment of such expenses is unclear.

Sec. 15012. Tax Treatment of Rebates

Current Law.—Present law does not provide for cash payments to individuals under Medicare.

Explanation of Provision.—Under the bill, certain individuals would be entitled to cash rebates under the MedicarePlus program. These rebates would not be includible in income.

The provision would be effective with respect to taxable years beginning after December 31, 1996.

The provision would apply to rebates received after the date of enactment.

Part 3. Special antitrust rules for provider service networks

Sec. 15021. Application of Antitrust Rule of Reason to Provider Service Networks

Current Law.—Under Federal antitrust law, agreements among competitors that fix prices or allocate markets are per se (automatically) illegal. Some joint activities, however, if deemed to create an entity separate from and in addition to the competitors who create them (*i.e.*, true joint ventures), are judged under the rule of reason. The Department of Justice and the Federal Trade Commission have issued Statements of Enforcement Policy Relating to Health Care and Antitrust, pursuant to which they have attempted to indicate the limited circumstances under which they will consider “physician network joint ventures” not violations of Federal antitrust law.

Explanation of Provision

Rule of Reason Standard.—This provision states that the conduct of a provider service network in negotiating, making, or performing a contract (including the establishment and modification of a fee schedule and the development of a panel of physicians), to the extent such contract is for the purpose of providing health care services to individuals under the terms of a MedicarePlus PSO product, would not be a per se violation of Federal or State antitrust laws. In addition, the conduct of any member of such a provider service network for the purpose of providing such health care services under a contract to provide health care services to individuals would not be deemed illegal per se under Federal or State antitrust laws. Such conduct shall be judged on the basis of its reasonableness, taking into account all relevant factors affecting competition in properly defined markets.

Definitions.—This section defines “antitrust laws” to include those set out in the first section of the Clayton Act, 15 U.S.C. § 12, as well as § 5 of the Federal Trade Commission Act, 15 U.S.C. § 45, to the extent that § 5 applies to unfair methods of competition. “Health care provider” is defined as any individual or entity engaged in the delivery of health care services that must be licensed or certified by State law or regulation to deliver such services. “Health care service” is defined as any service for which payment may be made under a MedicarePlus PSO product, including services related to the delivery or administration of such service. “MedicarePlus PSO product” is defined as a MedicarePlus product

offered by a provider-sponsored organization under Part C of Title XVIII of the Social Security Act. "Provider services network" is defined as an organization that meets the following requirements: It is organized by, operated by, and composed of members who are health care providers and for purposes that include health care services. It is funded in part by capital contributions made by the members of such organization. With respect to each contract made by such organization for the purpose of providing a type of health care service to individuals under the terms of a MedicarePlus product, the organization requires all members of the organization to agree to provide health care services of such type under such contract, receives the compensation paid for the provision of such health care services, and provides for the distribution of such compensation. It has established programs based on written guidelines to review the quality, efficiency, and appropriateness of treatment methods and health care services. It coordinates the delivery of health care services by all health care providers to all patients participating in the health care plan so as to enhance the quality of health care services provided. And, it has established a grievance and appeal process to review and promptly resolve patient or beneficiary grievances or complaints. "State" is defined as the States, the District of Columbia, the Commonwealth of Puerto Rico, and any other territory or possession of the United States.

Issuance of Guidelines.—This provision requires the Attorney General and the Federal Trade Commission, within 120 days after enactment of this bill, to issue joint guidelines specifying the enforcement policies and analytical principles they will apply with respect to the operation of the rule of reason standard.

Part 4. Commissions

Sec. 15031. Medicare Payment Review Commission

Current Law.—The Prospective Payment Assessment Commission was established by Congress through the Social Security Act Amendments of 1983 (P.L. 98-21). The Commission is charged with reporting each year its recommendation of an update factor for PPS payment rates and for other changes in reimbursement policy. It is also required each year to submit a report to Congress which provides background information on trends in health care delivery and financing. The Physician Payment Review Commission was established by the Congress through the Consolidated Omnibus Budget Reconciliation Act of 1985 (P.L. 99-272). It was charged with advising and making recommendations to the Congress on methods to reform payment to physicians under the Medicare program. In subsequent laws, Congress mandated additional responsibilities relating to the Medicare and Medicaid programs as well as the health care system more generally. Both Commissions are appointed by the Director of the Office of Technology Assessment and are funded through appropriations from the Medicare trust funds.

Explanation of Provision.—The provision would establish the Medicare Payment Review Commission (hereafter referred to as "the Commission") to review and make recommendations to Congress concerning payment policies under this title. The Commission

would be required to submit a report to Congress by June 1 of each year containing an examination of issues affecting the Medicare program, including implications of changes in health care delivery and in the market for health care services on the Medicare program. The Commission would be authorized to submit from time to time other reports as it deemed appropriate. The Secretary would be required to respond to recommendations of the Commission in notices of rulemaking proceedings.

The Commission would be charged with the following specific responsibilities, including reviewing: (1) the appropriateness of the methodology for making payments to the health plans; (2) the appropriateness of the risk adjustment mechanisms and the need to adjust such mechanisms to take into account health status; (3) implications of risk selection; (4) the development and implementation of quality assurance mechanisms with respect to MedicarePlus organizations; and (5) the impact of the MedicarePlus program on beneficiary access to care.

The Commission would also be required to review specific aspects of the failsafe budget mechanism established under the bill, including: (1) the appropriateness of the expenditure projections by the Secretary and growth factors for each Medicare sector; (2) the appropriateness of the mechanism for implementing reductions in payment amounts for different sectors; (3) the impact of the failsafe mechanism on provider participation; and (4) the appropriateness of the Medicare benefit budget, especially for fiscal years after 2002.

In addition, the Commission would be required to review payments policies under Medicare Parts A and B (fee-for-service), including: (1) factors affecting expenditures in different sectors; (2) payment methodologies; and (3) the impact of payment policies on access and quality of care. It would also look at the effect of Medicare payment policies on the delivery of Medicare services and assess the implications of changes in the health services market on Medicare.

The Commission would be composed of 15 members appointed by the Comptroller General, with the first appointments being made by March 31, 1996. These members would have to meet specific qualifications (such as national recognition for their expertise in health finance) and include representatives of consumers and the elderly. Consideration in the initial appointment would be given to individuals who were already serving on the Physician Payment Review Commission or the Prospective Payment Assessment Commission. Commissioners would serve for 3-year terms. The bill provides for a mechanism for filling vacancies, compensating commissioners, appointing a chair and vice chair; convening meetings; and providing for staff, experts, and consultants. The Commission would be authorized to secure directly from any department or agency information to carry out these provisions. It would be required to collect and assess information (which would be available on an unrestricted basis to the Government Accounting Office (GAO)). The Commission would be subject to periodic audit by GAO.

The provision authorizes such sums as may be necessary to be appropriated from the Medicare trust funds (60 percent Part A and

40 percent from Part B). The Comptroller General would be required to provide for appointment of members to the Commission by March 31, 1996. The Prospective Payment Assessment Commission and Physician Payment Review Commission would be abolished within 30 days after a majority of the Medicare Payment Review Commission were appointed. To the extent possible, the Comptroller General would be required to provide for the transfer from the former to the new commission assets and staff without any loss of benefits or seniority by virtue of such transfers. The Commission would be responsible for the preparation and submission of reports required by law to be submitted (and which had not been submitted by the time it was established) by the former commissions.

Sec. 15032. Commission on the Effect of the Baby Boom Generation on the Medicare Program

Current Law.—No provision.

Explanation of Provision.—The provision would establish a commission to be known as the Commission on the Effect of the Baby Boom Generation on the Medicare Program, hereafter referred to as “the Commission.” It would be required to: (1) examine the financial impact on the Medicare program of the significant increase in the number of Medicare eligible individuals which will occur approximately during 2010 and lasting for approximately 25 years, and (2) make specific recommendations to Congress with respect to a comprehensive approach to preserve the Medicare program for the period during which such individuals are eligible for Medicare. In making its recommendations, the Commission would be required to consider: (1) the amount and sources of Federal funds to finance Medicare, including innovative financing methods; (2) the most efficient and effective manner of administering the program, including the appropriateness of continuing the failsafe mechanism after 2002; (3) methods used by other nations to respond to comparable demographics; (4) modifying age-based eligibility to correspond to that under the OASDI program; and (5) trends in employment-related health care for retirees, including the use of medical savings accounts and similar financing devices.

The Commission would be composed of 15 members, 3 appointed by the President, 6 by the Majority Leader of the Senate in consultation with the Minority Leader, of whom no more than 4 are of the same party; and 6 by the Speaker of the House, after consultation with the Minority Leader, of whom no more than 4 are in the same party. The provision spells out the appointment of a chair and vice chair, appointment of staff and consultants, compensation, the procedure for filling vacancies, and requirements relating to meetings and quorums. Upon request of the Commission, the Comptroller General would be required to conduct such studies or investigations as the Commission determined were needed to carry out its duties. The Director of CBO would be required to provide the Commission with cost estimates, for which CBO would be compensated. The Commission would be authorized to detail to it employees of Federal agencies, and to obtain technical assistance and information from Federal agencies.

The Commission would be required to submit to Congress a report, no later than May 1, 1997, containing its findings and recommendations regarding how to protect and preserve the Medicare program in a financially solvent manner until 2030 (or, if later, throughout a period of projected solvency of the Federal Old-Age and Survivors Insurance Trust Fund). The report would be required to include detailed recommendations for appropriate legislative initiatives respecting how to accomplish this objective. The Commission would terminate 60 days after the date of submission of the mandated report. An amount of \$1.5 million would be authorized to be appropriated.

Sec. 15033. Change in Appointment of Administrator of HCFA

Current Law. The Administrator of HCFA is appointed by the President with the advise and consent of the Senate.

Explanation of Provision. Under the bill, the Administrator of HCFA would be appointed by the Secretary of Health and Human Services. The amendment would become effective on the date of enactment and would apply to Administrators appointed on or after the date of enactment.

SUBTITLE B—PREVENTING FRAUD AND ABUSE

Sec. 15101. Increasing Awareness of Fraud and Abuse

Current Law.—No provision.

Explanation of Provision. This provision would require the Secretary to make ongoing efforts to alert individuals entitled to Medicare benefits of the existence of fraud and abuse committed against the program, of the costs of such fraud and abuse, and of a toll-free telephone line operated by the Secretary to receive information about such fraud and abuse.

The Secretary would be required to provide an explanation of Medicare benefits with respect to each item or service for which payment may be made, without regard to whether a deductible or coinsurance may be imposed with respect to the item or service.

Any person may, at any time, request the Secretary to publish a “special fraud alert,” which is defined as a notice that informs the public of practices the Secretary considers to be suspect or of particular concern under the Medicare program or a State health care program. Upon receipt of a request for a special fraud alert, the Secretary would be required to investigate to determine whether to issue a special fraud alert. If he or she determines issuance of a special fraud alert appropriate, he or she would be required, in consultation with the Attorney General, to publish a special fraud alert in the Federal Register. In determining whether to issue a special fraud alert, the Secretary could consider whether and to what extent the practices in question may result in the consequences described in section 15214 (b) relating to the criteria used to modify and establish safe harbors, and the extent and frequency of the conduct in question. Each notice issued by the Health Care Financing Administration that informs the public of practices the Secretary considers to be suspect or of particular concern under the Medicare program or a State health care program would be required to be published in the Federal Register, without regard to

whether it was issued by a regional office of the Health Care Financing Administration.

Sec. 15102. Beneficiary Incentive Programs

Current Law. No provision.

Explanation of Provision. This provision would require the Secretary, within three months after enactment of this bill, to establish a program that encourages individuals to report to the Secretary information on individuals and entities who are engaging or who have engaged in acts or omissions that constitute grounds for sanctions under sections 1128, 1128A, or 1128B of the Social Security Act, or who have otherwise engaged in fraud and abuse against the Medicare program. If an individual reports information to the Secretary under this program that serves as a basis for the collection by the Secretary or the Attorney General of any amount of at least \$100 (other than amounts paid as a penalty under section 1128B), the Secretary could pay a portion of the amount collected to the individual, under procedures similar to those applicable under section 7623 of the Internal Revenue Code of 1986.

The Secretary would be required, within three months after enactment of this bill, to establish a program that encourages individuals to submit to the Secretary suggestions on methods to improve the efficiency of the Medicare program. The program shall discourage provision of, and not consider, information which is frivolous or otherwise not relevant or material to the imposition of such a sanction as set forth in this section. If the Secretary adopts such a suggestion and savings to the program result, the Secretary could make a payment to the individual of an amount the Secretary considers appropriate.

Sec. 15103. Intermediate Sanctions for MedicarePlus Plans

Current Law. A contract between the Secretary and a Medicare Health Maintenance Organization (HMO) is generally for a one year term, with an option for automatic renewal. However, the Secretary may terminate any such contract at any time, after reasonable notice and an opportunity for a hearing, if the Medicare HMO has failed substantially to carry out the contract, or is carrying out the contract in a manner inconsistent with the efficient and effective administration of the requirements of section 1876 of the Social Security Act, or if the Medicare HMO no longer substantially meets the statutory requirements contained in Sections 1876(b), (c), (e), and (f).

Explanation of Provision. This provision would add one more ground for termination of a Medicare HMO contract by the Secretary, specifying that the Secretary may terminate such a contract if the organization is operating in a manner that is not in the best interests of the individuals covered under the contract. In addition, the Secretary would have the discretion to either terminate the contract or to impose certain intermediate sanctions on the eligible organization. The sanctions available to the Secretary under section 1876(i)(6)(B) include civil money penalties up to \$25,000 for each determination of non-compliance, with an assessment of up to \$100,000 if the basis for non-compliance was that the eligible orga-

nization engaged in a practice which denied or discouraged enrollment by eligible individuals with a need for substantial future medical services, or if the eligible organization falsified information given to the Secretary under this section; suspension by the Secretary of enrollment of individuals, until the Secretary is satisfied that the basis for the determination has been corrected and is not likely to recur; or suspension of payment to the organization for individuals enrolled after the date of a determination of non-compliance, until the Secretary is satisfied that the basis for the determination has been corrected and is not likely to recur.

If the basis for the determination by the Secretary that an intermediate sanction should be imposed on an eligible organization is other than that the organization has failed substantially to carry out its contract with the Secretary, then the Secretary may apply intermediate sanctions as follows: civil money penalties of not more than \$25,000 for each determination if the deficiency that is the basis of the determination has directly adversely affected (or has the substantial likelihood of adversely affecting) an individual covered under the organization's contract; civil money penalties of not more than \$10,000 for each week of a continuing violation; and suspension of enrollment of individuals until the Secretary is satisfied that the deficiency has been corrected and is not likely to recur.

Whenever the Secretary seeks to either terminate a Medicare HMO contract or impose intermediate sanctions on such an organization, the Secretary must do so pursuant to a formal investigation and under compliance procedures which provide the organization with an opportunity to develop and implement a corrective action plan to correct the deficiencies that were the basis of the Secretary's adverse determination. The Secretary would impose more severe sanctions on organizations that have a history of deficiencies or that have not corrected deficiencies brought to their attention. The Secretary's compliance procedures must also include reasonable notice and opportunity for a hearing (including the right to appeal an initial decision) before the Secretary imposes any sanction or terminates the contract of a Medicare HMO, and there must not be any unreasonable or unnecessary delay between the finding of a deficiency and the imposition of sanctions.

Effective Date. The amendments made by this section would apply to contract years of eligible organizations beginning on or after January 1, 1996.

Sec. 15104. Voluntary Disclosure Program

Current Law.—Current law does not provide for a program permitting the Secretary to mitigate penalties for parties who voluntarily disclose acts or omissions under Sections 1128, 1128A, or 1128B. Section 1128 directs the Secretary to impose mandatory exclusions from the Medicare program and State health care programs⁵ for convictions of criminal offenses related to the delivery of an item or service under Medicare or State health care programs, as well as for convictions relating to patient abuse in con-

⁵ "State health care programs" are defined as the Medicaid program and programs receiving funds under the Maternal and Child Health Service Block Grant, or the Social Services Block Grant. This definition applies to sections 1128, 1128A and 1128B.

nection with the delivery of a health care item or service. The Secretary has permissive exclusion authority for a number of criminal offenses relating to health care-related fraud, theft, embezzlement, financial misconduct, kickbacks, misuse of controlled substances, and activities relating to license revocations or suspensions, claims for excessive charges or unnecessary services, and the like. Section 1128A prescribes civil money penalties for a number of illegal activities relating to the submission of claims for reimbursement under the Medicare and Medicaid programs. Violations which are subject to civil money penalties include submitting claims for items or services not provided or which were false or fraudulent, providing services when not a properly licensed physician, and providing items or services by an excluded practitioner. Civil money penalties may also be imposed on a hospital which knowingly makes a payment to a physician, or a physician who knowingly accepts payment from a hospital, as inducement to limit or reduce care to a Medicare or Medicaid patient. Section 1128B sets forth criminal penalties under Medicare and State health care programs for offenses such as false statements in benefit applications or in determining rights under such benefits, concealing information relating to benefits, submitting claims from non-licensed physicians, and soliciting and receiving kickbacks for referrals or soliciting or receiving remuneration for admitting a Medicaid patient.

Explanation of Provision.—Under this section a new provision would be added to Title XI of the Social Security Act directing the Secretary of Health and Human Services to establish a program encouraging individuals and entities to voluntarily disclose to the Secretary information on acts or omissions which constitute grounds for the imposition of a sanction under sections 1128, 1128A, or 1128B of the Social Security Act.

Under this program the Secretary would have the authority to mitigate any applicable sanction which the Secretary might otherwise have imposed under sections 1128, 1128A or 1128B. The Secretary would not be required to reduce or mitigate applicable sanctions, but may do so, following a voluntary disclosure. This section would specify that no qui tam lawsuit could be brought under the False Claims Amendments Act of 1986 by private parties against the individual or entity with respect to a voluntarily disclosed act or omission under sections 1128, 1128A or 1128B.

Sec. 15105. Revisions To Current Sanctions

Current Law.—Civil money penalties may be imposed under section 1128A for false or fraudulent claims for reimbursement under the Medicare and Medicaid programs. In addition, twice the amount claimed may be assessed against the fraudulent party for false or fraudulent claims.

Section 1128B provides that whoever knowingly and willfully makes a false statement or representation in connection with the furnishing of items or services for which payment is or may be made by Medicare shall, upon conviction of a program related felony, be fined not more than \$25,000 or imprisoned for not more than five years, or both. Section 1128(b) authorizes the Secretary to impose permissive exclusions of individuals and entities from Medicare program, Medicaid program and programs receiving

funds under the Maternal and Child Health Block Grant, or the Social Services Block Grant. Permissive exclusions are authorized for a number of offenses relating to fraud, kickbacks, obstruction of an investigation, and misuse of controlled substances, and activities relating to license revocations or suspensions, claims for excessive charges or unnecessary services, and the like. There are currently no minimum exclusion periods specified for most of the prohibited activities under this subsection. There is, however, a minimum period of exclusion of not less than five years for mandatory exclusions imposed by the Secretary under section 1128(a).

Explanation of Provision.—This section would provide that civil monetary penalties under Section 1128A be doubled for violations occurring after the date of enactment of this Act.

This section would also establish a minimum period of exclusion of three years for permissive exclusions of individuals or entities convicted, under Federal or State law, of health care criminal offenses relating to fraud, theft, embezzlement, breach of fiduciary responsibility or other financial misconduct, as well as for convictions relating to obstruction of an investigation, or of a criminal offense involving misuse of controlled substances. The Secretary may determine that a shorter period than three years is appropriate in cases of mitigating circumstances, or that a longer period is appropriate because of aggravating circumstances.

Permissive exclusions in cases relating to license revocations or suspensions for reasons bearing on an individual's or entity's professional competence or financial integrity, and permissive exclusions following the suspension, exclusion or sanction of an individual or entity from any Federal or State health care program for reasons bearing on professional competence or financial integrity, shall be not less than the period during which the individual's or entity's license to provide health care has been revoked or suspended, or the individual or entity has been excluded or suspended from a Federal or State health care program.

In cases where the Secretary has permissive authority to exclude an individual or entity from Medicare or State health care programs due to submission of claims for excessive charges or for medically unnecessary services, the period of exclusion shall be not less than one year.

Effective Date.—The amendments made by this section would apply to acts or omissions occurring on or after January 1, 1996.

Sec. 15106. Consolidated Funding for Anti-Fraud and Abuse Activities Under Medicare Integrity Program

Current Law.—Currently Medicare's program integrity functions are subsumed under Medicare's general administrative budget. These functions are performed, along with general claims processing functions, by insurance companies under contract with the Health Care Financing Administration.

Explanation of Provision.—This provision establishes a Medicare Integrity Program under which the Secretary would promote the integrity of the Medicare program by entering into contracts with eligible private entities to carry out certain activities. These activities would include the following: (1) review of activities of providers of services or other individuals and entities furnishing items and

services for which payment may be made under the Medicare program, including medical and utilization review and fraud review; (2) audit of cost reports; (3) determinations as to whether payment should not be, or should not have been, made by reason of the Medicare as secondary payor provisions, and recovery of payments that should not have been made; and (4) education of providers of services, beneficiaries, and other persons with respect to payment integrity and benefit quality assurance issues.

Eligibility of Entities.—There are four eligibility requirements for an entity to enter into a contract to carry out any of the activities described in subsection (b). They are the following: (1) the entity has demonstrated capability to carry out such activities; (2) in carrying out such activities, the entity agrees to cooperate with the Inspector General of the Department of Health and Human Services, the Attorney General, and other law enforcement agencies, in the investigation and deterrence of Medicare fraud and abuse; (3) the entity's financial holdings, interests, or relationships will not interfere with its ability to perform the functions required by the contract in an effective and impartial manner; and (4) the entity meets such other requirements as the Secretary may impose.

Process for Entering into Contracts.—The Secretary is authorized to establish, by regulation, procedures for entering into contracts; such procedures would be required to include at least the following three components: (1) the Secretary would be required to determine the appropriate number of separate contracts necessary to carry out the Program and the appropriate times at which the Secretary shall enter into such contracts; (2) the provisions of section 1153(e)(1), regarding the authority of the Secretary to contract, would apply to contract and contracting authority under this section, except that competitive procedures would have to be used when entering into new contracts or at any other time the Secretary considers appropriate; and (3) a contract could be renewed without regard to any provision of law requiring competition if the contractor has met or exceeded the performance requirements established in the current contract.

Limitation on Contractor Liability.—The Secretary is required to provide, by regulation, for the limitation of a contractor's liability under the Program. The Secretary would employ, to the extent he or she finds appropriate, the same or comparable standards and other substantive and procedural provisions as are contained in section 1157.

Transfer of Amounts to Medicare Anti-Fraud and Abuse Trust Fund.—The Secretary is required to transfer, for each fiscal year, from the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund, to the Medicare Anti-Fraud and Abuse Trust Fund under subsection (g), amounts necessary to carry out the activities of subsection (b). The allocation shall reasonably reflect the proportion of expenditures from Part A and Part B.

Medicare Anti-Fraud and Abuse Trust Fund.—There is established in the Treasury of the United States the Anti-Fraud and Abuse Trust Fund, which would consist of gifts and bequests as may be made unconditionally to the Trust Fund and such amounts

as may be deposited in the Trust Fund as provided in subsection (f), paragraph (3) of this subsection, and Title XI.

The Secretary of the Treasury would be required to invest such amounts of the Fund as he or she determines are not required to meet current withdrawals from the Fund in government account serial securities. Any interest derived from investments would be credited to the Fund.

The following moneys would be required to be deposited in the Trust Fund: that portion of amounts recovered in relation to section 1128A arising out of Medicare claims as remains after application of subsection (f)(2) relating to repayment of the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund; fines imposed under section 1128B arising out of a claim under this title; and, penalties and damages (other than those funds awarded to a relator or for restitution under the False Claims Act) in cases involving claims relating to programs under Medicare or Medicaid.

There would be appropriated from the Trust Fund for each fiscal year such amounts as are necessary to carry out the Medicare Integrity Program, subject to the appropriation amount limits specified in the section for Fiscal Years 1996 through 2002.

The Secretary would be required to submit an annual report to Congress on the amount of revenue generated and disbursed by the Trust in each fiscal year.

Elimination of FI and Carrier Responsibility for Carrying Out Activities Subject to Program.—This provision prohibits any agency, organization, or carrier, from carrying out (or receiving payment for carrying out) any activity pursuant to an agreement under this section to the extent that the activity is carried out pursuant to a contract under the Medicare Integrity Program.

Sec. 15107. Permitting Carriers to Carry Out Prior Authorization for Certain Items of Durable Medical Equipment (DME)

Current Law.—The Secretary is authorized to develop and periodically update a list of DME items that are subject to unnecessary utilization throughout a carrier's entire service area or a portion of such area. The Secretary may also develop and update a list of DME suppliers with a substantial number of denied claims or a pattern of overutilization resulting from the business practices of suppliers. Carriers are required to make advance coverage determinations for items on the lists developed by the Secretary.

Explanation of Provision.—Carriers would be authorized to develop the same lists of DME items and suppliers that the Secretary is authorized to develop. Carriers would also be authorized to make advance coverage determinations, regardless of whether or not the Secretary has promulgated a regulation for the list, except for items and suppliers on the lists that a carrier could not make advance determinations until the expiration of the 30-day period beginning on the date the Secretary or carrier places the item on the list.

Sec. 15108. Establishment of Health Care Anti-Fraud Task Force

Current Law.—No provision.

Explanation of Provision.—Within 120 days of enactment the Attorney General would be required to establish, within the Department of Justice, a nation-wide “Health Care Anti-Fraud Task Force” to prosecute health care fraud offenses. This Task Force would be set up in consultation with the Secretary of Health and Human Services, the Secretary of the Treasury, the Secretary of Veterans’ Affairs, and the Chair of the Board of Governors of the United States Postal Service. There would be at least one fully staffed operational segment of the Task Force in each judicial district of the United States, with at least one Federal representative from each entity engaged on a full-time basis in the activities of the Task Force. The Task Force would maintain separate accounting of its finances, personnel, case load, and resolution of claims and actions.

Sec. 15109. National Health Care Anti-Fraud Task Force

Current Law.—No provision.

Explanation of Provision.—Within 120 days of enactment, the Secretary of Health and Human Services is required to establish a nationwide “Health Care Anti-Fraud Task Force” to assist in coordinating Federal law enforcement activities relating to health care fraud offenses. This task force will be established in consultation with the Attorney General and shall be composed of representatives of Federal agencies involved in the investigation and prosecution of health care fraud and abuse issues, including at least one representative from each of the following agencies: the Department of Justice and the Federal Bureau of Investigation, the Department of Health and Human Services and the Office of the Inspector General within that Department, the office in the Department of Defense responsible for the administration of CHAMPUS, the Department of Veterans’ Affairs, the Internal Revenue Service, and the United States Postal Inspection Service. The main purposes of the task force is to assure the effective targeting and investigation of health care fraud and abuse matters, and to promote full and effective coordination between Federal and State agencies involved in these investigations and prosecutions. Each member of the task force shall provide at least one full-time staff person to the task force whose salary, compensation benefits and other employee-related matters shall be borne by the member agency.

Sec. 15110. Study of Adequacy of Private Quality Assurance Programs

Current Law.—No provision.

Explanation of Provision.—The Administrator of the Health Care Financing Administration, through the Office of Research and Demonstrations, would be required to contract for a study of the adequacy of quality assurance programs and consumer protections used by plans enrolling Medicare beneficiaries under Part C of Title XVIII of the Social Security Act, including an analysis of the effectiveness of such programs in protecting plan enrollees against the risk of insufficient provision of benefits which may result from utilization controls. A report would be submitted to Congress on

the study not later than 6 months after the conclusion of the 5-year period for the study.

Section 15111. Penalty for False Certification for Home Health Services

Current Law.—No Provision.

Explanation of Provision.—This section strengthens sanctions provisions against physicians who certify as eligible for home health care persons who do not meet all the requirements set forth to establish eligibility for such home health care. Specifically, the section provides that any physician who certifies, for purposes of Title XVIII, that a person meets the requirements of sections 1814(a)(2)(C) or 1835(a)(2)(A) for home health services furnished to that person, when the physician knows that such requirements are not met, shall be subject to a civil monetary penalty of not more than \$5,000 or, if greater, not more than three times the amount of the payments for the home health services which are made pursuant to the certification.

Section 15112. Ineligibility for Part B Benefits of Individuals Convicted of Medicare Fraud

Current Law.—No Provision.

Explanation of Provision.—This provision makes those persons who are convicted of a felony relating to the Medicare program, ineligible for coverage under Part B of Medicare.

Section 15113. Pilot Projects

Current Law.—No Provision.

Explanation of Provision.—The Secretary of Health and Human Services will establish 5 pilot projects in various geographic regions of the United States to seek innovative approaches to monitor payment claims, and to detect wasteful and fraudulent claims and billing procedures under the Medicare program.

SUBTITLE C—REGULATORY RELIEF

Part 1. Physician Ownership and Referral Reform

Sec. 15201. Repeal of Prohibitions Based on Compensation Arrangements

Current Law.—The law establishes a ban on certain financial arrangements between a referring physician and an entity. Specifically, if a physician (or immediate family member) has an ownership or investment interest in or a compensation arrangement with an entity, the physician is prohibited from making a referral to the entity for services for which Medicare would otherwise pay. Further, the entity may not bill for such services. For purposes of the ban, an ownership or investment interest may be through equity or debt or other means and includes an interest in an entity that holds an ownership or investment interest in any entity providing designated health services. A compensation arrangement is generally defined as any arrangement involving any remuneration between a physician (or immediate family member) and an entity.

The law includes general exceptions to the ban. Some are general exceptions to both the ownership and compensation arrangement prohibitions, while others relate only to ownership or only to compensation arrangements.

Explanation of Provision.—The provision would repeal the prohibitions based on compensation arrangements.

Sec. 15202. Revision of Designated Health Services Subject to the Prohibition

Current Law.—OBRA 89, which established the initial self-referral ban applied the ban to referrals for clinical laboratory services only. OBRA 93 (as modified by P.L. 103–432) extended the ban to additional “designated health services”, effective January 1, 1995. These designated health services are: (i) physical therapy services; (ii) occupational therapy services; (iii) radiology, including magnetic resonance imaging, computerized axial tomography scans, and ultrasound services; (iv) radiation therapy services and supplies; (v) durable medical equipment and supplies; (vi) parenteral and enteral nutrients, equipment and supplies; (vii) prosthetics, orthotics, and prosthetic devices; (viii) home health services and supplies; (ix) outpatient prescription drugs; and (x) inpatient and outpatient hospital services.

Explanation of Provision.—The provision revises the list of “designated health services”. Under the provision, the referral ban would apply only to: (i) clinical laboratory services, (ii) parenteral and enteral nutrients, equipment, and supplies; (iii) outpatient physical or occupational therapy services; and (iv) magnetic resonance imaging and computerized tomography services.

Sec. 15203. Delay in Implementation Until Promulgation of Regulations

Current Law.—The self-referral provisions included in OBRA 89 applied to Medicare referrals for clinical laboratory services made on or after January 1, 1992. OBRA 93 expanded the referral ban to a list of “designated health services” and extended the prohibition to Medicaid. OBRA 93 also included significant revisions to the OBRA 89 provisions. In general, the amendments made by OBRA 93 (as amended by P.L.103–432) apply with respect to referrals made on or after January 1, 1995; however some provisions had a retroactive effective date of January 1, 1992.

On August 14, 1995, HHS issued final regulations implementing the OBRA 89 requirements. These regulations are effective September 13, 1995. HHS noted that these regulations relate only to referrals for clinical laboratory services and address only those provisions that had an effective date, including a retroactive effective date, of January 1, 1992.

Explanation of Provision.—The bill specifies that the amendments made by OBRA 93 would not apply to any referrals made before the effective date of the final implementing regulations promulgated by the Secretary of HHS.

Sec. 15204. Exceptions to Prohibition

Current Law.—The law includes general exceptions to the self-referral ban. Some are general exceptions to both the ownership and compensation arrangement prohibitions, while others relate only to ownership or only to compensation arrangements.

A general exception applies to in-office ancillary services which are defined as furnished by the physician making the referral, another physician in the same group practice, or personally by individuals directly supervised by the physician or another physician in the same group practice.

The in-office ancillary services exception contains a site-of-service requirement. To meet the exception, the services must be furnished in: (i) a building in which the referring physician or other member of the group practice provides services unrelated to the furnishing of designated health services; or (ii) in a building used for the centralized provision of the group's designated health services. OBRA 93 specified that for clinical laboratory services only, the exception only applies if the services are provided in a centralized location.

The law includes an exception, related only to the ownership and investment prohibition, for rural providers. To be eligible for an exception, the entity must be in a rural area. Further, the exception only applies if substantially all of the designated health services furnished by the entity are furnished to individuals residing in rural areas.

The law includes a general exception for services provided by a prepaid health plan to enrollees. The definition of prepaid plans includes those either meeting Medicare requirements, operating as prepaid plans under a Medicare demonstration project, or meeting the requirements of a Federally-qualified health maintenance organization.

Explanation of Provision.—The provision would modify the exception for in-office ancillary services. It would repeal the site-of-service requirement. It would also provide that non-physician personnel must be under the general supervision (rather than the direct supervision) of a physician. An individual would be under the general supervision of a physician (or a group practice of which the physician is a member) if the physician is legally responsible for the services performed by the individual and for ensuring the individual meets licensure requirements and certification standards regardless of whether or not the physician is physically present when the services are delivered.

The provision would modify the provision relating to rural providers. To qualify for an exception, not less than 75 percent of the designated health services must be furnished to individuals residing in rural areas.

The provision would modify the definition of prepaid plans to refer to managed care plans. It would expand the definition to include HMOs which have a contract with the State to provide Medicaid services; MedicarePlus organizations; or an organization with a written agreement which places the individual at substantial financial risk for the cost or utilization of services which the individual or entity is obligated to provide. This obligation may be through withhold, capitation, incentive pool, per diem payment or

any other similar risk arrangement which places the individual or entity at substantial financial risk.

The provision would add a new exception for shared facility services. The services must be furnished by the facility to patients of shared facility physicians; the physicians must have a financial relationship under a shared facility arrangement with the facility. A shared facility arrangement is one: (i) which is only between physicians who are providing services (unrelated to shared facility services) in the same building; (ii) in which the overhead expenses are shared among the physicians in accordance with previously determined methods; and (iii) which, in the case of a corporation, is wholly owned and controlled by shared facility physicians.

The provision would add a new exception for services furnished in communities which the Secretary of HHS determines do not have access to alternative providers.

The provision would add an exception for services furnished in ambulatory surgical centers, renal dialysis facilities, comprehensive rehabilitation facilities, and hospice programs.

Sec. 15205. Repeal of Reporting Requirements

Current Law.—The law establishes a reporting requirement for entities providing services under Medicare. Reports are to include information on the entity's ownership, investment and compensation arrangements.

Explanation of Provision.—The provision would delete the reporting requirements.

Sec. 15206. Preemption of State Law

Current Law.—No provision.

Explanation of Provision.—The provision would specify that the self-referral provisions preempt State law to the extent State law was inconsistent.

Sec. 15207. Effective Date

Current Law.—No provision.

Explanation of Provision.—The provision would generally apply to referrals made on or after August 14, 1995. The provision delaying the applicability of the effective date of OBRA 93 changes until issuance of regulations would be effective as if included in OBRA 93.

Part 2. Other Medicare Regulatory Relief

Sec. 15211. Repeal of Medicare and Medicaid Coverage Data Bank

Current Law.—Under the Medicare secondary payer (MSP) program, the individual's employer-based group health insurance, liability insurance, or no-fault insurance may be the primary payer in certain cases. OBRA 93 provided for the establishment of a Medicare and Medicaid Coverage Data Bank by the Secretary of HHS. OBRA 93 required employers having or contributing to a group health insurance plan to submit employee health insurance information to the Secretary, on an annual basis, for calendar years 1994 - 1997. The 1994 submission was due by February 1995. The

information was intended to facilitate the identification of both Medicare secondary payer cases and those circumstances in which employer-based insurance, rather than Medicaid, should be the primary payer.

A number of employers voiced strong opposition to the Data Bank requirements. One of the principal concerns was that employers would be required to report information which they did not routinely collect. In response to these concerns, the Conference agreement accompanying the FY 1995 Labor, DHHS, and Education Appropriations Bill (P.L. 103-333) contained specific language relating to the Data Bank. It directed that no HHS funds should be used for the implementation of or planning for implementation of the Bank.

Explanation of Provision.—The provision would repeal the Data Bank requirement.

Sec. 15212. Clarification of Level of Intent Required for Imposition of Sanctions

Clarification of Level of Knowledge Required for Imposition of Civil Monetary Penalties.

Current Law.—Civil money penalties may be imposed for seeking reimbursement under the Medicare and Medicaid programs for items or services not provided or for services provided by someone who was not a licensed physician, whose license was obtained through misrepresentation, or who misrepresented his or her qualification as a specialist, or where the claim is otherwise fraudulent. Civil penalties may also be sought for presenting a claim for payments which are in violation of: (1) contracts limiting payment due to assignment of a patient; (2) agreements with State agencies limiting permitted charges; (3) agreement with participating physicians or suppliers; and (4) agreements with providers of service. Civil penalties may also be sought against persons who provide false or misleading information that could reasonably be expected to influence a decision to discharge a person from a hospital. A person is subject to these provisions if they presented a claim and he or she “knows or should have known” that the claim fell into one of the categories listed above. Further, the person presenting the claim may be assessed twice the amount fraudulently claimed.

Explanation of Provision.—This section adds a requirement that a person is subject to this provision when they “knowingly” present a claim that the person “knows or should know” fell into one of the above categories. The section also includes a definition of the term “should know”. Thus, an assessment under this provision would only be made where a person had actual knowledge that they had submitted a claim or had provided false or misleading information, and where they had actual knowledge of the fraudulent nature of the claim, act in deliberate ignorance, or acted in reckless disregard. The requirement that a person “knowingly” presents a claim or “knowingly” makes a false or misleading statement which influences discharge would prevent charging persons who inadvertently perform these acts.

Clarification of Effect and Application of Safe Harbor Exceptions.

Current Law.—The Medicare and Medicaid anti-kickback provisions generally prohibit anyone from providing or offering to provide remuneration in cash or in kind in return for a patient referral whose treatment is paid for in whole or in part by Medicare or Medicaid. The provisions in section 1128B(b) of the Social Security Act also prohibit the solicitation or receipt of such remuneration and arranging or recommending a referral for remuneration. Violations are felonies and are subject to a fine of up to \$25,000 or imprisonment for up to five years, or both. Certain business practices are exempted from the application of these provisions and the HHS Office of Inspector General is directed to issue safe harbor regulations for additional payment practices that would not be subject to criminal prosecution or provide a basis for exclusion from participation in Medicare and Medicaid. If an individual or entity engages in a business arrangement which is the subject of a safe harbor provision and complies with all of the applicable requirements of the provision, that individual or entity will be assured that he or she will not be prosecuted.

Explanation of Provision.—This section provides that the specification of any payment practice by the Secretary under this provision is to be solely for the purpose of adding additional exceptions to the types of conduct, and is not for the purpose of limiting the scope of such exceptions. In addition, such a specification of an acceptable payment practice shall apply notwithstanding whether the party engaging in that practice actually does intend to induce Medicaid or Medicare referrals.

Limiting Imposition of Anti-Kickback Penalties to Actions With Significant Purpose to Induce Referrals.

Current law.—The anti-kickback provisions in Section 1128B(b) prescribe criminal penalties for individuals or entities that knowingly and willfully offer or pay remuneration to induce business reimbursed under Medicare or State health care programs.

Explanation of Provision.—This section would amend Section 1128B(b)(2) to provide that person was subject to the anti-kickback provisions only if the remuneration which is offered is done so “for the significant purpose of inducing” business which would be reimbursed under Medicare or State health care programs. This will narrow the application of the anti-kickback provisions to only those situations where inducement was a significant purpose of remuneration.

Sec. 15213. Clarification of and Additions to Exceptions to Anti-Kickback Penalties

Current Law.—The anti-kickback provisions in Section 1128B(b) contain several exceptions. These exceptions include discounts or other reductions in price obtained by a provider of services or other entity under Medicare or a State health care program if the reduction in price is properly disclosed and appropriately reflected in the costs claimed or charges made by the provider or entity under Medicare or a State health care program; any amount paid by an employer to an employee for employment in the provision of covered

items or services; any amount paid by a vendor of goods or services to a person authorized to act as a purchasing agent for a group of individuals or entities under specified conditions; a waiver of any coinsurance under Part B of Medicare by a Federally qualified health care center with respect to an individual who qualifies for subsidized services under a provision of the Public Health Service Act; and any payment practice specified by the Secretary as a Safe Harbor exception.

Explanation of Provision.—This section adds a new exception for remuneration between an organization and an individual or entity providing services pursuant to a written agreement between the organization and the entity. The organization must be either a MedicarePlus entity or its written agreement must place the individual at substantial financial risk for the cost or utilization of services which the individual or entity is obligated to provide. This obligation may through withhold, capitation, incentive pool, per diem payment, or any other similar risk arrangement which places the individual or entity at substantial financial risk.

Sec. 15214. Solicitation and Publication of Modifications to Existing Safe Harbors and New Safe Harbors

Current Law.—The 1987 Medicare and Medicaid Patient and Program Protection Act specified various payment practices which, although potentially capable of inducing referrals of business under Medicare or State health care programs, will be protected from criminal prosecution or civil sanction under the anti-kickback provisions of the law. The 1987 law also established authority for the Secretary to promulgate regulations specifying additional payment practices, known as “safe harbors”, that will not be subject to sanctions under the fraud and abuse provisions.

Explanation of Provision.—The Secretary shall publish an annual notice in the Federal Register soliciting proposals for modifications to existing safe harbors, new safe harbors, interpretive rulings and special fraud alerts. After considering such proposals the Secretary, in consultation with the Attorney General, shall, after notice and comment, issue final rules modifying existing safe harbors and establishing new safe harbors, as appropriate. The Secretary, in considering these proposals, may consider the extent to which such a proposal would affect access to health care service, quality of health care services, patient freedom of choice among health care providers, competition among health care providers, cost of health care programs to government, over-utilization of health care services, and any other factors appropriate to prevent fraud and abuse in health care programs of the Federal government. The Inspector General shall annually issue a report on the proposals received by the Secretary, the proposal issued by the Secretary, and an explanation of the reason for rejection of any of the proposals received.

Sec. 15215. Issuance of Advisory Opinions Under Title XI

Current Law.—No Provision

Explanation of Provision.—The Secretary shall issue regulations to provide for a procedure by which a party may seek an advisory

opinion. These opinions are binding, and may include: (1) what constitutes prohibited remuneration; (2) what arrangements are excluded from these prohibitions; (3) whether an arrangement satisfies the criteria established by the Secretary; (4) what constitutes an inducement to reduce or limit services; and (5) whether an activity constitutes grounds for imposition of penalties. Such opinions shall not address whether the fair market value was received for goods and whether an individual is a bona fide employee for tax purposes. The Secretary shall respond to advisory opinions within 30 days after the request is made, and a fee equal to the costs incurred shall be charged. This section will be effective January 1, 1996.

Sec. 15216. Prior Notice of Changes in Billing and Claims Processing Requirements for Physicians' Services

Current Law.—No provision.

Explanation of Provision.—The provision would require the Secretary to give at least 120 days notice before making changes in billing and processing requirements for physicians' claims.

Part 3. Promoting Physician Self-Policing

Sec. 15221. Exemption From Antitrust Laws for Certain Activities of Medical Self-Regulatory Entities

Current Law.—No provision.

Explanation of Provision.—This section would provide an exemption from Federal and State antitrust laws for health care service activities which are considered safe harbors under this section. A safe harbor is generally described as any activity of a medical self-regulatory entity relating to standard setting or standard enforcement activities that are designed to promote the quality of health care services provided to patients. However, no activity of a medical self-regulatory entity may be deemed to be a safe harbor under this section if the activity is conducted for purposes of financial gain, or the activity interferes with the provision of health care services by any health care provider who is not a member of the specific profession which is subject to the authority of the medical self-regulatory entity.

For purposes of this section, the term "antitrust laws" has the meaning given it in subsection (a) of the first section of the Clayton Act, except that the term includes section 5 of the Federal Trade Commission Act to the extent that section applies to unfair methods of competition. A "medical self-regulating entity" is defined as a medical society or association, a specialty board, a recognized accrediting agency, or a hospital medical staff, and includes the members, officers, employees, consultants, and volunteers or committees of such an entity. "Standard setting or standard enforcement activities" mean accreditation of health care practitioners, health care providers, medical education institutions, or medical education programs, as well as technology assessment and risk management activities, the development and implementation of practice guidelines or practice parameters, or official peer review proceedings undertaken by a hospital medical staff or a medical society for purposes of evaluating the professional conduct or quality of health care pro-

vided by a medical professional. This section also defines “health care service”, “health care provider” and “health benefit plan”.

SUBTITLE D—MEDICAL LIABILITY REFORM

Part 1. General Provisions

Sec. 15301. Federal Reform of Health Care Liability Actions

Current Law.—There are no uniform Federal standards governing health care liability actions.

Explanation of Provision.—The provision would provide for Federal reform of health care liability actions. It would apply to any health care liability action brought in any State or Federal court. The provisions would not apply to any action for damages arising from a vaccine-related injury or death or to the extent that the provisions of the National Vaccine Injury Compensation Program apply. The provisions would preempt State law to the extent State law provisions were inconsistent with the new requirements. However, it would not preempt State law to the extent State law provisions were more stringent.

Sec. 15302. Definitions

Current Law.—No provision.

Explanation of Provision.—The provision would define the following terms for purposes of the Federal reforms: actual damages; alternative dispute resolution system; claimant; clear and convincing evidence; collateral source payments; economic loss; harm; health care liability action; health care liability claim; health care provider; noneconomic damages; person; punitive damages; and State.

Sec. 15303. Effective Date

Current Law.—No provision.

Explanation of Provision.—The provision would specify that Federal reforms apply to any health care liability action brought in any State or Federal court that is initiated after the date of enactment. The provision would also apply to any health care liability claim subject to an alternative dispute resolution system. Any health care liability claim or action arising from an injury occurring prior to enactment would be governed by the statute of limitations in effect at the time the injury occurred.

Part 2. Uniform Standards for Health Care Liability Actions

Sec. 15311. Statute of Limitations

Current Law.—To date, reforms of the malpractice system have occurred primarily at the State level and have generally involved changes in the rules governing tort cases. (A tort case is a civil action to recover damages, other than for a breach of contract.)

Explanation of Provision.—The provision would establish uniform standards for health care liability claims. It would establish a uniform statute of limitations. Actions could not be brought more than two years after the injury was discovered or reasonably should have been discovered. In no event could the action be brought more than five years after the date of the alleged injury.

Sec. 15312. Calculation and Payment of Damages

Current Law.—No provision.

Explanation of Provision.—The provision would limit noneconomic damages to \$250,000 in a particular case. The limit would apply regardless of the number of persons against whom the action was brought or the number of actions brought.

The provision would specify that a defendant would only be liable for the amount of noneconomic damages attributable to that defendant's proportionate share of the fault or responsibility for that claimant's injury.

The provision would permit the award of punitive damages (to the extent allowed under State law) only if the claimant established by clear and convincing evidence either that the harm was the result of conduct that specifically intended to cause harm or the conduct manifested a conscious flagrant indifference to the rights or safety of others. The amount of punitive damages awarded could not exceed \$250,000 or three times the amount of economic damages, whichever was greater. The determination of punitive damages would be determined by the court and not be disclosed to the jury. The provision would not create a cause of action for punitive damages. Further, it would not preempt or supersede any State or Federal law to the extent that such law would further limit punitive damage awards.

The provision would permit either party to request a separate proceeding (bifurcation) on the issue of whether punitive damages should be awarded and in what amount. If a separate proceeding was requested, evidence related only to the claim of punitive damages would be inadmissible in any proceeding to determine whether actual damages should be awarded.

The provision would prohibit the award of punitive damages in a case where the drug or device was subject to premarket approval by the Food and Drug Administration, unless there was misrepresentation or fraud.

The provision would permit the periodic (rather than lump sum) payment of future losses in excess of \$50,000. The judgment of a court awarding periodic payments could not, in the absence of fraud, be reopened at any time to contest, amend, or modify the schedule or amount of payments. The provision would not preclude a lump sum settlement.

The provision would permit a defendant to introduce evidence of collateral source payments. Such payments are those which are any amounts paid or reasonably likely to be paid by health or accident insurance, disability coverage, workers compensation, or other third party sources. If such evidence was introduced, the claimant could introduce evidence of any amount paid or reasonably likely to be paid to secure the right to such collateral source payments. No provider of collateral source payments would be permitted to recover any amount against the claimant or against the claimant's recovery.

Sec. 15313. Alternative Dispute Resolution

Current Law.—Provision.

Explanation of Provision.—The provision would further require that any alternative dispute resolution system used to resolve health care liability actions or claims must include provisions identical to those specified in the bill.

SUBTITLE E—TEACHING HOSPITALS; GRADUATE MEDICAL EDUCATION

Part 1. Teaching Hospital and Graduate Medical Education Trust Fund

Sec. 15401. Establishment of Fund; Payments to Teaching Hospitals

Current Law.—Medicare recognizes the costs of graduate medical education in teaching hospitals and the higher costs of providing services in those institutions. Medicare recognizes the costs of graduate medical education under two mechanisms: direct graduate medical education (GME) payments and an indirect medical education (IME) adjustment. The direct costs of approved GME programs include the salaries of residents and faculty, and other education costs for residents, nurses, and allied health professionals trained in provider-operated programs; these are paid on the basis of a formula that reflects each hospital's per resident costs. The IME is designed to reimburse hospitals for indirect costs due to a variety of factors, including the extra demands placed on the hospital staff as a result of the teaching activity, greater severity of patient illness, or additional tests and procedures that may be ordered by residents.

Explanation of Provision.—The provision would add a new Title XXII to the Social Security Act (SSA) creating a trust fund in the Treasury known as the Teaching Hospital and Graduate Medical Education Trust Fund. The Fund would make annual payment distributions to teaching hospitals. The Fund would consist of three accounts: the Indirect-Costs Medical Education Account, the Medicare Direct-Costs Medical Education Account, and the General Direct-Costs Medical Education Account.

Beginning in FY 1997 and each subsequent year thereafter, the bill would appropriate amounts to the Trust Fund from the Treasury, and the Secretary of Health and Human Services would allocate and transfer amounts from Medicare's Part A and B trust funds. Appropriations from the Treasury would be: \$400 million in FY 1997; \$600 million in FY 1998; \$2.0 billion in FY 1999; \$3.0 billion in FY 2000; \$4.0 billion in FY 2001; and \$5.8 billion in FY 2002. For FY 2003 and each subsequent fiscal year, the appropriation amount would be the greater of the amount appropriated for the preceding fiscal year, or the product of the amount appropriated for the preceding fiscal year and an amount equal to 1 plus the percentage increase in the nominal gross domestic product for the one-year period ending upon July 1 of the preceding fiscal year. The appropriated amounts would be allocated to the accounts by the Secretary based on the total amount of payments made under Medicare for indirect medical education (IME) and direct graduate medical education (GME) payments for FY 1994, and the percentage of the total amount of payments for IME and GME.

The provision would require that teaching hospitals submit a payment document for FY 1997 and any subsequent fiscal year to

the Secretary to receive a payment from the Fund equal to the sum of amounts related to IME and direct GME. The payment document would contain such information as necessary for the Secretary to make payments, and the Secretary would be permitted to require that the information be submitted by the teaching hospitals in periodic reports. The provision would also authorize the Secretary to make payments to authorized consortia of providers.

For a teaching hospital's indirect costs, the provision would determine an amount for a fiscal year as the product of: (1) the amount in the Indirect-Costs Medical Education Account for the applicable date, and (2) the hospital-specific percentage determined for the hospital. Once determined, the hospital-specific percentage would remain in effect for all subsequent fiscal years. The hospital-specific percentage would be the mean average of the respective percentages for the applicable period, adjusted by the Secretary on a pro rata basis to ensure that the sum of the percentages for all teaching hospitals would be equal to 100 percent. Generally, the applicable period would be Fiscal Years 1992-1994. The percentage determined for a teaching hospital for a fiscal year of the applicable period would be constituted by the ratio of: (1) the total amount of IME payments received by the hospital for the fiscal year involved, to (2) the sum of the respective amounts of IME payments for all teaching hospitals.

To determine the direct costs of graduate medical education for a teaching hospital for a fiscal year, the provision would determine an amount equal to the sum of the amount determined under the General Direct-Cost Medical Education Account, and the amount determined under the Medicare Direct-Costs Medical Education Account. A teaching hospital's payment amount from the General Direct-Costs Medical Education Account would be equal to the product of: (1) the amount in the General Direct-Costs Medical Education Account, and (2) the hospital-specific percentage. A teaching hospital's hospital-specific percentage for each fiscal year of the applicable period (1992-1994), would be determined in the same manner as for IME payments, except using data on GME payments received by the hospitals.

Payment from the Medicare Direct-Costs Medical Education Account for a teaching hospital for a fiscal year would be the product of (1) the amount in the Medicare Direct-Costs Medical Education Account, and (2) the hospital-specific percentage determined for the teaching hospital. Unlike the other accounts, the hospital-specific percentage for Medicare Direct-Costs would be determined annually based on the Secretary's estimate of what the hospital would have received for the year if the Medicare rules for GME were applicable. The hospital-specific percentage would be the ratio of: (1) the estimate made by the Secretary of the GME payment amount for a teaching hospital in a fiscal year under Medicare's GME if the payments had not been discontinued; to (2) the sum of the respective estimates of GME payments for all teaching hospitals.

Special rules would be applied to teaching hospitals that consolidated or merged and to new teaching hospitals. In the case of two or more teaching hospitals consolidating or merging that had received IME and GME payments under Medicare, the applicable percentage would be the sum of the percentage that would have

been determined if the consolidation or merger had not occurred. For new teaching hospitals that had not received IME and GME payments under Medicare, the Secretary would be required to estimate the appropriate hospital-specific percentage based on the amount of IME and GME payments the teaching hospital would have received under Medicare. Special rules would be also applied to teaching hospitals that first received IME or GME payments under Medicare in FY 1995 and FY 1996, with the hospital-specific percentages being estimated by the Secretary based on the most recent data available. Additional special rules apply to teaching hospitals in certain states for which a demonstration project under section 1814(b)(3) of the Social Security Act is in effect.

The provision would make payments to qualifying consortium for the costs of graduate medical education. Qualifying consortium would consist of an approved medical residency training program, a teaching hospital, and one or more of the following entities: schools of medicine or osteopathic medicine; other teaching hospitals; community health centers; medical group practices; managed care entities; entities furnishing outpatient services; and other such entities the Secretary determines to be appropriate. Payments from the accounts in the Trust Fund for consortium would equal the sum of: (1) the aggregate amount determined for the teaching hospitals of the consortium under the provision; and (2) an amount determined using the methodology provided under the Medicare Direct-Costs Medical Education Account for consortia payments. Aggregate total payments to qualifying consortia could not exceed the sum of the aggregate total amount that would have been paid to the teaching hospitals of the consortia, and an amount equal to 1 percent of the amount in the Medicare Direct-Costs Medical Education Account.

The Secretary would be required to collect data to determine whether the estimates of Medicare's payments for the costs of IME and GME in each fiscal year were substantially accurate, and make corrective adjustments in subsequent transfers to the Trust Fund and payments to teaching hospitals.

Part 2. Amendments to Medicare Program

Sec. 15411. Transfers to Teaching Hospital and Graduate Medical Education Fund

Current Law.—No provision.

Explanation of the provision.—The provision would amend Medicare law by adding a new subsection (j) at the end of section 1886 of the Social Security Act (SSA), under which the Secretary would, beginning in FY 1997 transfer amounts to the Teaching Hospital and Graduate Medical Education Trust Fund. Amounts transferred to the Indirect-Costs Medical Education Account would be from the Medicare Part A Trust Fund on the basis of an estimate of the nationwide total of the amount that would have been paid to hospitals under Medicare's IME payment. The Secretary would also be required to transfer from Medicare Part A and B Trust Funds into the Medicare Direct-Costs Medical Education Account the amount estimated to be spent for teaching hospitals and consortium under Medicare's direct GME payment.

Sec. 15412. Modification in Payment Policies Regarding Graduate Medical Education

Current Law.—Medicare makes additional payments to teaching hospitals under PPS for the indirect costs attributable to approved medical education programs. These indirect costs may be due to a variety of factors, including the extra demands placed on the hospital staff as a result of the teaching activity or additional tests and procedures that may be ordered by residents. Congressional reports on the PPS authorizing legislation indicated that the indirect medical education payments are also to account for factors not necessarily related to medical education which may increase costs in teaching hospitals, such as more severely ill patients, increased use of diagnostic testing, and higher staff-to-patient ratios.

The additional payment to a hospital is based on a formula that provides an increase of approximately 7.7 percent in the Federal portion of the DRG payment, for each 0.1 percent increase in the hospital's intern and resident-to-bed ratio on a curvilinear basis (i.e., the increase in the payment is less than proportional to the increase in the ratio of interns and residents to beds).

The direct costs of approved graduate medical education (GME) programs (such as the salaries of residents and faculty, and other education costs for residents, nurses, and allied health professionals trained in provider-operated programs) are excluded from PPS and are paid on the basis of a formula that reflects Medicare's share of each hospital's per resident costs. Medicare's payment to each hospital equals the hospital's costs per full-time-equivalent (FTE) resident, times the weighted average number of FTE residents, times the percentage of inpatient days attributable to Medicare Part A beneficiaries. Each hospital's per FTE resident amount is calculated using data from the hospital's cost reporting period that began in FY 1984, increased by 1 percent for hospital cost reporting periods beginning July 1, 1985, and updated in subsequent cost reporting periods by the change in the CPI. OBRA 93 provided that the per resident amount would not be updated by the CPI for cost reporting periods during FY 1994 and FY 1995, except for primary care residents in obstetrics and gynecology. The number of FTE residents is weighted at 100 percent for residents in their initial residency period (i.e., the number of years of formal training necessary to satisfy specialty requirements for board eligibility). Residents in preventive care or geriatrics are allowed a period of up to 2 additional years that is not counted as part of the initial residency training period. For residents not in their initial residency period, the weighing factor is 50 percent. On or after July 1, 1986, residents who are foreign medical graduates can be counted as FTE residents only if they have passed designated examinations.

Explanation of the provision.—The provision would reduce the IME amount under Medicare by changing the current formula multiplier to 1.48, resulting in a 6.0 percent aggregate payment adjustment for FY 1996–FY 1998, with a further reduction the multiplier beginning in FY 1999 and for each subsequent fiscal year, for a 5.6 percent aggregate payment adjustment, for every 10 percent increase in teaching intensity measured by the ratio of interns and

residents per bed, and the number of discharges expected under PPS.

The GME formula would be modified to limit the number of residents that could be counted by a teaching hospital. The total number of full-time-equivalent (FTE) residents in an approved residency program would be limited to the total number of residents at a hospital as of August 1, 1995, for cost reporting periods beginning on or after October 1, 1995, and on or before September 30, 2002. This limitation would apply only to allopathic and osteopathic medical residencies and would not apply to a nonphysician postgraduate program that is an approved medical residency program. For hospital cost reporting periods beginning on or after October 1, 1997, the weighting factor for a resident in the initial residency period would be 1.0 FTEs, and the weighting factor for a resident who had completed the initial residency period would be 0.0 FTEs. For cost reporting periods beginning during FY 1996, the FTE amount paid for medical residents who are not citizens or nationals of the United States or who are not citizens of Canada, would be reduced and ultimately eliminated by lowering the FTE weight that a hospital would be allowed to count for GME payments to: 0.75 in FY 1996; 0.50 in FY 1997; 0.25 in FY 1998; and for cost reporting periods beginning during FY 1999 or any subsequent fiscal year, zero.

The effective date for these provisions, unless otherwise specified would apply to hospital cost reporting periods beginning on or after October 1, 1995.

Part 3. Reform of Federal Policies Regarding Teaching Hospitals and Graduate Medical Education

Sec. 15421. Establishment of Advisory Panel for Recommending Policies Regarding Teaching Hospitals and Graduate Medical Education

Current Law.—No provision.

Explanation of the provision.—The provision would require the Chair of the Medicare Payment Review Commission to establish an advisory panel on reform in the financing of teaching hospitals and graduate medical education. The advisory panel would be required to study and make recommendations on reforming Federal policies regarding teaching hospitals and financing of graduate medical education. The recommendations of the panel would include the following: (1) the financing of graduate medical education, including consideration of alternative broad-based sources of funding; (2) the financing of teaching hospitals, including consideration of the competitive difficulties such hospitals face; (3) the methodology for making payments and the selection of entities to receive the payments; (4) Federal policies regarding international medical graduates; (5) the dependence of schools of medicine on service generated income; (6) the effects of the amendments made by the Omnibus Budget Reconciliation Act of 1995; (7) the changing needs of the United States regarding the supply of physicians during the 10-year period beginning in 1995, and the significant financial effects on teaching hospitals; and (8) the appropriate number and mix of residents.

The advisory panel would be composed of 19 members with expertise on matters related to graduate medical education. The advisory panel would be required to provide Congress with a first interim report (not later than one year after enactment), a second interim report (not later than 2 years after enactment), and a final report (not later than 3 years after enactment). The advisory panel would terminate 180 days after the date on which the final report was submitted to Congress. The bill would authorize appropriations of such sums as may be necessary for each of the Fiscal Years 1996 through 2000.

SUBTITLE F—PROVISIONS RELATING TO MEDICARE PART A

Part 1. Hospitals

Sec. 15501. Reductions in Inflation Updates for PPS Hospitals

Current Law.—Hospitals are paid on the basis of a prospectively fixed payment rate for costs associated with each discharge. Each hospital's basic payment rate is based on a national standardized payment amount, which is higher for hospitals in large urban areas than for other hospitals. Each standardized payment amount is adjusted by a wage index. Payment also depends on the relative costliness of the case, based on the diagnosis related group (DRG) to which the discharge is assigned. Additional payments are made for: extraordinary costs (outliers); indirect costs of medical education; and for hospitals serving a disproportionate share of low-income patients. Other exceptions and adjustments are made.

PPS payment rates are annually updated using an "update factor." The annual update factor applied to increase the Federal base payment amounts is determined, in part, by the projected increase in the hospital market basket index, which measures the costs of goods and services purchased by hospitals. Under the Omnibus Budget Reconciliation Act of 1993 (OBRA 93), the PPS update factor for all PPS hospitals is equal to the percentage increase in the market basket minus 2 percentage points.

Explanation of Provision.—The provision sets the update factor for FY 1996 at MBI minus 2.5 percentage points for all hospitals in all areas, for FY 1997-FY 2002 at MBI minus 2.0 percentage points for all hospitals in all areas, and for FY 2003 and each subsequent fiscal year equal to the MBI for all hospitals in all areas.

Sec. 15502. Reductions in Disproportionate Share Payment Adjustments

Current Law.—Under PPS, an adjustment is made to the payment to hospitals that serve a disproportionate share of low-income patients. The DSH adjustment is intended to compensate hospitals that treat large proportions of low-income patients. The factors considered in determining whether a hospital qualifies for a DSH payment adjustment include the number of beds, the number of patient days, and the hospital's location. A hospital's disproportionate patient percentage is the sum of (1) the total number of inpatient days attributable to Federal SSI beneficiaries divided by the total number of Medicare patient days, and (2) the number of Medicaid patient days divided by total patient days, expressed as a percent-

age. A hospital is classified as a DSH under any of the following circumstances:

(1) If its disproportionate patient percentage equals or exceeds:

(a) 15 percent for an urban hospital with 100 or more beds, or a rural hospital with 500 or more beds (the latter is set by regulation);

(b) 30 percent for a rural hospital with more than 100 beds and fewer than 500 beds or is classified as a sole community hospital;

(c) 40 percent for an urban hospital with fewer than 100 beds; or

(d) 45 percent for a rural hospital with 100 or fewer beds, or

(2) if it is located in an urban area, has 100 or more beds, and can demonstrate that, during its cost reporting period, more than 30 percent of its net inpatient care revenues are derived from State and local government payments for care furnished to indigent patients. (This provision is intended to help hospitals in States that fund care for low-income patients through direct grants rather than expanded Medicaid programs.)

For a hospital qualifying on the basis of (1)(a) above, if its disproportionate patient percentage is greater than 20.2 percent, the applicable PPS payment adjustment factor is 5.88 percent plus .825 percent of the difference between 20.2 percent and the hospital's disproportionate patient percentage. If the hospital's disproportionate patient percentage is less than 20.2 percent, the applicable payment adjustment factor is equal to: 2.5 percent plus 65 percent of the difference between 15 percent and the hospital's disproportionate patient percentage. If the hospital qualifies as a DSH on the basis of (1)(b), the payment adjustment factor is determined as follows:

(a) if the hospital is classified as a rural referral center, the payment adjustment factor is 4 percent plus 60 percent of the difference between the hospital's disproportionate patient percentage and 30 percent;

(b) if the hospital is a SCH, the adjustment factor is 10 percent;

(c) if the hospital is classified as both a rural referral center and a SCH, the adjustment factor is the greater of 10 percent or 4 percent plus 60 percent of the difference between the hospital's disproportionate patient percentage and 30 percent; and

(d) if the hospital is not classified as either a SCH or a rural referral center, the payment adjustment factor is 4 percent.

If the hospital qualifies on the basis of (1)(c), the adjustment factor is equal to 5 percent. If the hospital qualifies on the basis of (1)(d), the adjustment factor is 4 percent. If the hospital qualifies on the basis of (2) above, the payment adjustment factor is 35 percent.

Explanation of Provision.—The provision would reduce the DSH payment by 20 percent for discharges occurring on or after October 1, 1995, and on or before September 30, 1996; 25 percent for discharges occurring on or after October 1, 1996, and on or before Sep-

tember 30, 1997; and 30 percent for discharges occurring on or after October 1, 1997.

Sec. 15503. Payments for Capital-Related Costs for Inpatient Hospital Services

Current Law.—In FY 1992, Medicare began phasing in prospectively-determined per case rates for capital-related costs. During the 10-year transition to a single capital rate, payments will reflect both hospital-specific costs and a single Federal capital payment rate. During the transition, hospitals are paid according to either a fully prospective method or a “hold harmless” method of payment.

Capital payment rates are updated annually. For the first 5 years of the transition to prospectively determined per-case rates, historical cost increases were used to increase the Federal and hospital-specific rates. Under a budget neutrality requirement, per case capital rates were adjusted in the first 5 years of the transition so that total payments equalled 90 percent of estimated Medicare-allowed capital costs. In Fiscal Year 1996, the budget neutrality requirement will be lifted. In addition, the cost-based updates will be replaced by an “update framework” (developed by HCFA and proposed in the June 2, 1995 Federal Register), which will determine payment rate growth. This analytical framework is to take into account changes in the price of capital and appropriate changes in capital requirements resulting from development of new technologies and other factors.

Capital costs for PPS exempt hospitals are reimbursed on a reasonable cost basis.

Medicare’s capital-related costs include local property taxes and property “fees” paid by nonprofit hospitals. The hospital-specific component of capital payments is based on a hospital’s spending in a base year (generally 1990). Hospitals that have changed from nonprofit or public to proprietary may become subject to property taxes not included in their base; this may also occur as a result of changes in State or local law.

Explanation of Provision.—The provision would reduce aggregate payments for PPS and PPS-exempt capital payments by 15 percent of the allowable amount for FY 1996 through FY 2002. The capital payment reduction would not apply to payments for sole community hospitals or rural primary care hospitals (defined in the bill).

The provision would provide an adjustment for the amount of capital-related tax costs for eligible hospitals for discharges occurring after September 30, 1995. Eligible hospitals would be facilities that may otherwise receive capital payments, are not public hospitals, and incur capital-related tax costs for the fiscal year.

The bill would also amend the provision of additional exception payments for PPS-exempt hospital capital costs as follows: (1) urban hospitals with 100 beds would be eligible without regard to its DSH patient percentage or whether it qualifies for capital additional payments amounts; (2) the minimum payment level for qualifying hospitals would be 85 percent; (3) hospitals would be considered to meet the requirement that it completed a project involved no later than the end of the hospital’s last cost reporting period beginning after October 1, 2001, if (i) the hospital obtained a

certificate of need for the project approved by the State or a local planning authority, and (ii) by September 1, 1995, the hospital had expended on the project at least \$750,000 or 10 percent of the estimated cost of the project; and (4) the amount of the exception payment made would not be reduced by any offsetting amounts.

Sec. 15504. Reduction in Adjustment for Indirect Medical Education

See Subtitle E above.

Sec. 15505. Treatment of PPS-Exempt Hospitals

Current Law.—Under Medicare, five types of specialty hospitals (psychiatric, rehabilitation, long-term care, children's and cancer) and two types of distinct-part units in general hospitals (psychiatric and rehabilitation) are exempt from PPS. They are subject to the payment limitations and incentives established in the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA). Each provider is paid on the basis of reasonable costs subject to a rate of increased ceiling on inpatient operating costs. The ceiling is based on a target amount per discharge. The target amount for a cost reporting period is equal to the hospital's allowable inpatient operating costs (excluding capital and medical education costs) per discharge in a base year increased by applicable update factors for subsequent years. This amount is then multiplied by Medicare discharges, to yield the ceiling or upper limit on operating costs.

OBRA 93 provided that the applicable rate of increase percentage, or update, would be equal to the MBI minus 1.0 percent for FY 1994–FY 1997.

Explanation of Provision.—The provision would extend the target amount updates through FY 2002.

The provision would also provide for rebasing the target amount for certain long-term care hospitals for discharges occurring on or after October 1, 1995.

The provision would also apply to long-term care units of hospitals not treated as PPS hospitals for discharges occurring on or after September 30, 1995. Not later than a specified period after enactment, the Medicare Payment Review Commission would be required to submit a report to Congress containing recommendations for appropriate revisions in the treatment of distinct units of hospitals for purposes of Medicare's PPS.

Sec. 15506. Reduction in Payments to Hospitals for Enrollees' Bad Debts

Current Law.—Certain hospital and other provider bad debts are reimbursed by Medicare on an allowable cost basis. To be qualified for reimbursement, the debt must be related to covered services and derived from deductible and coinsurance amounts left unpaid by Medicare beneficiaries. The provider must be able to establish that reasonable collection efforts were made and that sound business judgment established that there was no likelihood of recovery at any time in the future.

Explanation of Provision.—The provision would reduce bad debt payments to providers by 75 percent for cost reporting periods be-

ginning during FY 1996; 60 percent for cost reporting periods beginning during FY 1997; and 50 percent for subsequent cost reporting periods.

Sec. 15507. Permanent Extension of Hemophilia Pass-Through

Current Law.—Medicare makes additional payments for the costs of administering blood clotting factor to Medicare beneficiaries with hemophilia admitted for hospital stays where the clotting factor was furnished between June 19, 1990 and September 30, 1994.

Explanation of Provision.—The provision would make the payment permanent.

Sec. 15508. Conforming Amendment to Certification of Christian Science Providers

Current Law.—Certain services furnished by a Christian Science sanatorium are covered under Medicare Part A if the institution is operated or listed and certified by the First Church of Christ, Scientists, Boston, Mass. Such a sanatorium qualifies as both a hospital and as a skilled nursing facility.

Explanation of Provision.—The provision would expand coverage of Christian Science sanatorium to include facilities (both hospitals and skilled nursing facilities) certified by the Commission for Accreditation of Christian Science Nursing Organizations/Facilities, Inc.

Sec. 15511. Sole Community Hospitals

Current Law.—Sole Community Hospitals (SCHs) are facilities located in geographically isolated areas and are the sole provider of inpatient, acute care hospital services in a geographic area based on distance, travel time, severe weather conditions, and/or market share. SCHs are paid the greater of what would be payable under PPS or a target amount comparable to that for PPS-exempt hospitals. Target amounts for SCHs are updated by an “applicable percentage increase” which is specified by statute and is generally pegged to the hospital market basket index. OBRA 93 provided separate SCH updates of MBI minus 2.2 percent for FY 1995 and MBI minus 2.0 percent for FY 1996. For FY 1997 and thereafter, the update for SCHs is the same as for all PPS hospitals.

Explanation of Provision.—The provision would provide a target amount update of MBI minus one percentage point for Fiscal Years 1996–2000; and for FY 2001 and each subsequent fiscal year, the applicable update would be applied.

The bill would require the Medicare Payment Review Commission to conduct a study of the impact of the designation of hospitals as SCHs on the delivery of health care services to individuals in rural areas, and include an analysis of the characteristics of the hospitals so designated. The Commission would be required to submit the report to Congress within 12 months after a majority of Commission members are first appointed.

*Sec. 15512. Clarification of Treatment of Essential Access
Community Hospital/Rural Primary Care Hospital (EACH/RPCH)*

Current Law.—Under the EACH demonstration program up to seven States may be designated by the Secretary to receive grants to develop rural health networks consisting of essential access community hospitals (EACHs) and rural primary care hospitals (RPCHs). Individual hospitals may be designated as EACHs and RPCHs. In order to receive designation by a State as a RPCH, a facility must meet certain criteria, including a requirement that inpatient stays not exceed 72 hours.

Explanation of Provision.—The bill would allow EACHs to continue to receive payments under Medicare equal to their reasonable costs, and RPCHs to continue to receive Medicare payments for their services, even in fiscal years in which the program did not receive appropriations.

Sec. 15513. Rural Emergency Access Care Hospitals (REACHs)

Current Law.—No provision.

Explanation of Provision.—The bill would provide for the establishment of a new category of hospitals under Medicare to provide for medical screening examinations and treatment for emergency medical conditions and active labor for rural facilities that are in danger of closing due to low inpatient utilization rates and operating losses and whose closing would reduce access to emergency services. Such facilities would have to meet specific requirements including those relating to appropriate medical staffing, referral arrangements; and diagnostic and laboratory services. Facilities would be reimbursed on a reasonable cost basis.

Sec. 15514. Classification of Rural Referral Centers

Current Law.—Referral centers are paid prospective payments based on the applicable urban payment amount rather than the rural payment amount, as adjusted by the hospital's area wage index. The applicable amount is the "other urban" rate (*i.e.*, the rate for urban areas with 1 million or fewer people) for all referral centers except those (if any) located in MSAs greater than 1 million. These centers are defined as:

- (1) rural hospitals having 275 or more beds;
- (2) hospitals having at least 50 percent of their Medicare patients referred from other hospitals or from physicians not on the hospital's staff, at least 60 percent of their Medicare patients residing more than 25 miles from the hospital, and at least 60 percent of the services furnished to Medicare beneficiaries are furnished to those who live 25 miles or more from the hospital; or
- (3) rural hospitals meeting the following criteria for hospital cost reporting periods beginning on or after October 1, 1985:
 - (a) a case mix index equal to or greater than the median case mix for all urban hospitals (the national standard), or the median case mix for urban hospitals located in the same census region, excluding hospitals with approved teaching programs;

(b) a minimum of 5,000 discharges, the national discharge criterion (3,000 in the case of osteopathic hospitals), or the median number of discharges in urban hospitals for the region in which the hospital is located; and

(c) at least one of the following three criteria: more than 50 percent of the hospital's medical staff are specialists, at least 60 percent of discharges are for inpatients who reside more than 25 miles from the hospital, or at least 40 percent of inpatients treated at the hospital have been referred either from physicians not on the hospital's staff or from other hospitals.

OBRA 93 extended the classification through FY 1994 for those referral centers classified as of September 30, 1992.

Explanation of Provision.—The bill would prohibit the Medicare Geographic Classification Review Board from denying a referral centers request for reclassification on the basis of any comparison between the average hourly wage of the hospital and the average hourly wage of hospitals in the area in which it is located. Hospitals would be allowed to submit applications to the Board during the 30-day period beginning on the date of enactment requesting a change in classification for purposes of determining the area wage index applicable to the hospital for FY 1997, if the hospital would be eligible for such change except for its failure to meet the deadline for applications.

The bill would, beginning in FY 1996, extend the referral center classification for any hospital classified as a referral center for FY 1994, and such hospitals would continue to be classified as a referral center for each subsequent fiscal year.

Sec. 15515. Floor on Area Wage Index

Current Law.—As part of the methodology for determining prospective payments to hospitals under PPS, the Secretary is required to adjust a portion of the standardized amounts for area differences in hospital wage levels by a factor reflecting the relative hospital wage level in the geographic area of the hospital compared to the national average hospital wage level.

Explanation of Provision.—For discharges occurring on or after October 1, 1995, the area wage index applicable for any hospital which was not located in a rural area could not be less than the average of the area wage indices applicable to hospitals located in rural areas in the State in which the hospital was located. The Secretary would be required to make any adjustments in the wage index in a budget neutral manner.

Part 2. Payments to Skilled Nursing Facilities (SNFs)

Sec. 15521. Payments for Routine Service Costs

Current Law.—SNFs are generally reimbursed on the basis of reasonable costs, subject to limits that are applied to per diem routine service costs (nursing, room and board, administrative, and other overhead). Non-routine, or ancillary services (such as therapy and certain equipment), and capital-related costs are excluded from the cost limits and are generally paid on the basis of reasonable costs.

Separate per diem limits for routine service costs are established for freestanding and hospital-based SNFs by urban or rural area. Freestanding SNF cost limits are set at 112 percent of the average per diem labor-related and nonlabor-related costs. Hospital-based SNF limits are set at the limit for freestanding SNFs, plus 50 percent of the difference between the freestanding limits and 112 percent of the average per diem routine services costs of hospital-based SNFs. The limits are adjusted by the hospital wage index to reflect differences in wage levels. The law authorizes the Secretary to allow for exceptions to the limits, based on case mix or circumstances beyond the control of the facility. The Secretary is required to rebase cost limits every 2 years, i.e. to develop cost limits using the latest available SNF cost report data every 2 years. In the interim the Secretary applies a SNF market basket developed by the Health Care Financing Administration (HCFA) to reflect changes in the price of goods and services purchased by SNFs.

SNFs providing less than 1,500 days of care per year to Medicare patients in the preceding year have the option of being paid a prospective payment rate set at 105 percent of the regional mean for all SNFs in the region. The rate covers routine and capital-related costs (and not ancillary services) and is calculated separately for urban and rural areas, adjusted to reflect differences in wage levels. Prospective rates cannot exceed the routine service cost limit that would be applicable to the facility, adjusted to take into account average capital-related costs with respect to the type and location of the facility. For low-volume SNFs, the Secretary is required to establish on an annual basis, prospective payments that reflect current SNF costs using the most recent data available from SNF cost reports. For SNFs receiving prospectively determined payment rates, the Secretary may pay for ancillary services on a reasonable charge basis, rather than on a cost basis, if the Secretary determines that a reasonable charge basis provides an equitable level of payment and eases the SNF's reporting burden.

Explanation of Provision.—For cost reporting periods beginning in FY 1997, the Secretary would be required to redefine routine service costs that would be subject to the routine cost limits. These would include all items used in the current definition—nursing, room and board, administrative, and other overhead—and, in addition, all ancillary services (including supplies and equipment), with the exception of non-routine services listed below.

Sec. 15522. Incentives for Cost Effective Management of Covered Non-Routine Services

Current Law.—Currently non-routine ancillary services are generally paid on the basis of reasonable costs and are not subject to limits.

Explanation of Provision.—For cost reporting periods beginning in FY 1997, new payment limits would be established for non-routine services provided to beneficiaries eligible for and receiving SNF care under Part A. For these purposes, non-routine services would be defined to include therapy services (physical and occupational therapy, speech language pathology, and respiratory therapy); prescription drugs; complex medical equipment; intravenous therapy and solutions (including enteral and parenteral nutrients,

supplies, and equipment); radiation therapy; and diagnostic services, including laboratory, pulmonary, and radiology services (including tomography and imaging services).

The non-routine limit for a stay would be the sum of the following two amounts: 50 percent would be the facility-specific amount for these services; and 50 percent would represent the national average amount paid for these services for all SNF stays. The facility-specific amount would be calculated by summing (1) the average amount of payments made to a facility under Part A for non-routine services during a stay and (2) the Secretary's best estimate of the average amount of payments made under Part B for non-routine services furnished to all residents provided SNF care under Part A.

In establishing base year payments for the new limits, the Secretary would be required to use cost reporting periods ending September 30, 1994. These base year payments would be updated to FY 1997 by the SNF market basket. In subsequent years, per stay limits would be updated by the SNF market basket minus 2 percentage points. National average payments used for determining a facility's per stay limit would be calculated separately for free-standing and hospital-based SNFs. Separate per stay limits would apply to residents of SNFs who require intensive nursing or therapy services. The Secretary, after consulting with the Medicare Payment Review Commission and SNF experts, would be required to develop and publish this separate limit by June 30, 1997, and would be required to ensure its budget neutrality. The Secretary would also be required to rebase facility-specific amounts for cost reporting periods beginning October 1, 1999, and every 2 years thereafter. A SNF stay would be defined by the number of continuous days a beneficiary spent in the facility during a covered spell of illness.

An aggregate payment limit for non-routine services would also be determined annually for each SNF. This would be calculated by multiplying the number of SNF stays for which payments for these services were made times the blended payment limit. This amount would be compared to actual interim payments made to the SNF for these services; these payments would be based on the facility's reasonable costs of providing these services. If total payments for the year were below the SNF's payment limit, then the SNF would be allowed to retain 50 percent of the difference, up to 5 percent of the total amount paid to the facility for covered non-routine services. In the event that total payments exceeded the SNF's payment limit, the Secretary would be required to reduce payments for new stays in the next fiscal year at such times and in a manner the Secretary considers appropriate.

SNFs would be required to bill Medicare for all services provided to beneficiaries eligible for SNF care, regardless of whether the service was provided by the facility, by others under arrangements with the facility, or under any other contracting or consulting arrangement. For beneficiaries residing in SNFs but not eligible for Part A SNF benefits, the SNF would again be required to bill for covered Part B services. SNFs would be required to maintain records of all covered non-routine services furnished beneficiaries.

The Secretary could provide for exceptions to the per stay limits, so long as additional payments were budget neutral and did not exceed 5 percent of aggregate payments to all SNFs for covered non-routine services. New SNFs not receiving payments for non-routine services in the base year period of FY 1994 would be subject to the national mean payment limit described above. Low-volume SNFs receiving prospective payments would not be subject to the new non-routine limits. Before furnishing a covered x-ray service to a SNF beneficiary, SNFs would be required to consider the appropriateness of portable x-ray services, taking into account the cost effectiveness of the service and the convenience to the resident.

Sec. 15523. Payments for Routine Service Costs

Current Law.—OBRA 93 required that there be no changes in SNF cost limits (including no adjustments for changes in the wage index or updates of data) for cost reporting periods beginning in FY 1994 and FY 1995, or in prospective payment amounts for low-volume SNFs during these cost reporting periods. The Secretary was also required, when granting or extending exceptions to cost limits, to limit any exception to the amount that would have been granted if there were no restriction on changes in cost limits. OBRA 93 also repealed the requirement that additional payments be made to hospital-based SNFs for costs attributable to excess overhead allocations, effective for cost reporting periods beginning on or after October 1, 1993. Payments to proprietary SNFs for return on equity were also eliminated, effective for cost reporting periods beginning on or after October 1, 1993.

Explanation of Provision.—Beginning in FY 1996, the provision would permanently extend the savings stream, but not the OBRA 93 freeze on SNF cost limits, by not allowing for the inflation that occurred during the freeze years. The Secretary would accomplish this by collecting new historical cost data that would be used for rebasing SNF limits, and for the period of the freeze, not applying the SNF market basket that is used for inflating the cost limits. Low-volume SNFs receiving prospective payments would be subject to the permanent extension of the savings stream of the freeze.

Reimbursements for exceptions to routine cost limits in FY 1997 would be limited to aggregate payments made in FY 1996, adjusted for increases in the SNF market basket. In future fiscal years, increases in aggregate payments for exceptions to the limits would be limited by percentage increases in the SNF market basket. The Secretary would be required to provide exceptions only to those facilities that make annual applications for adjustments.

Sec. 15524. Reductions in Payment for Capital-Related Costs

Current Law.—Capital-related costs of SNFs are excluded from cost limits.

Explanation of Provision.—SNF capital costs would be reduced by 15 percent.

Sec. 15525. Treatment of Items and Services Paid for under Part B

Current Law.—Certain covered Part B services provided in SNFs are paid the lesser of reasonable costs or charges.

Explanation of Provision.—For services billed at the lesser of costs or charges, reasonable costs would be reduced by 5.8 percent from amounts currently recognized as reasonable for cost reporting periods occurring during Fiscal Years 1996 through 2002.

Sec. 15526. Certification of Facilities Meeting Revised Nursing Home Reform Standards

Current Law.—OBRA 87 comprehensively revised Medicare and Medicaid requirements for nursing homes participating in the programs. These provisions, collectively referred to as nursing home reform law, are virtually identical in Medicare and Medicaid statutes. They have three major parts: (1) requirements that nursing homes must meet in order to be certified to participate in Medicare and/or Medicaid, including requirements about assessments of residents, available services, nurse staffing, nurse aide training, and resident rights; (2) provisions revising the survey and certification process that State survey agencies must use for determining whether nursing homes comply with the requirements for participation; and (3) provisions that expand the range of sanctions and penalties that States and the Secretary of HHS may impose against nursing homes found to be out of compliance with the requirements for participation.

The Commerce Committee has reported legislation transforming the Medicaid program into a new MediGrant program authorized under Title XXI of the Social Security program. The new program would replace the OBRA 87 nursing home reform provisions with new State quality assurance standards and nursing facilities certification programs.

Explanation of Provision.—The provision would require that SNFs participating in Medicare either be State-certified or meet new requirements that would replace OBRA 87 reforms. State-certified facilities would include facilities licensed or certified as a SNF by the State in which it is located, or a facility which otherwise meets the requirements for nursing facilities specified under the Medicaid or new MediGrant authorities.

The Secretary would be required to establish and maintain standards in the following areas for SNFs providing Medicare covered services: the treatment of resident medical records; policies, procedures, and bylaws for operation; quality assurance systems; resident assessment procedures, including care planning and outcome evaluation; the assurance of a safe and adequate physical plant for the facility; qualifications for staff sufficient to provide adequate care; and utilization review.

Standards for SNFs would also be required to provide for the protection and enforcement of resident rights, including rights to exercise the individual's rights as a resident of the facility and as a citizen or resident of the U.S.; to receive notice of rights and services; to be protected against the misuse of resident funds; to be provided privacy and confidentiality; to voice grievances; to examine the results of State certification program inspections; to refuse to perform services for the facility; to be provided privacy in communications and to receive mail; to have the facility provide immediate access to any resident by any representative of the State's certification program, the resident's individual physician, the State

long-term care ombudsman, and any person the resident has designated as a visitor; to retain and use personal property; to be free from abuse, including verbal, sexual, physical and mental abuse, corporal punishment, and involuntary seclusion; and to be provided with prior written notice of a pending transfer or discharge.

Standards established by the Secretary for SNFs could take effect only after public notice and an opportunity for comment.

The Secretary would also be required to provide for the establishment and operation of a program for the certification of SNFs that meet specified standards as well as the decertification of those facilities that fail to meet the standards. The Secretary would be required to ensure public access (as defined by the Secretary) to the certification program's evaluations of participating facilities, including compliance records and enforcement actions and other reports regarding ownership, compliance histories, and services provided by certified facilities. The Secretary would be required to audit expenditures under the program, not less often than every 4 years, through an entity designated by the Secretary and not affiliated with the program.

The Secretary would be required to impose certain sanctions against SNFs not meeting these requirements. If the Secretary determines that a certified facility no longer substantially meets the requirements for participation and further determines that the facility's deficiencies immediately jeopardize the health and safety of residents, then the Secretary would be required, at a minimum, to terminate the facility's certification for participation. If the facility's deficiencies do not immediately jeopardize the health and safety of residents, the Secretary could, in lieu of termination, provide lesser sanctions, including denial of payment for persons admitted after a specified date.

The Secretary could not impose sanctions until a facility has had a reasonable opportunity to correct its deficiencies, following the initial determination that it no longer substantially meets the requirements for certification, and, has been given reasonable notice and opportunity for a hearing. The Secretary's decision to deny payment for new admissions would be effective only after notice to the public and the facility, as may be provided for by the Secretary. Denial of payment for new admissions would end when the Secretary finds that the facility is in substantial compliance (or is making good faith efforts to achieve substantial compliance). Facilities would, however, be required to be in compliance by the end of the eleventh month following the month when the decision to deny payments becomes effective. If facilities did not substantially meet the requirements by that time, the Secretary would be required to terminate their certification for participation.

Sec. 15527. Medical Review Process

Current Law.—No Provision.

Explanation of Provision.—The Secretary would be required to implement a medical review process to examine the effects of the amendments of this part on the quality of care received by Medicare beneficiaries, placing a particular emphasis on the quality of non-routine covered services.

Sec. 15528. Report by Medicare Payment Review Commission

Current Law.—The Prospective Payment Assessment Commission has been authorized to review and make recommendations on prospective payment for SNF care.

Explanation of Provision.—The Medicare Payment Review Commission would be required to report on Medicare's method for paying for SNF care and would be required to include in the report: (1) an analysis of the effect of the new payment limits for non-routine services on payments for and the quality of SNF services (2) an analysis of the advisability of determining the amount of payment for covered non-routine services on the basis of amounts paid for such services under Part B of the program; (3) an analysis of the desirability of maintaining separate limits for hospital-based and freestanding SNFs; (4) an analysis of the quality of services furnished by SNFs; and (5) an analysis of the adequacy of the process and standards used for exceptions to routine cost limits.

Sec. 15529. Effective Date

Current Law.—No provision.

Explanation of Provision.—The provisions would be effective for services furnished during cost reporting periods beginning on or after October 1, 1996.

SUBTITLE G—PROVISIONS RELATING TO MEDICARE PART B

Part 1. Payment Reforms

Sec. 15601. Payments for Physicians Services

Current Law.—Payments for physicians services are made on the basis of a fee schedule. The fee schedule assigns relative values to services based on the time, skill, and intensity it takes physicians to provide them. The relative values are adjusted for geographic variations in the costs of practicing medicine. The adjusted relative values are converted into a dollar payment amount by a conversion factor. There are three conversion factors: one for surgical services, one for primary care services, and one for all other services. The 1995 conversion factors are \$39.45 for surgical services, \$36.38 for primary care services, and \$34.62 for other services.

Conversion factors are updated each year by a default formula. The update equals inflation as measured by the Medicare Economic Index (MEI), plus or minus the difference between actual physician spending for the category of services in a base period compared to the *Medicare Volume Performance Standard (MVPS)* for that category for the period. (If spending was below the MVPS, the update is larger than the MEI; if spending exceeded the MVPS, the update is less than the MEI).

The MVPS is a goal for the rate of expenditure growth from one fiscal year to the next. The calculation of the MVPS for a year is based on estimates of several factors (changes in fees, enrollment, volume and intensity, and laws and regulations). The MVPS derived from the calculation is subject to a reduction which is known as the *performance standard factor*. The performance standard factor is four percentage points for FY 1995 and subsequent years.

Explanation of Provision.—The provision would replace the MVPS with a sustainable growth rate beginning for FY 1996. The provision would establish the sustainable growth rate for FY 1996 based on: (i) changes in the MEI, (ii) changes in Medicare enrollment (excluding Medicare Plus and HMO enrollees), (iii) growth in the real gross domestic product from FY 95 to FY 96 plus 2 percentage points; and (iv) changes resulting from changes in law (determined without taking into account changes in volume or intensity or changes resulting from changes in the calculation of the conversion factor update). For each subsequent fiscal year beginning in 1997, the sustainable growth rate would equal the previous year's rate, updated by the same factors used to set the FY 96 rate.

The provision would provide for the establishment of a single conversion factor, rather than three conversion factors, effective January 1, 1996. It would set the factor for 1996 at \$34.60 and modify the calculation of the update beginning in 1997. The provision would specify that the update for a year would equal the MEI, subject to an adjustment to match the cumulative sustainable growth rate. Specifically, the update for a year would equal the MEI, plus or minus the difference between the percentage increase in actual physician spending for the 12-month period ending the previous June compared to the allowable growth rate for the year. The allowable growth rate would be based on the cumulative sustainable growth rate from the base year 1995. If spending was below the cumulative sustainable growth rate, the update would be larger than the MEI; if spending exceeded the cumulative sustainable growth rate, the update would be less than the MEI. However, the adjustment to the update would be limited to no more than three percentage points larger than the MEI, and no more than seven percentage points lower than the MEI.

The provision would require the Secretary to submit to Congress by November 1 of each year, beginning in 1996, a report describing the update in the conversion factor for the following year. The Medicare Payment Review Commission would review the report and submit to Congress by December 1 a report containing an analysis of the conversion factor.

Sec. 15602. Elimination of Formula-Driven Overpayments for Certain Outpatient Hospital Services

Current Law.—Medicare payments for hospital outpatient ambulatory surgery, radiology, and other diagnostic services equals the lesser of: (1) the lower of a hospital's reasonable costs or its customary charges, net of deductible and coinsurance amounts; or (2) a blended amount comprised of a cost portion and a charge portion, net of beneficiary cost-sharing. The cost portion of the blend is based on the lower of the hospital's costs or charges, net of beneficiary cost sharing, and the charge portion is based, in part, on ambulatory surgery center payment rates, net of beneficiary coinsurance.

A hospital may bill a beneficiary for the coinsurance amount owed for the outpatient service provided. The beneficiary coinsurance is based on 20 percent of the hospital's submitted charges for the outpatient service, whereas Medicare usually pays based on the blend of the hospital's costs and the amount paid to ambulatory

surgery centers for the same service. This results in an anomaly whereby the amount a beneficiary pays in coinsurance does not equal 20 percent of the program's payment and does not result in a dollar-for-dollar decrease in Medicare program payments.

Explanation of Provision.—The provision would require that beneficiary coinsurance amounts be deducted later in the reimbursement calculation for hospital outpatient services, so that Medicare payments for covered services would be lower. Medicare's payment for hospital outpatient services would equal the blended amount less any amount the hospital may charge the beneficiary as coinsurance for services furnished during portions of cost reporting periods occurring on or after October 1, 1995.

Sec. 15603. Reduction in Updates to Payment Amounts for Durable Medical Equipment (DME)

Current Law.—DME is reimbursed on the basis of a fee schedule. Items are classified into five groups for purposes of determining the fee schedules and making payments: (1) inexpensive or other routinely purchased equipment (defined as items costing less than \$150 or which is purchased at least 75 percent of the time); (2) items requiring frequent and substantial servicing; (3) customized items; (4) oxygen and oxygen equipment; and (5) other items referred to as capped rental items. In general, the fee schedules establish national payment limits for DME. The national limits have floors and ceilings. The floor is equal to 85 percent of the weighted median of local payment amounts and the ceiling is equal to 100 percent of the weighted median of local payment amounts. Fee schedule amounts are updated annually by the consumer price index for all urban consumers, CPI-U. OBRA 93 changed the basis for the floors and ceiling for the DME fee schedules from the weighted average to the weighted median, effective January 1, 1994.

Prosthetics and orthotics are reimbursed on the basis of a fee schedule. Items covered by this fee schedule include leg, arm, and neck braces, artificial limbs and eyes, and items that replace all or part of an internal body organ. The fee schedule establishes regional payment limits for covered items. The regional limits have floors and ceilings. The floor is equal to 90 percent of the weighted average of local payment amounts and the ceiling is equal to 120 percent of the weighted average of local payment amounts. Fee schedule amounts are updated annually by CPI-U. OBRA 93 eliminated updates for prosthetics and orthotics for 1994 and 1995.

Explanation of Provision.—The provision would eliminate updates to the DME fee schedules for the period 1996 through 2002. The provision would also reduce in 1996 the national payment limit for oxygen and oxygen equipment by 20 percent.

The update for prosthetics and orthotics would be limited to one percent for each of years 1996 through 2002.

Sec. 15604. Reduction in Updates to Payment Amounts for Clinical Laboratory Services

Current Law.—Medicare pays for clinical laboratory services on the basis of areawide fee schedules which are periodically updated.

There is no update for 1994 and 1995. In addition, the law establishes a ceiling on payment amounts. In 1995, this ceiling is set at 80 percent of the median of all fee schedules for the test; in 1996 and subsequent years the ceiling is set at 76 percent of the national median. No beneficiary cost-sharing is required.

Explanation of Provision.—The provision would provide for no update in the fee schedules through 2002. In addition, the provision would lower the ceiling on payment amounts to 65 percent of the median, effective January 1, 1997.

Sec. 15605. Extension of Reductions in Payments for Costs of Hospital Outpatient Services

Current Law.—Hospitals receive payments for Medicare's share of capital costs associated with outpatient departments. OBRA 93 extended a 10 percent reduction in payments for the capital costs of outpatient departments through FY 1998.

Certain hospital outpatient services are paid on the basis of reasonable costs. OBRA 93 extended a 5.8 percent reduction for those services paid on a cost-related basis through FY 1998.

Explanation of Provision.—The provision would extend the 10 percent reduction in payments for outpatient capital through FY 2002. The 5.8 percent reduction for outpatient services paid on a cost basis would be extended through FY 2002.

Sec. 15606. Freeze in Payments for Ambulatory Surgical Center Services

Current Law.—Medicare pays for ambulatory surgical center (ASC) services on the basis of prospectively determined rates. These rates are updated annually by CPI-U. OBRA 93 eliminated updates for ASCs for FY 1994 and FY 1995.

Explanation of Provision.—The provision would eliminate the inflation update for ASCs for each of the Fiscal Years 1996 through 2002.

Sec. 15607. Rural Emergency Access Care Hospitals.

Current Law.—See Subtitle F, Sec. 15513 above.

Explanation of Provision.—The provision would make conforming amendments to Part B.

Sec. 15608. Ensuring Payment for Physician and Nurse For Jointly Furnished Anesthesia Services.

Current Law.—Under current law, when an anesthesiologist and a certified registered nurse anesthetists (CRNA) are involved in a single case and no exceptional medical requirement exists, only the anesthesiologist is reimbursed.

Explanation of Provision.—This provision would ensure payment to both anesthesia providers for jointly-furnished anesthesia services in a single case where the carrier determines that the use of both the anesthesiologist and the CRNA was not medically necessary. The reimbursement would be as follows: for Fiscal Years 96 and 97, 55 percent of the payment shall be paid to the anesthesiologist and 40 shall be paid to the CRNA; for fiscal years thereafter,

50 percent shall be paid to both the anesthesiologist and the CRNA. This provision shall apply to services furnished on or after July 1, 1996.

The Secretary shall, after consultation with representatives from the national professional associations of anesthesiologists and certified registered nurse anesthetists, define in regulation not later than July 1, 1996, those procedures where, having due regard for the anesthesia-related complexities of the particular procedure, the use of two anesthesia providers to jointly perform the procedure may be deemed medically necessary.

Sec. 15609. Statewide Fee Schedule Area For Physicians' Services

Current Law.—No provision.

Explanation of Provision.—The provision would require the Secretary of HHS to treat the State of Wisconsin as a single fee schedule area for purposes of determining the fee schedule amount for physicians under Part B of the Medicare program. The Secretary shall carry out this requirement in a manner that ensures that the total payments for physician services are not greater or less than total payments would have been but for this change. This provision shall apply to physicians' services furnished on or after January 1, 1997.

Part 2. Part B Premium

Sec. 15611. Extension of Part B Premium

Current Law.—When Medicare was established in 1965, the Part B monthly premium was set at a level to finance one-half of Part B program costs. Beginning in 1974, however, Congress limited the percentage increase in the premium to the same percentage by which Social Security cash benefits were adjusted for changes in cost of living (i.e. cost-of-living adjustments or COLAs). Under this formula, revenues from premiums soon dropped from 50 percent to below 25 percent of program costs. This was because Part B program costs increased much faster than inflation as measured by the Consumer Price Index on which the Social Security COLA is based.

Since the early 1980s, Congress has regularly voted to set Part B premiums at a level to cover 25 percent of program costs, in effect overriding the COLA limitation. The 25 percent provision first became effective January 1, 1984. General revenues cover the remaining 75 percent of Part B program costs. Congress took this general approach again in the Omnibus Budget Reconciliation Act of 1990 (OBRA 90), but instead of leaving the calculations to the Secretary, the law set specific premium amounts for each year, 1991-1995, based on estimates of the program's costs. For 1995, the Part B premium is set at \$46.10 per month and now covers approximately 31.5 percent of program costs. Most recently, OBRA 93 extended the policy of setting the Part B premium at a level to cover 25 percent of program costs through 1998, leaving the calculations to the Secretary. Under current law, the provision limiting the annual percentage increase to the percentage increase in the Social Security COLA would again apply, beginning in 1999.

Explanation of Provision.—The provision would permanently set the Part B premium at 31.5 percent of program costs, beginning in 1996.

Sec. 15612. Income-Related Reduction in Medicare Subsidy

Current Law.—Under current law, all beneficiaries, regardless of income pay the same Part B premium. The remaining costs of the Part B program are paid from Federal General revenues.

Explanation of Provision.—Under the provision, identical to current law, participation in Part B and payment of the Part B premium is strictly voluntary on the part of the elderly. As under current law, individuals can choose not to enroll in Part B and not pay the Part B premium.

Under the provision, individuals with incomes over \$75,000 and couples with incomes over \$125,000 would be responsible for increases in the Part B premium. The Federal subsidy would be gradually phased out. Individuals with incomes at \$100,000, couples (with one spouse enrolled in Part B) with incomes at \$150,000, and couples (with both spouses enrolled in Part B) with incomes at \$175,000 would be required to pay a premium equal to 100 percent of Part B program costs. The provision would apply to monthly Part B premiums beginning in 1996.

The Secretary of HHS would be required to make an initial determination of the increase in the monthly premium for a year. The determination would be based on information supplied by the Secretary of the Treasury. Not later than October 1 of the preceding year, the Secretary would be required to notify each individual subject to an increased premium. The notice would include the Secretary's estimate of the individual's increase in the monthly premium for the year. The individual would have a 30-day period (beginning with the date on which the notice is provided) to provide information on the individual's anticipated increase in the monthly premium for the forthcoming year.

The Secretary would be required to make a premium adjustment if he or she determined (based on information provided by the Secretary of the Treasury) that the actual increase in the monthly premium was different from the amount initially determined. The adjustment would be made to the subsequent year's premium to adjust for any overpayments or underpayments in the previous year. The Secretary would be authorized to make appropriate recovery efforts in the case of an individual who owed an additional amount, but was not enrolled in Part B in such subsequent year.

Part 3. Billing and Administration of Laboratory Services

Sec. 15621. Restrictions on Direct Billing for Laboratory Services

Current Law.—Under current law, Medicare payment may be made only to the person or entity which performed or supervised the performance of a clinical diagnostic laboratory test subject to specified exceptions.

Explanation of Provision.—The provision would establish a direct billing requirement for clinical laboratory services beginning on October 1, 1996. As a condition for coverage and payment under Medicare, any individual or entity performing lab tests could not bill

or demand payment from anyone other than the individual receiving the services or the health plan designated by the person. A health plan would be defined as any hospital or medical service policy or certificate, hospital or medical service plan contract, or health maintenance organization contract offered by an insurer. The term would not include: coverage only for accident, dental, vision, disability income, long-term care insurance, or some combination of these; Medicare supplemental health insurance; coverage issued as a supplement to liability insurance; liability insurance including general and automobile liability insurance; workers compensation insurance; automobile medical payment insurance; coverage for specified diseases or illness; or a hospital or fixed indemnity policy. The Secretary could establish appropriate exceptions to the direct billing requirement.

Any person (furnishing clinical lab services for which payment is made under Medicare's clinical laboratory fee schedules) who knowingly violated the requirement would be subject to a penalty of \$10,000 for each violation. The Secretary would be authorized to exclude from participation in any Federal health care program any individual the Secretary determined had repeatedly violated the direct billing requirement. A Federal health program would be defined as: (i) Medicare, (ii) Medicaid or MediGrant programs, or (iii) Maternal and Child Health Block Grant.

The provision would require the Secretary, on July 31, 1999, to estimate whether the cost of clinical lab services under Medicare for January 1997 through September 2002 would be at least three percent less than if the direct billing provision had not been enacted. If not, the Secretary would be required to adjust the payment ceiling (set under the bill at 65% of the national median) in Fiscal Years 2000, 2001 and 2002 to achieve the requisite savings. CBO would be required to make its own 1999 estimate and submit a report to Congress by August 31, 1999. The Secretary would be required to provide the Director of CBO with the data reasonably required to make the estimate.

Sec. 15622. Administrative Simplification

Current Law.—No provision.

Explanation of Provision.—The provision would require the Secretary to adopt uniform coverage, administration and payment policies for clinical diagnostic lab tests within one year of enactment. The Secretary would be required to select 15 carrier medical directors to develop recommendations to the Secretary for uniform coverage, administration, and payment policies. The directors would be representative of geographic areas and have a varied range of experience in relevant medical fields, including pathology and clinical laboratory practice. The directors would be required to consult with independent experts in each major discipline of clinical laboratory medicine (including clinical laboratory personnel, bioanalysts, pathologists, and practicing physicians). The medical directors would also solicit comments from others wishing to participate. The amendment would provide that the process would be conducted as negotiated rulemaking as provided for under the Administrative Procedures Act.

The provision would require the negotiated rulemaking to result in recommendations for uniform policies in the following areas: (i) beneficiary information required to be submitted with each claim; (ii) physicians' obligations regarding documentation and record keeping; (iii) procedures for filing claims and providing remittances by electronic media; (iv) performance of post-payment review of test claims; (v) documentation of medical necessity limited to instances where determined appropriate after identification of aberrant utilization pattern through focused medical review; and (vi) beneficiary responsibility for payment.

The provision would prohibit carriers and intermediaries from implementing any new requirements for submission of claims retroactive to January 1, 1995, during the period when the Secretary is adopting uniform policies. Further, carriers would be prohibited from issuing new coverage, administration or payment policies unless they promote the goal of administrative simplification.

The provision would also require medical directors to forward their recommendations to the Secretary within six months of enactment. The Secretary would provide for publication of recommendations for public comment using negotiated rulemaking. The Secretary would publish final uniform policies which would become effective 180 days following publication. Following publication, the Secretary would implement uniform documentation and processing policies.

The provision would also permit any independent lab to select one carrier for processing all of its claims for payment regardless of where the laboratory, patient, or provider resides or conducts business. The election would be made by the lab; an agreement between the carrier and the lab would be forwarded to the Secretary. No lab would be required to select a single carrier.

Part 4. Quality Standards for Durable Medical Equipment

Sec. 15631. Recommendations for Quality Standards for Durable Medical Equipment

Current Law.—No provision.

Explanation of Provision.—The provision requires the Secretary of Health and Human Services to establish a task force to develop quality standards for durable medical equipment. The task force shall include representatives of suppliers of durable medical equipment, consumers, and other users of such equipment. In appointing members, the Secretary shall assure representation from various geographic regions. Task force members shall not receive any compensation for their service. The task force shall submit its recommendations to the Secretary not later than one year after the date of enactment. The task force shall terminate 30 days after it submits this report.

Subtitle H—Provisions Relating to Medicare Parts A and B

Part 1. Home Health Services

Sec. 15701. Payment for Home Health Services

Current Law.—In provisions contained in the Orphan Drug Act of 1993, OBRA 87 and OBRA 90, Congress required the Secretary to develop alternative methods for paying for home health care on a prospective basis. In 1994, the Office of Research and Demonstration in the Health Care Financing Administration (HCFA) completed a demonstration project that tested prospective payment on a per visit basis. Preliminary analysis indicates that the per visit prospective payment methodology had no effect on cost per visit or volume of visits. HCFA has just begun a second project, referred to as Phase II, to test prospective payment on a per episode basis.

Explanation of Provision.—The provision would establish a prospective payment system for home health services. This system would be based on prospectively determined per visit rates that are subject to per episode limits applied in the aggregate. The provision would have the following specific components.

Beginning in FY 1997, the Secretary would be required to establish national average per visit rates for each of the home health service disciplines covered under Medicare—skilled nursing care, physical therapy, speech pathology, occupational therapy, medical social services, and home health aide services. The per visit rates would be based on amounts paid during cost reporting periods ending June 30, 1994, updated by the home health market basket for fiscal years 1995 through 1997. The home health market basket is currently used to update cost limits. To reflect regional differences in the costs of providing services, the labor-related portion of the per visit rates would be adjusted by the hospital wage index. These adjusted per visit rates would be the amounts that home health care agencies would receive throughout the year for each of the particular mix of visits provided to a given home health care beneficiary.

Per visit rates would be subject to a per episode limit. The Secretary would calculate separate per episode limits for each of 18 different case categories of home health care. These 18 categories would be the same as those being used in HCFA's Phase II demonstration (or an alternative methodology developed by the Secretary), and would serve as a substitute for a true case-mix adjustment not yet available. The per episode limit for a category would cover all care provided to a beneficiary during a period of 120 days. No new episode of care would be recognized for reimbursement purposes until after a beneficiary has been discharged for a period of 60 days.

The per episode limit would be calculated as follows. For each of the 18 case categories, the Secretary would determine the mean number of visits of each type of home health services furnished during a period of 120 days following the initial admission of the beneficiary to the case during the base year FY 1994. The Secretary would then multiply the results by the per visit payment

rates for services. This would become the target per episode limit for a case. Calculation of per episode limits would be done on an areawide basis; for these purposes the area in which an agency is located would be that area the Secretary finds most appropriate.

Each agency would be paid per visit payments throughout the year. At the end of the year, an agency's aggregate limit would be calculated by first multiplying the Secretary's regional target per episode limit for each of the 18 case categories times the number of episodes admitted by an agency to each of the 18 categories. The sum of these products becomes the agency aggregate payment limit. For purposes of calculating agency-specific per episode limits, 165 days of care per episode would be counted.

Total per visit payments to an agency would be compared with the aggregate payment limit, i.e. the mix of an agency's episodes times the per episode limits. If total payments for the year are below the agency's aggregate payment limit, then agencies would be allowed to retain 50 percent of the difference, up to 5 percent of an agency's aggregate Medicare payments in a year. For agencies with aggregate payments over the limit, the Secretary would be required to reduce payments to agencies in the following fiscal year in a manner the Secretary considers appropriate (including on an installment basis).

If a beneficiary continues to need home health visits after a period of 165 days, then an agency may request that additional payments be made on a per visit basis. These payments would not be subject to the aggregate limit. In order for fiscal intermediaries to approve such requests, agencies would be required to submit a physician's certification of the continuing need for skilled care, as well as the reason for the need and a description of services to be furnished during the visits.

Beginning in FY 1998, per visit payment rates would be updated annually by the home health market basket. The Secretary would be required to rebase the market basket update at least once every 5 years with the most recent available data. Beginning in FY 1999, the Secretary would also be required to rebase the per episode limits every 2 years to adjust for changes in the number and mix of visits per episode. To deal with case-mix "creep," the Secretary would also be required to adjust per episode limits to assure that aggregate case-mix, at the areawide level, remains budget neutral.

The Secretary would be required to implement a medical review process for the new payment system, giving particular attention to Fiscal Years 1997 and 1998. The purpose of the medical review process would be to assess patterns of care to assure that beneficiaries receive appropriate services per episode. Medical reviews would be required to focus on short stay cases and cases over 165 days. Recertification of the need for care would have to be done at 30, 60, 120, and 165 days of home health care.

The Secretary would be required to make adjustments in payments to home health care agencies that circumvent the new payment system by discharging patients to another home health agency or similar provider; altering corporate structure or name to avoid being subject to payment limits or for purposes of increasing Medicare payments; and undertaking any other actions that are

unnecessary for effective patient care and that are intended to maximize Medicare payments.

The Secretary would be required to develop a system to track home health patients who receive care from more than one agency during an episode. For such situations, the Secretary would be required to adjust payments to assure that total amounts paid to these agencies do not exceed the payment that would otherwise have been made if the patient had completed the episode in a single agency.

The Secretary would also be required to develop a system to adjust payments to agencies to eliminate any increase in growth in the percentage of low-cost episodes over the percentage of such cases occurring at the agency for the 12-month cost reporting period ending June 30, 1994. The Secretary would be required to define low-cost episode in a manner to assure that a home health agency has an incentive to be cost efficient in delivering services and that the volume of services does not increase as a result of factors other than patient needs.

Reimbursements for exceptions to the home health services cost limits would be limited to aggregate payments made in FY 1994 adjusted for increases in the home health market basket.

Separate Part B billings would be prohibited for any services covered under the per episode limit while the beneficiary is receiving home health services. Agencies would be required to bill prosthetics and orthotics furnished as part of a home health visit under Part B's prosthetics and orthotics fee schedule, just as durable medical equipment (DME) furnished by an agency as part of home health must now be billed under the fee schedules for DME.

The Medicare Payment Review Commission would be required to report on the effectiveness of the new payment system for each of the first three years of its operation. The Commission would also be required to make recommendations to Congress on (1) case-mix and volume increases; (2) quality monitoring of home health agency practices; (3) whether a capitated payment system for home health care patients using over 165 days of service is warranted; (4) whether public providers of service are adequately reimbursed; (5) the adequacy of the exemptions and exceptions to the limits; (6) the appropriateness of methods used to adjust the per episode limits and annual payment updates to reflect changes in the mix of services, number of visits, and assignment to case categories to reflect changing patterns of home health care; and (7) the geographic areas used to determine per episode limits.

Sec. 15702. Maintaining Savings Resulting from Temporary Freeze on Payment Increase for Home Health Services

Current Law.—Home health care agencies are currently reimbursed on the basis of reasonable costs, up to specified limits. Cost limits are determined separately for each type of covered home health service (skilled nursing care, physical therapy, speech pathology, occupational therapy, medical social services, and home health aide), and according to whether an agency is located in an urban or rural area. Costs limits, however, are applied to aggregate agency expenditures; that is, an aggregate cost limit is set for each agency that equals the limit for each type of service multiplied by

the number of visits of each type provided by the agency. Limits for the individual services are set at 112 percent of the mean labor-related and nonlabor per visit costs for freestanding agencies. Cost limits are updated annually by applying a market basket index to base year data derived from home health agency cost reports. The labor-related portion of a service limit is adjusted by the current hospital wage index.

The Omnibus Budget Reconciliation Act of 1993 (OBRA 93) required that there be no changes in home health cost limits (including no adjustments for changes in the wage index or other updates of data) for cost reporting periods beginning on or after July 1, 1994, and before July 1, 1996. The Secretary was also required, when granting or extending exceptions to cost limits, to limit any exception to the amount that would have been granted if there were no restriction on changes in the cost limits. OBRA 93 also repealed the requirement that additional payments be made to hospital-based home health agencies for costs attributable to excess overhead allocations, effective for cost reporting periods beginning on or after October 1, 1993.

Explanation of Provision.—The provision would permanently extend the savings stream, but not the freeze, in setting future home health limits, by not allowing for the inflation that occurred during the freeze years.

Sec. 15703. Extension of Waiver of Presumption of Lack of Knowledge of Exclusion from Coverage for Home Health Agencies

Current Law.—When a provider furnishes services that are not covered under Medicare, the provider is not normally entitled to Medicare payment for those services. The program, however, has recognized that circumstances may exist where providers of services or beneficiaries could not have reasonably known that services would not be covered. Medicare has paid for a limited number of services which are not covered services, so long as it is determined that the provider or beneficiary did not know and could not reasonably have been expected to know that services would be uncovered. The provider is presumed not to know that coverage for certain services would be denied—it qualifies for a “favorable presumption”—when its denial rate is below a certain level. With this favorable presumption, its liability for denied claims below the threshold is waived and it is paid for these claims. The provider receives waiver of liability protection for denied claims below the threshold.

For home health agencies, waiver of liability protection is available for two separate categories of denials. One waiver applies to medical denials, i.e., to claims that are denied because the care was not medically necessary or was determined to be custodial in nature. Another waiver applies to services determined to be non-covered because the beneficiary was not homebound or did not require intermittent skilled nursing care. These are referred to as technical denials.

For both categories, the principal criterion for meeting the favorable presumption test is a denial rate of 2.5 percent or less. Waiver of liability protection for both medical and technical denials expires December 31, 1995.

Explanation of Provision.—Waiver of liability for home health agencies would be extended through September 30, 1996.

Sec. 15704. Study of Coverage of Services of Christian Science Providers

Current Law.—No Provision.

Explanation of Provision.—This provision would require the Secretary of HHS to conduct a study of the feasibility and desirability of providing Medicare coverage for home health services furnished by Christian Science providers which meet applicable requirements of the First Church of Christ, Scientist, Boston. The Secretary would be required to submit a report on the study by July 1, 1996 and to include recommendations on criteria for certifying providers and an appropriate payment methodology for reimbursing covered services.

Part 2. Medicare Secondary Payer Improvements

Sec. 15711. Extension and Expansion of Existing Requirements

Current Law.—Generally Medicare is the “primary payer,” that is, it pays health claims first, with an individual’s private or other public insurance filling in some or all of Medicare’s coverage gaps. However, in certain instances, the individual’s other coverage pays first, while Medicare is the secondary payer. This phenomenon is referred to as the MSP program. A group health plan offered by an employer (with 20 or more employees is required to offer workers age 65 or over (and workers spouses age 65 or over) the same group health insurance coverage as is offered to younger workers. If the worker accepts the coverage, the employer is the primary payer, with Medicare becoming the secondary payer

Similarly, a group health plan offered by a large employer (100 or more employees) is the primary payer for employees or their dependents who are on the Medicare disability program. The provision applies only to persons covered under the group plan because the employee is in “current employment status” (*i.e.*, is an employee or is treated as an employee by the employer). The MSP provision for the disabled population expires October 1, 1998.

The MSP provisions apply to end-stage renal disease (ESRD) beneficiaries with employer group health plans, regardless of employer size. The group health plan is the primary payer for 18 months for persons who become eligible for Medicare ESRD benefits. The employer’s role as primary payer is limited to a maximum of 21 months (18 months plus the usual 3-month waiting period for Medicare ESRD coverage). The MSP provisions for the ESRD population expire October 1, 1998.

The law authorizes a data match program which is intended to identify potential secondary payer situations. Medicare beneficiaries are matched against data contained in Social Security Administration (SSA) and Internal Revenue Service (IRS) files to identify cases in which a working beneficiary (or working spouse) may have employer-based health insurance coverage. Cases of previous incorrect Medicare payments are identified and recoveries are attempted. The authority for the program extends through September 30, 1998.

Explanation of Provision.—The provision would make permanent the MSP provisions for the disabled and the ESRD population. It would extend the period during which the employer group health plan is primary payer for an ESRD beneficiary from 18 to 24 months. The provision would also make permanent the data match requirement.

Sec. 15712. Improvements in Recovery of Payments

Current Law.—Recent court action may lessen the effectiveness of the data match program. In many cases where recoveries are sought, claims have never been filed with the primary payer. Identification of potential recoveries under the data match process usually takes in excess of the time period most health plans allow for claims filing. Two May 1994 decisions by the U.S. Court of Appeals for the District of Columbia held certain portions of the MSP overpayment recovery procedures invalid. In particular, it held invalid provisions authorizing payment recoveries without regard to a health plan's timeliness requirements. The U.S. Supreme Court denied a HCFA petition to review the 1994 decisions.

Explanation of Provision.—The provision would specifically permit MSP recoveries from third party administrators of health plans, except in cases of insolvency or bankruptcy of the employer or plan. It would also permit recovery actions up to three years from the date the item or service was furnished to the beneficiary.

Sec. 15713. Prohibiting Retroactive Application of Policy Regarding ESRD Beneficiaries Enrolled in Primary Plans

Current Law.—Medicare remains the primary payer if a group health plan was already secondary for an individual entitled on the basis of age or disability when the individual becomes entitled on the basis of ESRD. Following enactment of OBRA 93, HCFA stated that the private plan would become primary in such cases. On April 24, 1995, HCFA corrected its construction of the statute; it issued guidelines stating that Medicare remains the primary payer in these cases.

Explanation of Provision.—The provision would specify that the policy change specified in the April 24, 1995 HCFA guidelines would only apply with respect to items and services furnished on or after such date.

Part 3. Failsafe

Sec. 15714. Failsafe Budget Mechanism

Current Law.—Although the Federal government is required by law to pay Medicare claims on behalf of eligible participants, total Medicare spending is limited in two ways: (1) by availability of reserves in the Medicare trust funds; and (2) by provisions of OBRA of 1990, P.L. 101-508. *These limitations are intended to set ongoing aggregate limits on spending, not to regulate the annual rate of growth in Medicare.*

Limitation created by trust fund reserves.—Part A claims for hospitalization are paid from the Hospital Insurance (HI) Trust Fund. Part B claims for physicians' services are paid from the Supple-

mentary Medical Insurance (SMI) Trust Fund. These two trust funds are accounting devices by which the Government determines the extent to which spending on Medicare claims is authorized without new legislation or appropriations. Trust fund balances represent spending authority. An insolvency in either fund would force a stoppage in Government reimbursement for Medicare claims until the fund had accrued new credits.

The sources of trust fund credits are: (1) payroll tax revenue; (2) enrollee premiums; (3) Government general fund contributions; and (4) interest on Government debt held by the funds. The earmarked revenue for the HI fund comes from a payroll tax of 1.45 percent applicable to both employees and employers. The SMI fund is credited with monthly premium payments made by Part B enrollees (currently \$46.10 a month) and transfers of general Government funds. The HI fund is projected to be depleted in FY 2002. The SMI fund will not be depleted, however, since general fund transfers are credited each year in amounts sufficient to maintain the fund's solvency.

Limitation created by OBRA of 1990.—A provision in OBRA of 1990 requires that legislated increases in entitlement spending and decreases in revenue be offset by entitlement decreases and/or revenue increases on a pay-as-you-go (PAYGO) basis. A violation of PAYGO rules can trigger sequestration, a process by which all budget accounts subject to sequestration are reduced by the percentage necessary to make up any spending overrun or revenue shortfall. However, the law limits the sequestration percentage that can be applied to Medicare benefits to 4.0 percent or less. These budget rules apply through FY 1998.

Sequestration has not occurred because of a PAYGO violation, but OBRA 1990 restricted increases in certain Medicare payment rates beginning in FY 1991 as part of the budget agreement set forth by that law. Sequestration did occur in FY 1988 under an earlier law, the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (P.L. 100-119). The sequestration percentage applied to Medicare spending was 2.0 percent, the maximum allowed for Medicare under that law. It was achieved by reducing payment rates for covered services.

Explanation of Provision.—A new section 1895 would be added to Title XVIII of the Social Security Act to provide a mechanism by which certain Medicare spending would be reduced automatically if it were anticipated that spending would exceed budget targets during the next fiscal year. This "failsafe budget mechanism" would be in effect for fiscal years beginning with 1998.

The failsafe budget mechanism would apply to both Parts A and B of Medicare, but only to fee-for-service expenditures. Distinct limits would be specified for the following fee-for-service sectors: inpatient hospital services; home health services; extended care services; hospice care; physicians' services; outpatient hospital services and ambulatory facility services; durable medical equipment and supplies; diagnostic tests; and other items and services. The Secretary of Health and Human Services would classify each item and service paid for separately by Medicare into one of these sectors. No substantive reclassifications would be permitted after the classification was published.

If the Secretary determines that expenditures for a sector for a fiscal year would exceed the sector's budget allotment for that year, then Medicare payment rates applicable to that sector would be adjusted so that expenditures would be reduced by 133 $\frac{1}{3}$ percent of the amount of the excess. The Secretary would be required to publish the size of any necessary adjustments and the methodology to be used by May 15 preceding the fiscal year in question. A final determination on adjustments would have to be published by September 1 prior to that fiscal year.

The budget allotment for a sector for a fiscal year would be determined by multiplying the total fee-for-service allotment for that year by an allotment proportion specified by sector and year in the new law. The total allotment for a year would equal the Medicare benefit budget less the payments the Secretary estimates would be made under MedicarePlus (a new Part C of Medicare). The Medicare benefit budget would be set forth in law as follows:

Fiscal year:	Benefit budget (\$bil.)
1997	203.1
1998	214.3
1999	227.2
2000	241.0
2001	259.1
2002	280.0

The benefit budget for a subsequent fiscal year would equal the benefit budget for the preceding fiscal year increased by the product of: (1) 1.05; and (2) 1.0 plus the annual percentage increase in the average number of Medicare beneficiaries in the subsequent fiscal year compared to the preceding fiscal year.

A sector's allotment of the benefit budget would equal the ratio of the baseline projection of expenditures for the sector in a year to the sum of all such baseline expenditures for all sectors in that year. Baseline projections would be determined by applying annual growth rates for each sector, as specified in the new law, to the prior year's baseline expenditure for a sector. For example, the baseline expenditure projection for inpatient hospital services would be determined by applying to the prior-year expenditure the following growth rates: 5.7 percent for FY 1996; 5.6 percent for FY 1997; 6.0 percent for FY 1998; 6.1 percent for FY 1999; 5.7 percent for FY 2000; 5.5 percent for FY 2001; and 5.2 percent for FY 2002 and thereafter. If a sector's expenditures were to fall below the baseline allotment, the unspent balance available within that allotment would be reallocated proportionately to the allotments for the other sectors.

In providing for adjustments to Medicare payments for a particular sector, the Secretary would be required to take into account the impact of the adjustment on the volume or type of services provided in that sector and any delays in payments from one year to the next that might be expected in that sector.

Beginning with the budget documents for FY 1999, the President's Budget would be required to include information on actual Medicare fee-for-service expenditures by sector for the second preceding year, with a comparison to the corresponding Medicare benefit budget and sector allotments. Data on actual annual growth rates for each fee-for-service sector would also be required.

If the actual fee-for-service expenditures for a sector were to exceed the total allotments for the second preceding year, then the sector's allotment would be reduced for the next fiscal year by 133 $\frac{1}{3}$ percent the excess amount. Should spending in the second preceding year fall below a sector's allotment for that year, the excess allotment could be added to the allotment for the next fiscal year. These adjustments would be made after adjusting the prior-year allotments to reflect actual Part C expenditures for the second preceding year.

If the President submits a legislative provision to revise the baseline annual growth rates specified for fee-for-service sectors, Congress would be required to consider the provision under an expedited procedure. Passage of a joint resolution of approval would be required within 60 days of submittal for the changes to become law. Procedure for consideration of a joint resolution would be the same as that used under the Defense Base Closure and Realignment Act of 1990.

Annual reports of the Trustees on Part A of Medicare would be required to include information on the annual rate of program expenditures that would maintain the solvency of the trust fund and the extent to which the failsafe budget mechanism restrained the expenditure growth rate.

Beginning in 1997, the Medicare Payment Review Commission would be required to submit by March 1 of each year a report analyzing the past operation of the failsafe mechanism and making recommendations with respect to its application to the following fiscal year.

Part 4. Administrative Simplification

Sec. 15731. Standards for Medicare Information Transactions and Data Elements

Current Law.—No provision.

Explanation of Provision.—The provision would provide for the adoption of standards for Medicare information transactions and data elements. The Secretary would be required to adopt standards which were consistent with reducing administrative costs and which were developed or modified by a standard setting organization accredited by the American National Standards Institute. The Secretary could adopt or modify a standard relating to data elements that was different from such standard if, compared to the alternative, it would substantially reduce administrative costs to providers and health plans and it was promulgated in accordance with Federal rule making procedures.

The provision would require each person who maintains or transmits Medicare information or data elements to maintain reasonable and appropriate administrative, technical, and physical safeguards to: (i) ensure integrity and confidentiality of information; and (ii) protect against any reasonably anticipated threats or hazards to security or unauthorized uses or disclosures.

The Secretary would be required to establish security standards and modifications to those standards that take into account technical capability of record systems, costs of security measures, need for training personnel who have access to information, and the

value of audit trails. The standards would assure that a Medicare information network service that was part of a larger organization had policies which isolated its activities. Security standards would be based on those developed by standard setting organizations or, if such standards do not exist, by the Medicare Information Advisory Committee.

The Secretary would be required to adopt standards for transactions and data elements to make Medicare information uniformly available to be exchanged electronically. The standards would provide for unique health identifiers for each individual, plan, employer, and provider. Penalties would be imposed for improper disclosure of this number. In addition, the Secretary would: (i) provide for the establishment of code sets in consultation with the Medicare Information Advisory Committee and other experts.; (ii) promulgate regulations specifying procedures for the electronic transmission and authentication of signatures; (iii) develop rules for transfer of information between health plans needed for coordination of benefits; and (iv) develop further transaction standards if, after 5 years, they were deemed necessary for coordination of benefits. The provision would provide for protection of trade secrets.

The provision would require the development of the standards within 18 months of enactment. Additional or modified standards could be adopted not more than once every 12 months. Additions or modifications would be completed in a manner that minimized disruption and cost of compliance. Health plans would be required to conduct standard transactions in a timely manner and comply with transaction and data element standards within 24 months of adoption. Compliance with any modified standards would be required within an appropriate period but not less than 180 days after adoption of the modified standard. Penalties would be established for failure to comply with requirements and standards.

The provision would supersede any contrary provision of State law unless: (i) the State law provision is more stringent with respect to privacy guarantees; or (ii) it is a provision the Secretary deems necessary to prevent fraud and abuse.

The provision would establish a Medicare Information Advisory Committee to advise the Secretary in development of standards and to advise the Secretary and the Congress on the status and future of the Medicare information network. The Committee would be composed of 9 members—three appointed by the President, three appointed by the Speaker of the House, and three by the President pro tempore of the Senate. The Committee would be required to submit an annual report to the Congress which would include information on the extent to which entities using the Medicare information network were meeting the standards, forming an integrated network, and meeting security standards.

Part 5. Other Provision Relating to Parts A and B

Sec. 15741. Clarification of Medicare Coverage of Items and Services Associated with Certain Medical Devices Approved for Investigational Use

Current Law.—Medicare law does not provide an all-inclusive list of specific items, services, treatments, procedures, or technologies

covered by the program. The law, however, provides that no payment may be made for any expenses which are not reasonable and necessary for the diagnosis or treatment of illness. While HCFA has not explicitly defined “reasonable” and “necessary” for purposes of making decisions about the appropriateness of Medicare’s coverage for specific services and items, it has applied a general policy that services be safe and effective and not experimental or investigational. In 1994, HCFA clarified its coverage policy to prohibit coverage and payment of services associated with the use of investigational devices.

Explanation of Provision.—The provision specifies that nothing in Medicare law could be construed as prohibiting coverage of items and services associated with the use of a medical device in the furnishing of inpatient or outpatient hospital services (including outpatient diagnostic imaging services) on the grounds that the device is not an approved device if (1) the device is an investigational device; and (2) the device is used instead of an approved device or a covered procedure. The amount of payment for items and services associated with the use of investigational devices in inpatient or outpatient hospital services could not exceed the amount that Medicare would have paid if the item or service were associated with an approved device. The provision would define approved device as a medical device which has been approved for marketing under pre-market approval or cleared for marketing under the Federal Food, Drug, and Cosmetic Act. An investigational device would be defined as a device approved for investigational use under the Food, Drug, and Cosmetic Act, or an investigational combination product under the Food, Drug, and Cosmetic Act.

Sec. 15742. Additional Exclusion from Coverage

Current Law.—Medicare excludes coverage for certain defined items and services.

Explanation of Provision.—The provision would exclude Medicare coverage for items or services used for the purpose of causing, or assisting in causing, the death, suicide, euthanasia, or mercy killing of a person.

Sec. 15743. Competitive Bidding For Certain Items and Services

Current Law.—No provision.

Explanation of Provision.—The provision would require the Secretary to establish, within one year of the date of enactment, a demonstration project regarding competitive bidding for selected items and services in two geographic regions. The competitive bidding process shall meet such requirements as the Secretary may impose to ensure the cost-effective delivery of high quality items and services. The items and services selected by the Secretary will be based on a determination by the Secretary that the use of competitive bidding will be appropriate and cost-effective.

SUBTITLE I—CLINICAL LABORATORIES

Sec. 15801. Exemption of Physicians Office Laboratories

Current Law.—The Clinical Laboratory Improvement Amendments of 1988 (CLIA 88) significantly strengthened Federal regulation of laboratories and expanded Federal oversight to virtually all labs in the country, including physicians office laboratories. All labs are required to register with HHS. Labs performing only simple tests receive a certificate of waiver. Other labs (performing moderate complexity and/or high complexity testing) must meet performance standards issued by the Secretary.

A special category of tests, physician performed microscopy procedures, was established in 1993. This category was expanded and renamed provider-performed microscopy procedures earlier this year. These are specified procedures which are personally performed by physicians, dentists, and certain mid-level personnel; the procedures must be performed on specimens derived from their patients as part of a physical examination and evaluation. The tests are labelled moderately complex; however, physicians (or other personnel) performing only these tests and waived tests are not subject to routine inspections, though most other moderate complexity requirements continue to apply.

Explanation of Provision.—The provision would exempt a clinical laboratory in a physician's office from the CLIA requirements. Exempted labs would be those in the office of a physician (including an office of a group of physicians) which is directed by a physician. The examinations and procedures must be performed by a physician or by individuals supervised by a physician solely as an adjunct to other services provided by the physician's office.

A clinical office laboratory would not be exempt from CLIA when it performed Papanicolaou (PAP) Smears.

SUBTITLE J—LOCK-BOX PROVISIONS FOR MEDICARE PART B SAVINGS FROM GROWTH REDUCTIONS

Sec. 15901. Establishment of Medicare Growth Reduction Trust Fund for Part B Savings

Current Law.—No provision.

Explanation of Provision.—The provision would establish a Medicare Preservation Trust Fund. All Part B savings attributable to the Medicare Preservation Act of 1995 would be appropriated to this fund. No transfer would be permitted from the fund for the purpose of offsetting any change to the Internal Revenue Code. Beginning with fiscal year 2003, the Secretary could use this fund for the Medicare program, but only to the extent provided by Congress in advance through a specific amendment.

AGENCY VIEWS

THE SECRETARY OF HEALTH AND HUMAN SERVICES,
Washington, DC, October 13, 1995.

Hon. THOMAS J. BLILEY,
*Chairman, Committee on Commerce,
 House of Representatives, Washington, DC.*

DEAR CHAIRMAN BLILEY: This letter presents the Administration's views in strong opposition to H.R. 2425, "The Medicare Preservation Act of 1995."

Medicare reform should promote efficiency, improve quality of care, expand beneficiary choices, fight fraud and abuse, and update aspects of the program to reflect current developments in the health care delivery system. The Clinton Administration supports this kind of Medicare reform.

"The Medicare Preservation Act of 1995," however, cuts the Medicare program by \$270 billion over the next seven years, far beyond what is necessary to safeguard the Medicare Part A trust fund and far beyond what could be absorbed by hospitals and other providers without harming beneficiary access and quality of care. H.R. 2425 imposes new and heavy burdens, both direct and hidden, on Medicare beneficiaries, and it opens up new avenues for health care fraud and abuse.

Because it needlessly and recklessly threatens the future of Medicare in these ways, I will strongly recommend that the President veto H.R. 2425, "The Medicare Preservation Act of 1995" if it reaches his desk in its current form.

MEDICARE SPENDING CUTS IN H.R. 2425 ARE EXCESSIVE

H.R. 2425 cuts \$270 billion from Medicare spending over the next seven years. While Republican Members of Congress justify this level of spending cuts as necessary to "save" the Medicare Part A Trust Fund, only a fraction of these reductions would actually be returned to the Part A trust fund. Most of the cuts in H.R. 2425—\$140 billion over seven years—are in Medicare Part B. None of these savings would strengthen the Part A trust fund. Of the \$130 billion in Part A cuts, which would be returned to the Part A trust fund, \$36 billion would be needed to offset trust fund revenue losses caused by action taken by House Republicans earlier this year.¹ Consequently, the \$270 billion Medicare cuts in H.R. 2425 yield only a net \$93.4 billion in savings to strengthen the Part A trust fund.

The legislation seeks to obscure this fact by establishing a so-called "lock box" that would deposit remaining savings from H.R. 2425 into a new trust fund. It has been claimed that the "lock box" will prevent excess Medicare savings from financing the Republican tax cut for the wealthy. However, under the Congress' own budget rules these monies would, in fact, offset the cost of the tax cut.

Further, H.R. 2425 imposes \$54 billion in new financial burdens on beneficiaries in the form of higher Medicare Part B premiums. Most of this increase results from setting the Medicare Part B pre-

¹This spring, the House of Representatives voted to repeal a portion of the Social Security payroll tax revenue which was dedicated to the Medicare Part A trust fund under the Omnibus Budget Reconciliation Act of 1993.

mium to cover 31.5 percent of program costs. This increase is unnecessary and excessive and does nothing to strengthen the Medicare Part A trust fund. In addition, higher income Medicare beneficiaries will see their Part B premiums more than triple. H.R. 2425 then compounds these direct new burdens on beneficiaries by many hidden cuts that will force them, over time, to pay much more for their health care services.

H.R. 2425 OFFERS FALSE CHOICE AND FALSE PROMISES

Though it claims to offer beneficiaries a broader choice of health plan options, H.R. 2425 actually creates divisions and inequalities within Medicare. I am concerned that it will force beneficiaries to pay more or make do with less.

H.R. 2425 establishes a new program, called MedicarePlus, which will be available in addition to traditional, fee-for-service Medicare. Alternative fee-for service and managed care plans will be offered under MedicarePlus, as will new types of specifically structured health plans such as provider sponsored organizations (PSOs), medical savings accounts (MSAs), and association plans. Republicans promise Medicare beneficiaries will have free choice between traditional Medicare and all the plan options under MedicarePlus. However, the legislation applies distinctly uneven rules to Medicare and MedicarePlus with the effect of making traditional Medicare much less attractive to providers than MedicarePlus. I am concerned these incentives, along with the provision of the bill that applies the "failsafe" mechanism of additional cuts only to the traditional Medicare program, would reduce the willingness of providers to serve beneficiaries in traditional Medicare. This will restrict beneficiary choice rather than enhance it.

I am also concerned that MedicarePlus, as structured in H.R. 2425, would promote adverse risk selection that could increase costs for the traditional Medicare program. We do not believe that it is appropriate to use Medicare beneficiaries to experiment with new, untested concepts that could weaken the program.

Traditional Medicare protects beneficiaries from "balance billing," the practice whereby providers charge beneficiaries more than Medicare approves. Traditional Medicare permits no balance billing by hospitals and only limited balance billing by physicians. However, balance billing will be widely permitted under MedicarePlus plans. Providers in fee-for-service MedicarePlus plans will be permitted to charge patients any amount they want for health care services. The same will be true for patients electing MSA plans. Balance billing will be permitted in managed care plans, as well, whenever patients receive non-emergency care outside of the plan, even if such care is authorized by the plan. Given the very tight budget imposed by H.R. 2425, I am concerned that provider pressure to balance bill will grow. If providers begin to move to MedicarePlus plans in order to escape balance billing limits, beneficiaries will be faced with the choice of following them and paying more, or remaining in traditional Medicare where fewer doctors and hospitals are able to care for them.

H.R. 2425 IMPACT ON PROVIDERS IS SEVERE

While the structure of MedicarePlus is designed to shift costs onto beneficiaries, the magnitude of cuts in H.R. 2425 threaten providers as well. We are concerned, particularly, about those providers who constitute the safety net of our health care system. Rural hospitals and clinics, already in precarious financial condition, will be hard pressed to absorb reductions required in H.R. 2425. In addition, urban safety net hospitals will face added reductions in special Medicare payments for uncompensated care.

H.R. 2425 INVITES FRAUD AND ABUSE

Among our many concerns about H.R. 2425, we are particularly concerned about the provisions that would weaken our efforts to combat fraud and abuse. H.R. 2425 relaxes critical rules that today outlaw kickbacks and that require providers to exercise due diligence in submitting accurate and true Medicare claims. CBO has determined that these provisions of H.R. 2425 will cost the Medicare program over \$1 billion from 1996 to 2002. Enactment of these provisions could harm the quality of beneficiary care, will offset the savings from efforts to fight fraud and abuse elsewhere in the bill, and will further burden law enforcement efforts to combat health care fraud and abuse.

TRUE MEDICARE REFORM IS POSSIBLE AND DESIRABLE

President Clinton has presented a balanced budget plan that will safeguard Medicare while strengthening the Part A trust fund, increase beneficiary choices, and improve our health care system. The President's plan would reduce Medicare spending by a net \$124 billion over seven years. Of this total, \$89 billion would come from Part A savings and would therefore extend the life of the Part A trust fund through at least the next ten years. The President's plan also would expand the kinds of health plan choices available to Medicare beneficiaries while maintaining existing beneficiary protections throughout the program. This plan also adds important new preventive and long-term care benefits to Medicare. Finally, it is combined with broader health care reform initiatives so that coverage is expanded for working Americans and cost shifting is not fueled. This is the right approach to Medicare reform.

If H.R. 2425 is approved by the Congress, I will strongly recommend that the President veto this bill.

I have been advised by the Office of Management and Budget that there is no objection to the submission of this letter to Congress, and that enactment of H.R. 2425 would not be in accord with the program of the President.

An identical letter is being sent to Rep. John D. Dingell, Ranking Member, Committee on Commerce.

Sincerely,

DONNA E. SHALALA.

(6) *COORDINATION OF BENEFITS.*—If, at the end of the 5-year period beginning on the date of the enactment of this section, the Secretary determines that additional transaction standards for coordinating benefits are necessary to reduce administrative costs or duplicative (or inappropriate) payment of claims, the Secretary shall establish further transaction standards for the coordination of benefits between health plans.

(7) *PROTECTION OF TRADE SECRETS.*—Except as otherwise required by law, the standards adopted under this section shall not require disclosure of trade secrets or confidential commercial information by an entity operating a medicare information network.

Such assistance shall be provided in any manner determined appropriate by the Secretary.

(C) REDUCTION.—In the case of a failure to comply which is due to reasonable cause and not to willful neglect, any penalty under paragraph (1) that is not entirely waived under subparagraph (B) may be waived to the extent that the payment of such penalty would be excessive relative to the compliance failure involved.

(f) EFFECT ON STATE LAW.—

(1) GENERAL EFFECT.—

[(B) QUALITY ASSESSMENT AND ASSURANCE.—A skilled nursing facility must maintain a quality assessment and assurance committee, consisting of the director of nursing services, a physician designated by the facility, and at

least 3 other members of the facility's staff, which (i) meets at least quarterly to identify issues with respect to which quality assessment and assurance activities are necessary and (ii) develops and implements appropriate plans of action to correct identified quality deficiencies. A State or the Secretary may not require disclosure of the records of such committee except insofar as such disclosure is related to the compliance of such committee with the requirements of this subparagraph.

[(2) Scope of services and activities under plan of care.—A skilled nursing facility must provide services to attain or maintain the highest practicable physical, mental, and psychosocial well-being of each resident, in accordance with a written plan of care which—

[(A) describes the medical, nursing, and psychosocial needs of the resident and how such needs will be met;

[(B) is initially prepared, with the participation to the extent practicable of the resident or the resident's family or legal representative, by a team which includes the resident's attending physician and a registered professional nurse with responsibility for the resident; and

[(C) is periodically reviewed and revised by such team after each assessment under paragraph (3).

[(3) RESIDENTS' ASSESSMENT.—

[(A) REQUIREMENT.—A skilled nursing facility must conduct a comprehensive, accurate, standardized, reproducible assessment of each resident's functional capacity, which assessment—

[(i) describes the resident's capability to perform daily life functions and significant impairments in functional capacity;

[(ii) is based on a uniform minimum data set specified by the Secretary under subsection (f)(6)(A);

[(iii) uses an instrument which is specified by the State under subsection (e)(5); and

[(iv) includes the identification of medical problems.

[(B) CERTIFICATION.—

[(i) IN GENERAL.—Each such assessment must be conducted or coordinated (with the appropriate participation of health professionals) by a registered professional nurse who signs and certifies the completion of the assessment. Each individual who completes a portion of such an assessment shall sign and certify as to the accuracy of that portion of the assessment.

[(ii) PENALTY FOR FALSIFICATION.—

[(I) An individual who willfully and knowingly certifies under clause (i) a material and false statement in a resident assessment is subject to a civil money penalty of not more than \$1,000 with respect to each assessment.

[(II) An individual who willfully and knowingly causes another individual to certify under clause (i) a material and false statement in a resident assessment is subject to a civil money penalty of not

[(III) The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under this clause in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a).

[(iii) USE OF INDEPENDENT ASSESSORS.—If a State determines, under a survey under subsection (g) or otherwise, that there has been a knowing and willful certification of false assessments under this paragraph, the State may require (for a period specified by the State) that resident assessments under this paragraph be conducted and certified by individuals who are independent of the facility and who are approved by the State.

[(C) FREQUENCY.—

[(i) IN GENERAL.—Such an assessment must be conducted—

[(I) promptly upon (but no later than 14 days after the date of) admission for each individual admitted on or after October 1, 1990, and by not later than January 1, 1991, for each resident of the facility on that date;

[(B) Qualified persons providing services.—Services described in clauses (i), (ii), (iii), (iv), and (vi) of subparagraph (A) must be provided by qualified persons in accordance with each resident's written plan of care.

[(C) REQUIRED NURSING CARE.—

[(i) In general.—Except as provided in clause (ii), a skilled nursing facility must provide 24-hour licensed nursing service which is sufficient to meet nursing needs of its residents and must use the services of a registered professional nurse at least 8 consecutive hours a day, 7 days a week.

[(ii) EXCEPTION.—To the extent that clause (i) may be deemed to require that a skilled nursing facility engage the services of a registered professional nurse for more than 40 hours a week, the Secretary is authorized to waive such requirement if the Secretary finds that—

[(I) the facility is located in a rural area and the supply of skilled nursing facility services in such area is not sufficient to meet the needs of individuals residing therein,

[(II) the facility has one full-time registered professional nurse who is regularly on duty at such facility 40 hours a week,

[(III) the facility either has only patients whose physicians have indicated (through physicians' orders or admission notes) that each such patient does not require the services of a registered nurse or a physician for a 48-hour period, or has made arrangements for a registered professional nurse or a physician to spend such time at such facility as may be indicated as necessary by the physician

to provide necessary skilled nursing services on days when the regular full-time registered professional nurse is not on duty.

[(IV) the Secretary provides notice of the waiver to the State long-term care ombudsman (established under section 307(a)(12) of the Older Americans Act of 1965) and the protection and advocacy system in the State for the mentally ill and the mentally retarded, and

[(V) the facility that is granted such a waiver notifies residents of the facility (or, where appropriate, the guardians or legal representatives of such residents) and members of their immediate families of the waiver.

A waiver under this subparagraph shall be subject to annual renewal.

[(5) REQUIRED TRAINING OF NURSE AIDES.—

[(A) IN GENERAL.—(i) Except as provided in clause (ii), a skilled nursing facility must not use on a full-time basis any individual as a nurse aide in the facility on or after October 1, 1990 for more than 4 months unless the individual—

[(C) COMPETENCY.—The skilled nursing facility must not permit an individual, other than in a training and competency evaluation program approved by the State, to serve as a nurse aide or provide services of a type for which the individual has not demonstrated competency and must not use such an individual as a nurse aide unless the facility has inquired of any State registry established under subsection (e)(2)(A) that the facility believes will include information concerning the individual.

[(D) RE-TRAINING REQUIRED.—For purposes of subparagraph (A), if, since an individual's most recent completion of a training and competency evaluation program, there has been a continuous period of 24 consecutive months during none of which the individual performed nursing or

[(E) REGULAR IN-SERVICE EDUCATION.—The skilled nursing facility must provide such regular performance review and regular in-service education as assures that individuals used as nurse aides are competent to perform services as nurse aides, including training for individuals providing nursing and nursing-related services to residents with cognitive impairments.

[(F) NURSE AIDE DEFINED.—In this paragraph, the term “nurse aide” means any individual providing nursing or nursing-related services to residents in a skilled nursing facility, but does not include an individual—

[(i) who is a licensed health professional (as defined in subparagraph (G)) or a registered dietitian, or

[(ii) who volunteers to provide such services without monetary compensation.

[(G) LICENSED HEALTH PROFESSIONAL DEFINED.—In this paragraph, the term “licensed health professional” means a physician, physician assistant, nurse practitioner, physical, speech, or occupational therapist, physical or occupational therapy assistant, registered professional nurse, licensed practical nurse, licensed or certified social worker, registered respiratory therapist, or certified respiratory therapy technician.

[(c) REQUIREMENTS RELATING TO RESIDENTS’ RIGHTS.—

[(1) GENERAL RIGHTS.—

[(A) SPECIFIED RIGHTS.—A skilled nursing facility must protect and promote the rights of each resident, including each of the following rights:

[(i) FREE CHOICE.—The right to choose a personal attending physician, to be fully informed in advance about care and treatment, to be fully informed in advance of any changes in care or treatment that may affect the resident’s well-being, and (except with respect to a resident adjudged incompetent) to partici-

[(ii) FREE FROM RESTRAINTS.—The right to be free from physical or mental abuse, corporal punishment, involuntary seclusion, and any physical or chemical restraints imposed for purposes of discipline or convenience and not required to treat the resident's medical symptoms. Restraints may only be imposed—

[(I) to ensure the physical safety of the resident or other residents, and

[(II) only upon the written order of a physician that specifies the duration and circumstances under which the restraints are to be used (except in emergency circumstances specified by the Secretary until such an order could reasonably be obtained).

[(iii) PRIVACY.—The right to privacy with regard to accommodations, medical treatment, written and telephonic communications, visits, and meetings of family and of resident groups.

[(xi) OTHER RIGHTS.—Any other right established by the Secretary.

Clause (iii) shall not be construed as requiring the provision of a private room. A resident's exercise of a right to refuse transfer under clause (x) shall not affect the resident's eligibility or entitlement to benefits under this title or to medical assistance under title XIX of this Act.

[(B) NOTICE OF RIGHTS AND SERVICES.—A skilled nursing facility must—

[(i) inform each resident, orally and in writing at the time of admission to the facility, of the resident's legal rights during the stay at the facility;

In determining whether such a consultant is qualified to conduct reviews under the preceding sentence, the Secretary shall take into account the needs of nursing

facilities under this title to have access to the services of such a consultant on a timely basis.

[(E) INFORMATION RESPECTING ADVANCE DIRECTIVES.—A skilled nursing facility must comply with the requirement of section 1866(f) (relating to maintaining written policies and procedures respecting advance directives).

[(2) TRANSFER AND DISCHARGE RIGHTS.—

[(A) IN GENERAL.—A skilled nursing facility must permit each resident to remain in the facility and must not transfer or discharge the resident from the facility unless—

[(i) the transfer or discharge is necessary to meet the resident's welfare and the resident's welfare cannot be met in the facility;

[(ii) the transfer or discharge is appropriate because the resident's health has improved sufficiently so the resident no longer needs the services provided by the facility;

[(iii) the safety of individuals in the facility is endangered;

[(iv) the health of individuals in the facility would otherwise be endangered;

[(v) the resident has failed, after reasonable and appropriate notice, to pay (or to have paid under this title or title XIX on the resident's behalf) for a stay at the facility; or

[(vi) the facility ceases to operate.

In each of the cases described in clauses (i) through (v), the basis for the transfer or discharge must be documented in the resident's clinical record. In the cases described in clauses (i) and (ii), the documentation must be made by the resident's physician, and in the cases described in clauses (iii) and (iv) the documentation must be made by a physician.

[(B) PRE-TRANSFER AND PRE-DISCHARGE NOTICE.—

[(I) notify the resident (and, if known, a family member of the resident or legal representative) of the transfer or discharge and the reasons therefor,

[(II) record the reasons in the resident's clinical record (including any documentation required under subparagraph (A)), and

[(III) include in the notice the items described in clause (iii).

[(ii) TIMING OF NOTICE.—The notice under clause (i)(I) must be made at least 30 days in advance of the resident's transfer or discharge except—

[(I) in a case described in clause (iii) or (iv) of subparagraph (A);

[(II) in a case described in clause (ii) of subparagraph (A), where the resident's health improves sufficiently to allow a more immediate transfer or discharge;

[(III) in a case described in clause (i) of subparagraph (A), where a more immediate transfer or discharge is necessitated by the resident's urgent medical needs; or

[(IV) in a case where a resident has not resided in the facility for 30 days.

In the case of such exceptions, notice must be given as many days before the date of the transfer or discharge as is practicable.

[(iii) ITEMS INCLUDED IN NOTICE.—Each notice under clause (i) must include—

[(I) for transfers or discharges effected on or after October 1, 1990, notice of the resident's right to appeal the transfer or discharge under the State process established under subsection (e)(3); and

[(B) permit immediate access to a resident, subject to the resident's right to deny or withdraw consent at any time, by immediate family or other relatives of the resident;

[(C) permit immediate access to a resident, subject to reasonable restrictions and the resident's right to deny or withdraw consent at any time, by others who are visiting with the consent of the resident;

[(D) permit reasonable access to a resident by any entity or individual that provides health, social, legal, or other services to the resident, subject to the resident's right to deny or withdraw consent at any time; and

[(E) permit representatives of the State ombudsman (described in paragraph (2)(B)(iii)(II)), with the permission of the resident (or the resident's legal representative) and consistent with State law, to examine a resident's clinical records.

[(4) Equal access to quality care.—A skilled nursing facility must establish and maintain identical policies and practices regarding transfer, discharge, and covered services under this title for all individuals regardless of source of payment.

[(5) ADMISSIONS POLICY.—

[(A) ADMISSIONS.—With respect to admissions practices, a skilled nursing facility must—

[(ii) not require a third party guarantee of payment to the facility as a condition of admission (or expedited admission) to, or continued stay in, the facility.

[(B) CONSTRUCTION.—

[(i) NO PREEMPTION OF STRICTER STANDARDS.— Subparagraph (A) shall not be construed as preventing States or political subdivisions therein from prohibiting, under State or local law, the discrimination against individuals who are entitled to medical assistance under this title with respect to admissions practices of skilled nursing facilities.

[(ii) CONTRACTS WITH LEGAL REPRESENTATIVES.— Subparagraph (A)(ii) shall not be construed as preventing a facility from requiring an individual, who has legal access to a resident's income or resources available to pay for care in the facility, to sign a contract (without incurring personal financial liability) to provide payment from the resident's income or resources for such care.

[(6) PROTECTION OF RESIDENT FUNDS.—

[(A) IN GENERAL.—The skilled nursing facility—

[(i) may not require residents to deposit their personal funds with the facility, and

[(ii) upon the written authorization of the resident, must hold, safeguard, and account for such personal funds under a system established and maintained by the facility in accordance with this paragraph.

[(B) MANAGEMENT OF PERSONAL FUNDS.—Upon written authorization of a resident under subparagraph (A)(ii), the facility must manage and account for the personal funds of the resident deposited with the facility as follows:

[(i) Deposit.—The facility must deposit any amount of personal funds in excess of \$100 with respect to a resident in an interest bearing account (or accounts) that is separate from any of the facility's operating accounts and credits all interest earned on such separate account to such account. With respect to any other personal funds, the facility must maintain such funds in a non-interest bearing account or petty cash fund.

[(ii) ACCOUNTING AND RECORDS.—The facility must assure a full and complete separate accounting of each such resident's personal funds, maintain a written

record of all financial transactions involving the personal funds of a resident deposited with the facility, and afford the resident (or a legal representative of the resident) reasonable access to such record.

[(iii) CONVEYANCE UPON DEATH.—Upon the death of a resident with such an account, the facility must convey promptly the resident's personal funds (and a final accounting of such funds) to the individual administering the resident's estate.

[(C) ASSURANCE OF FINANCIAL SECURITY.—The facility must purchase a surety bond, or otherwise provide assurance satisfactory to the Secretary, to assure the security of all personal funds of residents deposited with the facility.

[(D) LIMITATION ON CHARGES TO PERSONAL FUNDS.—The facility may not impose a charge against the personal funds of a resident for any item or service for which payment is made under this title or title XIX.

[(d) REQUIREMENTS RELATING TO ADMINISTRATION AND OTHER MATTERS.—

[(1) ADMINISTRATION.—

[(A) IN GENERAL.—A skilled nursing facility must be administered in a manner that enables it to use its resources effectively and efficiently to attain or maintain the highest practicable physical mental, and psychosocial well-being of each resident (consistent with requirements established under subsection (f)(5)).

[(B) REQUIRED NOTICES.—If a change occurs in—

[(i) the persons with an ownership or control interest (as defined in section 1124(a)(3)) in the facility,

[(ii) the persons who are officers, directors, agents, or managing employees (as defined in section 1126(b)) of the facility,

[(iii) the corporation, association, or other company responsible for the management of the facility, or

[(iv) the individual who is the administrator or director of nursing of the facility,—the skilled nursing facility must provide notice to the State agency responsible for the licensing of the facility, at the time of the change, of the change and of the identity of each new person, company, or individual described in the respective clause.

[(C) SKILLED NURSING FACILITY ADMINISTRATOR.—The administrator of a skilled nursing facility must meet standards established by the Secretary under subsection (f)(4).

[(2) LICENSING AND LIFE SAFETY CODE.—

[(A) LICENSING.—A skilled nursing facility must be licensed under applicable State and local law.

[(B) LIFE SAFETY CODE.—A skilled nursing facility must meet such provisions of such edition (as specified by the Secretary in regulation) of the Life Safety Code of the National Fire Protection Association as are applicable to nursing homes; except that—

[(i) the Secretary may waive, for such periods as he deems appropriate, specific provisions of such Code which if rigidly applied would result in unreasonable hardship upon a facility, but only if such waiver would not adversely affect the health and safety of residents or personnel, and

[(ii) the provisions of such Code shall not apply in any State if the Secretary finds that in such State there is in effect a fire and safety code, imposed by State law, which adequately protects residents of and personnel in skilled nursing facilities.

[(3) SANITARY AND INFECTION CONTROL AND PHYSICAL ENVIRONMENT.—A skilled nursing facility must—

[(A) establish and maintain an infection control program designed to provide a safe, sanitary, and comfortable environment in which residents reside and to help prevent the development and transmission of disease and infection, and

[(B) be designed, constructed, equipped, and maintained in a manner to protect the health and safety of residents, personnel, and the general public.

[(4) MISCELLANEOUS.—

[(A) COMPLIANCE WITH FEDERAL, STATE, AND LOCAL LAWS AND PROFESSIONAL STANDARDS.—A skilled nursing facility must operate and provide services in compliance with all applicable Federal, State, and local laws and regulations (including the requirements of section 1124) and with accepted professional standards and principles which apply to professionals providing services in such a facility.

[(B) OTHER.—A skilled nursing facility must meet such other requirements relating to the health, safety, and well-being of residents or relating to the physical facilities thereof as the Secretary may find necessary.

[(e) STATE REQUIREMENTS RELATING TO SKILLED NURSING FACILITY REQUIREMENTS.—The requirements, referred to in section 1864(d), with respect to a State are as follows:

[(1) SPECIFICATION AND REVIEW OF NURSE AIDE TRAINING AND COMPETENCY EVALUATION PROGRAMS AND OF NURSE AIDE COMPETENCY EVALUATION PROGRAMS.—The State must—

[(A) by not later than January 1, 1989, specify those training and competency evaluation programs, and those competency evaluation programs, that the State approves for purposes of subsection (b)(5) and that meet the requirements established under subsection (f)(2), and

[(B) by not later than January 1, 1990, provide for the review and reapproval of such programs, at a frequency and using a methodology consistent with the requirements established under subsection (f)(2)(A)(iii).

The failure of the Secretary to establish requirements under subsection (f)(2) shall not relieve any State of its responsibility under this paragraph.

[(2) NURSE AIDE REGISTRY.—

[(A) IN GENERAL.—By not later than January 1, 1989, the State shall establish and maintain a registry of all in-

dividuals who have satisfactorily completed a nurse aide training and competency evaluation program, or a nurse aide competency evaluation program, approved under paragraph (1) in the State, or any individual described in subsection (f)(2)(B)(ii) or in subparagraph (B), (C), or (D) of section 6901(b)(4) of the Omnibus Budget Reconciliation Act of 1989.

[(B) INFORMATION IN REGISTRY.—The registry under subparagraph (A) shall provide (in accordance with regulations of the Secretary) for the inclusion of specific documented findings by a State under subsection (g)(1)(C) of resident neglect or abuse or misappropriation of resident property involving an individual listed in the registry, as well as any brief statement of the individual disputing the findings, but shall not include any allegations of resident abuse or neglect or misappropriation of resident property that are not specifically documented by the State under such subsection. The State shall make available to the public information in the registry. In the case of inquiries to the registry concerning an individual listed in the registry, any information disclosed concerning such a finding shall also include disclosure of any such statement in the registry relating to the finding or a clear and accurate summary of such a statement.

[(C) PROHIBITION AGAINST CHARGES.—A State may not impose any charges on a nurse aide relating to the registry established and maintained under subparagraph (A).

[(3) STATE APPEALS PROCESS FOR TRANSFERS AND DISCHARGES.—The State, for transfers and discharges from skilled nursing facilities effected on or after October 1, 1989, must provide for a fair mechanism for hearing appeals on transfers and discharges of residents of such facilities. Such mechanism must meet the guidelines established by the Secretary under subsection (f)(3); but the failure of the Secretary to establish such guidelines shall not relieve any State of its responsibility to provide for such a fair mechanism.

[(4) SKILLED NURSING FACILITY ADMINISTRATOR STANDARDS.—By not later than January 1, 1990, the State must have implemented and enforced the skilled nursing facility administrator standards developed under subsection (f)(4) respecting the qualification of administrators of skilled nursing facilities.

[(B) an instrument which the Secretary has approved as being consistent with the minimum data set of core elements, common definitions, and utilization guidelines specified by the Secretary under subsection (f)(6)(A).

[(f) RESPONSIBILITIES OF SECRETARY RELATING TO SKILLED NURSING FACILITY REQUIREMENTS.—

[(1) GENERAL RESPONSIBILITY.—It is the duty and responsibility of the Secretary to assure that requirements which govern the provision of care in skilled nursing facilities under this title, and the enforcement of such requirements, are adequate to protect the health, safety, welfare, and rights of residents and to promote the effective and efficient use of public moneys.

[(2) REQUIREMENTS FOR NURSE AIDE TRAINING AND COMPETENCY EVALUATION PROGRAMS AND FOR NURSE AIDE COMPETENCY EVALUATION PROGRAMS.—

[(A) IN GENERAL.—For purposes of subsections (b)(5) and (e)(1)(A), the Secretary shall establish, by not later than September 1, 1988—

[(i) requirements for the approval of nurse aide training and competency evaluation programs, including requirements relating to (I) the areas to be covered in such a program (including at least basic nursing skills, personal care skills, recognition of mental health and social service needs, care of cognitively impaired residents, basic restorative services, and residents' rights) and content of the curriculum, (II) minimum hours of initial and ongoing training and retraining (including not less than 75 hours in the case of initial training), (III) qualifications of instructors, and (IV) procedures for determination of competency;

[(ii) requirements for the approval of nurse aide competency evaluation programs, including requirement relating to the areas to be covered in such a program, including at least basic nursing skills, personal care skills, recognition of mental health and social service needs, care of cognitively impaired residents, basic restorative services, residents' rights, and procedures for determination of competency;

[(iii) requirements respecting the minimum frequency and methodology to be used by a State in reviewing such programs' compliance with the requirements for such programs; and

[(iv) requirements, under both such programs, that—

[(I) provide procedures for determining competency that permit a nurse aide, at the nurse aide's option, to establish competency through procedures or methods other than the passing of a written examination and to have the competency evaluation conducted at the nursing facility at which the aide is (or will be) employed (unless the facility is described in subparagraph (B)(iii)(I)),

[(II) prohibit the imposition on a nurse aide who is employed by (or who has received an offer of employment from) a facility on the date on which the aide begins either such program of any charges (including any charges for textbooks and other required course materials and any charges for the competency evaluation) for either such program, and

[(III) in the case of a nurse aide not described in subclause (II) who is employed by (or who has received an offer of employment from) a facility not later than 12 months after completing either such program, the State shall provide for the reimbursement of costs incurred in completing such program on a prorata basis during the period in which the nurse aide is so employed.

[(B) Approval of certain programs.—Such requirements—

[(i) may permit approval of programs offered by or in facilities (subject to clause (iii)), as well as outside facilities (including employee organizations), and of programs in effect on the date of the enactment of this section;

[(ii) shall permit a State to find that an individual who has completed (before July 1, 1989) a nurse aide training and competency evaluation program shall be deemed to have completed such a program approved under subsection (b)(5) if the State determines that, at the time the program was offered, the program met the requirements for approval under such paragraph; and

[(iii) shall prohibit approval of such a program—

[(I) offered by or in a skilled nursing facility which, within the previous 2 years—

[(a) has operated under a waiver under subsection (b)(4)(C)(ii)(II);

[(b) has been subject to an extended (or partial extended) survey under subsection (g)(2)(B)(i) or section 1919(g)(2)(B)(i), unless the survey shows that the facility is in compliance with the requirements of subsections (b), (c), and (d) of this section; or

[(c) has been assessed a civil money penalty described in subsection (h)(2)(B)(ii) or section 1919(h)(2)(A)(ii) of not less than \$5,000, or has been subject to a remedy described in clause (i) or (iii) of subsection (h)(2)(B), subsection (h)(4), section 1919(h)(1)(B)(i), or in clause (i), (iii), or (iv) of section 1919(h)(2)(A), or

[(II) offered by or in a skilled nursing facility unless the State makes the determination, upon an individual's completion of the program, that the individual is competent to provide nursing and nursing-related services in skilled nursing facilities.

A State may not delegate (through subcontract or otherwise) its responsibility under clause (iii)(II) to the skilled nursing facility.

[(3) FEDERAL GUIDELINES FOR STATE APPEALS PROCESS FOR TRANSFERS AND DISCHARGES.—For purposes of subsections (c)(2)(B)(iii)(I) and (e)(3), by not later than October 1, 1988, the

Secretary shall establish guidelines for minimum standards which State appeals processes under subsection (e)(3) must meet to provide a fair mechanism for hearing appeals on transfers and discharges of residents from skilled nursing facilities.

[(4) SECRETARIAL STANDARDS FOR QUALIFICATION OF ADMINISTRATORS.—For purposes of subsections (d)(1)(C) and (e)(4), the Secretary shall develop, by not later than March 1, 1989, standards to be applied in assuring the qualifications of administrators of skilled nursing facilities.

[(5) CRITERIA FOR ADMINISTRATION.— The Secretary shall establish criteria for assessing a skilled nursing facility's compliance with the requirement of subsection (d)(1) with respect to—

[(A) its governing body and management,

[(B) agreements with hospitals regarding transfers of residents to and from the hospitals and to and from other skilled nursing facilities,

[(C) disaster preparedness,

[(D) direction of medical care by a physician,

[(E) laboratory and radiological services,

[(F) clinical records, and

[(G) resident and advocate participation.

[(6) SPECIFICATION OF RESIDENT ASSESSMENT DATA SET AND INSTRUMENTS.—The Secretary shall—

[(A) not later than January 1, 1989, specify a minimum data set of core elements and common definitions for use by nursing facilities in conducting the assessments required under subsection (b)(3), and establish guidelines for utilization of the data set; and

[(B) by not later than April 1, 1990, designate one or more instruments which are consistent with the specification made under subparagraph (A) and which a State may specify under subsection (e)(5)(A) for use by nursing facilities in complying with the requirements of subsection (b)(3)(A)(iii).

[(7) LIST OF ITEMS AND SERVICES FURNISHED IN SKILLED NURSING FACILITIES NOT CHARGEABLE TO THE PERSONAL FUNDS OF A RESIDENT.—

[(A) REGULATIONS REQUIRED.— Pursuant to the requirement of section 21(b) of the Medicare-Medicaid Anti-Fraud and Abuse Amendments of 1977, the Secretary shall issue regulations, on or before the first day of the seventh month to begin after the date of enactment of this section, that define those costs which may be charged to the personal funds of residents in skilled nursing facilities who are individuals receiving benefits under this part and those costs which are to be included in the reasonable cost (or other payment amount) under this title for extended care services.

[(B) RULE IF FAILURE TO PUBLISH REGULATIONS.—If the Secretary does not issue the regulations under subparagraph (A) on or before the date required in such subparagraph, in the case of a resident of a skilled nursing facility who is eligible to receive benefits under this part, the costs

which may not be charged to the personal funds of such resident (and for which payment is considered to be made under this title) shall include, at a minimum, the costs for routine personal hygiene items and services furnished by the facility.

[(g) SURVEY AND CERTIFICATION PROCESS.—

[(1) STATE AND FEDERAL RESPONSIBILITY.—

[(A) IN GENERAL.—Pursuant to an agreement under section 1864, each State shall be responsible for certifying, in accordance with surveys conducted under paragraph (2), the compliance of skilled nursing facilities (other than facilities of the State) with the requirements of subsections (b), (c), and (d). The Secretary shall be responsible for certifying, in accordance with surveys conducted under paragraph (2), the compliance of State skilled nursing facilities with the requirements of such subsections.

[(B) EDUCATIONAL PROGRAM.—Each State shall conduct periodic educational programs for the staff and residents (and their representatives) of skilled nursing facilities in order to present current regulations, procedures, and policies under this section.

[(C) INVESTIGATION OF ALLEGATIONS OF RESIDENT NEGLECT AND ABUSE AND MISAPPROPRIATION OF RESIDENT PROPERTY.—The State shall provide, through the agency responsible for surveys and certification of nursing facilities under this subsection, for a process for the receipt and timely review and investigation of allegations of neglect and abuse and misappropriation of resident property by a nurse aide of a resident in a nursing facility or by another individual used by the facility in providing services to such a resident. The State shall, after providing the individual involved with a written notice of the allegations (including a statement of the availability of a hearing for the individual to rebut the allegations) and the opportunity for a hearing on the record, make a written finding as to the accuracy of the allegations. If the State finds that a nurse aide has neglected or abused a resident or misappropriated resident property in a facility, the State shall notify the nurse aide and the registry of such finding. If the State finds that any other individual used by the facility has neglected or abused a resident or misappropriated resident property in a facility, the State shall notify the appropriate licensure authority. A State shall not make a finding that an individual has neglected a resident if the individual demonstrates that such neglect was caused by factors beyond the control of the individual.

[(D) CONSTRUCTION.—The failure of the Secretary to issue regulations to carry out this subsection shall not relieve a State of its responsibility under this subsection.

[(2) SURVEYS.—

[(A) STANDARD SURVEY.—

[(i) IN GENERAL.—Each skilled nursing facility shall be subject to a standard survey, to be conducted without any prior notice to the facility. Any individual who

notifies (or causes to be notified) a skilled nursing facility of the time or date on which such a survey is scheduled to be conducted is subject to a civil money penalty of not to exceed \$2,000. The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under the previous sentence in the same manner as such provisions apply to a penalty or proceeding under section 1128A(a). The Secretary shall review each State's procedures for the scheduling and conduct of standard surveys to assure that the State has taken all reasonable steps to avoid giving notice of such a survey through the scheduling procedures and the conduct of the surveys themselves.

[(ii) CONTENTS.—Each standard survey shall include, for a case-mix stratified sample of residents—

[(I) a survey of the quality of care furnished, as measured by indicators of medical, nursing, and rehabilitative care, dietary and nutrition services, activities and social participation, and sanitation, infection control, and the physical environment,

[(II) written plans of care provided under subsection (b)(2) and an audit of the residents' assessments under subsection (b)(3) to determine the accuracy of such assessments and the adequacy of such plans of care, and

[(III) a review of compliance with residents' rights under subsection (c).

[(iii) FREQUENCY.—

[(I) IN GENERAL.—Each skilled nursing facility shall be subject to a standard survey not later than 15 months after the date of the previous standard survey conducted under this subparagraph. The Statewide average interval between standard surveys of skilled nursing facilities under this subsection shall not exceed 12 months.

[(II) SPECIAL SURVEYS.—If not otherwise conducted under subclause (I), a standard survey (or an abbreviated standard survey) may be conducted within 2 months of any change of ownership, administration, management of a skilled nursing facility, or the director of nursing in order to determine whether the change has resulted in any decline in the quality of care furnished in the facility.

[(B) EXTENDED SURVEYS.—

[(i) IN GENERAL.—Each skilled nursing facility which is found, under a standard survey, to have provided substandard quality of care shall be subject to an extended survey. Any other facility may, at the Secretary's or State's discretion, be subject to such an extended survey (or a partial extended survey).

[(ii) TIMING.—The extended survey shall be conducted immediately after the standard survey (or, if

not practicable, not later than 2 weeks after the date of completion of the standard survey).

[(iii) CONTENTS.—In such an extended survey, the survey team shall review and identify the policies and procedures which produced such substandard quality of care and shall determine whether the facility has complied with all the requirements described in subsections (b), (c), and (d). Such review shall include an expansion of the size of the sample of residents' assessments reviewed and a review of the staffing, of in-service training, and, if appropriate, of contracts with consultants.

[(iv) CONSTRUCTION.—Nothing in this paragraph shall be construed as requiring an extended or partial extended survey as a prerequisite to imposing a sanction against a facility under subsection (h) on the basis of findings in a standard survey.

[(C) SURVEY PROTOCOL.—Standard and extended surveys shall be conducted—

[(i) based upon a protocol which the Secretary has developed, tested, and validated by not later than January 1, 1990, and

[(ii) by individuals, of a survey team, who meet such minimum qualifications as the Secretary establishes by not later than such date.

The failure of the Secretary to develop, test, or validate such protocols or to establish such minimum qualifications shall not relieve any State of its responsibility (or the Secretary of the Secretary's responsibility) to conduct surveys under this subsection.

[(D) CONSISTENCY OF SURVEYS.—Each State and the Secretary shall implement programs to measure and reduce inconsistency in the application of survey results among surveyors.

[(E) SURVEY TEAMS.—

[(i) IN GENERAL.—Surveys under this subsection shall be conducted by a multidisciplinary team of professionals (including a registered professional nurse).

[(ii) PROHIBITION OF CONFLICTS OF INTEREST.—A State may not use as a member of a survey team under this subsection an individual who is serving (or has served within the previous 2 years) as a member of the staff of, or as a consultant to, the facility surveyed respecting compliance with the requirements of subsections (b), (c), and (d), or who has a personal or familial financial interest in the facility being surveyed.

[(iii) TRAINING.—The Secretary shall provide for the comprehensive training of State and Federal surveyors in the conduct of standard and extended surveys under this subsection, including the auditing of resident assessments and plans of care. No individual shall serve as a member of a survey team unless the individual has successfully completed a training and

testing program in survey and certification techniques that has been approved by the Secretary.

[(3) VALIDATION SURVEYS.—

[(A) IN GENERAL.—The Secretary shall conduct onsite surveys of a representative sample of skilled nursing facilities in each State, within 2 months of the date of surveys conducted under paragraph (2) by the State, in a sufficient number to allow inferences about the adequacies of each State's surveys conducted under paragraph (2). In conducting such surveys, the Secretary shall use the same survey protocols as the State is required to use under paragraph (2). If the State has determined that an individual skilled nursing facility meets the requirements of subsections (b), (c), and (d), but the Secretary determines that the facility does not meet such requirements, the Secretary's determination as to the facility's noncompliance with such requirements is binding and supersedes that of the State survey.

[(B) SCOPE.—With respect to each State, the Secretary shall conduct surveys under subparagraph (A) each year with respect to at least 5 percent of the number of skilled nursing facilities surveyed by the State in the year, but in no case less than 5 skilled nursing facilities in the State.

[(C) REMEDIES FOR SUBSTANDARD PERFORMANCE.—If the Secretary finds, on the basis of such surveys, that a State has failed to perform surveys as required under paragraph (2) or that a State's survey and certification performance otherwise is not adequate, the Secretary shall provide for an appropriate remedy, which may include the training of survey teams in the State.

[(D) SPECIAL SURVEYS OF COMPLIANCE.—Where the Secretary has reason to question the compliance of a skilled nursing facility with any of the requirements of subsections (b), (c), and (d), the Secretary may conduct a survey of the facility and, on the basis of that survey, make independent and binding determinations concerning the extent to which the skilled nursing facility meets such requirements.

[(4) INVESTIGATION OF COMPLAINTS AND MONITORING COMPLIANCE.—Each State shall maintain procedures and adequate staff to—

[(A) investigate complaints of violations of requirements by skilled nursing facilities, and

[(B) monitor, on-site, on a regular, as needed basis, a skilled nursing facility's compliance with the requirements of subsections (b), (c), and (d), if—

[(i) the facility has been found not to be in compliance with such requirements and is in the process of correcting deficiencies to achieve such compliance;

[(ii) the facility was previously found not to be in compliance with such requirements, has corrected deficiencies to achieve such compliance, and verification of continued compliance is indicated; or

[(iii) the State has reason to question the compliance of the facility with such requirements.

A State may maintain and utilize a specialized team (including an attorney, an auditor, and appropriate health care professionals) for the purpose of identifying, surveying, gathering and preserving evidence, and carrying out appropriate enforcement actions against substandard skilled nursing facilities.

[(5) DISCLOSURE OF RESULTS OF INSPECTIONS AND ACTIVITIES.—

[(A) PUBLIC INFORMATION.—Each State, and the Secretary, shall make available to the public—

[(i) information respecting all surveys and certifications made respecting skilled nursing facilities, including statements of deficiencies, within 14 calendar days after such information is made available to those facilities, and approved plans of correction,

[(ii) copies of cost reports of such facilities filed under this title or title XIX,

[(iii) copies of statements of ownership under section 1124, and

[(iv) information disclosed under section 1126.

[(B) NOTICE TO OMBUDSMAN.—Each State shall notify the State long-term care ombudsman (established under title III or VII of the Older Americans Act of 1965 in accordance with section 712 of the Act) of the State's findings of noncompliance with any of the requirements of subsections (b), (c), and (d), or of any adverse action taken against a skilled nursing facility under paragraph (1), (2), or (4) of subsection (h), with respect to a skilled nursing facility in the State.

[(C) NOTICE TO PHYSICIANS AND SKILLED NURSING FACILITY ADMINISTRATOR LICENSING BOARD.—If a State finds that a skilled nursing facility has provided substandard quality of care, the State shall notify—

[(i) the attending physician of each resident with respect to which such finding is made, and

[(ii) the State board responsible for the licensing of the skilled nursing facility administrator at the facility.

[(D) ACCESS TO FRAUD CONTROL UNITS.—Each State shall provide its State medicaid fraud and abuse control unit (established under section 1903(q)) with access to all information of the State agency responsible for surveys and certifications under this subsection.

[(h) ENFORCEMENT PROCESS.—

[(1) IN GENERAL.—If a State finds, on the basis of a standard, extended, or partial extended survey under subsection (g)(2) or otherwise, that a skilled nursing facility no longer meets a requirement of subsection (b), (c), or (d), and further finds that the facility's deficiencies—

[(A) immediately jeopardize the health or safety of its residents, the State shall recommend to the Secretary that the Secretary take such action as described in paragraph (2)(A)(i); or

[(B) do not immediately jeopardize the health or safety of its residents, the State may recommend to the Secretary that the Secretary take such action as described in paragraph (2)(A)(ii).

If a State finds that a skilled nursing facility meets the requirements of subsections (b), (c), and (d), but, as of a previous period, did not meet such requirements, the State may recommend a civil money penalty under paragraph (2)(B)(ii) for the days in which it finds that the facility was not in compliance with such requirements.

[(2) SECRETARIAL AUTHORITY.—

[(A) IN GENERAL.—With respect to any skilled nursing facility in a State, if the Secretary finds, or pursuant to a recommendation of the State under paragraph (1) finds, that a skilled nursing facility no longer meets a requirement of subsection (b), (c), (d), or (e), and further finds that the facility's deficiencies—

[(i) immediately jeopardize the health or safety of its residents, the Secretary shall take immediate action to remove the jeopardy and correct the deficiencies through the remedy specified in subparagraph (B)(iii), or terminate the facility's participation under this title and may provide, in addition, for one or more of the other remedies described in subparagraph (B); or

[(ii) do not immediately jeopardize the health or safety of its residents, the Secretary may impose any of the remedies described in subparagraph (B).

Nothing in this subparagraph shall be construed as restricting the remedies available to the Secretary to remedy a skilled nursing facility's deficiencies. If the Secretary finds, or pursuant to the recommendation of the State under paragraph (1) finds, that a skilled nursing facility meets such requirements but, as of a previous period, did not meet such requirements, the Secretary may provide for a civil money penalty under subparagraph (B)(ii) for the days on which he finds that the facility was not in compliance with such requirements.

[(B) SPECIFIED REMEDIES.—The Secretary may take the following actions with respect to a finding that a facility has not met an applicable requirement:

[(i) DENIAL OF PAYMENT.—The Secretary may deny any further payments under this title with respect to all individuals entitled to benefits under this title in the facility or with respect to such individuals admitted to the facility after the effective date of the finding.

[(ii) AUTHORITY WITH RESPECT TO CIVIL MONEY PENALTIES.—The Secretary may impose a civil money penalty in an amount not to exceed \$10,000 for each day of noncompliance. The provisions of section 1128A (other than subsections (a) and (b)) shall apply to a civil money penalty under the previous sentence in the

same manner as such provisions apply to a penalty or proceeding under section 1128A(a).

[(iii) APPOINTMENT OF TEMPORARY MANAGEMENT.—In consultation with the State, the Secretary may appoint temporary management to oversee the operation of the facility and to assure the health and safety of the facility's residents, where there is a need for temporary management while—

[(I) there is an orderly closure of the facility, or

[(II) improvements are made in order to bring the facility into compliance with all the requirements of subsections (b), (c), and (d).

The temporary management under this clause shall not be terminated under subclause (II) until the Secretary has determined that the facility has the management capability to ensure continued compliance with all the requirements of subsections (b), (c), and (d).

The Secretary shall specify criteria, as to when and how each of such remedies is to be applied, the amounts of any fines, and the severity of each of these remedies, to be used in the imposition of such remedies. Such criteria shall be designed so as to minimize the time between the identification of violations and final imposition of the remedies and shall provide for the imposition of incrementally more severe fines for repeated or uncorrected deficiencies. In addition, the Secretary may provide for other specified remedies, such as directed plans of correction.

[(C) CONTINUATION OF PAYMENTS PENDING REMEDIATION.—The Secretary may continue payments, over a period of not longer than 6 months after the effective date of the findings, under this title with respect to a skilled nursing facility not in compliance with a requirement of subsection (b), (c), or (d), if—

[(i) the State survey agency finds that it is more appropriate to take alternative action to assure compliance of the facility with the requirements than to terminate the certification of the facility,

[(ii) the State has submitted a plan and timetable for corrective action to the Secretary for approval and the Secretary approves the plan of corrective action, and

[(iii) the facility agrees to repay to the Federal Government payments received under this subparagraph if the corrective action is not taken in accordance with the approved plan and timetable.

The Secretary shall establish guidelines for approval of corrective actions requested by States under this subparagraph.

[(D) Assuring prompt compliance.—If a skilled nursing facility has not complied with any of the requirements of subsections (b), (c), and (d), within 3 months after the date the facility is found to be out of compliance with such requirements, the Secretary shall impose the remedy de-

scribed in subparagraph (B)(i) for all individuals who are admitted to the facility after such date.

[(E) Repeated noncompliance.—In the case of a skilled nursing facility which, on 3 consecutive standard surveys conducted under subsection (g)(2), has been found to have provided substandard quality of care, the Secretary shall (regardless of what other remedies are provided)—

[(i) impose the remedy described in subparagraph (B)(i), and

[(ii) monitor the facility under subsection (g)(4)(B), until the facility has demonstrated, to the satisfaction of the Secretary, that it is in compliance with the requirements of subsections (b), (c), and (d), and that it will remain in compliance with such requirements.

[(3) EFFECTIVE PERIOD OF DENIAL OF PAYMENT.—A finding to deny payment under this subsection shall terminate when the Secretary finds that the facility is in substantial compliance with all the requirements of subsections (b), (c), and (d).

[(4) IMMEDIATE TERMINATION OF PARTICIPATION FOR FACILITY WHERE SECRETARY FINDS NONCOMPLIANCE AND IMMEDIATE JEOPARDY.—If the Secretary finds that a skilled nursing facility has not met a requirement of subsection (b), (c), or (d), and finds that the failure immediately jeopardizes the health or safety of its residents, the Secretary shall take immediate action to remove the jeopardy and correct the deficiencies through the remedy specified in paragraph (2)(B)(iii), or the Secretary shall terminate the facility's participation under this title. If the facility's participation under this title is terminated, the State shall provide for the safe and orderly transfer of the residents eligible under this title consistent with the requirements of subsection (c)(2).

[(5) CONSTRUCTION.—The remedies provided under this subsection are in addition to those otherwise available under State or Federal law and shall not be construed as limiting such other remedies, including any remedy available to an individual at common law. The remedies described in clauses (i), and (iii) of paragraph (2)(B) may be imposed during the pendency of any hearing.

[(6) SHARING OF INFORMATION.—Notwithstanding any other provision of law, all information concerning skilled nursing facilities required by this section to be filed with the Secretary or a State agency shall be made available by such facilities to Federal or State employees for purposes consistent with the effective administration of programs established under this title and title XIX, including investigations by State medicaid fraud control units.

[(i) CONSTRUCTION.—Where requirements or obligations under this section are identical to those provided under section 1919 of this Act, the fulfillment of those requirements or obligations under section 1919 shall be considered to be the fulfillment of the corresponding requirements or obligations under this section.]

(b) *STANDARDS FOR AND CERTIFICATION OF FACILITIES.*—

(1) *STANDARDS FOR FACILITIES.*—

(A) *IN GENERAL.*—The Secretary shall provide for the establishment and maintenance of standards consistent with the contents described in subparagraph (B) for skilled nursing facilities which furnish services for which payment may be made under this title.

(2) *CERTIFICATION PROGRAM.*—

(A) *IN GENERAL.*—The Secretary shall provide for the establishment and operation of a program consistent with the

requirements of subparagraph (B) for the certification of skilled nursing facilities which meet the standards established under paragraph (1) and the decertification of facilities which fail to meet such standards.

(B) *REQUIREMENTS FOR PROGRAM.*—In addition to any other requirements the Secretary may impose, in establishing and operating the certification program under subparagraph (A), the Secretary shall ensure the following:

(i) The Secretary shall ensure public access (as defined by the Secretary) to the certification program's evaluations of participating facilities, including compliance records and enforcement actions and other reports by the Secretary regarding the ownership, compliance histories, and services provided by certified facilities.

(ii) Not less often than every 4 years, the Secretary shall audit its expenditures under the program, through an entity designated by the Secretary which is not affiliated with the program, as designated by the Secretary.

(c) *INTERMEDIATE SANCTION AUTHORITY.*—

(1) *AUTHORITY.*—In addition to any other authority, where the Secretary determines that a nursing facility which is certified for participation under this title plan no longer substantially meets the requirements for such a facility under this title and further determines that the facility's deficiencies—

(A) immediately jeopardize the health and safety of its residents, the Secretary shall at least provide for the termination of the facility's certification for participation under this title, or

(B) do not immediately jeopardize the health and safety of its residents, the Secretary may, in lieu of providing for terminating the facility's certification for participation under the plan, provide lesser sanctions including one that provides that no payment will be made under this title with respect to any individual admitted to such facility after a date specified by the Secretary.

(2) *NOTICE.*—The Secretary shall not make such a decision with respect to a facility until the facility has had a reasonable opportunity, following the initial determination that it no longer or does not substantially meets the requirements for such a facility under the plan, to correct its deficiencies, and, following this period, has been given reasonable notice and opportunity for a hearing.

(3) *EFFECTIVENESS.*—The Secretary's decision to deny payment may be made effective only after such notice to the public and to the facility as may be provided for by the Secretary, and its effectiveness shall terminate (A) when the Secretary finds that the facility is in substantial compliance (or is making good faith efforts to achieve substantial compliance) with the requirements for such a facility under this title, or (B) in the case described in paragraph (1)(B), with the end of the eleventh month following the month such decision is made effective, whichever occurs first. If a facility to which clause (B) of the previous sen-

AMOUNTS OF PREMIUMS

SEC. 1839. (a) * * *

(b) In the case of an individual whose coverage period began pursuant to an enrollment after his initial enrollment period (determined pursuant to subsection (c) or (d) of section 1837), the monthly premium determined under subsection (a) or (e) shall be increased by 10 percent of the monthly premium so determined for each full 12 months (in the same continuous period of eligibility) in which he could have been but was not enrolled. For purposes of the preceding sentence, there shall be taken into account (1) the months which elapsed between the close of his initial enrollment period and the close of the enrollment period in which he enrolled, plus (in the case of an individual who reenrolls) (2) the months which elapsed between the date of termination of a previous coverage period and the close of the enrollment period in which he reenrolled, but there shall not be taken into account months for which the individual can demonstrate that the individual was enrolled in a group health plan described in section 1862(b)(1)(A)(v) by reason of the individual's (or the individual's spouse's) current employment or months during which the individual has not attained the age of 65 and for which the individual can demonstrate that the individual was enrolled in a large group health plan as an active individual (as those terms are defined in section [1862(b)(1)(B)(iv)] 1862(b)(1)(B)(iii)). Any increase in an individual's monthly premium under the first sentence of this subsection with respect to a particular continuous period of eligibility shall not

be applicable with respect to any other continuous period of eligibility which such individual may have.

* * * * *

(e)(1)(A) Notwithstanding the provisions of subsection (a), the monthly premium for each individual enrolled under this part for each month after December 1995 [and prior to January 1999] shall be an amount equal to 50 percent (*or, if higher, the percent described in subparagraph (C)*) of the monthly actuarial rate for enrollees age 65 and over, as determined under subsection (a)(1) and applicable to such month.

* * * * *

(C) *For purposes of subparagraph (A), the percent described in this subparagraph is the ratio (expressed as a percentage) of the monthly premium established under this section for months in 1995 to the monthly actuarial rate for enrollees age 65 and over applicable to such months (as specified in the most recent report of the Board of Trustees of the Federal Supplementary Medical Insurance Trust Fund published prior to the date of the enactment of the Medicare Preservation Act of 1995).*

* * * * *

(f) For any calendar year after 1988, [if an individual] *if an individual (other than an individual subject to an increase in the monthly premium under this section pursuant to subsection (h)) is entitled to monthly benefits under section 202 or 223 or to a monthly annuity under section 3(a), 4(a), or 4(f) of the Railroad Retirement Act of 1974 for November and December of the preceding year, and if the monthly premium of the individual under this section for December and for January is deducted from those benefits under section 1840(a)(1) or section 1840(b)(1), the monthly premium otherwise determined under this section for an individual for that year shall not be increased, pursuant to this subsection, to the extent that such increase would reduce the amount of benefits payable to that individual for that December below the amount of benefits payable to that individual for that November (after the deduction of the premium under this section). For purposes of this subsection, retroactive adjustments or payments and deductions on account of work shall not be taken into account in determining the monthly benefits to which an individual is entitled under section 202 or 223 or under the Railroad Retirement Act of 1974.*

* * * * *

(h)(1) *Notwithstanding the previous subsections of this section, in the case of an individual whose modified adjusted gross income for a taxable year ending with or within a calendar year exceeds the threshold amount described in paragraph (6)(B), the Secretary shall increase the amount of the monthly premium for months in the calendar year by an amount equal to the difference between—*

(A) *200 percent of the monthly actuarial rate for enrollees age 65 and over as determined under subsection (a)(1) for that calendar year; and*

(B) *the total of the monthly premiums paid by the individual under this section (determined without regard to subsection (b)) during such calendar year.*

(2) In the case of an individual described in paragraph (1) whose modified adjusted gross exceeds the threshold amount by less than \$25,000, the amount of the increase in the monthly premium applicable under paragraph (1) shall be an amount which bears the same ratio to the amount of the increase described in paragraph (1) (determined without regard to this paragraph) as such excess bears to \$25,000. In the case of a joint return filed under section 6013 of the Internal Revenue Code of 1986 by spouses both of whom are enrolled under this part, the previous sentence shall be applied by substituting "\$50,000" for "\$25,000". The preceding provisions of this paragraph shall not apply to any individual whose threshold amount is zero.

(3) The Secretary shall make an initial determination of the amount of increase in the monthly premium applicable under paragraph (1) for a taxable year ending with or within a calendar year for purposes of this subsection as follows:

(A) Not later than October 1 of the year preceding the year, the Secretary shall provide notice to each individual who the Secretary finds (on the basis of the individual's actual adjusted gross income for the most recent taxable year for which such information is available or other information provided to the Secretary by the Secretary of the Treasury) will be subject to an increase under this subsection that the individual will be subject to such an increase, and shall include in such notice the Secretary's estimate of the individual's increase in the monthly premium applicable under paragraph (1) for the year.

(B) If, during the 30-day period beginning on the date notice is provided to an individual under subparagraph (A), the individual provides the Secretary with information on the individual's anticipated increase in the monthly premium for the year, the amount initially determined by the Secretary under this paragraph with respect to the individual shall be based on the information provided by the individual.

(C) If an individual does not provide the Secretary with information under subparagraph (B), the amount initially determined by the Secretary under this paragraph with respect to the individual shall be the amount included in the notice provided to the individual under subparagraph (A).

(4)(A) If the Secretary determines (on the basis of final information provided by the Secretary of the Treasury) that the amount of an individual's actual increase in the monthly premium applicable under paragraph (1) for a taxable year ending with or within a calendar year is less than or greater than the amount initially determined by the Secretary under paragraph (3), the Secretary shall increase or decrease the amount of the individual's monthly premium under this section (as the case may be) for months during the following calendar year by an amount equal to $\frac{1}{12}$ of the difference between—

(i) the total amount of all monthly premiums paid by the individual under this section during the previous calendar year; and

(ii) the total amount of all such premiums which would have been paid by the individual during the previous calendar year if the amount of the individual's increase in the monthly pre-

mium applicable under paragraph (1) initially determined under paragraph (3) were equal to the actual amount of the individual's increase in the monthly premium determined under this paragraph.

(B) In the case of an individual who is not enrolled under this part for any calendar year for which the individual's monthly premium under this section for months during the year would be increased pursuant to subparagraph (A) if the individual were enrolled under this part for the year, the Secretary may take such steps as the Secretary considers appropriate to recover from the individual the total amount by which the individual's monthly premium for months during the year would have been increased under subparagraph (A) if the individual were enrolled under this part for the year.

(5) The Secretary shall not obtain (or be provided) any income-related information that is not necessary for the determination of the increase in the monthly premium applicable under paragraph (1), including (in the case of an individual described in paragraph (1) and not described in paragraph (2)) any information other than the fact that the individual is described in paragraph (1).

(6) In this subsection, the following definitions apply:

(A) The term "modified adjusted gross income" means, with respect to an individual for a taxable year, the individual's adjusted gross income under the Internal Revenue Code of 1986—

(i) determined without regard to sections 135, 911, 931, and 933 of such Code, and

(ii) increased by the amount of interest received or accrued by the individual during the taxable year which is exempt from tax under such Code.

(B) The term "threshold amount" means—

(i) except as otherwise provided in this paragraph, \$75,000,

(ii) \$125,000, in the case of a joint return, and

(iii) zero in the case of a taxpayer who—

(I) is married at the close of the taxable year but does not file a joint return for such year, and

(II) does not live apart from his spouse at all times during the taxable year.

(d) CONVERSION FACTORS.—

(1) ESTABLISHMENT.—

(A) IN GENERAL.—The conversion factor **[(or factors)]** for each year shall be the conversion factor **[(or factors)]** established under this subsection for the previous year (or, in the case of 1992, specified in subparagraph (B)) adjusted by the update **[or updates]** (established under paragraph (3)) for the year involved.

made were greater or less than actual expenditures for such services in the fiscal year ending in the second preceding year;

[(iii) the relationship between the percentage determined under clause (ii) for a fiscal year and the performance standard rate of increase (established under subsection (f)(2)) for that fiscal year;

[(iv) changes in volume or intensity of services;

[(v) access to services; and

[(vi) other factors that may contribute to changes in volume or intensity of services or access to services.

[For purposes of making the comparison under clause (iii), the Secretary shall adjust the performance standard rate of increase for a fiscal year to reflect changes in the actual proportion of individuals who are enrolled under this part who are HMO enrollees (as defined in subsection (f)(5)(B)) in that fiscal year compared with such proportion for the previous fiscal year.

[(B) ADDITIONAL CONSIDERATIONS.—In making recommendations under subparagraph (A), the Secretary may also consider—

[(iv) any other relevant factors not measured in the resource-based payment methodology.

[(C) SPECIAL RULE FOR 1992 UPDATE.—In considering the update for 1992, the Secretary shall make a separate determination of the percentage and relationship described in clauses (ii) and (iii) of subparagraph (A) with respect to the category of surgical services (as defined by the Secretary pursuant to subsection (j)(1)).

[(iii) the data and analyses underlying the update (or updates) recommended.

[(E) COMPUTATION OF BUDGET-NEUTRAL ADJUSTMENT.—

[(i) IN GENERAL.—The Secretary shall include in the report made under subparagraph (A) in a year a statement of the percentage by which (I) the actual expenditures for physicians' services under this part (during the fiscal year ending in the preceding year, as set forth in the most recent annual report made pursuant to section 1841(b)(2)), exceeded, or was less than (II)

the expenditures projected for the fiscal year under clause (ii).

[(ii) PROJECTED EXPENDITURES.—For purposes of clause (i), the expenditures projected under this clause for a fiscal year is the actual expenditures for physicians' services made under this part in the second preceding fiscal year—

[(I) increased by the weighted average percentage increase permitted under this part for payments for physicians' services in the preceding fiscal year;

[(II) adjusted to reflect the percentage change in the average number of individuals enrolled under this part (who are not enrolled with a risk-sharing contract under section 1876) for the preceding fiscal year compared with the second preceding fiscal year;

[(III) adjusted to reflect the average annual percentage growth in the volume and intensity of physicians' services under this part for the five-fiscal-year period ending with the second preceding fiscal year; and

[(F) COMMISSION REVIEW.—The Physician Payment Review Commission shall review the report submitted under subparagraph (A) in a year and shall submit to the Congress, by not later than May 15 of the year, a report including its recommendations respecting the update (or updates) in the conversion factor (or factors) for the following year.

[(3) UPDATE.—

[(A) BASED ON INDEX.—

[(i) IN GENERAL.—Unless Congress otherwise provides, subject to subparagraph (B), except as provided in clauses (iii) through (v), for purposes of this section the update for a year is equal to the Secretary's estimate of the percentage increase in the appropriate update index (as defined in clause (ii)) for the year.

[(ii) APPROPRIATE UPDATE INDEX DEFINED.—In clause (i), the term "appropriate update index" means—

[(I) for services for which prevailing charges in 1989 were subject to a limit under the fourth sentence of section 1842(b)(3), the medicare economic index (referred to in that sentence), and

[(II) for other services, such index (such as the consumer price index) that was applicable under this part in 1989 to increases in the payment amounts recognized under this part with respect to such services.

[(iii) ADJUSTMENT IN PERCENTAGE INCREASE.—In applying clause (i) for services furnished in 1992 for which the appropriate update index is the index described in clause (ii)(I), the percentage increase in the appropriate update index shall be reduced by 0.4 percentage points.

[(iv) ADJUSTMENT IN PERCENTAGE INCREASE FOR 1994.—In applying clause (i) for services furnished in 1994, the percentage increase in the appropriate update index shall be reduced by—

[(I) 3.6 percentage points for services included in the category of surgical services (as defined for purposes of subsection (j)(1)), and

[(II) 2.6 percentage points for other services.

[(B) ADJUSTMENT IN UPDATE.—

[(i) IN GENERAL.—The update for a category of physicians' services for a year provided under subparagraph (A) shall, subject to clause (ii), be increased or decreased by the same percentage by which (I) the percentage increase in the actual expenditures for services in such category in the second previous fiscal year over the third previous fiscal year, was less or greater, respectively, than (II) the performance standard rate of increase (established under subsection (f)) for such category of services for the second previous fiscal year.

[(ii) RESTRICTIONS ON ADJUSTMENT.—The adjustment made under clause (i) for a year may not result in a decrease of more than—

[(I) 2 percentage points for the update for 1992 or 1993,

[(II) 2½ percentage points for the update for 1994, and

[(III) 5 percentage points for the update for any succeeding year.]

(3) UPDATE.—

(A) IN GENERAL.—Subject to subparagraph (E), for purposes of this section the update for a year (beginning with 1997) is equal to the product of—

(B) *UPDATE ADJUSTMENT FACTOR.*—The “update adjustment factor” for a year is equal to the quotient of—

(i) the difference between (I) the sum of the allowed expenditures for physicians’ services furnished during each of the years 1995 through the year involved and (II) the sum of the amount of actual expenditures for physicians’ services furnished during each of the years 1995 through the previous year; divided by

(ii) In the case of allowed expenditures for 1996 and each subsequent year, such expenditures shall be equal to allowed expenditures for the previous year, increased by the sustainable growth rate under subsection (f) for the fiscal year which begins during the year.

(D) *DETERMINATION OF ACTUAL EXPENDITURES.*—For purposes of subparagraph (B), the amount of actual expenditures for physicians’ services furnished during a year shall be equal to the amount of expenditures for such services during the 12-month period ending with June of the previous year.

(E) *RESTRICTION ON VARIATION FROM MEDICARE ECONOMIC INDEX.*—Notwithstanding the amount of the update adjustment factor determined under subparagraph (B) for a year, the update in the conversion factor under this paragraph for the year may not be—

(i) greater than 103 percent of 1 plus the Secretary’s estimate of the percentage increase in the medicare economic index (described in the fourth sentence of section 1842(b)(3)) for the year (divided by 100); or

(ii) except as required to carry out section 1895, less than 93 percent of 1 plus the Secretary’s estimate of the percentage increase in the medicare economic index (described in the fourth sentence of section 1842(b)(3)) for the year (divided by 100).

(4) *REPORTING REQUIREMENTS.*—

(A) *IN GENERAL.*—Not later than November 1 of each year (beginning with 1996), the Secretary shall transmit to the Congress a report that describes the update in the conversion factor for physicians’ services (as defined in subsection (f)(3)(A)) in the following year.

(2) REVIEW.—The standards established under section 1856 shall include guidelines for the review of all such material submitted and under such guidelines the Secretary shall disapprove such material if the material is materially inaccurate or misleading or otherwise makes a material misrepresentation.

(3) DEEMED APPROVAL (1-STOP SHOPPING).—In the case of material that is submitted under paragraph (1)(A) to the Secretary or a regional office of the Department of Health and Human Services and the Secretary or the office has not disapproved the distribution of marketing materials under paragraph (1)(B) with respect to a MedicarePlus product in an area, the Secretary is deemed not to have disapproved such distribution in all other areas covered by the product and organization.

(4) PROHIBITION OF CERTAIN MARKETING PRACTICES.—Each MedicarePlus organization shall conform to fair marketing standards in relation to MedicarePlus products offered under this part, included in the standards established under section 1856. Such standards shall include a prohibition against an organization (or agent of such an organization) completing any portion of any election form under section 1805 on behalf of any individual.

PROVIDER-SPONSORED ORGANIZATIONS

SEC. 1854. (a) PROVIDER-SPONSORED ORGANIZATION DEFINED.—

(1) *IN GENERAL.*—In this part, the term “provider-sponsored organization” means a public or private entity that (in accordance with standards established under subsection (b)) is a provider, or group of affiliated providers, that provides a substantial proportion (as defined by the Secretary under such standards) of the health care items and services under the contract under this part directly through the provider or affiliated group of providers.

(2) *SUBSTANTIAL PROPORTION.*—In defining what is a “substantial proportion” for purposes of paragraph (1), the Secretary—

(A) shall take into account the need for such an organization to assume responsibility for a substantial proportion of services in order to assure financial stability and the practical difficulties in such an organization integrating a very wide range of service providers; and

(B) may vary such proportion based upon relevant differences among organizations, such as their location in an urban or rural area.

(3) *AFFILIATION.*—For purposes of this subsection, a provider is “affiliated” with another provider if, through contract, ownership, or otherwise—

(A) one provider, directly or indirectly, controls, is controlled by, or is under common control with the other,

(B) each provider is a participant in a lawful combination under which each provider shares, directly or indirectly, substantial financial risk in connection with their operations,

(C) both providers are part of a controlled group of corporations under section 1563 of the Internal Revenue Code of 1986, or

(D) both providers are part of an affiliated service group under section 414 of such Code.

(4) *CONTROL.*—For purposes of paragraph (3), control is presumed to exist if one party, directly or indirectly, owns, controls, or holds the power to vote, or proxies for, not less than 51 percent of the voting rights or governance rights of another.

(b) *PROCESS FOR ESTABLISHING STANDARDS FOR PROVIDER-SPONSORED ORGANIZATIONS.*—For process of establishing of standards for provider-sponsored organizations, see section 1856(c).

(c) *PROCESS FOR STATE CERTIFICATION OF PROVIDER-SPONSORED ORGANIZATIONS.*—For process of State certification of provider-sponsored organizations, see section 1857(c).

(d) *PREEMPTION OF STATE INSURANCE LICENSING REQUIREMENTS.*—

(1) *IN GENERAL.*—This section supersedes any State law which—

(A) requires that a provider-sponsored organization meet requirements for insurers of health services or health maintenance organizations doing business in the State with respect to initial capitalization and establishment of financial reserves against insolvency, or

(B) imposes requirements that would have the effect of prohibiting the organization from complying with the applicable requirements of this part, insofar as such the law applies to individuals enrolled with the organization under this part.

(2) *EXCEPTION.*—Paragraph (1) shall not apply with respect to any State law to the extent that such law provides standards or requirements, or provides for enforcement thereof, so as to meet the requirements of section 1857(c)(2) with respect to approval by the Secretary of State certification requirements thereunder.

(3) *CONSTRUCTION.*—Nothing in this subsection shall be construed as affecting the operation of section 514 of the Employee Retirement Income Security Act of 1974.

PAYMENTS TO MEDICAREPLUS ORGANIZATIONS

SEC. 1855. (a) PAYMENTS.—

(1) *IN GENERAL.*—Under a contract under section 1858 the Secretary shall pay to each MedicarePlus organization, with respect to coverage of an individual under this part in a payment area for a month, an amount equal to the monthly adjusted MedicarePlus capitation rate (as provided under subsection (b)) with respect to that individual for that area.

(2) *ANNUAL ANNOUNCEMENT.*—The Secretary shall annually determine, and shall announce (in a manner intended to provide notice to interested parties) not later than September 7 before the calendar year concerned—

(A) the annual MedicarePlus capitation rate for each payment area for the year, and

(B) the factors to be used in adjusting such rates under subsection (b) for payments for months in that year.

(3) *ADVANCE NOTICE OF METHODOLOGICAL CHANGES.*—At least 45 days before making the announcement under paragraph (2) for a year, the Secretary shall provide for notice to MedicarePlus organizations of proposed changes to be made in the methodology or benefit coverage assumptions from the methodology and assumptions used in the previous announcement and shall provide such organizations an opportunity to comment on such proposed changes.

(4) *EXPLANATION OF ASSUMPTIONS.*—In each announcement made under paragraph (2) for a year, the Secretary shall include an explanation of the assumptions (including any benefit coverage assumptions) and changes in methodology used in the announcement in sufficient detail so that MedicarePlus organizations can compute monthly adjusted MedicarePlus capitation rates for classes of individuals located in each payment area which is in whole or in part within the service area of such an organization.

(b) MONTHLY ADJUSTED MEDICAREPLUS CAPITATION RATE.—

(1) *IN GENERAL.*—For purposes of this section, the “monthly adjusted MedicarePlus capitation rate” under this subsection, for a month in a year for an individual in a payment area (specified under paragraph (3)) and in a class (established under paragraph (4)), is $\frac{1}{12}$ of the annual MedicarePlus capita-

tion rate specified in paragraph (2) for that area for the year, adjusted to reflect the actuarial value of benefits under this title with respect to individuals in such class compared to the national average for individuals in all classes.

(2) *ANNUAL MEDICAREPLUS CAPITATION RATES.*—For purposes of this section, the annual MedicarePlus capitation rate for a payment area for a year is equal to the annual MedicarePlus capitation rate for the area for the previous year (or, in the case of 1996, the average annual per capita rate of payment described in section 1876(a)(1)(C) for the area for 1995) increased by the per capita growth rate for that area and year (as determined under subsection (c)).

(3) *PAYMENT AREA DEFINED.*—In this section, the term “payment area” means a county (or equivalent area specified by the Secretary), except that in the case of the population group described in paragraph (5)(C), the payment area shall be each State.

(4) *CLASSES.*—

(A) *IN GENERAL.*—For purposes of this section, the Secretary shall define appropriate classes of enrollees, consistent with paragraph (5), based on age, gender, welfare status, institutionalization, and such other factors as the Secretary determines to be appropriate, so as to ensure actuarial equivalence. The Secretary may add to, modify, or substitute for such classes, if such changes will improve the determination of actuarial equivalence.

(B) *RESEARCH.*—The Secretary shall conduct such research as may be necessary to provide for greater accuracy in the adjustment of capitation rates under this subsection. Such research may include research into the addition or modification of classes under subparagraph (A). The Secretary shall submit to Congress a report on such research by not later than January 1, 1997.

(5) *DIVISION OF MEDICARE POPULATION.*—In carrying out paragraph (4) and this section, the Secretary shall recognize the following separate population groups:

(A) *AGED.*—Individuals 65 years of age or older who are not described in subparagraph (C).

(B) *DISABLED.*—Disabled individuals who are under 65 years of age and not described in subparagraph (C).

(C) *INDIVIDUALS WITH END STAGE RENAL DISEASE.*—Individuals who are determined to have end stage renal disease.

(c) *PER CAPITA GROWTH RATES.*—

(1) *FOR 1996.*—

(A) *IN GENERAL.*—For purposes of this section and subject to subparagraph (B), the per capita growth rates for 1996, for a payment area assigned to a service utilization cohort under subsection (d), shall be the following:

(i) *LOWEST SERVICE UTILIZATION COHORT.*—For areas assigned to the lowest service utilization cohort, 9.7 percent.

(ii) *LOWER SERVICE UTILIZATION COHORT.*—For areas assigned to the lower service utilization cohort, 8.0 percent.

(iii) *MEDIAN SERVICE UTILIZATION COHORT.*—For areas assigned to the median service utilization cohort, 5.3 percent.

(iv) *HIGHER SERVICE UTILIZATION COHORT.*—For areas assigned to the higher service utilization cohort, 4.7 percent.

(v) *HIGHEST SERVICE UTILIZATION COHORT.*—For areas assigned to the highest service utilization cohort, 4.0 percent.

(B) *BUDGET NEUTRAL ADJUSTMENT.*—The Secretary shall adjust the per capita growth rates specified in subparagraph (A) for all the areas by such uniform factor as may be necessary to assure that the total capitation payments under this section during 1996 are the same as the amount such payments would have been if the per capita growth rate for all such areas for 1996 were equal to the national average per capita growth rate, specified in paragraph (3) for 1996.

(2) *FOR SUBSEQUENT YEARS.*—

(A) *IN GENERAL.*—For purposes of this section and subject to subparagraph (B), the Secretary shall compute a per capita growth rate for each year after 1996, for each payment area as assigned to a service utilization cohort under subsection (d), consistent with the following rules:

(i) *MEDIAN SERVICE UTILIZATION COHORT SET AT NATIONAL AVERAGE PER CAPITA GROWTH RATE.*—The per capita growth rate for areas assigned to the median service utilization cohort for the year shall be the national average per capita growth rate for the year (as specified under paragraph (3)).

(ii) *HIGHEST SERVICE UTILIZATION COHORT SET AT 75 PERCENT OF NATIONAL AVERAGE PER CAPITA GROWTH RATE.*—The per capita growth rate for areas assigned to the highest service utilization cohort for the year shall be 75 percent of the national average per capita growth rate for the year.

(iv) *LOWER SERVICE UTILIZATION COHORT SET AT 150 PERCENT OF NATIONAL AVERAGE PER CAPITA GROWTH RATE.*—

(I) *IN GENERAL.*—Subject to subclause (II), the per capita growth rate for areas assigned to the lower service utilization cohort for the year shall be 150 percent of the national average per capita growth rate for the year.

(II) *ADJUSTMENT.*—If the Secretary has established under clause (v) the per capita growth rate for areas assigned to the higher service utilization cohort for the year at 75 percent of the national average per capita growth rate, the Secretary may provide for a reduced per capita growth rate under subclause (I) to the extent necessary to comply with subparagraph (B).

(v) *HIGHER SERVICE UTILIZATION COHORT.*—The per capita growth rate for areas assigned to the higher service utilization cohort for the year shall be such percent (not less than 75 percent) of the national average per capita growth rate, as the Secretary may determine consistent with subparagraph (B).

(B) *AVERAGE PER CAPITA GROWTH RATE AT NATIONAL AVERAGE TO ASSURE BUDGET NEUTRALITY.*—The Secretary shall compute per capita growth rates for a year under subparagraph (A) in a manner so that the weighted average per capita growth rate for all areas for the year (weighted to reflect the number of medicare beneficiaries in each area) is equal to the national average per capita growth rate under paragraph (3) for the year.

(3) *NATIONAL AVERAGE PER CAPITA GROWTH RATES.*—In this subsection, the “national average per capita growth rate” for—

- (A) 1996 is 5.3 percent,
- (B) 1997 is 3.8 percent,
- (C) 1998 is 4.6 percent,
- (D) 1999 is 4.3 percent,
- (E) 2000 is 3.8 percent,
- (F) 2001 is 5.5 percent,
- (G) 2002 is 5.6 percent, and
- (H) each subsequent year is 5.0 percent.

(d) *ASSIGNMENT OF PAYMENT AREAS TO SERVICE UTILIZATION COHORTS.*—

(1) *IN GENERAL.*—For purposes of determining per capita growth rates under subsection (c) for areas for a year, the Secretary shall assign each payment area to a service utilization cohort (based on the service utilization index value for that area determined under paragraph (2)) as follows:

(A) *LOWEST SERVICE UTILIZATION COHORT.*—Areas with a service utilization index value of less than .80 shall be assigned to the lowest service utilization cohort.

(B) *LOWER SERVICE UTILIZATION COHORT.*—Areas with a service utilization index value of at least .80 but less than .90 shall be assigned to the lower service utilization cohort.

(C) *MEDIAN SERVICE UTILIZATION COHORT.*—Areas with a service utilization index value of at least .90 but less than 1.10 shall be assigned to the median service utilization cohort.

(D) *HIGHER SERVICE UTILIZATION COHORT.*—Areas with a service utilization index value of at least 1.10 but less than 1.20 shall be assigned to the higher service utilization cohort.

(E) *HIGHEST SERVICE UTILIZATION COHORT.*—Areas with a service utilization index value of at least 1.20 shall be assigned to the highest service utilization cohort.

(2) *DETERMINATION OF SERVICE UTILIZATION INDEX VALUES.*—In order to determine the per capita growth rate for a payment area for each year (beginning with 1996), the Secretary shall determine for such area and year a service utilization index value, which is equal to—

(A) the annual MedicarePlus capitation rate under this section for the area for the year in which the determination is made (or, in the case of 1996, the average annual per capita rate of payment (described in section 1876(a)(1)(C)) for the area for 1995); divided by

(B) the input-price-adjusted annual national MedicarePlus capitation rate (as determined under paragraph (3)) for that area for the year in which the determination is made.

(3) *DETERMINATION OF INPUT-PRICE-ADJUSTED RATES.*—

(A) *IN GENERAL.*—For purposes of paragraph (2), the “input-price-adjusted annual national MedicarePlus capitation rate” for a payment area for a year is equal to the sum, for all the types of medicare services (as classified by the Secretary), of the product (for each such type) of—

(i) the national standardized MedicarePlus capitation rate (determined under subparagraph (B)) for the year,

(ii) the proportion of such rate for the year which is attributable to such type of services, and

(iii) an index that reflects (for that year and that type of services) the relative input price of such services in the area compared to the national average input price of such services.

In applying clause (iii), the Secretary shall, subject to subparagraph (C), apply those indices under this title that are used in applying (or updating) national payment rates for specific areas and localities.

(B) *NATIONAL STANDARDIZED MEDICAREPLUS CAPITATION RATE.*—In this paragraph, the “national standardized MedicarePlus capitation rate” for a year is equal to—

(i) the sum (for all payment areas) of the product of (I) the annual MedicarePlus capitation rate for that year for the area under subsection (b)(2), and (II) the average number of medicare beneficiaries residing in that area in the year; divided by

(ii) the total average number of medicare beneficiaries residing in all the payment areas for that year.

(C) *SPECIAL RULES FOR 1996.*—In applying this paragraph for 1996—

(i) medicare services shall be divided into two types of services: part A services and part B services;

(ii) the proportions described in subparagraph (A)(ii) for such types of services shall be—

(I) for part A services, the ratio (expressed as a percentage) of the average annual per capita rate of payment for the area for part A for 1995 to the total average annual per capita rate of payment for the area for parts A and B for 1995, and

(II) for part B services, 100 percent minus the ratio described in subclause (I);

(iii) for the part A services, 70 percent of payments attributable to such services shall be adjusted by the index used under section 1886(d)(3)(E) to adjust payment rates for relative hospital wage levels for hospitals located in the payment area involved;

(iv) for part B services—

(I) 66 percent of payments attributable to such services shall be adjusted by the index of the geographic area factors under section 1848(e) used to adjust payment rates for physicians' services furnished in the payment area, and

(II) of the remaining 34 percent of the amount of such payments, 70 percent shall be adjusted by the index described in clause (iii);

(v) the index values shall be computed based only on the beneficiary population described in subsection (b)(5)(A).

The Secretary may continue to apply the rules described in this subparagraph (or similar rules) for 1997.

(e) *PAYMENT PROCESS.*—

(1) *IN GENERAL.*—Subject to subsection (f), the Secretary shall make monthly payments under this section in advance and in accordance with the rate determined under subsection (a) to the plan for each individual enrolled with a MedicarePlus organization under this part.

(2) *ADJUSTMENT TO REFLECT NUMBER OF ENROLLEES.*—

(A) *IN GENERAL.*—The amount of payment under this subsection may be retroactively adjusted to take into account any difference between the actual number of individuals enrolled with an organization under this part and the number of such individuals estimated to be so enrolled in determining the amount of the advance payment.

(B) *SPECIAL RULE FOR CERTAIN ENROLLEES.*—

(i) *IN GENERAL.*—Subject to clause (ii), the Secretary may make retroactive adjustments under subparagraph (A) to take into account individuals enrolled during the period beginning on the date on which the individual enrolls with a MedicarePlus organization under a product operated, sponsored, or contributed to by the individual's employer or former employer (or the employer or former employer of the individual's spouse) and ending on the date on which the individual is enrolled in the organization under this part, except that for purposes of making such retroactive adjustments under this subparagraph, such period may not exceed 90 days.

(ii) *EXCEPTION.*—No adjustment may be made under clause (i) with respect to any individual who does not certify that the organization provided the individual with the disclosure statement described in section 1853(a) at the time the individual enrolled with the organization.

(f) *SPECIAL RULES FOR INDIVIDUALS ELECTING HIGH DEDUCTIBLE/MEDISAVE PRODUCT.*—

(1) *IN GENERAL.*—In the case of an individual who has elected a high deductible/medisave product, notwithstanding the preceding provisions of this section—

(A) the amount of the payment to the MedicarePlus organization offering the high deductible/medisave product shall not exceed the premium for the product, and

(B) subject to paragraph (2), the difference between the amount of payment that would otherwise be made and the amount of payment to such organization shall be made directly into a MedicarePlus MSA established (and, if applicable, designated) by the individual under paragraph (2).

(2) *ESTABLISHMENT AND DESIGNATION OF MEDICAREPLUS MEDICAL SAVINGS ACCOUNT AS REQUIREMENT FOR PAYMENT OF CONTRIBUTION.*—In the case of an individual who has elected coverage under a high deductible/medisave product, no payment shall be made under paragraph (1)(B) on behalf of an individual for a month unless the individual—

(A) has established before the beginning of the month (or by such other deadline as the Secretary may specify) a MedicarePlus MSA (as defined in section 137(b) of the Internal Revenue Code of 1986), and

(B) if the individual has established more than one MedicarePlus MSA, has designated one of such accounts as the individual's MedicarePlus MSA for purposes of this part.

Under rules under this section, such an individual may change the designation of such account under subparagraph (B) for purposes of this part.

(3) *LUMP SUM DEPOSIT OF MEDICAL SAVINGS ACCOUNT CONTRIBUTION.*—In the case of an individual electing a high deductible/medisave product effective beginning with a month in a year, the amount of the contribution to the MedicarePlus MSA on behalf of the individual for that month and all successive months in the year shall be deposited during that first month. In the case of a termination of such an election as of a month before the end of a year, the Secretary shall provide for a procedure for the recovery of deposits attributable to the remaining months in the year.

(g) *PAYMENTS FROM TRUST FUND.*—The payment to a MedicarePlus organization under this section for individuals enrolled under this part with the organization, and payments to a MedicarePlus MSA under subsection (f)(1)(B), shall be made from the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund in such proportion as the Secretary determines reflects the relative weight that benefits under

part A and under part B represents of the actuarial value of the total benefits under this title.

(h) *SPECIAL RULE FOR CERTAIN INPATIENT HOSPITAL STAYS.*—In the case of an individual who is receiving inpatient hospital services from a subsection (d) hospital (as defined in section 1886(d)(1)(B)) as of the effective date of the individual's—

(1) election under this part of a MedicarePlus product offered by a MedicarePlus organization—

(A) payment for such services until the date of the individual's discharge shall be made under this title through the MedicarePlus product or Non-MedicarePlus option (as the case may be) elected before the election with such organization,

(B) the elected organization shall not be financially responsible for payment for such services until the date after the date of the individual's discharge, and

(C) the organization shall nonetheless be paid the full amount otherwise payable to the organization under this part; or

(2) termination of election with respect to a MedicarePlus organization under this part—

(A) the organization shall be financially responsible for payment for such services after such date and until the date of the individual's discharge,

(B) payment for such services during the stay shall not be made under section 1886(d) or by any succeeding MedicarePlus organization, and

(C) the terminated organization shall not receive any payment with respect to the individual under this part during the period the individual is not enrolled.

(1) *RECOMMENDATIONS OF NAIC.*—The Secretary shall request the National Association of Insurance Commissioners to develop and submit to the Secretary, not later than 12 months after the date of the enactment of the Medicare Preservation Act of 1995, proposed standards consistent with the requirements of this part for MedicarePlus organizations (other than Taft-Hartley sponsors and provider-sponsored organizations) and MedicarePlus products offered by such organizations, except that such proposed standards may relate to MedicarePlus organizations that are qualified associations only with respect to MedicarePlus products offered by them and only if such products are issued by organizations to which section 1851(b)(1) applies.

(2) *REVIEW.*—If the Association submits such standards on a timely basis, the Secretary shall review such standards to determine if the standards meet the requirements of the part. The Secretary shall complete the review of the standards not later than 90 days after the date of their submission. The Secretary shall promulgate such proposed standards to apply to organiza-

tions and products described in paragraph (1) except to the extent that the Secretary modifies such proposed standards because they do not meet such requirements.

(3) *FAILURE TO SUBMIT.*—If the Association does not submit such standards on a timely basis, the Secretary shall promulgate such standards by not later than the date the Secretary would otherwise have been required to promulgate standards under paragraph (2).

(4) *USE OF INTERIM RULES.*—For the period in which this part is in effect and standards are being developed and established under the preceding provisions of this subsection, the Secretary shall provide by not later than June 1, 1996, for the application of such interim standards (without regard to any requirements for notice and public comment) as may be appropriate to provide for the expedited implementation of this part. (2) *PUBLICATION OF NOTICE.*—In carrying out the rulemaking process under this subsection, the Secretary, after consultation with the National Association of Insurance Commissioners, the American Academy of Actuaries, organizations representative of medicare beneficiaries, and other interested parties, shall publish the notice provided for under section 564(a) of title 5, United States Code, by not later than 45 days after the date of the enactment of Medicare Preservation Act of 1995.

(3) *TARGET DATE FOR PUBLICATION OF RULE.*—As part of the notice under paragraph (2), and for purposes of this subsection, the “target date for publication” (referred to in section 564(a)(5) of such title) shall be September 1, 1996.

(6) *PRELIMINARY COMMITTEE REPORT.*—The negotiated rulemaking committee appointed under paragraph (5) shall report to the Secretary, by not later than June 1, 1996, regarding the committee’s progress on achieving a consensus with regard to the rulemaking proceeding and whether such consensus is likely to occur before one month before the target date for publication of the rule. If the committee reports that the committee has failed to make significant progress towards such consensus or is unlikely to reach such consensus by the target date, the Secretary may terminate such process and provide for the publication of a rule under this subsection through such other methods as the Secretary may provide.

(7) *FINAL COMMITTEE REPORT.*—If the committee is not terminated under paragraph (6), the rulemaking committee shall submit a report containing a proposed rule by not later than one month before the target publication date.

(8) *INTERIM, FINAL EFFECT.*—The Secretary shall publish a rule under this subsection in the Federal Register by not later than the target publication date. Such rule shall be effective and final immediately on an interim basis, but is subject to change and revision after public notice and opportunity for a period (of not less than 60 days) for public comment. In connection with such rule, the Secretary shall specify the process for the timely review and approval of applications of entities to be certified as provider-sponsored organizations pursuant to such rules and consistent with this subsection.

(9) *PUBLICATION OF RULE AFTER PUBLIC COMMENT.*—The Secretary shall provide for consideration of such comments and republication of such rule by not later than 1 year after the target publication date.

(10) *PROCESS FOR APPROVAL OF APPLICATIONS FOR CERTIFICATION.*—

(A) *IN GENERAL.*—The Secretary shall establish a process for the receipt and approval of applications of entities for certification as provider-sponsored organizations under this part. (d) COORDINATION AMONG FINAL STANDARDS.—In establishing standards (other than on an interim basis) under the previous provisions of this section, the Secretary shall seek to provide for consistency (as appropriate) across the different types of MedicarePlus organizations, in order to promote equitable treatment of different types of organizations and consistent protection for individuals who elect products offered by the different types of MedicarePlus organizations.

(e) USE OF CURRENT STANDARDS FOR INTERIM STANDARDS.—To the extent practicable and consistent with the requirements of this part, standards established on an interim basis to carry out requirements of this part may be based on currently applicable standards, such as the rules established under section 1876 (as in effect as of the date of the enactment of this section) to carry out analogous provisions of such section or standards established or developed for application in the private health insurance market.

(f) APPLICATION OF NEW STANDARDS TO ENTITIES WITH A CONTRACT.—In the case of a MedicarePlus organization with a contract in effect under this part at the time standards applicable to the organization under this section are changed, the organization may elect not to have such changes apply to the organization until the end of the current contract year (or, if there is less than 6 months remaining in the contract year, until 1 year after the end of the current contract year).

(g) RELATION TO STATE LAWS.—The standards established under this section shall supersede any State law or regulation with respect to MedicarePlus products which are offered by MedicarePlus organizations and are issued by organizations to which section 1851(b)(1) applies, to the extent such law or regulation is inconsistent with such standards.

(1) APPROVAL OF STATE PROCESS.—The Secretary shall approve a MedicarePlus certification and enforcement program established by a State for applying the standards established under section 1856 to MedicarePlus organizations (other than Taft-Hartley sponsors and provider-sponsored organizations) and MedicarePlus products offered by such organizations if the Secretary determines that the program effectively provides for the application and enforcement of such standards in the State with respect to such organizations and products. Such program shall provide for certification of compliance of MedicarePlus organizations and products with the applicable requirements of this part not less often than once every 3 years.

(2) EFFECT OF CERTIFICATION UNDER STATE PROCESS.—A MedicarePlus organization and MedicarePlus product offered by such an organization that is certified under such program is considered to have been certified under this subsection with

respect to the offering of the product to individuals residing in the State.

(3) *USER FEES.*—The State may impose user fees on organizations seeking certification under this subsection in such amounts as the State deems sufficient to finance the costs of such certification. Nothing in this paragraph shall be construed as restricting a State's authority to impose premium taxes, other taxes, or other levies.

(4) *REVIEW.*—The Secretary periodically shall review State programs approved under paragraph (1) to determine if they continue to provide for certification and enforcement described in such paragraph. If the Secretary finds that a State program no longer so provides, before making a final determination, the Secretary shall provide the State an opportunity to adopt such a plan of correction as would permit the State program to meet the requirements of paragraph (1). If the Secretary makes a final determination that the State program, after such an opportunity, fails to meet such requirements, the provisions of subsection (b) shall apply to MedicarePlus organizations and products in the State.

(5) *EFFECT OF NO STATE PROGRAM.*—Beginning on the date standards are established under section 1856, in the case of organizations and products in States in which a certification program has not been approved and in operation under paragraph (1), the Secretary shall establish a process for the certification of MedicarePlus organizations (other than Taft-Hartley sponsors and provider-sponsored organizations) and products of such organizations as meeting such standards.

(6) *PUBLICATION OF LIST OF APPROVED STATE PROGRAMS.*—The Secretary shall publish (and periodically update) a list of those State programs which are approved for purposes of this subsection.

(b) FEDERAL CERTIFICATION PROCESS FOR TAFT-HARTLEY SPONSORS AND PROVIDER-SPONSORED ORGANIZATIONS.—

(1) *ESTABLISHMENT.*—The Secretary shall establish a process for the certification of Taft-Hartley sponsors and provider-sponsored organizations and MedicarePlus products offered by such sponsors and organizations as meeting the applicable standards established under section 1856.

(iv) new methods used by employers, insurers, and others to constrain growth in health care costs.]

(3)[(A) The Commission, not later than the March 1 before the beginning of each fiscal year (beginning with fiscal year 1986), shall report its recommendations to Congress on an appropriate change factor which should be used for inpatient hospital services for discharges in that fiscal year, together with its general recommendations under paragraph (2)(B) regarding the effectiveness and quality of health care delivery systems in the United States.

[(B)] The Secretary, not later than April 1, 1987, for fiscal year 1988 and not later than March 1 before the beginning of each fiscal year (beginning with fiscal year 1989), shall report to the Congress the Secretary's initial estimate of the percentage change that the Secretary will recommend under paragraph (4) with respect to that fiscal year.

* * * * *

[(6)(A) The Commission shall consist of 17 individuals. Members of the Commission shall first be appointed no later than April 1, 1984, for a term of three years, except that the Director may provide initially for such shorter terms as will insure that (on a continuing basis) the terms of no more than seven members expire in any one year.

[(B) The membership of the Commission shall include individuals with national recognition for their expertise in health economics, health facility management, reimbursement of health facilities or other providers of services which reflect the scope of the Commission's responsibilities, and other related fields, who provide a mix of different professionals, broad geographic representation, and a balance between urban and rural representatives, including physicians and registered professional nurses, employers, third party payors, individuals skilled in the conduct and interpretation of biomedical, health services, and health economics research, and individuals having expertise in the research and development of technological and scientific advances in health care.

[(C) Subject to such review as the Office deems necessary to assure the efficient administration of the Commission, the Commission may—

[(i) employ and fix the compensation of an Executive Director (subject to the approval of the Director of the Office) and such other personnel (not to exceed 25) as may be necessary

to carry out its duties (without regard to the provisions of title 5, United States Code, governing appointments in the competitive service);

[(ii) seek such assistance and support as may be required in the performance of its duties from appropriate Federal departments and agencies;

[(iii) enter into contracts or make other arrangements, as may be necessary for the conduct of the work of the Commission (without regard to section 3709 of the Revised Statutes (41 U.S.C. 5));

[(iv) make advance, progress, and other payments which relate to the work of the Commission;

[(v) provide transportation and subsistence for persons serving without compensation; and

[(vi) prescribe such rules and regulations as it deems necessary with respect to the internal organization and operation of the Commission.

Section 10(a)(1) of the Federal Advisory Committee Act shall not apply to any portion of a Commission meeting if the Commission, by majority vote, determines that such portion of such meeting should be closed.

[(D) While serving on the business of the Commission (including traveltime), a member of the Commission shall be entitled to compensation at the per diem equivalent of the rate provided for level IV of the Executive Schedule under section 5315 of title 5, United States Code; and while so serving away from home and his regular place of business, a member may be allowed travel expenses, as authorized by the Chairman of the Commission. Physicians serving as personnel of the Commission may be provided a physician comparability allowance by the Commission in the same manner as Government physicians may be provided such an allowance by an agency under section 5948 of title 5, United States Code, and for such purpose subsection (i) of such section shall apply to the Commission in the same manner as it applies to the Tennessee Valley Authority. For purposes of pay (other than pay of members of the Commission) and employment benefits, rights, and privileges, all personnel of the Commission shall be treated as if they were employees of the United States Senate.

[(E) In order to identify medically appropriate patterns of health resources use in accordance with paragraph (2), the Commission shall collect and assess information on medical and surgical procedures and services, including information on regional variations of medical practice and lengths of hospitalization and on other patient-care data, giving special attention to treatment patterns for conditions which appear to involve excessively costly or inappropriate services not adding to the quality of care provided. In order to assess the safety, efficacy, and cost-effectiveness of new and existing medical and surgical procedures, the Commission shall, in coordination to the extent possible with the Secretary, collect and assess factual information, giving special attention to the needs of updating existing diagnosis-related groups, establishing new diagnosis-related groups, and making recommendations on relative weighting factors for such groups to reflect appropriate differences in resource consumption in delivering safe, efficacious, and cost-ef-

fective care. In collecting and assessing information, the Commission shall—

[(i) utilize existing information, both published and unpublished, where possible, collected and assessed either by its own staff or under other arrangements made in accordance with this paragraph;

[(ii) carry out, or award grants or contracts for, original research and experimentation, including clinical research, where existing information is inadequate for the development of useful and valid guidelines by the Commission; and

[(iii) adopt procedures allowing any interested party to submit information with respect to medical and surgical procedures and services (including new practices, such as the use of new technologies and treatment modalities), which information the Commission shall consider in making reports and recommendations to the Secretary and Congress.

[(F) The Commission shall have access to such relevant information and data as may be available from appropriate Federal agencies and shall assure that its activities, especially the conduct of original research and medical studies, are coordinated with the activities of Federal agencies.

[(G)(i) The Office shall have unrestricted access to all deliberations, records, and data of the Commission, immediately upon its request.

[(ii) In order to carry out its duties under this paragraph, the Office is authorized to expend reasonable and necessary funds as mutually agreed upon by the Office and the Commission. The Office shall be reimbursed for such funds by the Commission from the appropriations made with respect to the Commission.

[(H) The Commission shall be subject to periodic audit by the General Accounting Office.

[(I)(i) There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this paragraph.

[(ii) Eighty-five percent of such appropriation shall be payable from the Federal Hospital Insurance Trust Fund, and 15 percent of such appropriation shall be payable from the Federal Supplementary Medical Insurance Trust Fund.

[(J) The Commission shall submit requests for appropriations in the same manner as the Office submits requests for appropriations, but amounts appropriated for the Commission shall be separate from amounts appropriated for the Office.]

(g)(1)(A) Notwithstanding section 1861(v), instead of any amounts that are otherwise payable under this title with respect to the reasonable costs of subsection (d) hospitals and subsection (d) Puerto Rico hospitals for capital-related costs of inpatient hospital services, the Secretary shall, for hospital cost reporting periods beginning on or after October 1, 1991, provide for payments for such costs in accordance with a prospective payment system established by the Secretary. Aggregate payments made under subsection (d) and this subsection during fiscal years 1992 through [1995] 2002 shall be reduced in a manner that results in a reduction (as estimated by the Secretary) in the amount of such payments equal to a 10 percent reduction *(or a 15 percent reduction*

in the case of payments during fiscal years 1996 through 2002) in the amount of payments attributable to capital-related costs that would otherwise have been made during such fiscal year had the amount of such payments been based on reasonable costs (as defined in section 1861(v)). For discharges occurring after September 30, 1993, the Secretary shall reduce by 7.4 percent the unadjusted standard Federal capital payment rate (as described in 42 CFR 412.308(c), as in effect on the date of the enactment of the Omnibus Budget Reconciliation Act of 1993) and shall (for hospital cost reporting periods beginning on or after October 1, 1993) redetermine which payment methodology is applied to the hospital under such system to take into account such reduction. In addition to the reduction described in the preceding sentence, for discharges occurring after September 30, 1995, the Secretary shall reduce by 7.47 percent the unadjusted standard Federal capital payment rate (as described in 42 CFR 412.308(c), as in effect on the date of the enactment of the Medicare Preservation Act of 1995) and shall reduce by 8.27 percent the unadjusted hospital-specific rate (as described in 42 CFR 412.328(e)(1), as in effect on such date of enactment).

(B) Such system—

(i) * * *

* * * * *

(iii) **【may provide】** shall provide (in accordance with subparagraph (D) for such exceptions (including appropriate exceptions to reflect capital obligations) as the Secretary determines to be appropriate, and

(iv) may provide for suitable adjustment to reflect hospital occupancy rate.

(C)(i) *For discharges occurring after September 30, 1995, such system shall provide for an adjustment in an amount equal to the amount determined under clause (iv) for capital-related tax costs for each hospital that is eligible for such adjustment.*

(ii) *Subject to clause (iii), a hospital is eligible for an adjustment under this subparagraph, with respect to discharges occurring in a fiscal year, if the hospital—*

(I) is a hospital that may otherwise receive payments under this subsection,

(II) is not a public hospital, and

(III) incurs capital-related tax costs for the fiscal year.

(iii)(I) *In the case of a hospital that first incurs capital-related tax costs in a fiscal year after fiscal year 1992 because of a change from nonproprietary to proprietary status or because the hospital commenced operation after such fiscal year, the first fiscal year for which the hospital shall be eligible for such adjustment is the second full fiscal year following the fiscal year in which the hospital first incurs such costs.*

(II) *In the case of a hospital that first incurs capital-related tax costs in a fiscal year after fiscal year 1992 because of a change in State or local tax laws, the first fiscal year for which the hospital shall be eligible for such adjustment is the fourth full fiscal year following the fiscal year in which the hospital first incurs such costs.*

(iv) *The per discharge adjustment under this clause shall be equal to the hospital-specific capital-related tax costs per discharge of a hospital for fiscal year 1992 (or, in the case of a hospital that first*

incurs capital-related tax costs for a fiscal year after fiscal year 1992, for the first full fiscal year for which such costs are incurred), updated to the fiscal year to which the adjustment applies. Such per discharge adjustment shall be added to the Federal capital rate, after such rate has been adjusted as described in 42 CFR 412.312 (as in effect on the date of the enactment of the Medicare Preservation Act of 1995), and before such rate is multiplied by the applicable Federal rate percentage.

(v) For purposes of this subparagraph, capital-related tax costs include—

(I) the costs of taxes on land and depreciable assets owned by a hospital (or related organization) and used for patient care,

(II) payments in lieu of such taxes (made by hospitals that are exempt from taxation), and

(III) the costs of taxes paid by a hospital (or related organization) as lessee of land, buildings, or fixed equipment from a lessor that is unrelated to the hospital (or related organization) under the terms of a lease that requires the lessee to pay all expenses (including mortgage, interest, and amortization) and leaves the lessor with an amount free of all claims (sometimes referred to as a “net net net” or “triple net” lease).

In determining the adjustment required under clause (i), the Secretary shall not take into account any capital-related tax costs of a hospital to the extent that such costs are based on tax rates and assessments that exceed those for similar commercial properties.

(vi) The system shall provide that the Federal capital rate for any fiscal year after September 30, 1995, shall be reduced by a percentage sufficient to ensure that the adjustments required to be paid under clause (i) for a fiscal year neither increase nor decrease the total amount that would have been paid under this system but for the payment of such adjustments for such fiscal year.

(D) The exceptions under the system provided by the Secretary under subparagraph (B)(iii) shall include the provision of exception payments under the special exceptions process provided under 42 CFR 412.348(g) (as in effect on September 1, 1995), except that the Secretary shall revise such process as follows:

(i) A hospital with at least 100 beds which is located in an urban area shall be eligible under such process without regard to its disproportionate patient percentage under subsection (d)(5)(F) or whether it qualifies for additional payment amounts under such subsection.

(ii) The minimum payment level for qualifying hospitals shall be 85 percent.

(iii) A hospital shall be considered to meet the requirement that it completes the project involved no later than the end of the hospital's last cost reporting period beginning after October 1, 2001, if—

(I) the hospital has obtained a certificate of need for the project approved by the State or a local planning authority, and

(II) by September 1, 1995, the hospital has expended on the project at least \$750,000 or 10 percent of the estimated cost of the project.

(iv) *The amount of the exception payment made shall not be reduced by any offsetting amounts.*

[(C)] (E) In this paragraph, the term “capital-related costs” has the meaning given such term by the Secretary under subsection (a)(4) as of September 30, 1987, and does not include a return on equity capital.

* * * * *

(4)(A) *Except as provided in subparagraph (B), in determining the amount of the payments that may be made under this title with respect to all the capital-related costs of inpatient hospital services furnished during fiscal years 1996 through 2002 of a hospital which is not a subsection (d) hospital or a subsection (d) Puerto Rico hospital, the Secretary shall reduce the amounts of such payments otherwise determined under this title by 15 percent.*

(B) *Subparagraph (A) shall not apply to payments with respect to the capital-related costs of any hospital that is a sole community hospital (as defined in subsection (d)(5)(D)(iii) or a rural primary care hospital (as defined in section 1861(mm)(1)).*

(h) PAYMENTS FOR DIRECT GRADUATE MEDICAL EDUCATION COSTS.—

(1) SUBSTITUTION OF SPECIAL PAYMENT RULES.—Notwithstanding section 1861(v), instead of any amounts that are otherwise payable under this title with respect to the reasonable costs of hospitals for direct graduate medical education costs, [the Secretary shall provide] *the Secretary shall, subject to paragraph (6), provide for payments for such costs in accordance with paragraph (3) of this subsection. In providing for such payments, the Secretary shall provide for an allocation of such payments between part A and part B (and the trust funds established under the respective parts) as reasonably reflects the proportion of direct graduate medical education costs of hospitals associated with the provision of services under each respective part.*

* * * * *

(4) DETERMINATION OF FULL-TIME-EQUIVALENT RESIDENTS.—

(A) * * *

* * * * *

[(C)] WEIGHTING FACTORS FOR CERTAIN RESIDENTS.—Subject to subparagraph (D), such rules shall provide, in calculating the number of full-time-equivalent residents in an approved residency program—

[(i) before July 1, 1986, for each resident the weighting factor is 1.00,

[(ii) on or after July 1, 1986, for a resident who is in the resident’s initial residency period (as defined in paragraph (5)(F)), the weighting factor is 1.00,

[(iii) on or after July 1, 1986, and before July 1, 1987, for a resident who is not in the resident’s initial residency period (as defined in paragraph (5)(F)), the weighting factor is .75, and

[(iv) on or after July 1, 1987, for a resident who is not in the resident's initial residency period (as defined in paragraph (5)(F)), the weighting factor is .50.]

(C) *WEIGHTING FACTORS FOR RESIDENTS.*—Effective for cost reporting periods beginning on or after October 1, 1997, such rules shall provide that, in the calculation of the number of full-time-equivalent residents in an approved residency program, the weighting factor for a resident who is in the initial residency period (as defined in paragraph (5)(F)) is 1.0 and the weighting factor for a resident who has completed such period is 0.0. (In the case of cost reporting periods beginning before October 1, 1997, the weighting factors that apply in such calculation are the weighting factors that were applicable under this subparagraph on the day before the date of the enactment of the Medicare Preservation Act of 1995.)

* * * * *

(F) *LIMITATION ON NUMBER OF RESIDENTS FOR CERTAIN FISCAL YEARS.*—Such rules shall provide that for purposes of a cost reporting period beginning on or after October 1, 1995, and on or before September 30, 2002, the number of full-time-equivalent residents determined under this paragraph with respect to an approved medical residency training program may not exceed the number of full-time-equivalent residents with respect to the program as of August 1, 1995 (except that this subparagraph does not apply to any nonphysician teaching program that is approved for purposes of section 1861(b)(6) and that, under paragraph (5)(A), is an approved medical residency training program).

(G) *SPECIAL RULES FOR ALIEN RESIDENTS.*—In the case of individuals who are not citizens or nationals of the United States and who are not citizens of Canada, in the calculation of the number of full-time-equivalent residents in an approved medical residency program, the following rules shall apply with respect to such individuals who are residents in the program:

(i) For a cost reporting period beginning during fiscal year 1996, for each such individual the Secretary shall apply a weighting factor of .75.

(ii) For a cost reporting period beginning during fiscal year 1997, for each such individual the Secretary shall apply a weighting factor of .50.

(iii) For a cost reporting period beginning during fiscal year 1998, for each such individual the Secretary shall apply a weighting factor of .25.

(iv) For a cost reporting period beginning during fiscal year 1999 or any subsequent fiscal year, such individuals shall be excluded from the calculation of the number of full-time-equivalent residents in an approved medical residency program under this paragraph.

* * * * *

(6) *LIMITATION.*—

(A) *IN GENERAL.*—The authority to make payments under this subsection applies only with respect to cost reporting periods ending on or before September 30, 1996, except as provided in subparagraph (B).

(B) *RULE REGARDING PORTION OF LAST COST REPORTING PERIOD.*—In the case of a cost reporting period that extends beyond September 30, 1996, payments under this subsection shall be made with respect to such portion of the period as has lapsed as of such date.

(C) *RULE OF CONSTRUCTION.*—This paragraph may not be construed as authorizing any payment under section 1861(v) with respect to graduate medical education.

* * * * *

(j) *TRANSFERS TO TEACHING HOSPITAL AND GRADUATE MEDICAL EDUCATION TRUST FUND.*—

(1) *INDIRECT COSTS OF MEDICAL EDUCATION.*—

(A) *IN GENERAL.*—From the Federal Hospital Insurance Trust Fund, the Secretary shall, for fiscal year 1997 and each subsequent fiscal year, transfer to the Indirect-Costs Medical Education Account (under section 2201) an amount determined by the Secretary in accordance with subparagraph (B).

(B) *DETERMINATION OF AMOUNTS.*—The Secretary shall make an estimate for the fiscal year involved of the nationwide total of the amounts that would have been paid under subsection (d)(5)(B) to hospitals during the fiscal year if such payments had not been terminated for discharges occurring after September 30, 1996. For purposes of subparagraph (A), the amount determined under this subparagraph for the fiscal year is the estimate made by the Secretary under the preceding sentence.

(2) *DIRECT COSTS OF MEDICAL EDUCATION.*—

(A) *IN GENERAL.*—From the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund, the Secretary shall, for fiscal year 1997 and each subsequent fiscal year, transfer to the Medicare Direct-Costs Medical Education Account (under section 2201) the sum of—

(i) an amount determined by the Secretary in accordance with subparagraph (B); and

(ii) as applicable, an amount determined by the Secretary in accordance with subparagraph (C)(ii).

(B) *DETERMINATION OF AMOUNTS.*—For each hospital (other than a hospital that is a member of a qualifying consortium referred to in subparagraph (C)), the Secretary shall make an estimate for the fiscal year involved of the amount that would have been paid under subsection (h) to the hospital during the fiscal year if such payments had not been terminated for cost reporting periods ending on or before September 30, 1996. For purposes of subparagraph (A)(i), the amount determined under this subparagraph for the fiscal year is the sum of all estimates made by the Secretary under the preceding sentence.

(C) *ESTIMATES REGARDING QUALIFYING CONSORTIA.*—If the Secretary elects to authorize one or more qualifying consortia for purposes of section 2233(a), the Secretary shall carry out the following:

(i) The Secretary shall establish a methodology for making payments to qualifying consortia with respect to the reasonable direct costs of such consortia in carrying out programs of graduate medical education. The methodology shall be the methodology established in subsection (h), modified to the extent necessary to take into account the participation in such programs of entities other than hospitals.

(ii) For each qualifying consortium, the Secretary shall make an estimate for the fiscal year involved of the amount that would have been paid to the consortium during the fiscal year if, using the methodology under clause (i), payments had been made to the consortium for the fiscal year as reimbursements with respect to cost reporting periods. For purposes of subparagraph (A)(ii), the amount determined under this clause for the fiscal year is the sum of all estimates made by the Secretary under the preceding sentence.

(D) *ALLOCATION BETWEEN FUNDS.*—In providing for a transfer under subparagraph (A) for a fiscal year, the Secretary shall provide for an allocation of the amounts involved between part A and part B (and the trust funds established under the respective parts) as reasonably reflects the proportion of direct graduate medical education costs of hospitals associated with the provision of services under each respective part.

(3) *APPLICABILITY OF CERTAIN AMENDMENTS.*—Amendments made to subsection (d)(5)(B) and subsection (h) that are effective on or after October 1, 1996, apply only for purposes of estimates under paragraphs (1) and (2) and for purposes of determining the amount of payments under 2211. Such amendments do not require any adjustment to amounts paid under subsection (d)(5)(B) or (h) with respect to fiscal year 1996 or any prior fiscal year.

(4) *RELATIONSHIP TO CERTAIN DEMONSTRATION PROJECTS.*—In the case of a State for which a demonstration project under section 1814(b)(3) is in effect, the Secretary, in making determinations of the rates of increase under such section, shall include all amounts transferred under this subsection. Such amounts shall be so included to the same extent and in the same manner as amounts determined under subsections (d)(5)(B) and (h) were included in such determination under the provisions of this title in effect on September 30, 1996.

PAYMENT TO SKILLED NURSING FACILITIES FOR ROUTINE SERVICE AND
CERTAIN ANCILLARY COSTS

SEC. 1888. (a) The Secretary, in determining the amount of the payments which may be made under this title with respect to rou-

tine service costs of extended care services *(for any cost reporting period for which payment is made under this title to the skilled nursing facility for such services)* shall not recognize as reasonable (in the efficient delivery of health services) per diem costs of such services to the extent that such per diem costs exceed the following per diem limits, except as otherwise provided in this section:

(1) * * *

* * * * *

In applying this subsection the Secretary shall make appropriate adjustments to the labor related portion of the costs based upon an appropriate wage index, and shall, for cost reporting periods beginning on or after October 1, 1992, on or after October 1, 1995, and every 2 years thereafter, provide for an update to the per diem cost limits described in this subsection *(except that such updates may not take into account any changes in the routine service costs of skilled nursing facilities occurring during cost reporting periods which began during fiscal year 1994 or fiscal year 1995)*.

* * * * *

[(c) The Secretary] *(c)(1) Subject to paragraph (2), the Secretary may make adjustments in the limits set forth in subsection (a) with respect to any skilled nursing facility to the extent the Secretary deems appropriate, based upon case mix or circumstances beyond the control of the facility. The Secretary shall publish the data and criteria to be used for purposes of this subsection on an annual basis[.], and may only make adjustments under this subsection with respect to a facility which applies for an adjustment during an annual application period established by the Secretary.*

(2) The Secretary may not make any adjustments under this subsection in the limits set forth in subsection (a) for a cost reporting period beginning during a fiscal year to the extent that the total amount of the additional payments made under this title as a result of such adjustments is greater than an amount equal to—

(A) for cost reporting periods beginning during fiscal year 1997, the total amount of the additional payments made under this title as a result of adjustments under this subsection for cost reporting periods beginning during fiscal year 1996 increased by the SNF market basket percentage increase (as defined in section 1888A(e)(3)) for fiscal year 1997; and

(B) for cost reporting periods beginning during a subsequent fiscal year, the amount determined under this paragraph for the previous fiscal year increased by the SNF market basket percentage increase for such subsequent fiscal year.

* * * * *

(e) For purposes of this section, the "routine service costs" of a skilled nursing facility are all costs which are attributable to nursing services, room and board, administrative costs, other overhead costs, and all other ancillary services (including supplies and equipment), excluding costs attributable to covered non-routine services subject to payment limits under section 1888A.

INCENTIVES FOR COST-EFFECTIVE MANAGEMENT OF COVERED NON-
ROUTINE SERVICES OF SKILLED NURSING FACILITIES

SEC. 1888A. (a) DEFINITIONS.—For purposes of this section:

(1) COVERED NON-ROUTINE SERVICES.—The term “covered non-routine services” means post-hospital extended care services consisting of any of the following:

(A) Physical or occupational therapy or speech-language pathology services, or respiratory therapy.

(B) Prescription drugs.

(C) Complex medical equipment.

(D) Intravenous therapy and solutions (including enteral and parenteral nutrients, supplies, and equipment).

(E) Radiation therapy.

(F) Diagnostic services, including laboratory, radiology (including computerized tomography services and imaging services), and pulmonary services.

(2) SNF MARKET BASKET PERCENTAGE INCREASE.—The term “SNF market basket percentage increase” for a fiscal year means a percentage equal to the percentage increase in routine service cost limits for the year under section 1888(a).

(3) STAY.—The term “stay” means, with respect to an individual who is a resident of a skilled nursing facility, a period of continuous days during which the facility provides extended care services for which payment may be made under this title to the individual during the individual’s spell of illness.

(b) NEW PAYMENT METHOD FOR COVERED NON-ROUTINE SERVICES.—

(1) IN GENERAL.—Subject to subsection (c), a skilled nursing facility shall receive interim payments under this title for covered non-routine services furnished to an individual during a cost reporting period beginning during a fiscal year (after fiscal year 1996) in an amount equal to the reasonable cost of providing such services in accordance with section 1861(v). The Secretary may adjust such payments if the Secretary determines (on the basis of such estimated information as the Secretary considers appropriate) that payments to the facility under this paragraph for a cost reporting period would substantially exceed the cost reporting period limit determined under subsection (c)(1)(B).

(2) RESPONSIBILITY OF SKILLED NURSING FACILITY TO MANAGE BILLINGS.—

(A) CLARIFICATION RELATING TO PART A BILLING.—In the case of a covered non-routine service furnished to an individual who (at the time the service is furnished) is a resident of a skilled nursing facility who is entitled to coverage under section 1812(a)(2) for such service, the skilled nursing facility shall submit a claim for payment under this title for such service under part A (without regard to whether or not the item or service was furnished by the facility, by others under arrangement with them made by the facility, under any other contracting or consulting arrangement, or otherwise).

(B) *PART B BILLING.*—In the case of a covered non-routine service furnished to an individual who (at the time the service is furnished) is a resident of a skilled nursing facility who is not entitled to coverage under section 1812(a)(2) for such service but is entitled to coverage under part B for such service, the skilled nursing facility shall submit a claim for payment under this title for such service under part B (without regard to whether or not the item or service was furnished by the facility, by others under arrangement with them made by the facility, under any other contracting or consulting arrangement, or otherwise).

(C) *MAINTAINING RECORDS ON SERVICES FURNISHED TO RESIDENTS.*—Each skilled nursing facility receiving payments for extended care services under this title shall document on the facility's cost report all covered non-routine services furnished to all residents of the facility to whom the facility provided extended care services for which payment was made under part A during a fiscal year (beginning with fiscal year 1996) (without regard to whether or not the services were furnished by the facility, by others under arrangement with them made by the facility, under any other contracting or consulting arrangement, or otherwise).

(c) *RECONCILIATION OF AMOUNTS.*—

(1) *LIMIT BASED ON PER STAY LIMIT AND NUMBER OF STAYS.*—

(A) *IN GENERAL.*—If a skilled nursing facility has received aggregate payments under subsection (b) for covered non-routine services during a cost reporting period beginning during a fiscal year in excess of an amount equal to the cost reporting period limit determined under subparagraph (B), the Secretary shall reduce the payments made to the facility with respect to such services for cost reporting periods beginning during the following fiscal year in an amount equal to such excess. The Secretary shall reduce payments under this subparagraph at such times and in such manner during a fiscal year as the Secretary finds necessary to meet the requirement of this subparagraph.

(B) *COST REPORTING PERIOD LIMIT.*—The cost reporting period limit determined under this subparagraph is an amount equal to the product of—

(i) the per stay limit applicable to the facility under subsection (d) for the period; and

(ii) the number of stays beginning during the period for which payment was made to the facility for such services.

(C) *PROSPECTIVE REDUCTION IN PAYMENTS.*—In addition to the process for reducing payments described in subparagraph (A), the Secretary may reduce payments made to a facility under this section during a cost reporting period if the Secretary determines (on the basis of such estimated information as the Secretary considers appropriate) that payments to the facility under this section for the period will substantially exceed the cost reporting period limit for the period determined under this paragraph.

(2) INCENTIVE PAYMENTS.—

(A) *IN GENERAL.*—If a skilled nursing facility has received aggregate payments under subsection (b) for covered non-routine services during a cost reporting period beginning during a fiscal year in an amount that is less than the amount determined under paragraph (1)(B), the Secretary shall pay the skilled nursing facility in the following fiscal year an incentive payment equal to 50 percent of the difference between such amounts, except that the incentive payment may not exceed 5 percent of the aggregate payments made to the facility under subsection (b) for the previous fiscal year (without regard to subparagraph (B)).

(B) *INSTALLMENT INCENTIVE PAYMENTS.*—The Secretary may make installment payments during a fiscal year to a skilled nursing facility based on the estimated incentive payment that the facility would be eligible to receive with respect to such fiscal year.

(d) DETERMINATION OF FACILITY PER STAY LIMIT.—

(1) LIMIT FOR FISCAL YEAR 1997.—

(A) *IN GENERAL.*—Except as provided in subparagraph (B), the Secretary shall establish separate per stay limits for hospital-based and freestanding skilled nursing facilities for the 12-month cost reporting period beginning during fiscal year 1997 that are equal to the sum of—

(i) 50 percent of the facility-specific stay amount for the facility (as determined under subsection (e)) for the last 12-month cost reporting period ending on or before September 30, 1994, increased (in a compounded manner) by the SNF market basket percentage increase for fiscal years 1995 through 1997; and

(ii) 50 percent of the average of all facility-specific stay amounts for all hospital-based facilities or all freestanding facilities (whichever is applicable) during the cost reporting period described in clause (i), increased (in a compounded manner) by the SNF market basket percentage increase for fiscal years 1995 through 1997.

(B) *FACILITIES NOT HAVING 1994 COST REPORTING PERIOD.*—In the case of a skilled nursing facility for which payments were not made under this title for covered non-routine services for the last 12-month cost reporting period ending on or before September 30, 1994, the per stay limit for the 12-month cost reporting period beginning during fiscal year 1997 shall be twice the amount determined under subparagraph (A)(ii).

(2) *LIMIT FOR SUBSEQUENT FISCAL YEARS.*—The per stay limit for a skilled nursing facility for a 12-month cost reporting period beginning during a fiscal year after fiscal year 1997 is equal to the per stay limit established under this subsection for the 12-month cost reporting period beginning during the previous fiscal year, increased by the SNF market basket percentage increase for such subsequent fiscal year minus 2 percentage points.

(3) REBASING OF AMOUNTS.—

(A) *IN GENERAL.*—The Secretary shall provide for an update to the facility-specific amounts used to determine the per stay limits under this subsection for cost reporting periods beginning on or after October 1, 1999, and every 2 years thereafter.

(B) *TREATMENT OF FACILITIES NOT HAVING REBASED COST REPORTING PERIODS.*—Paragraph (1)(B) shall apply with respect to a skilled nursing facility for which payments were not made under this title for covered non-routine services for the 12-month cost reporting period used by the Secretary to update facility-specific amounts under subparagraph (A) in the same manner as such paragraph applies with respect to a facility for which payments were not made under this title for covered non-routine services for the last 12-month cost reporting period ending on or before September 30, 1994.

(e) *DETERMINATION OF FACILITY-SPECIFIC STAY AMOUNTS.*—The “facility-specific stay amount” for a skilled nursing facility for a cost reporting period is the sum of—

(1) the average amount of payments made to the facility under part A during the period which are attributable to covered non-routine services furnished during a stay (as determined on a per diem basis); and

(2) the Secretary’s best estimate of the average amount of payments made under part B during the period for covered non-routine services furnished to all residents of the facility to whom the facility provided extended care services for which payment was made under part A during the period (without regard to whether or not the services were furnished by the facility, by others under arrangement with them made by the facility, under any other contracting or consulting arrangement, or otherwise), as estimated by the Secretary.

(f) *INTENSIVE NURSING OR THERAPY NEEDS.*—

(1) *IN GENERAL.*—In applying subsection (b) to covered non-routine services furnished during a stay beginning during a cost reporting period beginning during a fiscal year (beginning with fiscal years after fiscal year 1997) to a resident of a skilled nursing facility who requires intensive nursing or therapy services, the per stay limit for such resident shall be the per stay limit developed under paragraph (2) instead of the per stay limit determined under subsection (d)(1)(A).

(2) *PER STAY LIMIT FOR INTENSIVE NEED RESIDENTS.*—Not later than June 30, 1997, the Secretary, after consultation with the Medicare Payment Review Commission and skilled nursing facility experts, shall develop and publish a per stay limit for residents of a skilled nursing facility who require intensive nursing or therapy services.

(3) *BUDGET NEUTRALITY.*—The Secretary shall adjust payments under subsection (b) in a manner that ensures that total payments for covered non-routine services under this section are not greater or less than total payments for such services would have been but for the application of paragraph (1).

facility for which payment is made for routine service costs during a cost reporting period on the basis of prospective payments under section 1888(d).

(h) *EXCEPTIONS AND ADJUSTMENTS TO LIMITS.*—

(1) *IN GENERAL.*—The Secretary may make exceptions and adjustments to the cost reporting limits applicable to a skilled nursing facility under subsection (c)(1)(B) for a cost reporting period, except that the total amount of any additional payments made under this section for covered non-routine services during the cost reporting period as a result of such exceptions and adjustments may not exceed 5 percent of the aggregate payments made to all skilled nursing facilities for covered non-routine services during the cost reporting period (determined without regard to this paragraph).

(2) *BUDGET NEUTRALITY.*—The Secretary shall adjust payments under subsection (b) in a manner that ensures that total payments for covered non-routine services under this section are not greater or less than total payments for such services would have been but for the application of paragraph (1).

(i) *SPECIAL RULE FOR X-RAY SERVICES.*—Before furnishing a covered non-routine service consisting of an X-ray service for which payment may be made under part A or part B to a resident, a skilled nursing facility shall consider whether furnishing the service through a provider of portable X-ray service services would be appropriate, taking into account the cost effectiveness of the service and the convenience to the resident.

(2) TYPES OF SERVICES.—The types of home health services described in this paragraph are the following:

(A) Part-time or intermittent nursing care provided by or under the supervision of a registered professional nurse.

(C) Occupational therapy.

(D) Speech-language pathology services.

(E) Medical social services under the direction of a physician.

(F) To the extent permitted in regulations, part-time or intermittent services of a home health aide who has successfully completed a training program approved by the Secretary.

(b) ESTABLISHMENT OF PER VISIT RATE FOR EACH TYPE OF SERVICES.—

(1) IN GENERAL.—The Secretary shall, subject to paragraph (3), establish a per visit payment rate for a home health agency in an area for each type of home health service described in subsection (a)(2). Such rate shall be equal to the national per visit payment rate determined under paragraph (2) for each such type, except that the labor-related portion of such rate shall be adjusted by the area wage index applicable under section 1886(d)(3)(E) for the area in which the agency is located (as determined without regard to any reclassification of the area under section 1886(d)(8)(B) or a decision of the Medicare Geographic Classification Review Board or the Secretary under

section 1886(d)(10) for cost reporting periods beginning after October 1, 1995).

(2) *NATIONAL PER VISIT PAYMENT RATE.*—The national per visit payment rate for each type of service described in subsection (a)(2)—

(A) for fiscal year 1997, is an amount equal to the national average amount paid per visit under this title to home health agencies for such type of service during the most recent 12-month cost reporting period ending on or before June 30, 1994, increased (in a compounded manner) by the home health market basket percentage increase for fiscal years 1995, 1996, and 1997; and

(B) for each subsequent fiscal year, is an amount equal to the national per visit payment rate in effect for the preceding fiscal year, increased by the home health market basket percentage increase for such subsequent fiscal year minus 2 percentage points.

(3) *REBASING OF RATES.*—The Secretary shall provide for an update to the national per visit payment rates under this subsection for cost reporting periods beginning not later than the first day of the fifth fiscal year which begins after fiscal year 1997, and not later than every 5 years thereafter, to reflect the most recent available data.

(4) *HOME HEALTH MARKET BASKET PERCENTAGE INCREASE.*—For purposes of this subsection, the term “home health market basket percentage increase” means, with respect to a fiscal year, a percentage (estimated by the Secretary before the beginning of the fiscal year) determined and applied with respect to the types of home health services described in subsection (a)(2) in the same manner as the market basket percentage increase under section 1886(b)(3)(B)(iii) is determined and applied to inpatient hospital services for the fiscal year.

(c) *PER EPISODE LIMIT.*—

(1) *AGGREGATE LIMIT.*—

(A) *IN GENERAL.*—Except as provided in paragraph (2), a home health agency may not receive aggregate per visit payments under subsection (a) for a fiscal year in excess of an amount equal to the sum of the following products determined for each case-mix category for which the agency receives payments:

(i) The number of episodes of each case-mix category during the fiscal year; multiplied by

(ii) the per episode limit determined for such case-mix category for such fiscal year.

(B) *ESTABLISHMENT OF PER EPISODE LIMITS.*—

(i) *IN GENERAL.*—The per episode limit for a fiscal year for any case-mix category for the area in which a home health agency is located is equal to—

(I) the mean number of visits for each type of home health service described in subsection (a)(2) furnished during an episode of such case-mix category in such area during fiscal year 1994, adjusted by the case-mix adjustment factor deter-

mined in clause (ii) for the fiscal year involved; multiplied by

(II) the per visit payment rate established under subsection (b) for such type of home health service for the fiscal year for which the determination is being made.

(ii) *CASE MIX ADJUSTMENT FACTOR.*—For purposes of clause (i), the case-mix adjustment factor for a year is the factor determined by the Secretary to assure that aggregate payments for home health services under this section during the year will not exceed the payment for such services during the previous year as a result of changes in the number and type of home health visits within case-mix categories over the previous year.

(iii) *REBASING OF PER EPISODE AMOUNTS.*—Beginning with fiscal year 1999 and every 2 years thereafter, the Secretary shall revise the mean number of home health visits determined under clause (i)(I) for each type of home health service visit described in subsection (a)(2) furnished during an episode in a case-mix category to reflect the most recently available data on the number of visits.

(iv) *DETERMINATION OF APPLICABLE AREA.*—For purposes of determining per episode limits under this subparagraph, the area in which a home health agency is considered to be located shall be such area as the Secretary finds appropriate for purposes of this subparagraph.

(C) *CASE-MIX CATEGORY.*—For purposes of this paragraph, the term “case-mix category” means each of the 18 case-mix categories established under the Phase II Home Health Agency Prospective Payment Demonstration Project conducted by the Health Care Financing Administration. The Secretary may develop an alternate methodology for determining case-mix categories.

(D) *EPISODE.*—

(i) *IN GENERAL.*—For purposes of this paragraph, the term “episode” means the continuous 120-day period that—

(I) begins on the date of an individual’s first visit for a type of home health service described in subsection (a)(2) for a case-mix category, and

(II) is immediately preceded by a 60-day period in which the individual did not receive visits for a type of home health service described in subsection (a)(2).

(ii) *TREATMENT OF EPISODES SPANNING COST REPORTING PERIODS.*—The Secretary shall provide for such rules as the Secretary considers appropriate regarding the treatment of episodes under this paragraph which begin during a cost reporting period and end in a subsequent cost reporting period.

(E) *EXEMPTIONS AND EXCEPTIONS.*—The Secretary may provide for exemptions and exceptions to the limits estab-

lished under this paragraph for a fiscal year as the Secretary deems appropriate, to the extent such exemptions and exceptions do not result in greater payments under this section than the exemptions and exceptions provided under section 1861(v)(1)(L)(ii) in fiscal year 1994, increased by the home health market basket percentage increase for the fiscal year involved (as defined in subsection (b)(4)).

(2) RECONCILIATION OF AMOUNTS.—

(A) OVERPAYMENTS TO HOME HEALTH AGENCIES.—Subject to subparagraph (B), if a home health agency has received aggregate per visit payments under subsection (a) for a fiscal year in excess of the amount determined under paragraph (1) with respect to such home health agency for such fiscal year, the Secretary shall reduce payments under this section to the home health agency in the following fiscal year in such manner as the Secretary considers appropriate (including on an installment basis) to recapture the amount of such excess.

(B) EXCEPTION FOR HOME HEALTH SERVICES FURNISHED OVER A PERIOD GREATER THAN 165 DAYS.—

(i) IN GENERAL.—For purposes of subparagraph (A), the amount of aggregate per visit payments determined under subsection (a) shall not include payments for home health visits furnished to an individual on or after a continuous period of more than 165 days after an individual begins an episode described in subsection (c)(1)(D) (if such period is not interrupted by the beginning of a new episode).

(ii) REQUIREMENT OF CERTIFICATION.—Clause (i) shall not apply if the agency has not obtained a physician's certification with respect to the individual requiring such visits that includes a statement that the individual requires such continued visits, the reason for the need for such visits, and a description of such services furnished during such visits.

(C) SHARE OF SAVINGS.—

(i) BONUS PAYMENTS.—If a home health agency has received aggregate per visit payments under subsection (a) for a fiscal year in an amount less than the amount determined under paragraph (1) with respect to such home health agency for such fiscal year, the Secretary shall pay such home health agency a bonus payment equal to 50 percent of the difference between such amounts in the following fiscal year, except that the bonus payment may not exceed 5 percent of the aggregate per visit payments made to the agency for the year.

(ii) INSTALLMENT BONUS PAYMENTS.—The Secretary may make installment payments during a fiscal year to a home health agency based on the estimated bonus payment that the agency would be eligible to receive with respect to such fiscal year.

(d) MEDICAL REVIEW PROCESS.—The Secretary shall implement a medical review process (with a particular emphasis on fiscal years

1997 and 1998) for the system of payments described in this section that shall provide an assessment of the pattern of care furnished to individuals receiving home health services for which payments are made under this section to ensure that such individuals receive appropriate home health services. Such review process shall focus on low-cost cases described in subsection (e)(3) and cases described in subsection (c)(2)(B) and shall require recertification by intermediaries at 30, 60, 90, 120, and 165 days into an episode described in subsection (c)(1)(D).

(e) *ADJUSTMENT OF PAYMENTS TO AVOID CIRCUMVENTION OF LIMITS.*—

(1) *IN GENERAL.*—The Secretary shall provide for appropriate adjustments to payments to home health agencies under this section to ensure that agencies do not circumvent the purpose of this section by—

(A) discharging patients to another home health agency or similar provider;

(B) altering corporate structure or name to avoid being subject to this section or for the purpose of increasing payments under this title; or

(C) undertaking other actions considered unnecessary for effective patient care and intended to achieve maximum payments under this title.

(2) *TRACKING OF PATIENTS THAT SWITCH HOME HEALTH AGENCIES DURING EPISODE.*—

(A) *DEVELOPMENT OF SYSTEM.*—The Secretary shall develop a system that tracks home health patients that receive home health services described in subsection (a)(2) from more than 1 home health agency during an episode described in subsection (c)(1)(D).

(B) *ADJUSTMENT OF PAYMENTS.*—The Secretary shall adjust payments under this section to each home health agency that furnishes an individual with a type of home health service described in subsection (a)(2) to ensure that aggregate payments on behalf of such individual during such episode do not exceed the amount that would be paid under this section if the individual received such services from a single home health agency.

(3) *LOW-COST CASES.*—The Secretary shall develop a system designed to adjust payments to a home health agency for a fiscal year to eliminate any increase in growth of the percentage of low-cost episodes for which home health services are furnished by the agency over such percentage determined for the agency for the 12-month cost reporting period ending on June 30, 1994. The Secretary shall define a low-cost episode in a manner that provides that a home health agency has an incentive to be cost efficient in delivering home health services and that the volume of such services does not increase as a result of factors other than patient needs.

(f) *REPORT BY MEDICARE PAYMENT REVIEW COMMISSION.*—During the first 3 years in which payments are made under this section, the Medicare Payment Review Commission shall annually submit a report to Congress on the effectiveness of the payment methodology es-

established under this section that shall include recommendations regarding the following:

- (1) Case-mix and volume increases.
- (2) Quality monitoring of home health agency practices.
- (3) Whether a capitated payment for home care patients receiving care during a continuous period exceeding 165 days is warranted.
- (4) Whether public providers of service are adequately reimbursed.
- (5) The adequacy of the exemptions and exceptions to the limits provided under subsection (c)(1)(E).
- (6) The appropriateness of the methods provided under this section to adjust the per episode limits and annual payment updates to reflect changes in the mix of services, number of visits, and assignment to case categories to reflect changing patterns of home health care.
- (7) The geographic areas used to determine the per episode limits.

FAILSAFE BUDGET MECHANISM

SEC. 1895. (a) REQUIREMENT OF PAYMENT ADJUSTMENTS TO ACHIEVE MEDICARE BUDGET TARGETS.—If the Secretary determines under subsection (e)(3)(C) before a fiscal year (beginning with fiscal year 1998) that—

- (1) the fee-for-service expenditures (as defined in subsection (f)) for a sector of medicare services (as defined in subsection (b)) for the fiscal year, will exceed
- (2) the allotment specified under subsection (c)(2) for such fiscal year (taking into account any adjustment in the allotment under subsection (h) for that fiscal year),

then, notwithstanding any other provision of this title, there shall be an adjustment (consistent with subsection (d)) in applicable payment rates or payments for items and services included in the sector in the fiscal year so that such expenditures for the sector for the year will be reduced by 133⅓ percent of the amount of such excess.

(b) SECTORS OF MEDICARE SERVICES DESCRIBED.—

(1) IN GENERAL.—For purposes of this section, items and services included under each of the following subparagraphs shall be considered to be a separate “sector” of medicare services:

- (A) Inpatient hospital services.
- (B) Home health services.
- (C) Extended care services (for inpatients of skilled nursing facilities).
- (D) Hospice care.
- (E) Physicians’ services (including services and supplies described in section 1861(s)(2)(A)) and services of other health care professionals (including certified registered nurse anesthetists, nurse practitioners, physician assistants, and clinical psychologists) for which separate payment is made under this title.
- (F) Outpatient hospital services and ambulatory facility services.
- (G) Durable medical equipment and supplies, including prosthetic devices and orthotics.

(H) Diagnostic tests (including clinical laboratory services and x-ray services).

(I) Other items and services.

(2) *CLASSIFICATION OF ITEMS AND SERVICES.*—The Secretary shall classify each type of items and services covered and paid for separately under this title into one of the sectors specified in paragraph (1). After publication of such classification under subsection (e)(1), the Secretary is not authorized to make substantive changes in such classification.

(c) *ALLOTMENT.*—

(1) *ALLOTMENTS FOR EACH SECTOR.*—For purposes of this section, subject to subsection (h)(1), the allotment for a sector of medicare services for a fiscal year is equal to the product of—

(A) the total allotment for the fiscal year established under paragraph (2), and

(B) the allotment proportion (specified under paragraph (3)) for the sector and fiscal year involved.

(2) *TOTAL ALLOTMENT.*—

(A) *IN GENERAL.*—For purposes of this section, the total allotment for a fiscal year is equal to—

(i) the medicare benefit budget for the fiscal year (as specified under subparagraph (B)), reduced by

(ii) the amount of payments the Secretary estimates will be made in the fiscal year under the MedicarePlus program under part C.

In making the estimate under clause (ii), the Secretary shall take into account estimated enrollment and demographic profile of individuals electing MedicarePlus products.

(B) *MEDICARE BENEFIT BUDGET.*—For purposes of this subsection, subject to subparagraph (C), the “medicare benefit budget”—

(i) for fiscal year 1997 is \$203.1 billion;

(vi) for fiscal year 2002 is \$280.0 billion; and

(vii) for a subsequent fiscal year is equal to the medicare benefit budget under this subparagraph for the preceding fiscal year increased by the product of (I) 1.05, and (II) 1 plus the annual percentage increase in the average number of medicare beneficiaries from the previous fiscal year to the fiscal year involved.

(3) *MEDICARE ALLOTMENT PROPORTION DEFINED.*—

(A) *IN GENERAL.*—For purposes of this section and with respect to a sector of medicare services for a fiscal year, the term “medicare allotment proportion” means the ratio of—

(i) the baseline-projected medicare expenditures (as determined under subparagraph (B)) for the sector for the fiscal year, to

(ii) the sum of such baseline expenditures for all such sectors for the fiscal year.

(B) *BASILINE-PROJECTED MEDICARE EXPENDITURES.*—In this paragraph, the “baseline, projected medicare expenditures” for a sector of medicare services—

(i) for fiscal year 1996 is equal to fee-for-service expenditures for such sector during fiscal year 1995, increased by the baseline annual growth rate for such sector of medicare services for fiscal year 1996 (as specified in table in subparagraph (C)); and

(ii) for a subsequent fiscal year is equal to the baseline-projected medicare expenditures under this subparagraph for the sector for the previous fiscal year increased by the baseline annual growth rate for such sector for the fiscal year involved (as specified in such table).

(C) *BASILINE ANNUAL GROWTH RATES.*—The following table specifies the baseline annual growth rates for each of the sectors for different fiscal years:

For the following sector—	Baseline annual growth rates for fiscal year—

(d) *MANNER OF PAYMENT ADJUSTMENT.*—

(1) *IN GENERAL.*—Subject to the succeeding provisions of this subsection, the Secretary shall apply a payment reduction for a sector for a fiscal year in such a manner as to—

(A) make a change in payment rates (to the maximum extent practicable) at the time payment rates are otherwise changed or subject to change for that fiscal year; and

(B) provide for the full appropriate adjustment so that the fee-for-service expenditures for the sector for the fiscal year will approximate (and not exceed) the allotment for the sector for the fiscal year.

(2) *TAKING INTO ACCOUNT VOLUME AND CASH FLOW.*—In providing for an adjustment in payments under this subsection for a sector for a fiscal year, the Secretary shall take into account (in a manner consistent with actuarial projections)—

(A) the impact of such an adjustment on the volume or type of services provided in such sector (and other sectors), and

(B) the fact that an adjustment may apply to items and services furnished in a fiscal year (payment for which may occur in a subsequent fiscal year),
in a manner that is consistent with assuring that total fee-for-services expenditures for each sector for the fiscal year will not exceed the allotment under subsection (c)(1) for such sector for such year.

(3) *PROPORTIONALITY OF REDUCTIONS WITHIN A SECTOR.*—In making adjustments under this subsection in payment for items and services included within a sector of medicare services for a fiscal year, the Secretary shall provide for such an adjustment that results (to the maximum extent feasible) in the same percentage reductions in aggregate Federal payments under parts A and B for the different classes of items and services included within the sector for the fiscal year.

(4) *APPLICATION TO PAYMENTS MADE BASED ON PROSPECTIVE PAYMENT RATES DETERMINED ON A FISCAL YEAR BASIS.*—

(A) *IN GENERAL.*—In applying subsection (a) with respect to items and services for which payment is made under part A or B on the basis of rates that are established on a prospective basis for (and in advance of) a fiscal year, the Secretary shall provide for the payment adjustment under such subsection through an appropriate reduction in such rates established for items and services furnished (or, in the case of payment for operating costs of inpatient hospital services of subsection (d) hospitals and subsection (d) Puerto Rico hospitals (as defined in paragraphs (1)(B) and (9)(A) of section 1886(d)), discharges occurring) during such year.

(B) *DESCRIPTION OF APPLICATION TO SPECIFIC SERVICES.*—The payment adjustment described in subparagraph (A) applies for a fiscal year to at least the following:

MINORITY VIEWS—MEDICARE

America's senior citizens and disabled citizens have relied on Medicare for 30 years to maintain their health and security. Today, cynical politicians are attempting to frighten them into believing they must accept less than what they need and less than what has been promised and guaranteed them for nearly a third of a century. The Republican claim that "Medicare is in crisis" is, plain and simple, a lie. It is a ploy to secure by stealth what cannot be won in the light of honest discourse—a huge tax break for wealthy Americans. The "Medicare Preservation Act" should more accurately be titled the "Medicare Prevarication Act."

Republican and Democratic Presidents and Congresses have dealt with the solvency of the Medicare Part A Trust Fund nine times, without fanfare or partisan propagandizing. This issue is not, therefore, either new and startling or—as our Republican colleagues allege so glibly—a "crisis." Indeed, the current Medicare Trustees, publicly and in correspondence with the Congress, have expressed deep concern about the distortion of the facts in their most recent report, and the use of that report to further a cynical political agenda. Furthermore, both the trustees and every other authority on this matter have stated that cuts of the size proposed by the Republicans—\$270 billion—are not needed to address trust fund solvency. The President's balanced budget plan includes \$89 billion in savings, which are fully sufficient to extend the life of the Medicare Part A trust fund for 11 years (until the year 2006).

An analysis of Republican numbers reveals, in fact, that most of the Republican cuts from the Medicare program will not be dedicated to the so-called "trust fund crisis." More than \$137 billion comes from cuts in Medicare Part B and from increases in the premiums beneficiaries pay to cover doctors' bills and other non-hospital care. Not one penny of this goes into the Part A trust fund.

Further analysis reveals an even more subtle reality. In truth, this Republican proposal, highly touted to achieve savings through changes needed for more efficiency and more "choice," actually achieves for the Part A Trust Fund the same amount of savings both proposed in the President's balanced budget plan and in Democratic alternatives proposed both in introduced legislation and in amendments offered in this Committee and the Committee on Ways and Means. When the figures are honestly examined, it is clear that the \$130 billion the Republicans claim to "save" in Medicare Part A is wrong. This number must be reduced by a full \$36.6 billion—the amount of savings which will be lost because the House Republicans repealed a change in Social Security tax that was put in place in OBRA 93! Thus, the real truth is that this Republican plan "saves" only \$93 billion in Medicare Part A. This amount—virtually identical with amounts in both the President's plan and Democratic plans—extends the solvency of the part A

trust fund to 2006. All Democratic alternatives—none of which include tax cuts for the wealthy paid for by senior citizens—extend the Part A trust fund solvency to exactly the same year.

The bill purports to “save” this excessive amount of money by offering beneficiaries a “choice” of managed-care plans, medical savings accounts, or traditional, fee-for-service Medicare. But this so-called “choice” is a carnivore in vegetarian’s clothing. MedicarePlus will not guarantee beneficiaries—senior citizens and the disabled—anything more than a “defined contribution,” a fixed-size voucher with which to purchase their own health care plan. This defined contribution certainly will decline in value over time, since the Medicare growth rates allowed under the Republican plan bear no resemblance to actual or predicted growth in the cost of health care between now and 2002. (The Republican plan allows an average rate of growth of only 4.9 percent, compared with expert predictions that actual health care costs will grow at an average rate of 7.1 percent.)

The Republican-generated Medicare growth rates are *not* calculations based on health care cost or the needs of beneficiaries. They are arbitrary statements that satisfy budget goals designed to produce a tax break for the wealthy. This capricious cap on Medicare spending is what “saves” money in Medicare, *not* the illusory “choice” Republicans claim to offer beneficiaries.

The Republican plan also incorporates a “failsafe” mechanism requiring even more cuts if Medicare spending does not meet its statutory target. But his failsafe applies only to services provided under fee-for-service medicine. These undefined and undisclosed cuts will apply only to health care services for seniors who choose to keep their own fee-for-service doctors. These constraints apply only to traditional Medicare, and not to managed care plans. Doctors who choose to continue to serve their Medicare patients in a traditional, fee-for-service setting rather than in an HMO will see their fees cut far below what private patients pay—these doctors will have no choice but to leave fee-for-service Medicare.

The effect of the Republicans’ arbitrary growth rate limits, combined with the “failsafe” mechanism, means not only less money available from the government for Medicare beneficiaries but a massive shift of health care costs to businesses in the private sector. Private sector employers will be compelled to pick up in the health insurance premiums they pay for their workers the added and inflated charges shifted to them to health care providers, whose reimbursements from the Government will have dropped dramatically under this bill.

Furthermore, when the artificially driven spending limits reduce Medicare reimbursement to health care providers—as they will—these providers will be allowed to send seniors bills for the “balance,” with no limits or control by the Medicare program. There will be no restrictions on these bills, as there are under current law. That is, the difference between what Medicare can pay doctors and the providers’ actual charges can and will be billed directly to senior citizens and disabled people. There will be no way for these people to predict such costs in advance. They will find out what their health care costs only after the bill arrives in the mail. With more than 75 percent of the Nation’s seniors having incomes less

than \$25,000 per year, many if not most of these bills will go unpaid—but the misery inflicted on these seniors' emotional health as a result will be incalculable.

So, how will these so-called “beneficiary choices” really work? First, the beneficiaries who choose to keep their own doctors may find themselves in new fee-for-service health plans where their only “choice” will be to pay more and more of their own bills and to spend more and more of their own money.

Second, to examine the true realities of choice, we need to ask which Medicare beneficiaries are likely to “select” a managed care plan rather than remain in fee-for-service medicine. Medicare beneficiaries will differ little in their choice from those in younger generations: healthier people tend to choose managed care plans; less healthy or disabled people want to stay in fee-for-service medicine. Why? People who need more, and more specialized, medical care want to keep their own doctor, who has cared for them for many years, and who understands their special needs. But as costs rise—as they surely will—beyond the Republicans' artificially low budget caps, the “failsafe” will kick in and require these health care providers (but not managed care plans) to accept lower and lower payments for their services. Providers will almost certainly then have to decide whether to serve Medicare beneficiaries only within HMO-type health plans, or be forced to charge seniors the increased costs. Fewer providers; providers forced, because of drastic cuts in fees, to economize on benefits; and compromised quality—this is the Republican definition of “choice.”

What of the highly touted Medical Savings Accounts (MSAs)? Even experts like Gail Wilensky, Chair of the Physician Payment Review Commission, Stuart Altman, Chair of the Prospective Payment Review Commission, and the Health Policy Economics Group of Price Waterhouse have expressed grave doubts about the use of MSAs in the Medicare system. The Republican plan would provide that an arbitrarily determined voucher value be used to purchase a high-deductible health insurance policy (up to a deductible of \$10,000 per year). Any remainder would be deposited into a tax-favored savings account. Since only the healthiest and wealthiest seniors could afford to gamble with such a high-deductible policy, this proposal actually spends more on the healthy and wealthy, and leaves less to spend on the sick.

Because there is no reliable method to adjust MSA amounts for the different risks posed by each Medicare beneficiary, experts have testified MSAs could plunge the Medicare program into a “Death Spiral.” This is because only younger, healthier, and low-cost seniors will choose MSAs, leaving sicker, older, and more costly people in “traditional” forms of Medicare. This, combined with the spending caps and failsafe, will make it impossible for Medicare to provide for those less healthy people.

Furthermore, contrary to the alleged intent of this legislation—to save money in the Medicare program—the Congressional Budget Office has estimated, for purposes of a Senate bill identical with this House bill, that MSAs will cost the Medicare program more than \$3 billion per year. (Other budget experts, both outside and inside the government, calculate that a cost of \$3 billion is probably a conservative estimate; actual costs could run as high as \$15

billion.) This is because today, in any given year, 15% of Medicare beneficiaries use no health care services and thus cost the Medicare program nothing. Giving them a voucher amount, which averages their costs with the costs of people who are less healthy, is a windfall for those who don't need the money and a disaster for those who do. In fact, over any 4-year period, a full 35 percent of Medicare beneficiaries use less than \$1,000 in health care services. It is strange math indeed to argue that giving these people several thousand dollars a year saves money.

MSAs are a new concept. They have never been tested in any large population, much less a population of senior citizens and disabled people. Like managed care for the elderly and disabled, MSAs turn Medicare beneficiaries into health care guinea pigs—all to provide a piggyback from which Republicans can extract a tax break for the wealthy.

Finally, Republicans tout their plan as a way to reduce fraud and abuse in the Medicare system. But testimony of the key experts on health care fraud and abuse show this to be one of the emptiest promises of all in this legislation. Testimony reinforcing this point has been presented by Health and Human Services Inspector General June Gibbs Brown; Gerald M. Stern, Special Counsel for Health Care Fraud at the Department of Justice; and Judith Berek, Senior Advisor to the Administrator for Program Integrity, Health Care Financing Administration. Unanimously, they agreed that the Republican proposal does just the opposite of what its authors claim. This legislation not only fails to improve the chance of reducing fraud and abuse in the Medicare program, it actually “undermines the authority of law enforcement agencies and thus interferes with [their] ability to combat fraud and abuse” (Judith Berek).

Specifically, HHS Inspector General Brown states that the Republican proposal would:

- Make the existing civil monetary penalty and antikickback laws considerably more lenient and place an insurmountable burden of proof on the government to punish illegal kickbacks;

- Relieve providers of the legal duty to use reasonable diligence for ensuring that the claims they submit to Medicare and Medicaid are true and accurate;

- Create new exemptions to the law which could be exploited by those who wish to pay rewards or “incentives” to physicians for the referral of patients; and

- Divert to private contractors scarce resources currently devoted to law enforcement against fraud and abuse.

Contrary to statements made by Republican members at the Committee mark-up, the Administration in July of this year sent a lengthy letter to the Chairman of the Oversight and Investigations Subcommittee, commenting on the Republican proposals and providing specific suggestions for improving fraud and abuse detection and enforcement. This letter was obviously ignored and its suggestions not taken into account in this proposal. Thus, in short, the Republican proposal increases opportunities for fraud and abuse in the system; diminishes the ability of the government to find, prosecute, and recover penalties for such fraud; and seriously

undermines the already very active government efforts to combat health care fraud.

Democrats have been accused of not offering alternative “solutions” to problems facing the Medicare program. But at the Committee mark-up, Democrats offered no fewer than 22 amendments, all designed to make improvements and eliminate egregious, harmful components of the Republican bill. All of these proposals were rejected, on party-line votes. Democrats offered two complete substitutes, both of which would have achieved savings of \$90 billion—completely sufficient to extend the solvency of the Part A trust fund to the year 2006. We were not permitted to debate and vote on these alternatives because of procedural objections from the Republican side.

Do we want to improve Medicare? Yes. Should we continue to look for efficiencies in this program? By all means. But not at the expense of unnecessary increased costs, fewer benefits, loss of choices, and lower quality medical care for our senior citizens and for disabled people to whom we made the promise of Medicare 30 years ago. Harry Kranz, a 71-year-old Bethesda, Maryland, resident, perhaps stated most clearly and succinctly our beliefs and views on this legislation when he said: “We spent 30 years building Medicare. Let’s not tear it apart in 30 days.”

ADDITIONAL VIEWS OF HON. CARDISS COLLINS

During markup on H.R. 2425, the Republican Medicare Bill, I offered two amendments designed to restore current protections for seniors who have diagnostic tests performed in a doctor's office and to ensure that our elderly continue to have access to durable medical equipment such as wheelchairs, electrical beds, walkers and oxygen. Unfortunately, both amendments were defeated. As an unwavering supporter of a sound and secure Medicare program and champion of the needs of our elderly, I plan to pursue these amendments on the House floor when this measure is considered.

The Clinical Laboratory Improvement Act Amendment (CLIA) I offered to the Bliley Substitute would have restored current law protections for patients who have testing done in physician office laboratories. Had it been adopted, it would have stricken the provision in the bill that eliminated the requirements of the CLIA for labs in doctor's offices.

This was a simple, straightforward amendment intended to retain requirements for quality and accuracy of lab tests done in physician offices. CLIA was first enacted because of problems with proper training of laboratory personnel. These problems were causing harm to patients and occurring in doctors' offices. At the time the House passed CLIA, the late Representative Edward Madigan, who was at the time ranking Republican member of the Health and Environment Subcommittee, states "One benefit of this legislation will be to unify the regulation of clinical labs by implementing a uniform standard. It also provides for the regulation of physical office laboratories which are currently exempt from federal regulation." When Congress passed CLIA in 1988, it had overwhelming bipartisan support. Good quality lab testing should not be subjected to partisan politics, because that is bad for patients.

What is the rationale for exempting office labs? What is the rationale for exempting one specific test—Pap smears from such labs? If it is critically important for doctors' offices to meet quality standards for Pap smears—why shouldn't those same quality standards be met when it comes to cholesterol tests, colon and prostate cancer screening, needle biopsies to detect precancerous conditions and glucose monitoring?

Where I come from, a lab test is a test no matter where it is performed. Seniors and the elderly, indeed anyone should be able to expect the same level of accuracy from a lab test done by their own doctor as they do from a test done by a large commercial lab or big hospital lab. Hopefully, my Republican colleagues will put partisan politics aside and vote for this amendment on the House floor.

My second amendment would have removed the seven-year freeze on payments for Durable Medical Equipment (DME). Under current law, payments for durable medical equipment, prosthetics and supplies, like wheelchairs, electrical beds, walkers and oxygen

and paid on the basis of fee schedules. The payment amounts are increased annually by the consumer Price Index-Update (CPI-U).

The Bliley substitute "payment freeze" will cause severe disruptions for beneficiaries who need their oxygen to breathe, electrical beds, wheelchairs and walkers to move about. Without these needed and essential items, seniors and the disabled could be forced into potentially life-threatening situations. Again, it is my intention to offer this amendment to the Republican Medicare bill on the House floor.

CARDISS COLLINS.

ADDITIONAL VIEWS OF REPRESENTATIVE ELIZABETH
FURSE

While there are a number of reasons that I am extremely disappointed in the majority's decision not to hold hearings on this bill, I am particularly concerned that we had no opportunity to discuss the impact of H.R. 2425 on the millions of people in our country with diabetes.

I know first-hand the problems that people and families face when someone is diagnosed with diabetes. My own beloved daughter has diabetes, and her experience has taught me about the problems that thousands of people who have diabetes face every day. She is a truly remarkable woman.

Obviously, diabetes remains one of the most serious health problems in our nation. It costs America over \$100 billion annually, and affects 14 million Americans. In my home state of Oregon, for example, diabetes affects over 140,000 people. Moreover, diabetes is unique because it is the only major disease that can and must be managed on a daily basis by the patient.

I would like to direct my colleagues' attention a statement made by Speaker Gingrich on July 27, 1994, on "Good Morning America":

We don't today pay for training for you, as a diabetic, how to take care of yourself. We will pay to put you in the hospital and to amputate your leg when you fail to take care of yourself. But literally, the government bias today is not to pay for the preventive and educational experience that will lower your costs.

Earlier this year I introduced H.R. 1073 and H.R. 1074 to help people with diabetes manage their disease. Support for both bills has increased steadily since the beginning of the year, with over 100 bipartisan cosponsors presently. The American Diabetes Association, the National Association of Diabetes Educators, and the American Dietetic Association have all come to Congress and testified in favor of this legislation.

During consideration of H.R. 2425 in the Commerce Committee, I was prepared to offer an amendment to incorporate the texts of H.R. 1073 and H.R. 1074 into the Medicare reform bill. My amendment would have ended the government bias that Speaker Gingrich told America about last July. Contrary to what most people believe, insulin is not a cure for diabetes. It is one part of the supplies necessary to managing the disease. We know that if people with diabetes have the necessary tools to take care of themselves, we will save billions of dollars because it will reduce the incidence of the costly complications which result from diabetes—stroke, amputations, heart disease, and others.

This year, the American Diabetes Association has gathered petitions from over 75,000 people asking Congress to include coverage

of education and supplies in Medicare reform. My amendment was designed to do two things. First, it would have ensured that Medicare beneficiaries receive coverage of outpatient self-management training. Currently, the only training that Medicare covers is when a person is diagnosed with diabetes in the hospital, even though people with diabetes need self-management training throughout their life. Secondly, it would have covered blood testing strips for all people with diabetes, regardless of whether they have Type 1 or Type 2. People with Type 2 Diabetes still need to test their blood glucose level—although less consistently than people with Type 1—and currently have no coverage under Medicare. These people often end up in the emergency room because they have not been able to properly manage their disease.

Let me direct my colleagues' attention to a second quote:

I had a doctor approach me a year ago who's a specialist in diabetes who believes we can save \$10 billion in diabetes alone by just having more preventive care so people take care of themselves, so they don't go blind, they don't have their legs amputated, they don't end up on disability. That is not a cut. That is a genuine improvement.

Speaker Gingrich said this on May 28, 1995, in a speech before the Seniors Coalition, and he's absolutely correct. According to conversations with the Congressional Budget Office, a much broader version of my amendment would have cost an average of \$70 million a year over the 7 year life of this bill, or about \$5 per person with diabetes. CBO did not, however, take into account many of the savings that private sector studies have conclusively reported regarding the use of blood testing strips and self-management training. The New England Journal of Medicine reported a study where self-management training reduced hospitalizations by 73 percent. The Endocrine Society notes that a minimum standard of diabetes coverage would save over \$10 billion. I have numerous studies from the Journal of Insurance Medicine, Department of the Army, and many non-governmental sources which indicate that covering self-management training and blood testing strips will save billions of dollars.

Remember, if we can reduce complications of diabetes by a small amount—10 percent—we will save \$10 billion in health care costs. It is my belief that the private sector studies are correct, and my amendment would have actually saved billions of dollars in health care costs. While my amendment would have been paid for through the bill's "fail-safe" provision, it was a consensus opinion on the Committee that a specified budgetary offset would have been a more suitable financing mechanism. As such, I did not offer my amendment and will work with the appropriate people before this bill reaches the floor to locate the necessary resources and make these dramatic changes for the 14 million Americans with diabetes. I hope that my colleagues will join me in this endeavor.

In addition, I must point out my concern with an existing provisions in this bill which—far from helping people with diabetes—could actually jeopardize their health insurance. This bill contains a section that pushes from 18 to 24 months Medicare's role as a secondary payer for end-stage renal disease patients (ESRD). End-

stage renal disease patients are on dialysis, one third of whom are people with diabetes. This provision increases the length of time that employers or insurers are exposed to the high health costs of end-stage renal disease patients, which might lead insurers and employers to drop coverage for these people. So even though Speaker Gingrich constantly tells people with diabetes how much he wants to help them, this section of the bill certainly only hurts their chances for insurance coverage. I urge my colleagues to drop this section of the bill, and will work to change this important change in H.R. 2425.

I will close with one last quote of interest:

Two doctors recently told me that we could save several billion dollars a year in the treatment of diabetes by shifting to a more educational, prevention-oriented system. Today Medicare will pay for one educational visit to train the diabetic in self-diagnosis but then requires the patient to wait until he or she needs a leg amputated or confronts some other emergency before there can be more government-paid counseling. By minimizing prevention we maximize illness, cost, and suffering.

This quote is from Speaker Gingrich's book, "To Renew America," which was released during his national tour in August of this year. I could not have said it better myself. I hope that every American whose life is affected by diabetes holds the Republican leadership accountable for their words. Empowering people with self-management training and blood testing strips is the key to improving the quality of life for all Americans with diabetes, and ultimately saving billions of dollars. I will continue fighting to make these important changes a reality.

ADDITIONAL VIEWS OF MR. STUPAK

On October 11th, I introduced H.R. 2456 "The Common Sense Medicare Reform Act." I introduced this legislation as an amendment to the Chairman's Mark, however, the Chairman incorrectly ruled it out of order. The new majority in Congress claims that it is necessary to cut \$270 billion in order to save the Medicare program. This is a ludicrous and illogical explanation. In fact, the majority is attempting to steal \$270 billion from the Medicare Trust Fund in order to keep its campaign promise by giving a \$245 billion tax cut to the wealthiest one percent of Americans.

Actually, the Medicare Trustees say that the federal government must devote \$89 billion—not \$270 billion—to avoid insolvency of the program in the year 2002. I believe that changes and adjustments must be made to the program, but I think it's irresponsible to gut a program which 37 million elderly Americans depend on for health care coverage. My proposal is simple. My legislation takes the best ideas from the Republican proposal and the Democratic plan, and it's designed to improve the Medicare program in a bipartisan manner.

Most importantly, I believe we must aggressively fight waste, fraud and abuse in the Medicare program. As much as ten cents of every dollar spent on Medicare is consumed by fraud and waste. Some health care providers charge the Medicare program for goods, such as durable medical equipment, many times what an individual could purchase those goods for on the open market, and Americans taxpayers foot the bill. For example, the Medicare system pays \$280 for oxygen concentrate, which is used by patients who need assistance in breathing, while the Department of Veterans Affairs pays only \$123 for oxygen concentrate. The Republican bill claims that it will cut the price of oxygen concentrate by \$56. But this is still \$101 more than what the VA pays.

If we can save money that is stolen from the system or misused by Medicare providers, we can use that money to better serve Medicare beneficiaries. In 1994, federal law enforcement recovered \$8 billion from waste and fraud by Medicare providers and is expected to recover \$10 billion in 1995. I think we can do better. We can save \$93.5 billion over the next seven years by actively detecting and prosecuting waste, fraud and abuse, and this amount is more than enough to sustain the Medicare program according to the Trustees' report.

The Republican Medicare bill legalizes fraud committed by health care providers by raising the legal standard required to prove fraud. Conversely, my bill gives law enforcement more tools to fight Medicare fraud—a crime which harms Medicare recipients and American taxpayers. My bill increases the powers available to law enforcement to fight fraud in the Medicare program through civil penalties for kickbacks, grand jury disclosure and increased

subpoena authority. Both the FBI and the Justice Department endorse the fraud-fighting tools that are contained in my bill.

Current law provides that any money saved from the Medicare program will be returned to the U.S. Treasury to be used for any purpose. My legislation requires that any funds recovered through cuts or savings from waste, fraud and abuse be automatically returned to the Medicare Trust Fund so that Medicare is protected and will remain solvent. In order to preserve the Medicare system for current and future beneficiaries, it is imperative that funds go directly back into the program—not into the U.S. Treasury for tax cuts for the wealthiest Americans and large corporations.

Medicare is the second largest program administered by the federal government. I believe that before we gut some health care programs and organizations and implement other radical and untried programs, we should test the feasibility of these new programs on a voluntary basis. I propose that we look at managed care programs and health care service networks on a five year trial basis. Through such pilot programs, I believe we can recapture costs and prolong the life of the Medicare program while giving seniors greater health care benefits and choices. Programs such as Provider Sponsor Organizations (PSOs) and Provider Sponsor Networks (PSNs) are particularly useful and effective in rural areas. Not only do these programs deliver care more cost-effectively, but they provide seniors with wider choice of medical services. In Northern Michigan, we are on the cutting edge of providing maximum benefit for our health dollar through cooperative efforts.

My legislation also directs that a “Baby Boomer Commission” be appointed to study alternatives for the best way to address the large influx of recipients who will be eligible for Medicare beginning in the year 2010. The Commission will work with Medicare Trustees and others in the medical field to ensure there will be funds available to provide health care coverage for the baby boomer population. In addition, the Commission will actively seek community input from all across the country to study long-term solutions for and improve the quality of the Medicare system. The Commission must have open hearings in our region of the country, not just Washington, D.C.

Lastly, I advocate the use of a single claim form to increase administrative efficiency. Through the use of a single standard administrative system, we can simplify the Medicare system for beneficiaries and providers, while saving money from increased productivity.

I don’t believe people should have to pay more to receive less and lose their choice of doctors. I also don’t believe the Republican majority should raid the Trust Fund to give tax cuts to their wealthiest friends and campaign donors. Instead of stealing money from the Medicare system, we need to put money back into the system to keep it solvent for current and future beneficiaries. Let’s not gamble with the health of our senior citizens.
